### **Suitability of Investment**

You should inform yourself as to (a) the possible tax consequences, (b) the legal and regulatory requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which you might encounter under the laws of the country of your citizenship, residence or domicile and which might be relevant to your purchase, holding or disposal of the Shares.

The Shares are not principal protected. The value of the Shares may go up or down and you may not get back the amount you have invested. See the section headed "Risk Factors" of the Prospectus and the section headed "Other Information – Risk Factors" of this Supplement for a discussion of certain risks that should be considered by you.

In addition to investing in transferable securities, the Company may invest on behalf of the Fund in financial derivative instruments ("FDIs"), where applicable. Certain risks attached to investments in FDIs are set out in the Prospectus under "Risk Factors".

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

The Shares purchased on the secondary market cannot usually be sold directly back to the Fund. Investors must buy and sell Shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current net asset value when buying Shares and may receive less than the current net asset value when selling them.

An investment in the Shares is only suitable for you if you (either alone or with the help of an appropriate financial or other advisor) are able to assess the merits and risks of such an investment and have sufficient resources to be able to bear any losses that may result from such an investment. The contents of this document are not intended to contain and should not be regarded as containing advice relating to legal, taxation, investment or any other matters.

### **Profile of a typical investor**

A typical investor would be one who is a private or institutional investor and is seeking capital appreciation over the long term. Such an investor is also one that is able to assess the merits and risks of an investment in the Shares.

### **Responsibility**

The Directors accept responsibility for the information contained in the Prospectus and this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement when read together with the Prospectus (as complemented, modified or supplemented by this Supplement) is in accordance with the facts as at the date of this Supplement and does not omit anything likely to affect the importance of such information.

### **General**

This Supplement sets out information in relation to the Shares and the Fund. You must also refer to the Prospectus which is separate to this document and describes the Company and provides general information about offers of shares in the Company. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

As at the date of this document, the Fund has no loan capital (including term loans) outstanding or created but unissued, nor any outstanding mortgages, charges or other borrowings or indebtedness in the nature of borrowings, including bank overdrafts and liabilities under acceptances or acceptance credits, hire purchase or finance lease commitments, or guarantees or other contingent liabilities.

### **Distribution of this Supplement and Selling Restrictions**

Distribution of this Supplement is not authorised unless accompanied by a copy of the Prospectus and the latest annual report and audited accounts of the Company and the Fund (other than to prior recipients of the Prospectus) and if published after such report, a copy of the then latest semi-annual report and unaudited accounts. The distribution of this Supplement and the offering or purchase of the Shares may be restricted in certain jurisdictions. If you receive a copy of this Supplement and/or the Prospectus you may not treat such document(s) as constituting an offer, invitation or solicitation to you to subscribe for any Shares unless, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to you without compliance with any registration or other legal requirement other than those with which the Company has already complied. If you wish to apply for the opportunity to purchase any Shares, it is your duty to inform yourself of, and to observe, all applicable laws and regulations of any relevant jurisdiction. In particular, you should inform yourself as to the legal requirements of so applying, and any applicable exchange control regulations and taxes in the countries of your respective citizenship, residence or domicile.

## ***TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND***

---

### **Investment Objective of the Fund**

The investment objective of the Fund is to provide exposure to the performance of equally weighted large and mid-capitalisation companies in European developed markets.

### **Investment Policy of the Fund**

In order to achieve the investment objective, the Fund will seek to replicate the net total return performance of the MSCI Europe Equal Weighted Index (the "Reference Index"), less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out below under "General Description of the Reference Index".

The Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. Further information in relation to how the Fund will seek to replicate the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders' interests or may not otherwise be possible or practicable.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under **"Appendix III - Use of Financial Derivative Instruments And Efficient Portfolio Management"**.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under **"Investment Objectives & Policies"** and under **"Investment Restrictions and Permitted Investment"**.

Information on the Fund's approach to sustainability risks in accordance with Article 6 of SFDR is set out in the Prospectus. The Fund is not classified as an Article 8 or Article 9 fund pursuant to SFDR. The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities outlined in Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment. Given the investment strategy of the Fund and its risk profile, the likely impact of sustainability risks on the Fund's returns is expected to be low.

### **Index Tracking Strategy**

It is anticipated that the "Tracking Error" of the Fund (being the standard deviation of the difference in returns between the Fund and the Reference Index) will be between 0% and 1.00% under normal market conditions. However, exceptional circumstances may arise which cause the Fund's Tracking Error to exceed 1%. Investors should note that the Tracking Error set out in this section is for the Unhedged Share Classes against the Reference Index (which is also unhedged).

### **Investment Restrictions of the Fund**

Investors in particular must note that the general investment restrictions set out under **"Investment Restrictions and Permitted Investments"** in the Prospectus apply to the Fund.

### **Efficient Portfolio Management**

Further information on efficient portfolio management techniques that may be used by the Fund is contained in the **"Securities Financing Transactions"** section below and in the main body of the Prospectus under the heading **"Use of Financial Derivative Instruments and Efficient Portfolio Management"**.

### **Securities Financing Transactions**

The Fund may use certain 'securities financing transactions', as defined in Regulation 2015/2365 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 ("SFTR"), ("Securities Financing Transactions"), namely securities lending. The Fund's use of Securities Financing Transactions will be subject to the requirements of SFTR and in accordance with normal market practice, the Central Bank Regulations and any other statutory instrument, regulations, rules, conditions, notices, requirements or guidance of the Central Bank issued from time to time applicable to the Company pursuant to the Regulations ("Central Bank Rules"). Such Securities Financing Transactions may be entered into for any purpose that is consistent with the investment objective of the Fund, including to generate income or profits in order to increase portfolio returns or to reduce portfolio expenses or risks. Securities lending will be for efficient portfolio management purposes only.

The type of assets that may be held by the Fund in accordance with its investment objective and policies and may be subject to such Securities Financing Transactions are equities. The maximum proportion of the Fund's assets that may be subject to securities lending is 100%, and the expected proportion of the Fund's assets that may be subject to securities lending is between 0% and 30%.

Securities lending means transactions by which one party transfers securities to the other party subject to a

commitment that the other party will return equivalent securities on a future date or when requested to do so by the party transferring the securities, that transaction being considered as securities lending for the party transferring the securities.

All the revenues arising from Securities Financing Transactions and any other efficient portfolio management techniques shall be returned to the Fund following the deduction of any direct and indirect operational costs and fees arising. Such direct and indirect operational costs and fees (which are all fully transparent), which shall not include hidden revenue, shall include fees and expenses payable to securities lending agents engaged by the Company from time to time. Such fees and expenses of any securities lending agents engaged by the Company, which will be at normal commercial rates together with VAT, if any, thereon, will be borne by the Company or the Fund in respect of which the relevant party has been engaged. As of the date of this Supplement, 90% of the revenues arising from securities lending will be returned to the Fund and 10% of the revenues (representing the attendant direct and indirect operational costs and fees of the securities lending agent) will be retained by the securities lending agent. The identity of any securities lending agents engaged by the Company from time to time shall be included in the Company's semi-annual and annual reports.

The types of acceptable counterparty and the diversification requirements are explained in Appendix III of the Prospectus. A Fund may only enter into Securities Financing Transactions with counterparties that have been selected and assessed in accordance with the Central Bank Rules. The acceptable counterparties will be entities with legal personality and located in OECD jurisdictions. They will be subject to ongoing supervision by a public authority, be financially sound and have the necessary organisational structure and resources for the relevant type of transaction.

From time to time, the Fund may engage securities lending agents that are related parties to the Depositary or other service providers of the Company. Such engagement may on occasion cause a conflict of interest with the role of the Depositary or other service provider in respect of the Company.

Please refer to Prospectus section "**Potential Conflicts of Interest**" for further details on the conditions applicable to any such related party transactions. The identity of any such related parties will be specifically identified in the Company's semi-annual and annual reports.

Please refer to the "**Risk Factors**" sections in respect of the risks related to Securities Financing Transactions. The risks arising from the use of Securities Financing Transactions shall be adequately captured in the Company's risk management process.

The assets of the Fund that are subject to Securities Financing Transactions and any collateral received are held by the Depositary or its agent.

The Fund will not enter into repurchase and/or reverse repurchase agreements or Swaps.

### **Currency Hedging Policy**

The Fund may enter into transactions for the purposes of hedging the foreign exchange exposure in any hedged Share Classes (identified by "Hdg" in their names). The purpose of the hedging in the hedged Share Classes is to limit, at a Share Class level, the profit or loss generated from foreign exchange exposure when holding an asset in a currency other than the Base Currency of the Fund. This is achieved by the hedged Share Classes employing 30 day rolling forward FX contracts, which are rolled monthly.

### **Portfolio-hedged Share Class**

The Company has the power to issue portfolio-hedged Share Classes (identified by "PfHdg" in their names). For such classes of portfolio-hedged Shares, the Fund may enter into transactions for the purposes of hedging the foreign exchange exposure of the currency or currencies in which the underlying assets of the Fund are denominated to the currency of the portfolio-hedged Share Class. The purpose of the hedging in the portfolio-hedged Share Classes is to limit the profit or loss generated from foreign exchange exposure of the underlying assets of the Fund denominated in a currency other than the currency of the portfolio hedged Share Class.

All costs and losses arising in relation to such currency hedging transactions will be borne by the hedged Share Class and all gains arising in connection with such hedging transactions will be attributable to the relevant Share Class. Although the Fund may utilise currency hedging transactions in respect of Share Classes, it shall not be obliged to do so and to the extent that it does employ strategies aimed at hedging certain Share Classes, there can be no assurance that such strategies will be effective. The costs and related liabilities/benefits arising from instruments entered into for the purposes of hedging the currency exposure

for the benefit of any particular Share Class of the Fund (where the currency of a particular Share Class is different to the Base Currency of the Fund) shall be attributable exclusively to the Share Class. Under exceptional circumstances, such as, but not limited to, where it is reasonably expected that the cost of performing the hedge will be in excess of the benefit derived and therefore detrimental to Shareholders, the Company may decide not to hedge the currency exposure of such Share Classes.

Where the Investment Manager seeks to hedge against currency fluctuations, while not intended, this could result in over-hedged or under-hedged positions due to external factors outside the control of the Company. However, over-hedged positions will not exceed 105% of the Net Asset Value of the relevant Share Class and hedged positions will be kept under review to ensure that over-hedged positions do not exceed the permitted level and that under-hedged positions do not fall short of 95% of the portion of the Net Asset Value of the relevant Share Class and any under-hedged position will be kept under review to ensure it is not carried forward from month-to-month. This review will also incorporate a procedure to ensure that positions in excess of 100% of Net Asset Value will not be carried forward from month to month.

Further information on currency hedging at Share Class level is contained in the main body of the Prospectus under the heading "**Hedged Classes**".

### **Collateral Policy**

- (a) **Non-Cash Collateral:** In addition to the requirements for valuation of non-cash collateral in the Prospectus, subject to any agreement on valuation made with the counterparty, collateral posted to a recipient counterparty for the benefit of the Fund will be valued daily at mark-to-market value.
- (b) **Issuer Credit Quality:** In addition to the requirement for Issuer Credit Quality set out in the Prospectus, assets provided by the Fund on a title transfer basis shall no longer belong to the Fund and shall pass outside the custodial network. The counterparty may use those assets at its absolute discretion. Assets provided to a counterparty other than on a title transfer basis shall be held by the Depositary or a duly appointed sub-depositary.

Further information on the criteria which collateral received by the Fund must meet is contained in the main body of the Prospectus under the heading "**Non-Cash Collateral**".

- (c) **Collateral - Posted by the Fund:** In addition to the requirements in respect of collateral posted to a counterparty in the Prospectus, collateral posted to a counterparty by or on behalf of the Fund will consist of such collateral as is agreed with the counterparty from time to time and may include any types of assets held by the Fund.
- (d) **Valuation:** Information in respect of the collateral valuation methodology used by the Company can be found in the Prospectus under the heading "**Appendix III - Efficient Portfolio Management and use of Financial Derivative Instruments**". The rationale for the use of this collateral valuation methodology is primarily to guard against the price volatility of assets being received by the Fund as collateral.

The risk exposure of the Fund to counterparties will remain within the limits prescribed in the Prospectus under "**Appendix II - Investment Restrictions Applicable to the Funds under the Regulations**".

Further information on the collateral policy is contained in Appendix III to the Prospectus under the heading "**Collateral Policy**".

### **Borrowing and Leverage**

The Company on behalf of the Fund may borrow up to 10% of the Net Asset Value of the Fund on a temporary basis. Such borrowings may only be used for short term liquidity purposes to cover the redemption of Shares. Further information on Borrowing and Leverage is contained in the main body of the Prospectus under the heading "Borrowing and Lending Powers" and "Leverage" respectively.

The Company will use the commitment approach for the purposes of calculating global exposure for the Fund. The Fund's total exposure to the Reference Index will be limited to 100% of Net Asset Value.

While it is not the Investment Manager's intention to leverage the Fund, any leverage resulting from the use of FDIs will be done in accordance with the Regulations.

### **Dividend Policy**

Dividends will be declared on a quarterly basis for the Dist Shares, the USD PfHdg Dist Shares, the EUR

PfHdg Dist Shares, the GBP PfHdg Dist Shares, the CHF PfHdg Dist Shares, the MXN PfHdg Dist Shares, the SEK PfHdg Dist Shares, and the HKD PfHdg Dist Shares in accordance with the general provisions set out in the Prospectus under the heading "Dividend Policy" and Shareholders will be notified in advance of the date on which dividends will be paid. Distributions will not be made in respect of the Acc Shares, the USD PfHdg Acc Shares, the EUR PfHdg Acc Shares, the GBP PfHdg Acc Shares, the CHF PfHdg Acc Shares, the MXN PfHdg Acc Shares, the SEK PfHdg Acc Shares, and the HKD PfHdg Acc Shares and income and other profits will be accumulated and reinvested in respect of those Shares.

## Trading

Application will be made to Euronext Dublin, the London Stock Exchange or Deutsche Boerse and/or such other exchanges as the Directors may determine from time to time (the "**Relevant Stock Exchanges**") for listing and/or admission to trading of the Shares issued and available to be issued on the main market of each of the Relevant Stock Exchanges on or about the Launch Date. This Supplement and the Prospectus together comprise listing particulars for the purposes of trading on the main market of each of the Relevant Stock Exchanges.

## Exchange Traded Fund

The Fund is an Exchange Traded Fund ("**ETF**"). The Shares of this Fund are fully transferable among investors and will be listed and/or traded on the Relevant Stock Exchanges. It is envisaged that Shares will be bought and sold by private and institutional investors in the secondary market in the same way as the ordinary shares of a listed trading company.

## **GENERAL DESCRIPTION OF THE REFERENCE INDEX**

---

The Reference Index is an equal-weighted version of the MSCI Europe Index (the "Parent Index").

The Reference Index is further described below but only represents an extract of information available from public sources and neither the Directors, the Manager, MSCI Inc. or such other successor sponsor to the Reference Index (the "Index Provider") nor the Investment Manager take any responsibility for the accuracy or completeness of such information.

The Parent Index measures the performance of large and mid-capitalisation companies in European developed markets.

The Reference Index is constructed from the Parent Index by including the same constituent securities of the Parent Index, but equally weighting each company at each rebalancing date, rather than weighting companies by float-adjusted market capitalisation.

Capitalised terms used above and not defined herein are defined by the Index Provider. Further information on these terms, the Reference Index methodology and the Parent Index methodology can be found on the Index Provider's website.

### **Index Rebalancing**

The Reference Index rebalances quarterly in February, May, August and November.

For companies represented by multiple securities in the Reference Index, the weight of those securities will be free-float adjusted weighted across the respective company weight.

The Fund will bear the costs of any rebalancing trades (i.e. the costs of buying and selling securities of the Reference Index and associated taxes and transaction costs).

### **Index Provider and Website**

The Reference Index is sponsored by MSCI Inc and more details on the Reference Index can be found at <http://www.msci.com>.

### **Publication**

The level of the Reference Index will be published on <http://www.msci.com>.

### **Risk Factors**

Certain risks relating to the Shares are set out under the heading “**Risk Factors**” in the Prospectus. In addition, Shareholders must also note that:
