Invesco US Enhanced Equity UCITS ETF

Supplement to the Prospectus

This Supplement forms part of and must be read in conjunction with the Prospectus. The Supplement may not be distributed unless accompanied by the Prospectus. As at the date of this Supplement, the Prospectus is dated 9 September 2026. However, investors should note that the Prospectus may be amended, supplemented or modified from time to time. For the most current version of the Prospectus, investors should refer to etf.invesco.com.

THIS DOCUMENT IS IMPORTANT. YOU SHOULD NOT PURCHASE SHARES IN THE FUND DESCRIBED IN THIS SUPPLEMENT UNLESS YOU HAVE ENSURED THAT YOU FULLY UNDERSTAND THE NATURE OF SUCH AN INVESTMENT AND THE RISKS INVOLVED AND ARE SATISFIED THAT THE INVESTMENT IS SUITED TO YOUR CIRCUMSTANCES AND OBJECTIVES, THE RISKS INVOLVED AND YOUR OWN PERSONAL CIRCUMSTANCES. IF YOU ARE IN ANY DOUBT ABOUT THE CONTENTS OF THIS SUPPLEMENT YOU SHOULD TAKE ADVICE FROM AN APPROPRIATELY QUALIFIED ADVISOR.

Capitalised terms used in this Supplement will have the meanings given to them in the Definitions section below or in the Prospectus.

Invesco Markets II plc

An umbrella fund with segregated liability between the sub-funds

Dated 12 October 2026

IMPORTANT INFORMATION

Suitability of Investment

Please review the information in the Prospectus regarding suitability of an investment.

The Shares are not principal protected. The value of the Shares may go up or down and you may not get back the amount you have invested. See the section headed "Risk Factors" of the Prospectus and the section headed "Other Information – Risk Factors" of this Supplement for a discussion of certain risks that should be considered by you.

In addition to investing in transferable securities, the Company may invest on behalf of the Fund in financial derivative instruments ("FDIs"), where applicable. Certain risks attached to investments in FDIs are set out in the Prospectus under "Risk Factors".

The Shares purchased on the Secondary Market cannot usually be sold directly back to the Fund. Investors must buy and sell Shares on the Secondary Market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current Net Asset Value when buying Shares and may receive less than the current Net Asset Value when selling them.

The Fund is an actively managed sub-fund. The Investment Manager has appointed Invesco Management S.A., Zweigniederlassung Deutschland (the "Sub-Investment Manager") as the sub-investment manager with responsibility for the selection of the Fund's investments on a discretionary basis.

Profile of a typical investor

A typical investor would be one who is a private or institutional investor and is seeking capital appreciation over the long term. Such an investor is also one that is able to assess the merits and risks of an investment in the Shares.

General

This Supplement sets out information in relation to the Shares and the Fund. You must also refer to the Prospectus which is separate from this document and describes the Company and provides general information about offers of Shares in the Company. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

Definitions

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

For the purposes of this Supplement:

"**Benchmark**" shall mean the S&P 500 Index.

TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND

Investment Objective of the Fund

The investment objective of the Fund is to achieve a long-term return in excess of the Benchmark by investing in an actively managed portfolio of US equities.

Investment Policy of the Fund

In order to achieve the investment objective, the Fund will invest primarily in a portfolio of equity and equity-related securities (including warrants (received only as a result of corporate actions), tracking stocks (i.e. a special stock offering issued by a company which tracks the financial performance of a particular segment or division of that company) and depositary receipts) of companies from the United States of America. Securities are selected based on two criteria: 1) attractiveness determined in accordance with the Sub-Investment Manager's quantitative investment model; and 2) consistency between the portfolio's expected risk characteristics and the Fund's investment objective.

The Investment Manager is responsible for the oversight of the Fund's portfolio and its risk management and delegates responsibility for defining the investment universe and the optimisation approach used in the portfolio construction to the Sub-Investment Manager.

Initial Investment Universe

The initial step in the investment process entails the Sub-Investment Manager defining a proprietary universe of US equity securities (the "**Initial Investment Universe**"). The Initial Investment Universe comprises approximately 650 companies selected by the Sub-Investment Manager based on their liquidity and free-float adjusted market capitalisation such that the Initial Investment Universe comprises the most liquid US equity securities which are classified as large- and mid-cap in terms of free-float adjusted market capitalisation.

Portfolio Construction Approach

Following the definition of the Initial Investment Universe, the Sub-Investment Manager applies an optimisation process based on three major factors: Value, Quality and Momentum. The Sub-Investment Manager uses factor definitions developed by the Sub-Investment Manager that are designed to deliver superior investment results relative to standard publicly available factor definitions used by, among others, the leading index providers in the market. The factors can be broadly described as follows:

i Value: This investment factor aims to capture the potential outperformance of companies that are perceived to be "inexpensive" relative to sector or market averages, where such determination is based primarily on various financial ratios such as cashflow yield and price to earnings ratio.

ii Quality: This investment factor aims to capture the potential outperformance of stocks that demonstrate a stronger balance sheet (e.g. lower levels of debt, higher profit margins) relative to sector or market averages.

iii Momentum: This investment factor aims to capture the potential continued outperformance of those stocks whose historical share price performance, peer group performance or earnings growth have exceeded sector or market averages.

The Sub-Investment Manager uses its proprietary model to rank all stocks in the Initial Investment Universe according to its attractiveness with respect to each of the above-mentioned factors.

Rankings are conducted within industry groups to ensure comparability. The optimisation then looks to maximise the exposure of the Fund to the above-mentioned factors. This optimisation explicitly includes a consideration of the transaction costs.

Whilst the Fund will hold a number of constituents of the Benchmark, the Fund may also hold securities that are not constituents of the Benchmark, and the number of securities held by the Fund will generally be significantly less than the number of constituents of the Benchmark. Therefore, it is expected that the composition of the Fund will vary significantly from that of the Benchmark. However, the Investment Manager will seek to manage the Fund's risk profile relative to that of the Benchmark and so will consider the relative composition of the portfolio against the Benchmark and seek to optimise the Fund at the regular rebalancing such that in normal market conditions:

i. the Fund's exposure to issuers that are also constituents of the Benchmark will have weights that do not exceed +1% relative to the Benchmark, while the Fund's exposure to issuers that are not constituents of the Benchmark will not exceed a security weight of 1%;

ii. the Fund's exposure to individual industries and sectors weights is within +/- 2% range relative to the Benchmark;

iii. the beta of the Fund compared to the Benchmark is within the range of 0.99-1.01; and

iv. the target (ex-ante) annualised tracking error of the Fund and the Benchmark is approximately 1%

and shall not exceed 2%.

This entire ranking, risk modelling and portfolio construction process is repeated each month, following which the Fund's holdings are rebalanced by the Investment Manager in line with the new target portfolio holdings provided by the Sub-Investment Manager.

The target (ex-ante) tracking error of the Fund referred to in (iv), above, is the result of the optimisation while applying these constraints to manage the Fund's risk profile. The purpose of measuring the ex-ante tracking error is to assist in ensuring that the risk profile of the Fund remains comparable to that of the Benchmark, not to represent how closely the Fund will resemble the Benchmark or how the Fund will perform compared to the Benchmark.

While the Fund does not have a targeted absolute return due to the changing volatility and return characteristics of equity markets, the Fund generally expects to achieve a return in excess of the Benchmark in normal market conditions while offering a comparable risk profile as the Benchmark. There is potential that the Fund may not outperform the Benchmark or that it may only generate relatively low net returns in excess of the Benchmark.

Other Investments
The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, and non-deliverable forwards. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "**Appendix III – Efficient Portfolio Management and Use of Financial Derivative Instruments**".

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "**Investment Objective & Policies**".

Benchmark

The Fund will not seek to track the performance of the Benchmark. The Fund will hold an actively managed portfolio of securities with the aim of delivering superior risk-adjusted returns over the long term when compared with the average performance of US equity markets.

Due to the changing volatility and return characteristics of equity markets, the Fund does not have an absolute risk or return target. Rather, the Sub-Investment Manager will select the portfolio holdings through an optimisation process that utilises the Benchmark as a reference for risk and return calculations.

The Benchmark tracks the performance of large- and mid-capitalisation companies in the US. The Benchmark covers approximately 80% of the market capitalisation in the US. The Benchmark is sponsored by S&P Dow Jones Indices LLC and more details on the Benchmark can be found at http://supplemental.spindices.com/supplemental-data/europe.

Investment Restrictions of the Fund

The general investment restrictions set out under "**Investment Restrictions and Permitted Investments**" in the Prospectus apply to the Fund.

The Fund shall not invest more than 10% of its net assets in other UCITS, open-ended CIS or closed-ended collective investment funds that meet the requirements of the Central Bank (and, in the case of closed-ended collective investment funds, that qualify as transferable securities).

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Efficient Portfolio Management

Further information on efficient portfolio management techniques that may be used by the Fund is contained in the "**Securities Financing Transactions**" section below and in the main body of the Prospectus under the heading "**Appendix III – Efficient Portfolio Management and Use of Financial Derivative Instruments**".

Securities Financing Transactions

The Fund may use Securities Financing Transactions, namely securities lending.

The types of assets that may be held by the Fund in accordance with its investment objective and policies and may be subject to such Securities Financing Transactions are equities. The maximum proportion of the Fund's assets that may be subject to securities lending is 100%, and the expected proportion of the Fund's assets that may be subject to securities lending is between 0% and 30%. Please refer to the Prospectus section "**Securities Financing Transactions**" for further details.

Integration of Sustainability Risk

The Fund is not classified as an Article 8 or Article 9 fund pursuant to SFDR. The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities outlined in Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment.

The Sub-Investment Manager integrates Sustainability Risks into its optimisation process which is described in the section titled "**Portfolio Construction Approach**", above. The integration of Sustainability Risk forms part of the Sub-Investment Manager's assessment of the Quality and Momentum factor.

In relation to the Quality factor, the Sub-Investment Manager has identified that some signals within the Quality factor show positive correlation to governance factors. These Quality signals prefer companies with a high balance sheet quality which, for example, buy back shares and do not show disproportionate balance sheet growth and those in which management acts in the interests of shareholders and which do not pursue unprofitable business projects. The calculation of these Quality signals is part of the factor assessment for all assets and the multi-factor investment process, resulting in the Fund having a higher exposure to such companies.

In relation to the Momentum factor, the Sub-Investment Manager measures adverse ESG momentum to manage the risks which are associated with weakly scoring companies from an ESG perspective. For adverse ESG momentum, the Initial Investment Universe is screened for significant ESG downgrades. The Sub-Investment Manager's research has shown that companies that experienced significant ESG downgrades tend to underperform their peers. Therefore, the investment in companies which suffered severe downgrades is restricted.

The likely impacts of sustainability risks on the returns of the Fund are expected to be low.

Currency Hedging Policy

The Fund may enter into transactions for the purposes of hedging the foreign exchange exposure in any hedged Share Classes (identified by "**Hdg**" in their names).

Further information on currency hedging at Share Class level is set out in the section titled "**Hedged Classes**" in the Prospectus.

Borrowing and Leverage

The Company on behalf of the Fund may borrow up to 10% of the Net Asset Value of the Fund on a temporary basis. Further information on borrowing and leverage is set out in the sections titled "**Borrowing and Lending Powers**" and "**Leverage**" in the Prospectus.

The Company will use the commitment approach for the purposes of calculating global exposure for the Fund. The Fund's total exposure will be limited to 100% of Net Asset Value.

While it is not the Investment Manager's intention to leverage the Fund, any leverage resulting from the use of FDIs will be done in accordance with the Regulations.

Dividend Policy

Dividends will be declared on a quarterly basis for the Dist Shares, the EUR Hdg Dist Shares, the GBP Hdg Dist Shares, the CHF Hdg Dist Shares, the MXN Hdg Dist Shares, the SEK Hdg Dist Shares, and the HKD Hdg Dist Shares in accordance with the general provisions set out in the Prospectus under the heading "**Dividend Policy**" and Shareholders will be notified in advance of the date on which dividends will be paid. Distributions will not be made in respect of the Acc Shares, the EUR Hdg Acc Shares, the GBP Hdg Acc

Shares, the CHF Hdg Acc Shares, the MXN Hdg Acc Shares, the SEK Hdg Acc Shares, and the HKD Hdg Acc Shares and income and other profits will be accumulated and reinvested.

Trading

Application will be made to Euronext Dublin and/or the London Stock Exchange and/or Deutsche Börse and/or such other Relevant Stock Exchanges for listing and/or admission to trading of the Shares issued and available to be issued on the main market of each of the Relevant Stock Exchanges on or about the Launch Date. This Supplement and the Prospectus together comprise listing particulars for the purposes of trading on the main market of each of the Relevant Stock Exchanges.

Exchange Traded Fund

The Fund is an ETF. The Shares of the Fund are fully transferable among investors and will be listed and/or traded on the Relevant Stock Exchanges. It is envisaged that Shares will be bought and sold by private and institutional investors in the Secondary Market in the same way as the ordinary shares of a listed trading company.

Investors should refer to the section of the Prospectus titled "**Share Dealing**" for information on how to deal in Shares.

General Information Relating to the Fund

Type	Open-ended
Base Currency	USD
Business Day	A day (other than a Saturday or Sunday) on which the United States Federal Reserve System is open or such other day or days that the Directors may determine and notify to Shareholders in advance.
Dealing Day	Any Business Day. However, some Business Days will not be Dealing Days where, for example, markets on which the Fund's assets are listed or traded are closed provided there is at least one Dealing Day per fortnight, subject always to the Directors' discretion to temporarily suspend the determination of the Net Asset Value and the sale, conversion and/or redemption of Shares in the Company or any Fund in accordance with the provisions of the Prospectus and the Articles. The Investment Manager produces dealing calendars which detail in advance the Dealing Days for each Fund. The dealing calendar may be amended from time to time by the Investment Manager where, for example, the relevant market operator, regulator or exchange (as applicable) declares a relevant market closed for trading and/or settlement (such closure may be made with little or no notice to the Investment Manager). The dealing calendar for the Fund is available from the Manager.
Dealing Deadline	4.30 p.m. (Dublin time) on the relevant Dealing Day or such other time as the Investment Manager may, in consultation with the Directors, determine and notify to Shareholders provided always that the Dealing Deadline will be before the Valuation Point. No subscription, exchange or redemption applications may be accepted after the Valuation Point.
Subscriptions, Exchanges and Repurchases	All subscriptions, exchanges and repurchases can only take place through an Authorised Participant or other representative appointed by the Company in the relevant jurisdiction.
Launch Date	11 February 2026 in respect of Class Acc Shares.

Liquidity Management Tools	The Manager has selected the liquidity management tools set out in the section of the Prospectus titled "**Liquidity Management Tools**" to manage the Fund's liquidity risk under different market conditions.
Initial Offer Period	The Initial Offer Period in respect of unlaunched Shares will start at 9.00 a.m. (Dublin time) on 13 October 2026 and close at 5.00 p.m. (Dublin time) on 12 April 2027 or such earlier or later date as the Directors may determine.
Initial Issue Price	Please refer to Appendix I.
Valuation Point	10.30 p.m. (Dublin time) on the relevant Dealing Day by reference to which the Net Asset Value per Share of the Fund is determined. At all times the Valuation Point will be after the Dealing Deadline. The value of any investments which are listed or dealt in on a Market shall be the closing price on the relevant Market at the Valuation Point.
Settlement Date	By the second Business Day after the relevant Dealing Day (or such other day as the Directors (or their delegate) may determine and notify in advance to the applicant).

The Shares

The Share Classes available for subscription in the Fund are set out in "**Appendix I – Description of the Shares**". Additional Share Classes may be added to the Fund, subject to prior notification to and the approval of the Central Bank, and will be set out in a revised Supplement.

Intra-Day Portfolio Value ("iNAV")

Information on intra-day portfolio value is contained in the main body of the Prospectus under the heading "**Intra-Day Portfolio Value**".

Fees and Expenses

This section titled "**Fees and Expenses**" should be read in conjunction with the section titled "**Fees & Expenses**" in the Prospectus.

The Management Fee that will be incurred by the Company on behalf of the Fund and will affect the Net Asset Value of the relevant Share Class of the Fund is set out in "**Appendix I – Description of the Shares**".

The following fees will be incurred on each Share by Shareholders (which accordingly will not be incurred by the Company on behalf of the Fund and will not affect the Net Asset Value of the Fund):

Share Class	**All Share Classes**
Subscription Charge	Up to 5%
Redemption Charge	Up to 3%

The Subscription Charge is deducted from the investment amount received from an investor for subscription for Shares. Such Subscription Charge is payable to the Manager.

Exchange of Shares

Shareholders may apply to exchange on any Dealing Day all or part of their holding of Shares of any Class of the Fund (the "**Original Class**") for Shares of another Class of the Fund which is being offered at that time (the "**New Class**") provided that all the criteria for applying for Shares in the New Class have been met.

The general provisions and procedures relating to redemptions will apply equally to exchanges. All exchanges will be treated as a redemption of the Shares of the Original Class and an application for the purchase of Shares of the New Class, save that no Subscription Charge or Redemption Charge will be

payable. Exchanges of Shares may be subject to an Exchange Charge of up to 3% of the Repurchase Price for the total number of Shares in the Original Class to be repurchased.

German Investment Tax Act 2018

In accordance with the German Investment Tax Act (Investmentsteuergesetz), as amended from time to time ("**GITA**"), the Fund intends to qualify as an equity fund (Aktienfonds) as defined in section 2 para. 6 GITA, and will continuously invest more than 50% of its Net Asset Value (as defined in section 2 para. 9b sent. 2 and 3 GITA) into equities (as defined in section 2 para. 8 GITA).

OTHER INFORMATION

Risk Factors

Certain risks relating to the Shares are set out in the section titled "**Risk Factors**" in the Prospectus. In addition, Shareholders should note the following risks that apply:

Risks
Active Management Risk
Equity Risk
Concentration Risk

Investors should also refer to the Prospectus for additional disclosure of risks and conflicts of interest.
