

Invesco EUR IG Corporate Bond Short Duration Active UCITS ETF

Supplement to the Prospectus

This Supplement contains information in relation to Invesco EUR IG Corporate Bond Short Duration Active UCITS ETF (the "**Fund**"), a sub-fund of Invesco Markets IV ICAV (the "**ICAV**") an open ended Irish collective asset management vehicle established as an umbrella fund, governed by the laws of Ireland and authorised by the Central Bank of Ireland (the "Central Bank") of New Wapping Street, North Wall Quay, Dublin 1, Ireland.

This Supplement forms part of, may not be distributed unless accompanied by (other than to prior recipients of the Prospectus of the ICAV dated 10 June 2026, as may be amended, supplemented or modified from time to time, (the "Prospectus")), and must be read in conjunction with, the Prospectus.

THIS DOCUMENT IS IMPORTANT. YOU SHOULD NOT PURCHASE SHARES IN THE FUND DESCRIBED IN THIS SUPPLEMENT UNLESS YOU HAVE ENSURED THAT YOU FULLY UNDERSTAND THE NATURE OF SUCH AN INVESTMENT AND THE RISKS INVOLVED AND ARE SATISFIED THAT THE INVESTMENT IS SUITED TO YOUR CIRCUMSTANCES AND OBJECTIVES, THE RISKS INVOLVED AND YOUR OWN PERSONAL CIRCUMSTANCES. IF YOU ARE IN ANY DOUBT ABOUT THE CONTENTS OF THIS SUPPLEMENT YOU SHOULD TAKE ADVICE FROM AN APPROPRIATELY QUALIFIED ADVISOR.

Capitalised terms used in this Supplement will have the meanings given to them in the Definitions section below or in the Prospectus.

Invesco Markets IV ICAV

An umbrella fund with segregated liability between the sub-funds

Dated 10 June 2026

IMPORTANT INFORMATION

Suitability of Investment

You should inform yourself as to (a) the possible tax consequences, (b) the legal and regulatory requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which you might encounter under the laws of the country of your citizenship, residence or domicile and which might be relevant to your purchase, holding or disposal of the Shares.

The Shares are not principal protected. The value of the Shares may go up or down and you may not get back the amount you have invested. See the section headed "Risk Factors" of the Prospectus and the section headed "Other Information – Risk Factors" of this Supplement for a discussion of certain risks that should be considered by you.

In addition to investing in transferable securities, the ICAV may invest on behalf of the Fund in financial derivative instruments ("FDIs"), where applicable. Certain risks attached to investments in FDIs are set out in the Prospectus under "Risk Factors".

Prospective investors should refer to the annex to this Supplement regarding the Fund's environmental and / or social characteristics.

The ETF Shares purchased on the Secondary Market cannot usually be sold directly back to the Fund. Investors must buy and sell ETF Shares on a Secondary Market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current net asset value when buying ETF Shares and may receive less than the current net asset value when selling them.

The Fund is an actively managed sub-fund. The Manager has appointed Invesco Asset Management Limited as the investment manager with responsibility for the selection of the Fund's investments on a discretionary basis and the day-to-day portfolio management of the Fund (the "Investment Manager"). The Investment Manager has appointed Invesco Capital Management LLC (the "Sub-Investment Manager") as the sub-investment manager with responsibility for the management of subscription and redemption orders on the Fund, with Authorised Participants.

Certain risks attached to investments in FDIs are set out in the Prospectus under "Risk Factors".

An investment in the Shares is only suitable for you if you (either alone or with the help of an appropriate financial or other advisor) are able to assess the merits and risks of such an investment and have sufficient resources to be able to bear any losses that may result from such an investment. The contents of this document are not intended to contain and should not be regarded as containing advice relating to legal, taxation, investment or any other matters.

Profile of a typical investor

A typical investor would be one who is a private or institutional investor and is seeking capital appreciation over the medium term. Such an investor is also one that is able to assess the merits and risks of an investment in the Shares.

Responsibility

The Directors accept responsibility for the information contained in the Prospectus and this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement when read together with the Prospectus (as complemented, modified or supplemented by this Supplement) is in accordance with the facts as at the date of this Supplement and does not omit anything likely to affect the importance of such information.

General

This Supplement sets out information in relation to the Shares and the Fund. You must also refer to the Prospectus which is separate to this document and describes the ICAV and provides general information

about offers of shares in the ICAV. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

As at the date of this document, the Fund has no loan capital (including term loans) outstanding or created but unissued, nor any outstanding mortgages, charges or other borrowings or indebtedness in the nature of borrowings, including bank overdrafts and liabilities under acceptances or acceptance credits, hire purchase or finance lease commitments, or guarantees or other contingent liabilities.

Distribution of this Supplement and Selling Restrictions

Distribution of this Supplement is not authorised unless accompanied by a copy of the Prospectus and the latest annual report and audited accounts of the ICAV and the Fund (other than to prior recipients of the Prospectus) and if published after such report, a copy of the then latest semi-annual report and unaudited accounts. The distribution of this Supplement and the offering or purchase of the Shares may be restricted in certain jurisdictions. If you receive a copy of this Supplement and/or the Prospectus you may not treat such document(s) as constituting an offer, invitation or solicitation to you to subscribe for any Shares unless, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to you without compliance with any registration or other legal requirement other than those with which the ICAV has already complied. If you wish to apply for the opportunity to purchase any Shares, it is your duty to inform yourself of, and to observe, all applicable laws and regulations of any relevant jurisdiction. In particular, you should inform yourself as to the legal requirements of so applying, and any applicable exchange control regulations and taxes in the countries of your respective citizenship, residence or domicile.

Definitions

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

For the purposes of this Supplement:

“**Benchmark**” shall mean the Bloomberg Euro Corporate Bond 1-5 Year Index.

TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND

Investment Objective of the Fund

The investment objective of the Fund is to achieve a combination of income and capital growth over the medium-term by investing in an actively-managed portfolio of securities.

Investment Policy of the Fund

In order to achieve the investment objective, the Fund will invest primarily in an actively-managed portfolio of Euro denominated corporate and government-related bonds from global issuers with an investment grade credit rating.

Investment Universe

The initial investment universe comprises of investment grade or equivalently rated corporate, government and government-related bonds from global issuers from which securities are selected for investment by the Fund (the “**Initial Investment Universe**”). The bonds comprising the Initial Investment Universe are primarily denominated in Euro, though the Initial Investment Universe (and consequently the Fund’s portfolio) may comprise bonds denominated in different currencies where consistent with the investment objective of the Fund. Exposure to exchange-rate fluctuations resulting from investments in non-Euro denominated bonds will be hedged back to Euro.

A bond is rated investment grade using the middle rating of Moody’s, S&P and Fitch. When a rating from only two agencies is available, the lower is used and when only one agency rates a bond, that rating is used. If the rating for a specific security is unavailable, the rating of the issuer is used instead, and in circumstances where

this rating is also not available, unrated securities are then only eligible if they are determined by the Investment Manager to be of investment grade quality. The Fund's focus is to invest in investment grade securities, however, it may also hold securities that are below investment grade if the credit rating of any security rated investment grade is downgraded subsequent to purchase.

The Fund will not invest in securities that are in default at the time of investment. If a security defaults subsequent to purchase by the Fund, the Investment Manager will determine in its discretion whether to hold or dispose of such security, taking due account of the interests of its Shareholders.

Of the securities held by the Fund, a minimum of 70% will have 5 years or less time to maturity. No bond held by the Fund will have a time to maturity of more than 10 years. For non-callable bonds, maturity is considered as the bond maturity date. For callable bonds, maturity is considered by the Investment Manager to be the expected call date at which the bond is likely to be called.

The Fund may invest up to 10% of its net assets in contingent convertible bonds; any contingent convertible bond will have an investment grade rating at the time of purchase.

The Fund may also invest in cash or other short-term instruments, money market instruments such as treasury bills and certificates of deposit or money market funds for ancillary liquidity purposes.

ESG Policy

The Investment Manager applies the Fund's ESG exclusionary criteria to the investment universe.

The Fund's ESG exclusionary criteria identifies and screens out securities issued by issuers which derive or generate a predetermined level of revenue or turnover from activities such as, but not limited to, tobacco, thermal coal, unconventional oil and gas (arctic oil and gas exploration, oil sands extraction, shale energy extraction), recreational cannabis, and any activities related to controversial weapons (including companies involved in the manufacture of nuclear warheads or whole nuclear missiles outside of the Non-Proliferation Treaty). All issuers considered for investment will be excluded if they are subject to international sanctions. In addition, issuers will be screened for compliance with, and excluded if they do not meet, UN Global Compact principles. Securities issued by sovereigns will be excluded if the sovereign issuer does not have the requisite score against a qualitative assessment conducted by the Investment Manager. Where a previously eligible security subsequently ceases to meet the Fund's ESG criteria or where the Fund acquires a security as a result of a corporate action and such security does not meet the Fund's ESG criteria, it may not be possible or practicable for it to be divested by the Fund immediately. It is expected that a security which ceases to meet the Fund's ESG criteria will be sold within 20 business days (from the date of identification) having due regard to the best interests of the Shareholders and subject to liquidity, regulatory and other factors. For more information on revenue thresholds and other scoring criteria, please refer to the annex to this Supplement and to the Sustainability related disclosure of the Fund, available at etf.invesco.com.

Investment/Portfolio Construction Approach

The Investment Manager selects securities from the Initial Investment Universe for the portfolio based on a combination of macroeconomic factors, fundamental credit research, single-security analysis and risk management considerations, as further detailed below.

The Investment Manager examines the current and expected conditions for economic growth and inflation as well as monetary and fiscal policies to develop an appreciation of the macroeconomic backdrop and the implication for bond markets.

The Investment Manager analyses key sectors' fundamentals (which can vary sector by sector but will often include the backdrop for demand and supply, trends input costs, pricing power and profitability) and conducts detailed credit research on bond issuers which assesses financial metrics (such as leverage, interest coverage and free cash flow) and qualitative factors (such as the competitive position of the firm and the calibre and stability of the management team) to determine an issuer's creditworthiness and default risk. The assessment also includes valuation analyses which assesses the prospective return of a bond relative to the fundamental credit risk of the issuer, as well as being compared to other bonds in the same issuer's capital structure and other issuers in the same sector. This credit research informs the Investment Manager's selection of bond issuers and securities that are consistent with the Fund's liquidity and risk characteristics and appropriate for the overall investment strategy. The Investment Manager's research additionally looks to identify and assess sustainability risks that could materially impact an issuer's ability to meet its debt obligations. The Investment Manager determines the materiality of sustainability risks on the basis of proprietary ESG criteria (such as the

Investment Manager's qualitative ESG grading of sovereign issuers) and third-party ESG data (ESG scores, involvement in controversies, level of involvement in controversial business activities, and other ESG-related information on issuers).

The integration of macroeconomic and bottom-up credit research helps the Investment Manager to make asset allocation decisions, across sectors, credit quality and duration.

The Investment Manager aims, but is not required, to position the Fund such that in normal market conditions the Fund's weighted average duration is within +/- 1 year relative to the Benchmark.

The Investment Manager will seek to construct a diversified portfolio such that positions from any one corporate bond issuer will not exceed 4.5% of the net assets of the Fund.

Other Investments

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes, and/or for investment purposes to assist in achieving its investment objective. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: forwards contracts, futures, credit default swaps on benchmarks, interest rate swaps, swaps on interest rate benchmarks, and currency rate swaps. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "**Appendix III - Use of Financial Derivative Instruments And Efficient Portfolio Management**".

The Fund shall not invest more than 10% of its net assets in other UCITS, open ended CIS or closed ended collective investment funds that meet the requirements of the Central Bank (and, in the case of closed ended collective investment funds, that qualify as transferable securities).

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is set out in the sections titled "**Investment Objectives & Policies**" and under "**Investment Restrictions and Permitted Investments**".

Benchmark

The Fund intends to measure its performance against the Bloomberg Euro Corporate Bond 1-5 Year Index.

The Fund will not seek to track the performance of the Benchmark. The Fund will hold an actively managed portfolio of securities, that is not constrained by the Benchmark, with the aim of delivering superior risk-adjusted returns over the long term when compared with the average performance of the Euro-denominated investment grade corporate bond market, for which the Benchmark is a suitable proxy. Due to the changing volatility and return characteristics of markets, the Fund does not have an absolute risk or return target.

The Benchmark measures the performance of the investment grade, Euro-denominated, fixed-rate corporate bond market. To be included, securities must be issued by companies in the industrials, financials and utilities sectors. Securities must have at least EUR 300 million par amount outstanding, at least one year until final maturity and less than five years remaining until maturity.

The Benchmark is rebalanced on a monthly basis.

The Benchmark is sponsored by Bloomberg and more details on the Benchmark can be found at <https://www.bloomberg.com/professional/product/indices/#!/>.

Integration of Sustainability Risks

The Investment Manager's research looks to identify and assess sustainability risks that could materially impact on an issuer's ability to meet its debt obligations alongside fundamental financial analysis when forming a holistic view on the issuer's creditworthiness. Where a sustainability risk is deemed to be material by the Investment Manager, it will impact the Investment Manager's view on the issuer's creditworthiness which in turn will impact on their decision to include the debt security in the portfolio. The Investment Manager determines the materiality of sustainability risks on the basis of proprietary ESG criteria (such as the Investment Manager's qualitative ESG grading of sovereign issuers) and third-party ESG data (ESG scores,

involvement in controversies, level of involvement in controversial business activities, and other ESG-related information on issuers).

Assessments of sustainability risks do not necessarily mean that the Investment Manager will refrain from taking or maintaining a position in the investment. Rather, the Investment Manager will consider the assessments together with other material factors in the context of the specific investee company or issuer and the investment objective and policy of the Fund.

The likely impacts of sustainability risks on the returns of the Fund are expected to be low.

Transparency of the Promotion of Environmental or Social Characteristics

The Fund is an Article 8 Fund (as defined in the Prospectus).

The Fund promotes environmental characteristics, namely reducing pollution and natural resource utilisation by excluding companies involved in coal extraction and power generation, as well as those involved in activities related to unconventional oil and gas. The Fund also promotes social characteristics, namely promoting human rights and improving health and wellbeing by excluding companies in violation of any UNGC principles, as well as issuers involved in tobacco, recreational cannabis, controversial weapons and nuclear weapons.

The Benchmark has been designated as the Fund's reference benchmark for the measurement of the Fund's performance, but the Benchmark is not representative of the Fund's portfolio following the application of the ESG Policy and is not consistent, nor is it intended to be consistent, with the environmental characteristics which the Fund promotes.

The Fund does not expect to invest any of its assets in sustainable investments. The Fund does not currently intend to be aligned with the Taxonomy Regulation and, at the date of this Supplement, 0% of the Fund's investments will be aligned with the environmental objectives under the Taxonomy Regulation. Further information on the environmental and social characteristics promoted by the Fund, how they are achieved and how the investments of the Fund follow good governance practices is disclosed in the annex to this Supplement.

Investment Restrictions of the Fund

Investors in particular must note that the general investment restrictions set out under "**Investment Restrictions and Permitted Investments**" in the Prospectus apply to the Fund.

Efficient Portfolio Management

Further information on efficient portfolio management techniques that may be used by the Fund is contained in the "**Securities Financing Transactions**" section below and in the main body of the Prospectus under the heading "**Appendix III – Efficient Portfolio Management and Use of Financial Derivative Instruments**".

Securities Financing Transactions

The Fund may use Securities Financing Transactions, namely securities lending. The Fund's use of Securities Financing Transactions will be subject to the requirements of SFTR and in accordance with normal market practice, and the Central Bank Rules. Such Securities Financing Transactions may be entered into for any purpose that is consistent with the investment objective of the Fund, including to generate income or profits in order to increase portfolio returns or to reduce portfolio expenses or risks. Securities lending will be for efficient portfolio management purposes only.

The type of assets that may be held by the Fund in accordance with its investment objective and policies and may be subject to such Securities Financing Transactions are bonds. The maximum proportion of the Fund's assets that may be subject to securities lending is 100%, and the expected proportion of the Fund's assets that may be subject to securities lending is between 0% and 30%. Please refer to the Prospectus section "Securities Financing Transactions" for further information.

All securities of the Fund are subject to specific securities lending criteria established for ESG funds which stipulates that (a) securities are to be recalled over voting dates and (b) applies a more restrictive eligible collateral schedule than non ESG funds.

Currency Hedging Policy

The Investment Manager will be responsible for currency hedging in respect of the Fund.

Share Class Hedging

The Fund may enter into transactions for the purposes of hedging the foreign exchange exposure in any hedged Share Classes (identified by "Hdg" in their names). The purpose of the hedging in the hedged Share Classes is to limit, at a Share Class level, the profit or loss generated from foreign exchange exposure of the Share Class denominated in a currency other than the Base Currency of the Fund. This is achieved by the hedged Share Classes employing 30-day forward FX contracts, which are rolled monthly

Further information on currency hedging at Share Class level is set out in the section titled "**Hedged Classes**" in the Prospectus.

Collateral Policy

- (a) Non-Cash Collateral: In addition to the requirements for valuation of non-cash collateral in the Prospectus, subject to any agreement on valuation made with the counterparty, collateral posted to a recipient counterparty for the benefit of the Fund will be valued daily at mark-to-market value.
- (b) Issuer Credit Quality: In addition to the requirement for Issuer Credit Quality set out in the Prospectus, assets provided by the Fund on a title transfer basis shall no longer belong to the Fund and shall pass outside the custodial network. The counterparty may use those assets at its absolute discretion. Assets provided to a counterparty other than on a title transfer basis shall be held by the Depositary or a duly appointed sub-depositary.

Further information on the criteria which collateral received by the Fund must meet is set out under the heading "Non-Cash Collateral" in the section of the Prospectus titled "Appendix III – Efficient Portfolio Management and Use of Financial Derivative Instruments".

- (c) Collateral - Posted by the Fund: In addition to the requirements in respect of collateral posted to a counterparty in the Prospectus, collateral posted to a counterparty by or on behalf of the Fund will consist of such collateral as is agreed with the counterparty from time to time and may include any types of assets held by the Fund.
- (d) Valuation: Information in respect of the collateral valuation methodology used by the ICAV can be found in the Prospectus in the section titled "**Appendix III - Efficient Portfolio Management and Use of Financial Derivative Instruments**". The rationale for the use of this collateral valuation methodology is primarily to guard against the price volatility of assets being received by the Fund as collateral.

The risk exposure of the Fund to counterparties will remain within the limits prescribed in the Prospectus under "**Appendix II - Investment Restrictions Applicable to the Funds under the Regulations**".

Further information on the collateral policy is set out under the heading "**Collateral Policy**" in the section of the Prospectus titled "**Appendix III – Efficient Portfolio Management and Use of Financial Derivative Instruments**".

Borrowing and Leverage

The ICAV on behalf of the Fund may borrow up to 10% of the Net Asset Value of the Fund on a temporary basis. Such borrowings may only be used for short term liquidity purposes to cover the redemption of Shares. Further information on borrowing and leverage is set out in the sections titled "**Borrowing and Lending Powers**" and "**Leverage**" in the Prospectus.

The ICAV will use the commitment approach for the purposes of calculating global exposure for the Fund. The Fund's total exposure will be limited to 100% of Net Asset Value.

While it is not the Investment Manager's intention to leverage the Fund, any leverage resulting from the use of FDIs will be done in accordance with the Regulations.

The Investment Manager

The Manager has appointed Invesco Asset Management Limited as the Investment Manager. The registered

address of the Investment Manager is Perpetual Park, Perpetual Park Drive, Henley-on-Thames, Oxfordshire RG9 1HH, United Kingdom. The Investment Manager's ultimate holding company is Invesco Limited. and it is in the same group of companies as the Manager.

The investment management agreement dated 6 May 2026 between the Manager and the Investment Manager (the "Investment Management Agreement") provides that the appointment of the Investment Manager will continue unless and until terminated by either party giving to the other not less than 90 days' written notice although in certain circumstances, such as the insolvency of either party, a breach of contract by either party or a change of control of either party, the Investment Management Agreement may be terminated with immediate effect by notice in writing by either party to the other. Furthermore, the Manager may terminate the Investment Management Agreement without notice with immediate effect if the Manager considers, at its sole discretion, that this is in the best interests of the Shareholders in the Fund. The Investment Management Agreement contains certain indemnities in favour of the Investment Manager which are restricted to exclude matters resulting from the wilful misconduct, bad faith, fraud, material breach of the Investment Management Agreement or negligence by the Investment Manager in the performance of its duties or by reason of its reckless disregard of its obligations and duties under the Investment Management Agreement.

Dividend Policy

Dividends will be declared on a quarterly basis for the Dist Shares, the USD Hdg Dist Shares, the GBP Hdg Dist Shares, the CHF Hdg Dist Shares, the MXN Hdg Dist Shares, the SEK Hdg Dist Shares, and the HKD Hdg Dist Shares in accordance with the general provisions set out in the Prospectus under the heading "Dividend Policy" and Shareholders will be notified in advance of the date on which dividends will be paid. Distributions will not be made in respect of the Acc Shares, the USD Hdg Acc Shares, the GBP Hdg Acc Shares, the CHF Hdg Acc Shares, the MXN Hdg Acc Shares, the SEK Hdg Acc Shares, and the HKD Hdg Acc Shares and income and other profits will be accumulated and reinvested in respect of those Shares.

Trading

Application will be made to Euronext Dublin, the London Stock Exchange or Deutsche Boerse and/or such other exchanges as the Directors may determine from time to time (the "**Relevant Stock Exchanges**") for listing and/or admission to trading of the Shares issued and available to be issued on the main market of each of the Relevant Stock Exchanges on or about the Launch Date. This Supplement and the Prospectus together comprise listing particulars for the purposes of trading on the main market of each of the Relevant Stock Exchanges.

Exchange Traded Fund

The Fund is an Exchange Traded Fund ("**ETF**"). The ETF Shares of this Fund are fully transferable among investors and will be listed and/or traded on the Relevant Stock Exchanges. It is envisaged that ETF Shares will be bought and sold by private and institutional investors in the Secondary Market in the same way as the ordinary shares of a listed trading company.

The ICAV may also establish Non-ETF Shares in the Fund. Such shares will not be listed and/or traded on a Relevant Stock Exchange and it is not expected that an active secondary market in Non-ETF Shares will develop.

Investors should refer to the section of the Prospectus titled "**Subscriptions and Redemptions**" for information of how to deal in ETF Shares and Non-ETF Shares.

General Information Relating to the Fund

Type	Open-ended.
Base Currency	EUR
Business Day	A day (other than a Saturday or Sunday) on which the Trans-European Real-time Gross Settlement Express Transfer (TARGET-2) system is open or such other day or days that the Directors may determine and notify to Shareholders in advance.

Dealing Day	Any Business Day. However, some Business Days will not be Dealing Days where, for example, markets on which the Fund's assets are listed or traded or markets relevant to the Benchmark are closed provided there is at least one Dealing Day per fortnight, subject always to the Directors' discretion to temporarily suspend the determination of the Net Asset Value and the sale, conversion and/or redemption of Shares in the ICAV or any Fund in accordance with the provisions of the Prospectus and the Instrument of Incorporation. The Investment Manager produces dealing calendars which detail in advance the Dealing Days for the Fund. The dealing calendar may be amended from time to time by the Investment Manager where, for example, the relevant market operator, regulator or exchange (as applicable) declares a relevant market closed for trading and/or settlement (such closure may be made with little or no notice to the Investment Manager). The dealing calendar for the Fund is available from the Manager.
Dealing Deadline	4:00 pm (Dublin time) on the relevant Dealing Day or such other time as the Investment Manager may, in consultation with the Directors, determine and is notified to Shareholders by the ICAV provided always that the Dealing Deadline will be before the Valuation Point. No subscription, exchange or redemption applications may be accepted after the Valuation Point.
Subscriptions, Exchanges and Repurchases	All subscriptions, exchanges and repurchases can only take place through an Authorised Participant or other representative appointed by the ICAV in the relevant jurisdiction.
Launch Date	10th November 2026 in respect of Class Acc and Dist Shares or such other date as the Directors determine to reflect the close of the Initial Offer Period.
Minimum Fund Size	EUR 30,000,000
Initial Offer Period	The Initial Offer Period in respect of unlaunched Shares will start at 9.00 a.m. (Dublin time) on 11 th May 2026 and close at 5.00 p.m. (Dublin time) on 9 th November 2026 or such earlier or later date as the Directors may determine and notify to the Central Bank.
Initial Offer Price	An appropriate fraction of the official closing level of the Reference Index on the Business Day preceding the launch date of the relevant Class. Investors should note that the Initial Issue Price of the Shares on the launch date of the relevant Share Class will be available on etf.invesco.com.
Valuation Point	10.30pm (Irish time) on the relevant Dealing Day by reference to which the Net Asset Value per Share of the Fund is determined. At all times the Valuation Point will be after the Dealing Deadline. The value of any investments which are listed or dealt on a Market shall be the closing bid price on the relevant Market at the Valuation Point.
Settlement Date	By the second Business Day after the relevant Dealing Day (or such other day as the Directors (or their delegate) may determine and notify in advance to the applicant).

Website	etf.invesco.com Information on portfolio composition and details on the indicative net asset value are set out on the Website.
----------------	---

The Shares

The Share Classes available for subscription in the Fund are set out in “**Appendix I – Description of the Shares**”. Additional Share Classes may be added to the Fund, subject to prior notification to and the approval of the Central Bank, and will be set out in a revised supplement.

Intra-Day Portfolio Value ("INAV")

Further information on intra-day portfolio value is contained in the main body of the Prospectus under the heading “**Intra-Day Portfolio Value**”.

Fees and Expenses

The following fees will be incurred on each Share by Shareholders (which accordingly will not be incurred by the ICAV on behalf the Fund and will not affect the Net Asset Value of the Fund):

Share Class	All Share Classes
Subscription Charge	Up to 5%
Redemption Charge	Up to 3%

The Subscription Charge is deducted from the investment amount received from an investor for subscription for Shares. Such Subscription Charge is payable to the Manager. The fees and expenses that will be incurred by the ICAV on behalf of the Fund and will affect the Net Asset Value of the relevant Share Class of the Fund are set out in “Appendix I – Description of the Shares”.

The TER, a percentage of the Net Asset Value of the relevant Class of Shares (plus VAT, if any), is payable by the ICAV out of the Fund Assets to the Manager. The TER will accrue on each day and will be calculated on each Dealing Day and paid monthly in arrears. The Manager will pay out of the TER the fees and expenses (where appropriate) of the Investment Manager, the Administrator, the Depositary, the Directors and the ordinary fees, expenses and costs incurred by the Fund as described in the section titled “**Fee & Expenses**” in the Prospectus.

Where a distribution fee, commission or other monetary benefit is received by the Fund, the Manager or any person acting on behalf of the Fund or the Manager of the Fund, the fee, commission or other monetary benefit shall be paid into the assets of the Fund.

This section titled “**Fees and Expenses**” should be read in conjunction with the section titled “**Fees & Expenses**” in the Prospectus.

Exchange of Shares

Shareholders may apply to exchange on any Dealing Day all or part of their holding of Shares of any Class of the Fund (the “Original Class”) for Shares of another Class of the Fund which is being offered at that time (the “New Class”) provided that all the criteria for applying for Shares in the New Class have been met.

The general provisions and procedures relating to redemptions will apply equally to exchanges. All exchanges will be treated as a redemption of the Shares of the Original Class and application to the purchase of Shares of the New Class, save that no Subscription Charge or Redemption Charge will be payable. Exchanges of Shares may be subject to an Exchange Charge of up to 3% of the Repurchase Price for the total number of Shares in the Original Class to be repurchased.

OTHER INFORMATION

Taxation

The tax treatment of the ICAV is set out in the Prospectus of the ICAV and the tax information provided therein is based on tax law and practice as at the date of the Prospectus.

Shareholders and potential investors are advised to consult their professional advisers concerning possible taxation or other consequences of purchasing, holding, selling or otherwise disposing of the Shares under the laws of their country of incorporation, establishment, citizenship, residence or domicile.

Consequences of Disruption Events

Upon the occurrence of a Disruption Event (and without limitation to the Directors personal powers as further described in the Prospectus) an Approved Counterparty may make adjustments to determine the valuation of FDIs. Further information on the consequences of Disruption Events is set out in the section titled "Disruption Events" in the Prospectus.

Limited Recourse

A Shareholder will solely be entitled to look to the assets of the Fund in respect of all payments in respect of its Shares. If the realised net assets of the Fund are insufficient to pay any amounts payable in respect of the Shares, the Shareholder will have no further right of payment in respect of such Shares nor any claim against or recourse to any of the assets of any other Fund or any other asset of the ICAV.

Risk Factors

Certain risks relating to the Shares are set out under the heading "**Risk Factors**" in the Prospectus. In addition, Shareholders must also note that:

- (a) Active Management Risk: the Fund's assets will be actively managed by the Investment Manager, based on the expertise of individual fund managers, who will have discretion (subject to the Fund's investment restrictions) to invest the Fund's assets in investments that it considers will enable the Fund to achieve its investment objective. There is no guarantee that the Fund's investment objective will be achieved based on the investments selected.
- (b) Contingent convertible bonds are a type of debt security, issued by a financial institution, that may be converted into equity or could be forced to suffer a write down of principal upon the occurrence of a pre-determined event ("the trigger event") and can be exposed to several risks (including but not limited to):
 - Trigger level risk: The trigger event is ordinarily linked to the financial position of the issuer and therefore the conversion is likely to occur as a result of a deterioration of the relative capital strength of the underlying. The relative risk associated with different contingent convertibles will depend on the distance between the current capital ratio and the effective trigger level. It is likely that the conversion to equity would occur at a share price, which is lower than when the bond was issued or purchased.
 - Capital structure inversion risk: In the case of a principal write down contingent convertible bond, it is possible that the holder could take a write down before equity holders, which is contrary to the typical capital structure hierarchy.
 - Liquidity risk: In stressed market conditions, the liquidity profile of the issuer can deteriorate significantly and it may be difficult to find a ready buyer which means that a significant discount may be required in order to sell it.
 - Call extension risk: Contingent convertible bonds can also be issued as perpetual bonds (i.e. bonds

without a maturity date), while these will have call dates, there is no guarantee that the issue will be called on this date and there is a possibility that the bond may never be called resulting in the investor not receiving the return of the principal at any date, like for any other non-callable perpetual bond.

- Unknown/uncertainty risk: Contingent convertible bonds are a relatively new instrument and the trigger events are generally untested, therefore it is uncertain how the asset class will perform in stressed market conditions and risk to capital, and volatility could be significant.
 - Coupon cancellation risk: Coupon payments may be discretionary and can be cancelled at any time, for any reason.
 - Valuation risk: Investment in contingent convertible bonds may have a higher yield, however, they can carry higher risk than investment in traditional debt instruments and in certain cases equities; the volatility and risk of loss can be significant.
- (c) Environmental, Social and Governance Risk: The Fund intends to invest in securities of issuers that manage their ESG exposures better relative to their peers. This may affect the Fund's exposure to certain issuers and cause the Fund to forego certain investment opportunities. The Fund may perform differently to other funds, including underperforming other funds that do not seek to invest in securities of issuers based on their ESG ratings.
- (d) Liquidity Risk: The Fund's investments may be subject to liquidity constraints, which means they may trade less frequently and in small volumes. Securities of certain types, such as bonds, may also be subject to periods of significantly lower liquidity in difficult market conditions. As a result, changes in the value of investments may be more unpredictable. In certain cases, it may not be possible to sell the security at the price at which it has been valued for the purposes of calculating the Net Asset Value of the Fund or at a value considered to be fairest. In addition, there is a risk that bonds which are nearing maturity may become illiquid. In such cases, it may become more difficult to achieve fair value on the purchase and sale thereof.
- (e) Risks associated with investment in debt securities: Investment in debt securities is subject to interest rate, liquidity and credit risks. Lower-rated securities will usually offer higher yields than higher-rated securities to compensate for the reduced creditworthiness and increased risk of default that these securities carry. Lower-rated securities generally tend to reflect short-term corporate and market developments to a greater extent than higher-rated securities which respond primarily to fluctuations in the general level of interest rates. There are fewer investors in lower-rated securities, and it may be harder to buy and sell such securities at an optimum time. Credit risk is the risk of loss on an investment due to the deterioration of an issuer's financial standing. Such a deterioration may result in a reduction of the credit rating of the issuer's securities and may lead to the issuer's inability to honour its contractual obligations, including making timely payment of interest and principal. Credit ratings are a measure of credit quality. Although a downgrade or upgrade of an investment's credit ratings may or may not affect its price, a decline in credit quality may make the Investment less attractive, thereby driving its yield up and its price down. Declines in credit quality can result in bankruptcy for the issuer and permanent loss of investment. In the event of a bankruptcy or other default, the Fund could experience both delays in liquidating the underlying securities and losses including a possible decline in value of the underlying securities during the period when a Fund seeks to enforce its rights thereto. This will have the effect of reducing levels of capital and income in the Fund and lack of access to income during this period together with the expense of enforcing the Fund's rights. Investment in debt securities will be subject to interest rate risk. Interest rate risk refers to the risk that the prices of debt securities generally fall as interest rates rise; conversely, debt securities prices generally rise as interest rates fall. Specific debt securities differ in their sensitivity to changes in interest rates depending on specific characteristics of each debt security. Longer term debt securities are usually more sensitive to interest rate changes.

Investors should also refer to the Prospectus for additional disclosure of risks and conflicts of interest.
