

UBS EUR Overnight Rate SF UCITS ETF

Supplement to the Prospectus

This Supplement contains information in relation to the **UBS EUR Overnight Rate SF UCITS ETF** (the "**Fund**"), a sub-fund of UBS (Irl) Fund Solutions Plc (the "**Company**") an umbrella type open-ended investment company with variable capital, governed by the laws of Ireland and authorised by the Central Bank of Ireland (the "**Central Bank**").

This Supplement forms part of, and must be read in conjunction with, the Prospectus of the Company dated 17 July 2026, as may be amended, supplemented or modified from time to time, (the "Prospectus") and the KID, and may not be distributed unless accompanied by the Prospectus and the KID (other than to prior recipients of the Prospectus).

THIS DOCUMENT IS IMPORTANT. BEFORE YOU PURCHASE ANY OF THE SHARES REPRESENTING INTERESTS IN THE FUND DESCRIBED IN THIS SUPPLEMENT YOU SHOULD ENSURE THAT YOU FULLY UNDERSTAND THE NATURE OF SUCH AN INVESTMENT, THE RISKS INVOLVED AND YOUR OWN PERSONAL CIRCUMSTANCES. IF YOU ARE IN ANY DOUBT ABOUT THE CONTENTS OF THIS SUPPLEMENT YOU SHOULD TAKE ADVICE FROM AN APPROPRIATELY QUALIFIED ADVISOR.

Capitalised terms used in this Supplement will have the meanings given to them in the Definitions section below or in the Prospectus.

In addition to investing in transferable securities and/or units of collective investment schemes it is the intention of the Company to invest on behalf of the Fund in financial derivative instruments ("FDIs") for investment and efficient portfolio management purposes, where applicable.

Certain risks attached to investments in FDIs are set out in the Prospectus under the section headed "Risk Factors".

You should inform yourself as to (a) the possible tax consequences, (b) the legal and regulatory requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which you might encounter under the laws of the country of your citizenship, residence or domicile and which might be relevant to your purchase, holding or disposal of the Shares.

IMPORTANT INFORMATION

Suitability of Investment

The Shares are not principal protected. The value of the Shares may go up or down and you may not get back the amount you have invested. See the section headed "Risk Factors" of the Prospectus and the section headed "Other Information – Risk Factors" of this Supplement for a discussion of certain risks that should be considered by you.

An investment in the Shares is only suitable for you if you (either alone or with the help of an appropriate financial or other advisor) are able to assess the merits and risks of such an investment and have sufficient resources to be able to bear any losses that may result from such an investment. The contents of this document are not intended to contain and should not be regarded as containing advice relating to legal, taxation, investment or any other matters.

Profile of a Typical Investor

The Fund is suitable for investors seeking to generate a return linked to money market rates and who are prepared to accept a low level of volatility. Investment in the Fund should be viewed as a medium to long term investment.

Responsibility

The Directors (whose names appear under the heading "**Directors of the Company**" of the Prospectus) accept responsibility for the information contained in the Prospectus and this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement when read together with the Prospectus (as complemented, modified or supplemented by this Supplement) is in accordance with the facts as at the date of this Supplement and does not omit anything likely to affect the import of such information.

General

This Supplement sets out information in relation to the Shares and the Fund. You must also refer to the Prospectus which is separate to this document and describes the Company and provides general information about offers of shares in the Company. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus and the KID. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

As of the date of this Supplement, the Company does not have any loan capital (including term loans) outstanding or created but unissued and no outstanding mortgages, charges or other borrowings or indebtedness in the nature of borrowings, including bank overdrafts and liabilities under acceptances or acceptance credits, hire purchase or finance lease commitments, guarantees or other contingent liabilities.

Distribution of this Supplement and Selling Restrictions

Distribution of this Supplement is not authorised unless accompanied by a copy of the Prospectus, the KID and the latest annual report and audited accounts of the Company and the Fund (other than to prior recipients of the Prospectus) and if published after such report, a copy of the then latest semi-annual report and unaudited accounts. The distribution of this Supplement and the offering or purchase of the Shares may be restricted in certain jurisdictions. If you receive a copy

of this Supplement and/or the Prospectus you may not treat such document(s) as constituting an offer, invitation or solicitation to you to subscribe for any Shares unless, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to you without compliance with any registration or other legal requirement other than those with which the Company has already complied. If you wish to apply for the opportunity to purchase any Shares it is your duty to inform yourself of, and to observe, all applicable laws and regulations of any relevant jurisdiction. In particular, you should inform yourself as to the legal requirements of so applying, and any applicable exchange control regulations and taxes in the countries of your respective citizenship, residence or domicile.

Definitions

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND

Investment Objective

The investment objective of the Fund is to deliver the net total return of the Reference Index (being Solactive €STR Daily Total Return Index).

Investment Policy

In order to achieve the investment objective of delivering the net total return of the Reference Index, the Company on behalf of the Fund intends to invest all or substantially all of the net proceeds of any issue of Shares in the manner set out below:

- (i) swaps (each swap being an agreement between the Company on behalf of the Fund and an Approved Counterparty pursuant to a master agreement in accordance with the requirements of the International Swaps and Derivatives Association), and such swaps may include funded, unfunded or total return (as further described below under "**Use of FDI Contracts – Swaps**") (the "**Swaps**"). The purpose of the Swaps shall be to gain indirect exposure to the Reference Index (as described in further detail under the heading "**Use of FDI Contracts – Swaps**" below); and
- (ii) a portfolio of transferable securities which will include equity and equity-related securities (which may include stock and preferred stock); fixed income securities such as government and corporate bonds (such bonds may be rated or unrated and may be fixed or floating rate), money market instruments (which shall include U.S. treasury bills, cash deposits, and short-term money market deposits), convertible bonds and commercial paper and/or units of other open-ended collective investment schemes including other Funds of the Company. Any of the foregoing may be issued or arranged by a member of the UBS AG Group. Where the Fund invests in such transferable securities and/or units of collective investment schemes, the Fund will enter into unfunded or total return swaps to exchange the price performance and income received in relation to such securities and/or units of collective investment schemes for the performance of the Reference Index. In this instance, the Fund will have neither market nor credit exposure to the particular transferable securities and/or units of collective investment schemes referred to above, except in the event of a default on the part of the Approved Counterparty to the Swaps.

The Swaps, transferable securities and/or units of collective investment schemes, as listed at (i) and (ii) above, and any ancillary cash (either for investment or efficient portfolio management purposes) shall constitute the "**Fund Assets**" for the purposes of the Prospectus. All instruments shall be listed and/or traded on the exchanges and markets set out in Appendix II of the Prospectus.

The Fund is passively managed.

The Fund may, with due regard to the best interest of its Shareholders, decide from time to time to switch partially or totally from one of the above described policies to the other.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (Taxonomy Regulation Art. 7).

This Fund complies with Article 6 of SFDR.

The Fund considers principal adverse impacts on sustainability factors due to its investment strategy and the nature of underlying investments.

Principal adverse impacts (the “**PAI**”) are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption, and anti-bribery matters. The Investment Manager integrates PAI indicators in its Index selection process.

At present, the following PAI indicator is considered as part of the basket of securities selection process:

1.14 “Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)”:

By selecting the basket of securities, the Investment Manager ensures that the Fund will not directly hold companies involved in cluster munitions, anti-personnel mines or chemical and biological weapons, nor will it hold companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons. A company is considered to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company.

The annual report of the Company will include information on the principal adverse impacts on sustainability factors.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under “**Investment Objectives and Policies**” and under “**Investment Restrictions**”.

Index Tracking Strategy

The Fund gains exposure to the Reference Index by investing in one or more Swaps. It is not intended that the Fund will invest directly in the components of the Reference Index in order to meet the Fund's investment objective. The Fund (and the investors in the Fund) will be exposed to the full performance of the Reference Index.

The hedged Share Classes intend to reduce currency risk by investing in Swaps with exposure to a currency hedged version of the Reference Index (each a “**Currency Index**” and together the “**Currency Indices**”). The aim of the currency hedge is to limit (though not eliminate) the FX exposure of the Class of Shares versus the currency of the Reference Index. The purpose of gaining exposure to a Currency Index is to limit, at a Share Class level, the profit or loss generated from foreign exchange exposure. This is achieved by the Currency Indices methodology referencing one month rolling forward FX contracts, as opposed to the Fund itself.

The Fund may have counterparty risk as a result of the investment in the swaps – further information is provided in the section below headed “Use of FDI Contracts – Swaps” and in section 6 “Risk Factors” of the Prospectus.

The anticipated level of tracking error after fees and transaction costs is up to 0.02 % per annum in normal market conditions.

The annual report of the Fund, which can be found on the Website, will include the following information:

- a) The size of the realised tracking error for the year, being the volatility of the difference between the return of the Fund and the return of the Reference Index;
- b) An explanation for the divergence between the anticipated and realised tracking error for the year;

- c) The size of the annual tracking difference for the year, being the difference between the performance of the Fund and the Reference Index; and
- d) An explanation for the annual tracking difference, including the impact of transaction costs, fees and expenses on the performance of the Fund.

Portfolio Transparency Policy

The Fund's transparency policy regarding the composition of its portfolio, and any collateral received in relation to the Swaps, is to provide position level disclosure on a daily basis. The information is published on the Website.

The assets in which the Fund will invest in order to achieve its investment objective are set out in the "Investment Policy" section above. Details on the composition of the Fund Assets will be set out on the Website.

Use of FDI Contracts – Swaps

The Fund may enter into Swaps with a member of the UBS AG Group or any other eligible entity (being the **"Approved Counterparty"**) pursuant to which the Fund will be entitled to receive from the Approved Counterparty the performance of the components of the Reference Index.

Swap agreements are two-party contracts whereby two parties agree to exchange the returns (or differentials in rates of return) earned or realised on particular agreed investments or instruments.

The Fund may enter into the types of Swaps detailed below. Such Swaps shall be in the form of index swaps (whereby one party exchanges the return on an index of any kind (in this instance it is the Reference Index) in return for an agreed amount from the other party) or equity swaps (whereby one party exchanges the return of an equity index and/or basket of equity securities while the other exchanges an amount based on a fixed-income cash flow (for example, Euribor):

1. Fully funded Swaps in the form of index swaps. In such circumstances, the Fund will pay upfront all or substantially all (some cash may be retained to pay expenses and fees) of the net proceeds of any issue of Shares to the counterparty in return for the performance of the components of the Reference Index.
2. Unfunded Swaps in the form of index swaps and/or equity swaps. In such circumstances, the Fund will invest all or substantially all of the net proceeds of any issue of Shares in a portfolio of transferable securities and/or units of collective investment schemes as listed at (ii) above. Through an index swap, the Fund will make a payment to the counterparty which is linked to the return on some or all of these transferable securities and units of collective investment schemes held by the Fund in return for receiving the performance of the components of the Reference Index. Typically, unfunded swaps do not require any upfront payment of cash.

In addition, the Fund may use unfunded total return swaps in order to achieve the Investment Objective whereby the Fund makes or receives periodical payments to or from the counterparty based on a set rate agreed between the parties in return for receiving or paying the performance of an underlying asset. An example of such total return swaps would include the Fund entering into (a) an equity total return swap whereby the Fund swaps out the performance of the transferable securities and/or units in collective investment schemes held by the Fund as listed at (ii) above in return for a fixed or floating interest rate agreed between the parties and (b), in turn via an index total return swap the Fund swaps out the fixed or floating interest rate received by it in return for receiving the performance of the components of the Reference Index.

The Fund will limit its exposure to Swaps that are fully funded Swaps to 10% of its net assets.

As detailed above, fully funded Swaps are swap agreements pursuant to which a Fund transfers a cash amount in full consideration of the swap value to the counterparty. In return the Fund will be entitled to receive the performance of the relevant investment strategy under the terms of the swap agreement. In respect of each of the fully funded Swaps, the unfunded Swaps and the total return Swaps, the counterparty will transfer collateral to the Fund in accordance with the UCITS rules to mitigate credit risk to the counterparty arising from entering into the swap agreement. Fully funded Swaps are used to enhance the liquidity of the Fund.

The Approved Counterparty to the Swaps and the Company on behalf of the Fund have entered into a 2002 International Swaps and Derivatives Association Master Agreement (including any supporting agreements, annexes or schedules thereto) (the "**ISDA Master Agreement**"), and will enter into a confirmation, which will supplement, form part of and be subject to, the ISDA Master Agreement, for each Swap transaction. Such confirmations may be entered into before or after the relevant transaction and may be in electronic form.

The Swaps will at all times be valued in accordance with the provisions of the Prospectus. The valuation of the Swaps will reflect the relative movements in the performance of the Reference Index and the Fund's holding of transferable securities and/or other Fund Assets as may be referenced under the Swaps. Depending on the value of the Swaps, the Fund will have to make a payment to the Approved Counterparty or will receive such a payment. Where the Fund has to make a payment to the Approved Counterparty, this payment will be made from the proceeds and, as the case may be, the disposal of some or all of the transferable securities and/or other Fund Assets in which the Fund has invested.

As set out in Section 5 of the Prospectus, the Company will ensure that the counterparty risk exposure under the Swaps never exceeds the limits required by the Regulations and the Central Bank. Accordingly, the Company will reduce such counterparty exposure by causing the Approved Counterparty, where necessary, to provide appropriate Collateral to the Company on behalf of the relevant Fund (or as otherwise permitted by the Central Bank) under the terms of ISDA Master Agreement, in accordance with the Investment Restrictions. Alternatively, the Company may reduce its risk exposure to the Approved Counterparty by causing the Approved Counterparty to reset the Swaps or vice versa. This may result in a corresponding payment from the Fund to the Approved Counterparty.

The Swaps may be terminated by either party at any time or on the occurrence of certain events with respect to either the Fund or the Approved Counterparty including, but not limited to, an event of default (such as a failure to pay, breach of agreement or bankruptcy) or a termination event (which is not due to the fault of either party, for example, illegality or a change in the tax or accounting laws), in which case the non-defaulting party or the unaffected party respectively is entitled to calculate the close-out value of the Swaps and it will do so in line with the industry standard requirements set out in the ISDA Master Agreement. The Fund may then enter into new Swaps (unless the Directors resolve that it is inadvisable to do so) or, if the Directors determine that there is no reasonable way to achieve the investment objective, the Fund may be terminated in accordance with the provisions of the Prospectus.

Securities Lending and Repurchase Transactions

The Company may (for the purposes of efficient portfolio management only) enter into stock lending arrangements and/or Repurchase Transactions with financial institutions (including with a member of the UBS AG Group as the stock borrower or counterparty to the Repurchase Transaction) with a minimum credit rating at the time the relevant transaction as permitted by the Regulations, or which are deemed by the Fund to have an implied credit rating at least equal to such level (a "**Counterparty**"). Any such stock lending arrangement and Repurchase Transaction will be subject to the conditions, limits and requirements of the Central Bank and the provisions of the Prospectus. In these transactions, Collateral will move between the Company and the relevant Counterparty in order to mitigate any counterparty risk.

There is no limit on the proportion of assets that may be subject to such Securities Financing Transactions and Total Return Swaps and therefore the maximum proportion of the Fund's assets that can be subject to Securities Financing Transactions or Total Return Swaps can be as much as 100%, i.e. all of the assets of the Fund. The expected proportion of the Fund's total assets that can be subject to each type of Securities Financing Transaction should be in the range of 0% and 95%. In any case the most recent semi-annual and annual accounts of the Fund will express the amount of the Fund's assets subject to Securities Financing Transactions and Total Return Swaps.

Investors should also note the information contained in the "Securities Lending and Repurchase Transactions" and "Collateral Policy" sections in the main body of the Prospectus.

Risk Management

The Company on behalf of the Fund has filed with the Central Bank its risk management policy which enables it to accurately measure, monitor and manage the various risks associated with the use of FDIs. The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

The Company will use the commitment approach for the purposes of calculating global exposure for the Fund. The Fund's total exposure to the Reference Index will be limited to 100% of Net Asset Value.

Efficient Portfolio Management

The Company may also, for the purposes of efficient portfolio and cash management and not for investment purposes, invest in cash deposits, money market instruments (which shall include U.S. treasury bills, cash deposits, and short-term money market deposits), put and/or call options and units of UCITS regulated money market collective investment schemes.

Further information on efficient portfolio management is contained in the main body of the prospectus under the heading "Use of Financial Derivative Instruments and Efficient Portfolio Management".

Investment Restrictions

Investors in particular must note that the general investment restrictions set out under "**Investment Restrictions**" in the Prospectus apply to the Fund. In addition, the following investment restrictions shall apply to the Fund:

- (i) The Fund shall not invest in a fund of the Company which itself holds shares in any other fund of the Company; and
- (ii) For the avoidance of doubt, in accordance with Regulation 68(2)(a) of the UCITS Regulations, the Fund is permitted to invest no more than 10% of its net assets in securities which are not "permitted securities", being those securities which are detailed in section 5.1 of the Prospectus.

German Investment Tax Act Disclosure

It is the intention of the Company to seek German tax reporting status for all Share Classes of the Fund. On this basis, in addition to the investment restrictions set out in the Prospectus, the Fund will also adhere to the restriction that at least 80% of the Net Asset Value of the Fund shall be invested in equity participations (the "Equity Participation Ratio"). More details on the Equity Participation Ratio can be found in the Prospectus.

As the Fund will continuously invest more than 50% of their respective assets in equity investments (as defined in Section 2(8) of the German Investment Tax Act and related guidelines), it will qualify as an "Equity fund" within the meaning of Section 2(6) of the German Investment Tax Act for the partial exemption pursuant to Section 20(1) of the German Investment Tax Act.

Investors should refer to their tax advisors in relation to the implications of German tax reporting status being obtained.

Disruption Events

The following Disruption Events shall apply to the Fund in addition to those set out in the Prospectus:

- (i) the Index Provider makes an adjustment or modification to the calculation of the Reference Index;
- (ii) the Approved Counterparty is:
 - (a) prevented, hindered or impaired from conducting one or more of its activity/activities in a commercially reasonable manner in connection with the establishment, maintenance, adjustment or termination of any transaction(s) in order to fully hedge its exposure in respect of the Reference Index; and/or
 - (b) prevented, hindered or impaired from performing one or more of its obligation(s) in a commercially reasonable manner,under the terms of the relevant Swaps, with the consequence that the Approved Counterparty or the Calculation Agent (as applicable) elects to:
 - I. adjust the terms of the Swaps; and/or
 - II. delay payment to the Fund under the terms of the Swaps; and/or
 - III. terminate the Swaps;
- (iii) the Index Provider fails or delays in calculating, announcing and/or publishing the Reference Index level.

Consequences of Disruption Events

As further described in the Prospectus and as set out above, upon the occurrence of a Disruption Event including an Index Disruption and Adjustment Event (and without limitation to the Directors' personal powers), (i) the Approved Counterparty (where acting as the relevant Calculation Agent or otherwise) may either (a) terminate one or more of the relevant Swaps or (b) make adjustments to the terms or valuation of the relevant Swaps and other derivative contracts to account for such event and the Net Asset Value may be affected by such adjustment; (ii) the Directors may temporarily suspend the calculation of the Net Asset Value and any subscription, redemption and exchange of Shares; and/or (iii) the Directors may, in certain circumstances, terminate the Fund.

Borrowings

In accordance with the general provisions set out in the Prospectus under the heading "**Borrowing and Lending Powers**", the Company on behalf of the Fund may borrow up to 10% of the Net Asset Value of the Fund on a temporary basis. Such borrowings may only be used for short term liquidity purposes to cover the redemption of Shares.

Dividend Policy

The Fund does not intend to issue dividends in respect of the USD acc, EUR acc, CHF acc, GBP acc, HKD acc, SGD acc, JPY acc, SEK acc, hUSD acc, hCHF acc, hGBP acc, hHKD acc, hSGD acc, hJPY acc, hSEK acc, hPLN acc and hNOK acc Share Classes. However, the Directors may, in their absolute discretion, determine to declare dividends in respect of such Share Classes and Shareholders will be notified accordingly. Any dividends payable by the Fund will be effected in accordance with the Dividend Policy stated in the Prospectus.

The Directors may declare dividends attributable to the EUR UKdis, hUSD UKdis, hCHF UKdis, hGBP UKdis, hHKD UKdis, hJPY UKdis, hSEK UKdis, hPLN UKdis, hNOK UKdis, hSGD UKdis, and EUR dis Share Classes in respect of any six or twelve month period ending on 31 December and/or 30 June. Such dividends may be declared out of:

- (i) net income (being the accumulated revenue consisting of all revenue accrued including interest and dividends) less expenses; or
- (ii) realised and unrealised capital gains on the disposal/valuation of investments less realised and unrealised capital losses of the Fund.

Any such dividends will be paid within four calendar months after declaration. Shareholders will be notified in advance of the payment of any such dividend and the period for which it will be determined.

The Directors reserve the right to increase or decrease the frequency of dividend payments, if any, at their discretion for income distribution Shares. In the event of a change of policy full details will be disclosed in an updated Supplement and Shareholders will be notified in advance.

Any dividend unclaimed after six years from the date when it first became payable shall be forfeited automatically, without the necessity for any declaration or other action by the Company.

Further information is set out in the "Dividend Policy" section of the Prospectus.

The dividend payments may be as low as zero. There is no guarantee that any dividend will be declared. For the avoidance of doubt, the payment of a dividend (if any) will reduce the Net Asset Value of the relevant Share Class accordingly.

Limited Recourse

A Shareholder will solely be entitled to look to the Fund Assets in respect of all payments in respect of its Shares. If the realised net assets of the Fund are insufficient to pay any amounts payable in respect of the Shares, the Shareholder will have no further right of payment in respect of such Shares nor any claim against or recourse to any of the assets of any other Fund or any other asset of the Company.

Listing

Application will be made to such exchanges as the Directors may determine from time to time (the "**Relevant Stock Exchanges**") for the listing of the Shares issued and available to be issued and to be admitted to listing on the official list and trading on each of the Relevant Stock Exchanges. This Supplement and the Prospectus together comprise listing particulars for the purposes of listing the Shares on the official list and trading on the main market of each of the Relevant Stock Exchanges.

Exchange Traded Fund

The Fund is an Exchange Traded Fund ("**ETF**"). The Shares of this Fund (where they are listed on the Relevant Stock Exchanges) are fully transferable among investors. It is envisaged that Shares

will be bought and sold by public and institutional investors in the secondary market in the same way as the ordinary shares of a listed trading company.

The Directors of the Company may create new Share Classes from time to time, provided that the creation of any such new Share Classes is notified in advance to and cleared by the Central Bank. A separate pool of assets will not be maintained for each of the Share Classes.

***The Manager may waive all or part of the Primary Market Transaction Costs in the event that the Shares subscribed or redeemed by a Shareholder correspond at least to the Minimum Redemption Amount/basket or a multiple thereof or for any other reason at the Manager's sole discretion.

Separate to and distinct from the Exchange Charge and Primary Market Transaction Costs, which shall be deducted from the investment amount received from an investor or deducted from the redemption proceeds payable to the investor or used to purchase the Shares of the New Class (as appropriate), the following fees and expenses will be incurred by the Company on behalf of the Fund and will affect the Net Asset Value of the relevant Share Class of the Fund:

Share Class	"acc"	"dis"
Flat-Fees	0.10% per annum	0.10% per annum

The Promoter shall discharge the fees associated with the establishment and approval of the Fund.

Swap charges

In determining the price payable by the Fund for the Swaps, the Approved Counterparty will take into account the following factors:

- Any transaction fees and costs and charges that arise relating to trading the Swaps which may include any brokerage costs, index licence fees, relevant collateral costs and other costs of hedging the Swap agreements. Such costs and charges will be levied at normal commercial rates.
- Any costs associated with foreign currency hedging.

- c) All external fees and costs relating to the Fund or the Company, as further described in the Flat Fee section of the Prospectus.

This section headed "**Fees and Expenses**" should be read in conjunction with the sections headed "**Fees and Expenses**" and "**Issue and Repurchase Price/Calculation of Net Asset Value/Valuation of Assets**" in the Prospectus.

GENERAL DESCRIPTION OF THE REFERENCE INDEX

The Reference Index reflects the return of a daily compounded Euro short term rate (€STR).

€STR is an overnight reference rate calculated by the European Central Bank and reflects the wholesale euro unsecured overnight borrowing costs of euro area banks. The rate is based on transactions conducted and settled on the previous day which are deemed to be executed at arm's length and thereby reflect market rates in an unbiased way. Further details on the calculation methodology of €STR can be found on:

https://www.ecb.europa.eu/stats/financial_markets_and_interest_rates/euro_short-term_rate/html/index.en.html

The compounding is done with an actual over 360 day count convention.

The Reference Index is not rebalanced.

The Reference Index is calculated in EUR (Euro).

Index Provider and website

The Reference Index is governed by Solactive AG. More details on the Reference Index, including its underlying components can be found at <https://www.solactive.com/>

OTHER INFORMATION

Risk Factors

Certain risks relating to the Shares are set out under the heading "**Risk Factors**" in the Prospectus. In addition, Shareholders must also note that:

- (a) The sub-funds of the Company are segregated as a matter of Irish law and as such, in Ireland, the assets of one sub-fund will not be available to satisfy the liabilities of another sub-fund. However, it should be noted that the Company is a single legal entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation. There can be no guarantee that the courts of any jurisdiction outside Ireland will respect the limitations on liability as set out above.
- (b) Upon the occurrence of a Disruption Event or an Index Disruption and Adjustment Event (and without limitation to the Directors' personal powers as further described in the Prospectus); (i) adjustments may be made to account for any such event (including adjustment to the Reference Index, the calculation of the Reference Index level and/or changes to the terms of the derivative contracts) which may have a significant impact on the Net Asset Value of the Fund; (ii) the Directors may temporarily suspend the calculation

of the Net Asset Value and any subscription, redemption and exchange of Shares and payment of redemption proceeds in accordance with the provisions of the Prospectus under the section "Suspension of Calculation of Net Asset Value"; and/or (iii) the Directors may, in certain circumstances as set out in the Prospectus, terminate the Fund.

- (c) The return payable under the Swaps with a counterparty is subject to the credit risk of the counterparty. In addition, the counterparty will generally act as the calculation agent under the Swaps (the "**Calculation Agent**") and perform those duties agreed in the ISDA Master Agreement and confirmation for the relevant Swaps. Shareholders should note that not only will they be exposed to the credit risk of the counterparty but also potential conflicts of interest in the performance of the function of Calculation Agent by the counterparty. The counterparty will use its reasonable endeavours to resolve any such conflicts of interest fairly (having regard to its respective obligations and duties) and to ensure that the interests of the Company and the Shareholders are not unfairly prejudiced. The Directors believe that the counterparty will be suitable and competent to act as Calculation Agent. Any valuations provided by the counterparty in its role as Calculation Agent will be verified at least weekly by a party independent of the counterparty as sourced by the Administrator and approved by the Depositary.
- (d) The value of investments and the income from them, and therefore the value of and income from the Shares can go down as well as up and an investor may not get back the amount invested. The Fund's exposure is linked to the performance of the components of the Reference Index which, in turn, is exposed to general market movements (negative as well as positive).
- (e) There can be no assurance that the Reference Index will be successful at producing positive returns consistently or at all. The Index Provider makes no representation or warranty, express or implied, that the Reference Index will produce positive returns at any time.
- (f) Additional Classes of Shares may be created at any time without the consent of the then existing Shareholders in accordance with the Central Bank's requirements. Each Class of Shares issued in respect of the Fund will perform differently as a result of differences of currency and fees (as applicable). The Company on behalf of the Fund will enter into Swaps that are designed to generate the cash flows payable in respect of the Shares of the relevant Classes. There is no legal segregation of assets and liabilities between Classes and there is no separate portfolio of assets held for each Class.
- (g) The Company on behalf of the Fund will enter into separate derivative contract(s) in respect of each Class. Each derivative contract will be on similar terms except that each derivative contract will provide a return in the currency of denomination of each Class of Shares to which it relates.
- (h) The Fund's use of the Reference Index is licensed by the Index Provider. If at any time, the licence is terminated or the Reference Index otherwise becomes unavailable, unreliable, inaccurate or unrepresentative, the Fund Directors may exercise their discretion to terminate the Fund in accordance with the terms of the Articles.
- (i) The Fund is exposed to the investment risk arising from the Reference Index underlying the Swaps. The Fund is therefore exposed to the risks inherent to investments in equity markets.
- (j) Some of the markets in which the Fund may effect derivative transactions are "over-the-counter" or "interdealer" markets, which may be illiquid and are sometimes subject to larger spreads than exchange-traded derivative transactions. The participants in such markets are typically not subject to credit evaluation and regulatory oversight, which would be the case with members of "exchange-based" markets. This exposes the Fund to the risk that

a counterparty will not settle a transaction in accordance with its terms and conditions because of a credit or liquidity problem with the counterparty. Delays in settlement may also result from disputes over the terms of the contract (whether or not bona fide) since such markets may lack the established rules and procedures for swift settlement of disputes among market participants found in "exchange-based" markets. These factors may cause the Fund to suffer a loss due to adverse market movements while replacement transactions are executed or otherwise.

- (k) Whilst the Company has the right to use and reference the Reference Index in connection with the Fund in accordance with the terms of the Reference Index license, in the event that the licence is terminated the Fund may be terminated or if any other Index Disruption and Adjustment Event occurs, adjustments may be made to the terms of the Swaps after negotiation with each Approved Counterparty to account for any such event including adjustment to the Reference Index or the calculation of the Reference Index level which may have a significant impact on the Net Asset Value of the Fund.
- (l) Subject to certain pre-defined parameters, it is possible that the methodology used to calculate the Reference Index or the formulae underlying the Reference Index could change and such change may result in a decrease in the performance of the Reference Index. As such, aspects of the Reference Index could change in the future, including without limitation, the methodology and third party data sources. Any changes may be made without regard to the interests of a holder of any product linked to the Reference Index. Additionally, the Reference Index was created by the Index Provider, who has the right to permanently cancel the Reference Index at any time. Such cancellation may have a material adverse effect on any linked investments or transactions.
- (m) Sustainability risk within the meaning of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector are environmental, social and governance events or conditions whose occurrence could have an actual or potential principal adverse impact on the value of the Fund's investment. Consistent with the requirements applicable to the Manager under the UCITS Regulations, the Manager is required to take sustainability risks into account in the ongoing monitoring of investments. However, sustainability risks can affect all known types of risk (for example, market risk, liquidity risk, counterparty risk and operational risk), and as a factor, contribute to the materiality of these risk types. This Fund is passively managed, tracking the Reference Index. Sustainability risks are not considered as part of the index selection process and the Investment Manager aims to track the index in line with the limits set out in the investment policy of the Fund. Therefore, sustainability risks are not the primary consideration for investment decisions and the Investment Manager does not expect that the assessment of likely impacts of sustainability risks will materially impact the expected risk or return characteristics of the Fund. Given the investment objective and policy of the Fund, the Manager does not consider the adverse impact of investment decisions on sustainability factors as it believes focusing on the selection of investment opportunities for the Fund to be a more efficient use of its resources.
- (n) The Fund relies on a floating rate, the Euro short-term rate (€STR). Alterations or reforms in the determination or oversight of the €STR might negatively affect the market, value of any securities, or payments connected to the €STR. Moreover, any alternative to the €STR and any pricing adjustments mandated by a regulator, counterparties, or other entities may negatively impact the Fund's performance and/or Net Asset Value. In addition, changes in interest rates may positively or negatively affect the Fund's performance, including a potential negative return net of fees and expenses.

Investors should also refer to the Prospectus for additional disclosure of risks.
