MTA, MIV and AIM Italia

| | Fee for every 1,000,000 Euro of capitalisation | Cap | Floor |
|---|--|------------------------|---|
| New Companies¹ | € 180.00 | € 500,000 | <ul style="list-style-type: none"> • MTA <ul style="list-style-type: none"> ○ Capitalisation ≤ €1bn : €35,000 ○ Capitalisation > €1bn : €100,000 • MIV : €15,000 • AIM Italia : <ul style="list-style-type: none"> ○ Capitalisation ≤ €20m : €15,000 ○ Capitalisation > €20m : €25,000 |
| Companies resulting from mergers involving only listed issuers² | € 100.00 | € 150,000 | € 15,000 |
| Companies already listed on foreign stock exchanges³ | € 100.00 | € 50,000 | € 15,000 |
| New classes of shares | | € 5,000 for each class | |

¹ The capitalisation is calculated on the basis of the offering price. In the case of companies which are not making a public offering for listing or admission purposes, the fees will be calculated on the basis of the official price on the first day of trading. The fee is also charged to new companies resulting from the de-merger from companies already listed or admitted and to transfers between markets.

² The capitalisation is calculated on the basis of the official price on the first day of trading.

³ The capitalisation is calculated on the basis of the official price on the first day of trading or the offering price (for offerings in Italy) multiplied by the total number of shares after the offering.

Management companies which apply for the admission of more than one financial instrument during the same year will benefit from the below reductions⁴:

- 1st instrument: 0%
- From 2nd to 5th instrument: -15%
- From 6th instrument: -30%

Issuers requiring the Star status will be charged an additional €5,000 at the time the status is obtained.

For units of investing companies seeking admission on AIM Italia the above fees will be applicable in addition to those described in Section 3 (W) below.

For MTA and MIV markets, an advance payment, corresponding to the Floor, will be due on applying for the admission procedure which is not reimbursable if the company decides not to proceed with its application for admission or the application is not formalised within three months of the fee being billed. This fee will be billed the first time a company applying for admission submits documentation.

For AIM Italia a not reimbursable advance payment, corresponding to the Floor, will be invoiced and due on applying for admission; any integration will be invoiced after admission and will be payable within 30 days of the date of invoicing⁵.

1.2 Half-yearly fee

The fee includes also the provision to issuers of following services:

- Assistance in compliance with regulatory obligations, also through systems ensuring the effective relationship management with the issuer, with particular reference to the management of price sensitive information;
- assistance and support in the technical management of operations of:
 - merger / spin-off
 - conversion
 - listing of separate lines
 - dividend payment
 - split / reverse split
 - free allotment
 - financial instruments duration extension

⁴ When more instruments are admitted at the same time, these instruments will be sorted in descending order to define the reduction to be applied to each single security.

⁵ Companies admitted onto AIM Italia – Professional Segment, which are at the same time suspended from trading, shall be charged a €15,000 floor. If, after the admission to trading, the capitalisation of the company, based on the official price in the first trading day, would require an admission fee higher than initially recognised, a final invoicing will eventually occur.

MTA, MIV and AIM Italia

| | Fee for every 1,000,000 Euro of capitalisation | Cap | Floor |
|---|---|-----------|---|
| Companies in dual or multiple listing with reference market in a trading venue different from Borsa Italiana⁶ | <ul style="list-style-type: none"> • MTA: € 10.000 • MIV: € 8.000 • AIM Italia : € 8.000 • AIM Italia – Professional Segment: € 8.000 | | |
| Other companies | <ul style="list-style-type: none"> • Up to €1bn of capitalisation: €22,00 • Up to €1bn of capitalisation: €20,00 | € 215.000 | <ul style="list-style-type: none"> • MTA : € 10.000 • MIV : € 10.000 • AIM Italia : €8.000 • AIM Italia Professional Segment: € 8.000 |
| Securities suspended indefinitely from trading at the end of the semester preceding the invoicing⁷ | <ul style="list-style-type: none"> • MTA: €10.000 • MIV: €8.000 • AIM Italia: €8.000 | | |

⁶ The half-yearly fee for companies in dual or multiple listing is defined according to the market in which the company's shares are most traded (*reference market*). For the purpose of applying this Pricelist:

- Borsa Italiana becomes the reference market, if during the previous six months the daily average number of shares traded on the Borsa Italiana markets was at least 20% higher than the daily average number of shares traded in each of the other trading venues where the company is admitted to listing / trading.
- Borsa Italiana ceases to be the reference market, if during the previous six months the daily average number of shares traded on the Borsa Italiana's markets was lower than the daily average number of shares traded in at least one of the other trading venues where the company is admitted to listing / trading.

The half-yearly fee applied to the companies in dual or multiple listing that have Borsa Italiana as the reference market will be the one applied to "Other Companies":

- for companies who were subject to the € 215,000 cap in the previous semester, the cap will be reduced to € 30,000 if during the previous six months the daily average number of shares traded on Borsa Italiana markets was less than 40% of the total daily average of the shares traded in all the trading venues in which the company is admitted to listing / trading.
- companies who were subject to the € 30,000 cap in the previous semester or are new issuers within the previous semester will remain subject to the € 30,000 cap unless during the previous six months the daily average number of shares traded on Borsa Italiana markets exceeded 50% of the total daily average of the shares traded in all the trading venues in which the company is admitted to listing / trading.

⁷ The invoicing of the fees is suspended until the re-admission to trading of the suspended securities, with the exception of securities which are admitted onto AIM Italia – Professional Segment, and at the same time suspended from trading.

- AIM Italia – Professional Segment⁸ : €4.000

An additional charge of €1,250 per semester will be applied to Companies belonging to Star segment.

The fees referred to in Article 1.1 and 1.2 shall not be applicable to companies listed on the BIt GEM segment.

In addition of the above fees, issuers distributing instruments on MTA and MIV through Borsa Italiana infrastructure will be charged 0.30% of subscribed capital, with a €50,000 Floor⁹

Once admitted to trading, any company which is indefinitely suspended from trading is charged according to AIM Italia's fees and note 7.

⁹ Issuers that finalised the application process for the admission to direct distribution before 31st December 2021 benefit of a 50% promotional discount, i.e. 0.15% fee on subscribed capital, with a €25,000 floor.

| € 100 millions | € 300 millions | 0.0050 % |

- list during the fiscal year the maximum number of instruments associated to the package (Packages A), B), C) and D) or,
- have a number of instruments listed on the market, whose daily average during each month does not exceed the maximum number associated with the package (Package E).

Listing packages subscribed by issuing Companies cover also other Companies belonging to the same Group, or related vehicles.

Issuers shall notify Borsa Italiana S.p.A. of the chosen package by 20th January of each calendar year. The payment of the associated fee is due on a monthly basis.

4.4.1 PACKAGES WHICH GIVE THE RIGHT TO LIST A MAXIMUM NUMBER OF INSTRUMENTS¹⁵

A) Listing Packages for Plain Vanilla Covered Warrants

| | Number of Instruments | Annual fee | Fee for additional series |
|------------------|-----------------------|------------|---------------------------|
| Package 1 | 600 | € 200,000 | € 500 |
| Package 2 | 1,500 | € 300,000 | € 200 |
| Package 3 | 4,000 | € 600,000 | € 150 |

¹⁵ Issuers can upgrade their package during the year by communicating Borsa Italiana S.p.A. the change by 30th September. The new package will be effective starting from the following 1st October and will require the payment of the difference between the *package fee* of the new package and the *package fee* of the previously selected package. The upgrade will not be retroactive, thus *fees for additional series* already paid by the issuer will not be reimbursed.

B) Listing Packages for Structured/Exotic Covered Warrants and leverage Certificates – Class A (Open End included)

| | Number of Instruments | Annual fee | Fee for additional series |
|------------------|-----------------------|------------|---------------------------|
| Package 1 | 200 | € 100,000 | € 600 |
| Package 2 | 500 | € 200,000 | € 400 |
| Package 3 | 1,200 | € 300,000 | € 250 |
| Package 4 | 2,000 | € 400,000 | € 200 |

C) Listing Packages for Plain Vanilla Covered Warrants, Structured/Exotic Covered Warrants and leverage Certificates – Class A (Open End included)

| | Number of Instruments | Annual fee | Fee for additional series |
|------------------|-----------------------|------------|---------------------------|
| Package 1 | 2,000 | € 400,000 | € 200 |
| Package 2 | 3,000 | € 500,000 | € 166 |
| Package 3 | 4,000 | € 600,000 | € 150 |

D) Listing Package for Investment Certificates in direct listing¹⁶

| | Number of Instruments | Annual fee | Fee for additional series |
|------------------|-----------------------|------------|---------------------------|
| Package 1 | 150 | € 90.000 | € 700 |
| Package 2 | 300 | € 150.000 | € 700 |

If an Issuer needs to list more instruments than those associated to the chosen package, the additional series are charged according to the fees indicated in each table above.

The following concession will apply in case an issuer purchases one A) Listing Packages for Plain Vanilla Covered Warrants and one B) Listing Packages for Structured/Exotic Covered Warrants and leverage Certificates – Class A (Open End included). At any time during the year, if the issuer has not listed all the instruments associated to a chosen package, he

¹⁶ Certificates in direct listing are meant to be those products admitted to trading without being subject to a previous public offer or a private placement

may opt to use the unallocated monetary value of that package to list instruments associated to the second package¹⁷.

By way of example:

An issuer purchases Plain Vanilla Covered Warrant package 2 (1,500 instruments for 300,000€) and Leverage Certificates - Class A Package 1 (200 instruments for 100,000€). After nine months the issuer has listed all 200 Leverage Certificates but only 800 Covered Warrants, which accounts for $800 \times 200\text{€}^{18} = 160,000\text{€}$. Issuer may decide to communicate to Borsa Italiana S.p.A. to use the remaining 140,000€ to list additional Leverage Certificates in the number of 280, calculated as $140,000 \text{€}/500\text{€}^{19}$.

4.4.2 PACKAGES WHICH GIVE THE RIGHT TO HAVE AN AVERAGE NUMBER OF LISTED INSTRUMENTS

E) Listing Packages for Plain Vanilla Covered Warrants, Structured/Exotic Covered Warrants and Leverage Certificates – Class A (Open End included)

| | Number of Instruments | | Annual fee |
|------------------|-----------------------|-------|-------------|
| | From | to | |
| Package 1 | 1 | 2,000 | € 400,000 |
| Package 2 | 2,001 | 4,000 | € 600,000 |
| Package 3 | 4,001 | 6,000 | € 800,000 |
| Package 4 | 6,001 | 8,000 | € 1,000,000 |

The number of instruments is calculated on a monthly basis as daily average of the number of listed instruments. Each month the applied charge is:

- One twelfth of the annual fee of the selected package, if for that month the daily average number is not larger than the number of instruments associated to the selected package;
- One twelfth of annual fee of the relevant package in which the daily average number of listed instruments falls in, if for that month the daily average is larger than the number of instruments associated to the selected package.

¹⁷ The unallocated monetary value of a chosen package and the additional number of listed instruments are rounded to first integer

¹⁸ 200 Euro is calculated as the Covered Warrant package fee divided by the associated number of instruments.

¹⁹ 500 Euro is calculated as the Leverage Certificates package fee divided by the associated number of instruments

If the daily average number of listed instruments exceeds the maximum number of instruments associated to the selected package for three consecutive months, the selected package will be automatically updated to smallest package reached during the abovementioned three months.

4.5 Stand alone listing application (ex art. 2.4.2 Rules)

An additional fee of 1,500€ for each listing application (to be added to the fees of 4.1, 4.2, 4.3, 4.4 and 4.6)

4.6 Declaration of admissibility and confirmation of declaration of admissibility

- Declaration of admissibility: a flat fee to be paid on declaration of admissibility of 3,000 Euro for each declaration.
- Confirmation of admissibility: a flat fee to be paid on confirmation of admissibility of 2,000 Euro for each confirmation.

4.7 Securitised Derivatives distributed via SeDeX market

A One-off fee, to be paid at the end of the distribution period and equal to the 0.05% of the raised amount per each series, with the following floor and cap:

- Floor: 2.000 €²⁰
- Cap: 20.000 €

In case of simultaneous distribution²¹ via SeDeX of two series, the one-off fee for one series is not applied if this is not issued or if the raised amount is below 4 million Euro.

For example, in case of simultaneous distribution of three series with a raised amount of:

- Series 1: 60 million Euro
- Series 2: 3 million Euro
- Series 3: not issued

Fees would be:

- Series 1: $\text{Min}(0.05\% \times 60,000,000 \text{ Euro}, 20,000 \text{ Euro}) = 20,000 \text{ Euro}$

²⁰ The floor is also applied if the series is not issued.

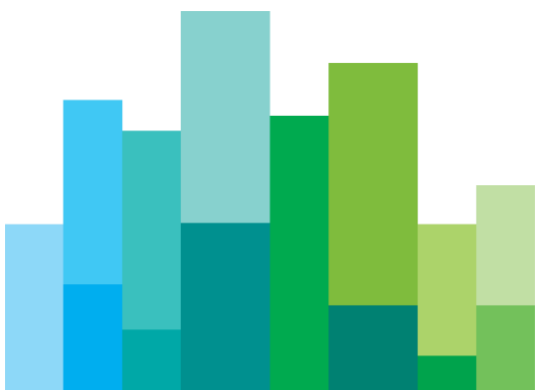

²¹ Same days of start and end of the distribution periods.

- Series 2: Second series, with a raised amount < 4,000,000 Euro = 0 Euro
- Series 3: 2,000 Euro

5.3 Admission to listing for open-end CIUs

8.500 € for each open-end CIU listed with a *Cap* of a total of 50,000€ per lot of up to 15 open-end CIUs for which an issuer simultaneously applies for the admission to listing (8,500€ for each open-end CIU exceeding the lots)²⁶. Instruments issued by issuers and Special Purpose Vehicles (SPVs) belonging to the same Group are aggregated at Group²⁴.

²² From 1 January 2021 to 31 December 2021, the first admission fee is reduced by 50% for all share classes (identified by ISIN code) following the first share class listed on ETFplus, even the same day, belonging to the same Sub-Fund.

²³ If, due to a corporate action, the listing occurs to replace and incorporate ETFs already listed on ETFplus, the cap of 50,000€ is established for the entire corporate action (regardless of the number of instruments)

²⁴ By way of example, if a Group contextually applies for 32 instruments, the admission fee is calculated as follow: 50,000 € (or 20,000€ in case of ETC/ETN) for the first 15 instruments, 50,000€ for additional 15 instruments (or 20,000€) and 17,000 € for the exceeding two instruments for a total fee of 117,000€ (or 57,000€). The pricing is applied to each instrument category separately.

²⁵ If, due to a corporate action, the listing occurs to replace and incorporate ETCs/ETNs already listed on ETFplus, the cap of 20,000€ is established for the entire corporate action (regardless of the number of instruments).

²⁶ If, due to a corporate action, the listing occurs to replace and incorporate open-end CIUs already listed on ATFund, the cap of 50,000€ is established for the entire corporate action (regardless of the number of instruments).

5.4 Half-yearly fee for instruments listed on the ETFplus/ATFund

5.4.1 Half yearly fee for ETF and ETC/ETN

For each instrument the half-yearly fee is calculated according to its Asset Under Management (AUM):

| Asset Under Management Bands ²⁷ | | Fees |
|--|---------|---------|
| FROM | TO | |
| Until | €100m | € 500 |
| €100m | €750m | € 2,000 |
| €750m | €1,500m | € 4,000 |
| Above | €1,500m | € 6,000 |

5.4.2 Half-yearly fee for open-end CIU

For each instrument the half-yearly fee is calculated according to its Asset Under Management (AUM):

| | Cap | Floor |
|---|---------|-------|
| Fee for every 500,000 Euro of Asset Under Management²⁷: €10.0 | € 6,000 | € 500 |

²⁷ The Assets Under Management (AUM) of the ETF, ETC/ETN and open-end CIU is calculated on the basis of the number of outstanding shares/quotes of the trading day preceding the first day of the half year to which reference is being made and on the basis of the arithmetic mean of the NAVs (subscription/redemption daily prices in case of ETC/ETN) of the trading days included in the half year preceding the invoicing one

5.4.3 Number of instruments listed on the ETFplus/ATFund

The half-yearly fee is reduced depending on the number of instruments²⁸ listed by Issuers or by Special Purpose Vehicle (SPV) belonging or referable to the same Group (*Group*), as follows:

| Number of instruments listed on the ETFplus/ATFund | | Reduction (%) |
|--|-----|---------------|
| From | to | |
| 0 | 50 | 0% |
| 51 | 100 | 15% |
| 101 | | 30% |

The reduction is calculated on the basis of the number of instruments per each band. For example, the reduction for a Group with 200 instruments on the ETFplus/ATFund is calculated as follows:

$$(50 \times 0\% + 50 \times 15\% + 100 \times 30\%) / 200 = 18.75\%$$

5.4.4 ETFplus half-yearly discounts based on volume traded

From 1st July 2021 the half-yearly listing fee will be further reduced according to the average daily value traded of each instrument on ETFplus over the previous semester, which the half-year fee relates to, including trades executed with the RFQ functionality.

Volume-based discounts are recognized after the other abovementioned allowances, and calculated on the following tiers of average daily value traded, single counted:

| Average daily value traded over the previous semester (single counted trades) | | Reduction (%) |
|--|--------|---------------|
| From | to | |
| 0 | €0.50m | 0% |
| €0.50m | €1.25m | 15% |
| €1.25m | €3.50m | 20% |

²⁸ The number of instruments is referred to the trading day preceding the first day of the half year to which reference the fee is calculated

| Average daily value traded over the previous semester (single counted trades) | | Reduction (%) |
|--|----|---------------|
| From | to | |
| €3.50m | | 30% |

5.4.5 ETFplus discounts based on the date of admission

Instruments listed on the ETFplus/ATfund are exempted from the payment of half-yearly fees for the semester in which they begin to trade and for the subsequent one.

5.5 Closed-end UCITS

The same fees as for the equity market (based on capitalisation) are applied to closed-end Funds investing in securities or in real-estate.

9. GENERAL CRITERIA

9.1 General Criteria

All fees specified in this Price List are net of VAT (VAT not included).

Unless expressly indicated otherwise, the capitalisation to be used for determining annual fees is obtained by multiplying the arithmetic average of the official prices (adjusted where necessary to take into account capital transactions) of the days (on which the securities were traded) in the six months in question by the number of shares making up the share capital at 31 December and 30 June of each year.

Initial listing or admission fees are payable in the half-year in which the security is first listed or admitted and are not reducible on a pro rata time basis.

The half-yearly fee is payable starting from the half-year subsequent to that in which the security was first listed or admitted, with the exception of ETF Plus and ATFunds, that are charged from the second half-year subsequent to that in which the security was admitted to trading (par. 5.4.5). The annual fee for open end Leverage Certificates - Class B and Investment Certificates (par. 4.3) is payable starting from the year subsequent to that in which the security was admitted.

Condition for the application of the above-mentioned fees, which are not reducible on a pro rata time basis, is the presence of the security:

- on 1 January of the year of reference for open end Leverage Certificates - Class B and Investment Certificates admitted to trading on SeDeX Market.
- on 1 January or 1 July of the semester of reference on the official list of the financial instruments listed on the markets organised and managed by Borsa Italiana S.p.A. or of the securities admitted on AIM Italia.

Unless expressly indicated otherwise, in the case of mergers between listed companies effective from 1 January or 1 July, in order to calculate the capitalisation of the resulting company the arithmetic average of the official prices (adjusted where necessary to take into account capital transactions) will be used, multiplied by the number of shares resulting after the date of execution of the merger. The referred prices are those recorded for the incorporating entities during the days of the half year preceding the merger on which the securities were traded.

The fees for the admission of all financial instruments to the EuroTLX market, as well as the respective trading rights, are indicated in the trading fees published on Borsa Italiana's website.

In case of discrepancy, the Italian original of this document will prevail upon this English translation.
