

Biancamano S.p.A.

PRESS RELEASE

Rozzano (MI), 01 December 2014

BIANCAMANO: ONE YEAR EXTENSION OF URBAN CLEANING SERVICES CONTRATC IN RAPALLO (GE) FOR A TOTAL AMOUNT OF ABOUT 4.1 MILLION.

Biancamano Spa, a company listed on MTA market of Borsa Italiana, and leading private operator in Italian Waste Management industry, through its subsidiary company Aimeri Ambiente Srl, was assigned the extension of Urban Cleaning Services contract by Municipality of Rapallo (GE).

The Municipality of Rapallo, pending the call of the new tender, has decided to extend the current contract with Aimeri Ambiente Srl, which has been operating on the territory since 2010 as winner of the previous tender expiring on 30 November 2014. The extensions will last 12 months from 01 December 2014 for a total amount of 4.1 million euro (VAT excluded).

The tender relates the Urban Cleaning Services and the collection and transportation of solid urban waste and separated waste in the municipal territory for a total of about 30.500 inhabitants.

*"We are really pleased – states **Giovanni Battista Pizzimbone**, Chairman of Biancamano Spa – about this contract's extension, because we have invested a lot in terms of resources, technology and innovation, in a territory, Tigullio, particularly affected by natural events, in order to contribute to improve citizens' life quality. Now the challenge is to further improve the sorted collection, which reached, thanks to both citizens and our contribution, percentages among the highest in Liguria."*

Biancamano is the main Italian private operator in Waste Management sector, leader in the Urban Cleaning integrated Services. The Group, through its subsidiary company Aimeri Ambiente, is specialized in planning, managing and controlling the complete cycle of the environmental operating services: from the collection and transportation of Municipal Waste, to the separate collection, to the streets sweeping and washing, and to the realization and management of the ecological platforms, on behalf of local public organizations and private operators. The Group furthermore manages disposal and storage plants. With about 2,000 employees, 2,900 vehicles and a GPS advanced control system, the Group is present throughout the national territory.
