Genoa, June 27 2017

ANSALDO STS has been awarded of 100 million Euros framework agreement with RFI

Ansaldo STS has been awarded of a procurement procedure, within a framework agreement, worth of 100 million Euros

The agreement scope of work includes the supply of technical assistance services, maintenance and repair; furthermore reconfiguration and upgrading of Ansaldo STS systems in revenue service on RFI network. The contract will last two years and is based on two main activities:

- 1. Technical assistance services, maintenance and repair of all Ansaldo STS systems and technologies existing on RFI network,
- 2. Reconfiguration and technological upgrade of Ansaldo STS systems and equipment, mainly related to the technologies: RBC, SCC/SCCM, ACC/ACCM, SSA, SCMT-T and CTC EVO.

These systems are working nowadays on RFI main lines, both on the conventional lines (SCC / SCCM junction of Turin, Milan, Verona, Venice, Genoa, Naples, Palermo and on the Tirrenica and Adriatica lines), and on the High Speed lines (with the use of RBC/ERTMS LII, ACC/ACCM, SCC/SCCM technology).

Ansaldo STS is proud to support RFI's commitment for the renovation of railways systems and to support the improvement of safety for passengers and the entire community.
