

PRESS RELEASE

MARZOCCHI POMPE TAKES PART TO "VIRTUAL AIM ITALIA CONFERENCE 2020, MILAN"

Bologna, 22 May 2020 - Marzocchi Pompe S.p.A. (AIM:MARP), a leading company in the design, production and marketing of high performance gear pumps and motors, will be attending the "Virtual AIM Italia Conference 2020, Milan", scheduled for Monday, May 25, 2020.

The event, organized by the Italian Stock Exchange, is dedicated to companies listed on the AIM Italia market, to introduce the results achieved and future trends to Italian and international institutional investors. Now in its third edition, the "AIM Italia Conference 2020, Milan" will be organized entirely in virtual mode, with digital meetings in one-to-one or in small groups.

On this occasion, the Management of Marzocchi Pompe will present the 2019 financial results and the Group's strategy and business model. From the timing point of view, the event is particularly important as it will allow the Company to keep investors up to date on the resumption of production activities after the government lockdown, highlighting how the security measures previously adopted have allowed a very effective restart of operations.

Gabriele Bonfiglioli, CEO of Marzocchi Pompe commented: *"After the long-distance talks with Investors that followed the publication of the 2019 results, the AIM Italia Conference represents the first moment to discuss the current scenario.*

Following the Prime Ministerial Decree of 22 March 2020, we suspended our activities until 14 April 2020, that is, when we reopened both plants in order to guarantee the continuity of the so-called "essential" supply chains, and from 4 May 2020 we are finally 100% operational.

Although we are aware of the difficult market conditions, we are focused on facing the continuation of the year in the best possible way, Marzocchi Pompe has all the necessary tools to be able to take advantage of the opportunities that will arise: continuous drive for innovation, ability to be alongside customers to tailor products according to their needs, flexibility of production processes and maximum attention to quality and service are characteristics that are part of our DNA.

The AIM Italia Conference will also be an opportunity to further strengthen relations with institutional investors, both Italian and international, and to make them aware of the business model, as well as the strengths of Marzocchi Pompe and the strategies that we intend to implement in the upcoming months".

The presentation for Marzocchi Pompe investors will be made available, starting Monday morning, in the "Investor Relations" section of the Company's website www.marzocchipompe.com.

Marzocchi Pompe S.p.A.

Marzocchi Pompe is a leading company in the design, production and marketing of high-performance gear pumps and motors, which are used in various fields: industrial, mobile and automotive. 2019 closed with sales of approximately € 40 million. Founded in 1949, it is controlled by the Marzocchi family, which holds the majority of the shares and is present in the company with Paolo Marzocchi, President, and his son Carlo, in the Technical Area. The shareholder also includes CEO Gabriele Bonfiglioli and four other managers. The production is carried out entirely in Italy in the two locations of Casalecchio di Reno (BO) and Zola Predosa (BO). Marzocchi Pompe is present in over 50 countries through an international distribution network.
