

Press Release

PUBLICATION OF TRAFFIC FIGURES

Rome, 13 March 2020 - The measures taken to combat the COVID-19 epidemic are impacting traffic volumes and the operating performance of the infrastructure operated under concession by the Group's subsidiaries. In view of this, the Company announces that, given the continuing state of emergency, we have decided to publish – from today and with weekly updates to be provided every Wednesday – data on traffic trends (up to the latest available date) for the main Group companies in Europe. The figures will be available on the homepage of our website. Traffic performance data through to the current week are attached to this release.
