Any changes to the above calendar will be promptly communicated to the market.

Information on Energy

Energy S.p.A., founded in 2013 by **Davide Tinazzi, Andrea Taffurelli and Massimiliano Ghirlanda**, is a company with its operational headquarters in the province of Padua and is a **leader integrator for energy storage systems**, for residential use and large-scale applications. These systems enable the storage, hence, release of energy based on the energy needs of customers. Till now, more than **35,000 systems have been sold and installed by Energy in Italy**, for residential, commercial, industrial markets, Utilities and electric mobility. The most important projects implemented include the large facility in Comiso, Sicily, made up of an agrivoltaic system and a photovoltaic field; the large system dedicated to CAAB in Bologna; Smart Grids in numerous municipalities in Sardinia and Lombardy, a Condominium Energy Community in Switzerland where the single hubs exchange energy as needed. Energy's sales channels include both general electric material distributors and photovoltaic specialists, and the Company also works with large European EPCs. The proximity of Energy logistics to the headquarters of the main distributors has given the company a solid partnership with players on the Italian and European market. The Company acquires its components from the main international suppliers and combines them with **proprietary software** Zero Co₂ in systems compliant with European Union standards.
