The authorization has been granted for a period of eighteen months, starting from the resolution of the Ordinary Shareholders' Meeting, for the purchase, also in multiple tranches, of a number of ordinary shares of the Company, without indication of nominal value, for a maximum consideration of Euro 3,000,000 at a price not exceeding the higher of either the price of the last independent transaction or the current highest independent bid price on the trading venues where the purchase is made, provided that the unit price cannot be lower than 20% and higher than 10% compared to the reference price recorded in the market session of the previous day for each individual transaction. The authorization for the disposal of own ordinary shares has been granted without temporal limits.

As of the date of this announcement, the Company holds 65,985 own ordinary shares, representing 0.681% of the respective share capital.
