Approval of a share-based long-term incentive plan

The Ordinary Shareholders' Meeting has resolved to approve a share-based long-term incentive plan reserved for the executive directors of Ascopiave S.p.A. and certain management resources of Ascopiave S.p.A. and its subsidiaries.

For information on the terms and conditions of the said incentive plan, please refer to the information document prepared pursuant to Article 84-bis of the Issuers' Regulations and Schedule No. 7, Annex 3A of the Issuers' Regulations, available on the Company's website (www.gruppoascopiave.it, section “Investor Relations” - “Shareholders' Meetings”), as well as on the authorised storage mechanism at www.emarketstorage.com.

Authorisation for the purchase and disposal of treasury shares, subject to revocation of the previous authorisation granted by the Shareholders' Meeting held on 18 April 2023, for the non-executed portion.

The Ordinary Shareholders' Meeting has approved the authorisation, pursuant to Articles 2357 and 2357-ter of the Italian Civil Code, to purchase and dispose of treasury shares, subject to the revocation of the previous authorisation granted by the Shareholders' Meeting held on 18 April 2023, which was due to expire on 18 October 2024.

In particular, the Shareholders' Meeting has authorised the Company (i) to purchase, on one or more occasions, on a revolving basis, a maximum of no. 46.882.315 ordinary shares of Ascopiave or a different number that will represent a portion not exceeding a ceiling of 20% of the share capital, also taking into account the shares already owned by the Company and those that may be owned from time to time by the subsidiaries, for a period of 18 months from the date of the resolution; and (ii) to carry out acts of disposal, without time limits, of the treasury shares already in the portfolio and those that may be purchased by the Company.

The authorisation to purchase and dispose of treasury shares was ratified by the Shareholders' Meeting in order to provide the Company with a valid instrument to carry out, *inter alia*, investment transactions consistent with the Company's strategic guidelines, also by means of exchange, swap, assignment or other act of disposition of treasury shares, for the acquisition of participations or share packages or for other capital transactions involving the assignment or disposition of treasury shares (such as, for example, mergers, demergers, issues of convertible bonds or warrants, etc.).

The authorisation was approved by the Shareholders' Meeting in order to allow the Company, in compliance with the provisions in force from time to time, to (i) intervene, also through authorised intermediaries, to favour the regular trend of trading and prices, in the face of distorting phenomena linked to excessive volatility and/or poor trading liquidity; (ii) offer shareholders an additional tool to

monetise their investment; and *(iii)* acquire treasury shares to be allocated, if necessary, to service any share-based incentive plans reserved for directors and/or employees and/or collaborators of the Company or other companies controlled by it or its parent company.

Purchase transactions will be executed on the market, on one or more occasions, on a revolving basis, according to the operating procedures envisaged in the Rules of the Markets Organised and Managed by Borsa Italiana S.p.A., which do not allow the direct matching of buy trading proposals with predetermined sell trading proposals, in compliance with the provisions of Article 132 of the “TUF” and Article 144-*bis* of the Issuers' Regulations or, in any case, according to other procedures permitted by the law, including regulatory provisions, in force at the time.

With regard to the deeds of disposition, the resolution authorising the shareholders' meeting envisages that such transactions may be performed, on one or more occasions, by adopting any method that is appropriate in relation to the goals to be pursued, including: *(i)* market sale for trading activities or the so-called “block trading” *(ii)* the transfer to directors, employees and/or collaborators of the Company and/or companies controlled by it and/or the parent company in implementation of incentive plans; *(iii)* any other act of disposition, in the context of transactions in relation to which it may be appropriate to exchange or transfer share packages, also through an exchange or contribution, or, lastly, in the context of capital transactions involving the assignment or disposal of treasury shares (such as, by way of example, mergers, demergers, issues of convertible bonds or warrants).

The authorising resolution of the Shareholders' Meeting stipulates that the unit price for the purchase of the shares may not be 10% higher or lower than the reference price recorded by the share in the stock exchange session preceding each individual purchase transaction.

The unit price for the disposal of the shares will be established on a case-by-case basis for each individual transaction, provided that it may not be 10% lower than the reference price recorded by the share on the stock exchange trading session prior to each individual disposal transaction (*i.e.* the date on which the commitment to disposal is undertaken, regardless of the date of its execution). This minimum price limit shall not apply in the event of transfers to directors, employees and/or collaborators of the Company and/or its subsidiaries and/or the parent company in implementation of incentive plans, as well as in the event of transactions in relation to which it is appropriate to exchange or transfer share packages, also through an exchange or contribution, or in the event of capital transactions involving the assignment or disposal of treasury shares (e.g. mergers, demergers, issues of convertible bonds or warrants).

Pursuant to Section 2357.1 of the Italian Civil Code, the purchase of treasury shares is permitted within the limits of the distributable profits and available reserves resulting from the last regularly approved financial statements. The maximum disbursement for the purchase of treasury shares may not exceed the amount of distributable profits and available reserves resulting from the last duly approved financial statements equal, with reference to the draft financial statements as of 31 December 2023, to Euro 523.321.967,66.

The Company, in compliance with current and applicable regulations, will inform the market of the start date of the share buyback programme as well as any further information required.

As of today, the Company holds a number of treasury shares with a nominal value of Euro 17.701.578 (equal to 7.551% of the share capital).

Ascopiave did not purchase treasury shares in implementation of the purchase plan authorised by the Shareholders' Meeting held on 18 April 2023 and now revoked.

No subsidiary of Ascopiave holds shares in it.
