Tod's S.p.A., the Italian company listed on the Milan Stock Exchange and holding of the luxury goods group of the same name operating in luxury and quality shoes, accessories and apparel with the Tod's, Hogan, Fay and Roger Vivier brands, today approved the draft of the Group's 2019 Annual Report.

Message from the Group's Chairman and CEO

Diego Della Valle, Chairman and CEO of the Group, commented as follows:

In 2019, we continued the execution of our medium-term strategic plan, trying to get closer to the set objectives as quickly as possible.

The last months of the year gave us positive signals, and even better results were being achieved in the first weeks of this year, until the arrival of the Coronavirus. This confirms that all the initiatives undertaken were going in the right direction, also considering the desirability that makes our products special and therefore competitive with the collections of other famous brands of worldwide importance. The large investments made in the Dos network and in research and development also go in this direction properly. The most important goal remains to increase traffic in our direct stores and

¹ With the introduction of the new IFRS 16 accounting principle, as of January 1, 2019 leasing contracts are accounted differently from the past, with significant impacts on EBITDA, EBIT, Net Invested Capital, Net Financial Position and Operating Cash Flow. All the figures "adjusted" are referred to the values calculated net of this accounting principle.

in our franchised stores, in order to increasingly control the direct distribution, which today represents more than 70% of our turnover.

E-commerce is growing very well and we will increasingly invest in this sales channel to accelerate its growth. When our stores and e-commerce are fully operational, the turnover, but even more, the Group' profits will grow more than proportionally.

This is the medium term strategy, but we come to today.

The arrival of Coronavirus has forced us to review the strategy of the first half of 2020 and now, in a climate of strong uncertainty, we have prepared a plan that allows us to cut immediate costs and manage the flow of goods with great prudence, trying to dose at best the quantities of goods that we will put on the market. However, we are ready to start quickly as soon as the market normalizes. I believe that before the end of April it will not be possible to perceive how the semester will look like..

But now our first goal is to take care of the health of our employees, helping them for all the problems that Coronavirus can create, even indirectly, in managing the daily life of each family.

Notoriously our Group has always been close to its employees and this time it will be even more."

Comments to the Group's sales

In fiscal year 2019, consolidated sales were 916 million Euros, down 2.6% from 2018.

Revenues amounted to 238.3 million Euros in the fourth quarter of 2019, up 1.7% from Q4 2018.

In 2018, currency fluctuations gave a positive contribution, particularly to the Tod's and Roger Vivier brands, which have the greatest presence abroad. At constant exchange rates, meaning by using the average exchange rates of 2018, including the related effects of hedging contracts, sales would have been 905.6 million Euros.

Finally, sales of Fay amounted to 56.3 million Euros; the decrease, as compared to 2018, is mainly due to the weakness of the Italian market.

The Group's sales in Greater China totaled 215.1 million Euros, up 2.3% from 2018. The positive results recorded in Mainland China, which represents more than 60% of this region, were partially offset by the sharp slowdown in the Hong Kong market, due to well-known political tensions.

Finally, in the area "Rest of the World" the Group's revenues were 132.1 million Euros, up 0.8% from 2018.

In 2019, retail revenues totalled 645.8 million Euros, up 6.2% from 2018, and represent more than 70% of the Group's turnover. On a homogeneous basis², the increase in sales of this channel was 4.4% in the fourth quarter of the year, thanks to the double-digit growth of e-commerce and the contribution of the new openings.

The *Same Store Sales Growth* (SSSG) rate, calculated at constant exchange rates as the worldwide average of sales growth rates registered by the DOS network, is -4.0% in the year, progressively improving in the last months. At reported rates, this figure improves by more than 100 bps.

As of December 31st, 2019 the Group's distribution network was composed by 290 DOS and 115 franchised stores, compared to 284 DOS and 120 franchised stores as of December 31st, 2018.

Revenues to third parties totaled 270.2 million Euros; the double-digit decline is mainly due to the weakness of the domestic and European markets.

Comments on the Profit & Loss key figures

The key economic and financial figures of 2019 Financial Statements have been significantly impacted by the adoption of the IFRS16 accounting principle, related to the new accounting of the lease agreements, starting from January 1st, 2019. In compliance with the new IFRS 16 accounting principle, in FY 2019 the Group's EBITDA was

² As already mentioned in the previous press releases, with the acquisition of Italianatouch, starting from October 1st, 2018, the relative part of the e-commerce revenues has been accounted for in retail revenues, and no longer in the wholesale channel. Consequently, in the first nine months of 2019, the comparison of revenues by distribution channel was uneven, while, starting from the fourth quarter, figures return to be comparable.

255.4 million Euros, with a 27.9% margin on sales. It includes an extraordinary not recurring income of 97.5 million Euros, related to the disposal of the Omotesando real estate, as disclosed on March 11th, 2019 (please refer to the press release issued on that day for all the details of that transaction). Net of the above mentioned IFRS 16 effect, 2019 EBITDA adjusted was 150.2 million Euros, equal to 16.4% of sales. Despite the small improvement of the industrial margin, as compared with the figure of 2018, the operating result was strongly affected by the significant increase in operating costs, necessary to preserve the positioning of the brands in a very competitive environment, and in the costs for the development of the distribution network, which are necessary to pursue the Group's business strategy. In particular, the following lines increased significantly: labour costs (23.4% of sales in 2019, compared to 21.1% of 2018), mainly related to the increase in the Group's workforce³, in particular to expand the direct retail network and to strengthen the Corporate teams, costs for the use of third parties assets (17.6% of sales in 2019 excluding IFRS16, compared to 15.1% in 2018) and cost for services (26.1% of sales in 2019, compared to 25% of 2018), mainly due to communication and external productions costs.

In 2019, the Group's EBIT adjusted was 104.4 million Euros, with a 11.4% margin on sales; the incidence on sales of depreciation, amortisation and provisions was broadly stable, net of the depreciation for rights of use assets (equal to 105.2 million Euros).

At constant exchange rates and in compliance with IFRS16, EBITDA and EBIT would have been, respectively, 245.2 million Euros and 93.9 million Euros.

The Group's profit before taxes was 77 million Euros, also due to higher interests calculated on lease liabilities in compliance with IFRS16. Net of taxes for the period and of minority interests, the Group's net income was 46.3 million Euros.

Comments on the Balance Sheet and Cash Flow key figures

In 2019, the Group invested 47.2 million Euros in tangible and intangible fixed assets, slightly higher than the 44 million Euros invested in 2018. As usual, the majority of these investments were devoted to the widening and update of the DOS network; as an example, we mention the opening of the new Tod's flagship store in Milan, Via Montenapoleone. The rest of the investments are, as usual, referred to the continuous renewal at industrial and corporate level.

The net operating working capital totalled 344.6 million Euros as of December 31st, 2019, higher than the figure as of the end of 2018, mainly due to the more favorable trend of the production processes, which led to an increase in the stocks of the spring collections, ready for shipment.

³ 4,815 employees as of December 31st, 2019, compared to 4,705 as of December 31st, 2018.

As of December 31st, 2019, the Group's net debt adjusted is equal to 12.1 million Euros; this figure is 451.2 million Euros, including the IFRS 16 impact.

As of December 31st, 2019, consolidated shareholders' equity was 1,080.5 million Euros, compared to the 1,064.7 million balance as of December 2018.

Comments on the key figures of the Parent Company Tod's SpA

The Board of Directors also approved the draft of the 2019 Annual Report for the parent company Tod's SpA, whose sales were 606.8 million Euros, compared to 665.4 million Euros sales of 2018 pro-forma financial statements (which include the effect of the mergers of Del.Com Srl, Italiantouch Srl and Holpaf BV) .

Net income was 30.3 million Euros, or 5% of sales; earning per share was 0.92 Euro.

In 2019, the parent company invested a total amount of 15.9 million Euros in tangible and intangible fixed assets, excluding the transfers of assets related to the mergers, which compares to 17.6 million Euros invested in the previous year.

As of December 31st, 2019 the parent company's net debt adjusted was 78.1 million Euros; the shareholders' equity of the parent company was 959 million Euros.

Dividend proposal

The Board approved also to propose the distribution of a dividend of Euro 0.60⁴ per share, which corresponds to a pay-out of approx. 43% on the Group's net income per share.

This proposal will be submitted to the approval of the Annual General Meeting, taking place in the company's registered office next April 22nd, 2020, at 11.00 a.m. on first call, as well as the proposal to allocate 1% of consolidated net income – which corresponds to 456,588 Euros, to pursue solidarity projects.

⁴ Gross of withholding tax, if due.

As for the second call, today the Board resolved to change the date of any second call from April 29th, 2020 to May 29th, 2020, the same place and time, to take into account the possible impediments related to a possible negative course of the ongoing COVID-19 epidemic.

In any case, the dividend will be paid on June 24th, 2020 (coupon nr. 21; ex-dividend date: June 22nd, 2020, record date: June 23rd, 2020).

COVID-19 - Emergency situation

The emergency situation that has arisen in recent months due to the coronavirus pandemic has led to major changes around the world. In response, the Group has implemented a series of actions to protect the health and safety of its employees, including the adoption of smart working, the closure of stores in high-risk areas, and the recommendation to employees to follow specific health protection rules. Additionally, the Group has also deemed appropriate to take charge of assisting its employees, also by providing financial support, for the specific needs related to the management of the emergency situation.

Due to the constantly shifting events, the economic impact of this situation is still difficult to evaluate. However, the Group quickly has implemented measures to contain all operating costs, concentrating efforts on core business activities, and limiting investments only to priority and necessary activities.

What remains unchanged is our commitment and our mission to offer our customers products of the highest quality, the result of the renowned Italian manufacturing expertise and the creative passion that characterizes the Italian DNA in the world.

We stand by and are grateful to all those people, in Italy and around the world, who have and are dedicating themselves to the prevention and treatment of the people affected by this global emergency. We strongly believe that compliance with the rules and provisions of safety and health protection are at this moment more than ever of fundamental importance for the quickest possible restoration of a normal situation.
