

SYNTEGON'S SOLUTION SYNEXIO LEVERAGES EUROTECH'S INTEGRATED EDGE HARDWARE & SOFTWARE

Syntegon's cloud-based software for the collection, evaluation and visualization of machine and production data draws on Eurotech's ReliaGate 10-14 together with Everyware Software Framework and Everyware Cloud.

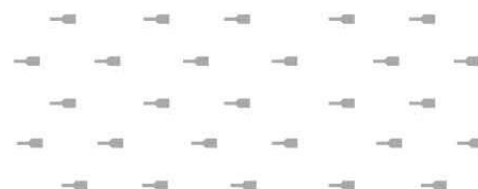

Amaro (ITALY), 16 April 2024 – Eurotech is proud to announce a new use case for its integrated Edge hardware and software with Syntegon, a global provider of machines and systems for the pharmaceutical, food, and MedTech industries.

Martin Offenhaeusser – Syntegon's Product Manager Digital Services, has commented as follows: "At Syntegon, we are dedicated to providing intelligent and sustainable processing and packaging solutions. We created Synexio to empower our customers with actionable insights into their production floor allowing them to monitor and improve their operations. The challenge was complex – we needed to enable connectivity across multiple platforms while securing our customers' critical infrastructure. Eurotech has proven to have the integrated hardware and software solution along with good technical expertise, which allowed us to build and rollout a scalable and secure product in a short time to providing our customers with real-time data insights to enhance equipment operational performance. Eurotech's team expertise and dedication have made the implementation process smooth and the commitment to customer satisfaction has been exceptional."

The details of how Eurotech's technology is used in Synexio and what the solution can do are told in the Client Success Story published in our website and available at the following link:

[DATA-DRIVEN EXCELLENCE IN PACKAGING: SYNTEGON'S APPROACH](#)

No further details on this design-win have been disclosed.

Eurotech

Eurotech (ETH:IM) is a multinational company that designs, develops and delivers Edge Computers and Internet of Things (IoT) solutions complete with services, software and hardware to system integrators and enterprises. By adopting Eurotech's solutions, customers have access to components and software platforms for IoT, Edge Gateways to enable asset monitoring, and high-performance Edge Computer for applications including Artificial Intelligence (Edge AI). To offer more and more complete solutions Eurotech has activated partnerships with leading companies in their field of action, thus creating a global ecosystem that allows it to create "best in class" solutions for the Industrial Internet of Things.
