Milan, 22nd May 2020: Saras S.p.A. Ordinary Shareholders' Meeting met today on first call, the participation in the Meeting of the Shareholders was allowed exclusively through the Designated Representative Spafid S.p.A. pursuant to Art. 135-undecies of TUF following the measures to contain the epidemiological emergency created by COVID-19 in accordance with the applicable regulations, chaired by Mr. Massimo Moratti who declared:

"Although not yet affected by the crisis for the Covid-19 emergency, year 2019 was characterized by a more complex environment than the one expected and many uncertainties, mainly as a consequence of the slowdown in the Chinese economy and of the tensions on the world's geopolitical scene. Notwithstanding the negative effects that such adverse scenario brought also on the oil and refining market, Saras concluded the fiscal year with positive results and a strong capital structure, consistent with the development plan at the date of approval of the draft Financial Statements, and with a balanced dividend policy. The situation emerged in the first months of 2020 affected by the health emergency did not have any impact on the financials of Saras Group for the year 2019, while Covid-19 impacts have been evidenced in the Interim Report as of March 31th 2020, as result of both the worsening of the crisis and the remaining uncertainty on demand recovery. In light of this development, the Company has accordingly decided, in a prudential perspective, to adopt all the measures aimed at better preserving its economic and financial strength, including the suspension of the proposal for the distribution of the dividend on 2019 profit, postponing such decision to the time when the Company will have a better view of the development of the current situation".

Approval of Saras S.p.A. Financial Statements as of 31st Dec 2019 and presentation of Group Consolidated Financial Statements

The Shareholders' Meeting approved Saras S.p.A. **Financial Statements as of 31st December 2019.**

Group comparable EBITDA amounted to EUR 313.8 million in FY 2019, versus the EUR 385.9 million earned in FY 2018. This result is essentially attributable to the Power Generation segment, which operated in a less favourable market scenario and achieved a less satisfactory industrial performance.

The Refining segment maintained stable results, even though it operated in a context of lower refining margins and achieved a significant turnaround on plants in the first quarter, thanks to the good industrial performance and the positive contribution of planning activities.

Group comparable Net Result stood at EUR 67.3 million in FY 2019 versus EUR 132.7 million reported the previous year.

The aforementioned plant turnaround penalized EBITDA by an estimated EUR 60 million.

CAPEX in FY/19 was equal to EUR 344.6 million, mainly directed to the Refining segment (EUR 291.9 million), EUR 70 million of these investments refers primarily to the aforementioned long-term turnaround.

The Net Financial Position before the effects of applying IFRS 16 on 31st December 2019 stood cash-positive at EUR 79,0 million versus +EUR 46,0 million on 31st December 2018.
