(1) Beginning from 1st November 2007 the new provisions of the consolidated law on finance transposing the Mifid directive is into force. Among other things, the new rules repeal the provision requiring the so-called concentration of trades and the consequent obligation to report to the market management company off-market transactions involving financial instruments admitted to trading on a regulated market (the so-called reporting of "block and off-market trades")

(1) Index futures trading began on 28.11.1994, index option trading on 15.11.1995, stock option trading on 19.02.1996, index miniFutures trading on 03.07.2000 and stock futures trading on 22.07.2002. During 2004 MIB30 Index was replaced by S&P/MIB Index as underlying of indices derivatives.

(2) The notional turnover is computed as the product of contracts number, price and index multiplier for index futures; contracts number, price and size multiplier for stock futures; contracts number, strike prices and index multiplier for index options; contracts number, strike prices and sizes for stock options.

(3) As percentage on shares turnover (total shares for Index derivatives and Idem total; underlying shares for stock futures and stock options).

(4) Open positions at the end of period. Net figures for futures, gross figures for options.
