**7. PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT AND ASSOCIATED RISKS (*Structured Notes only*)**

Under these Certificates, the Certificateholders are entitled to receive fixed coupons conditional upon the performance of the Underlying(s) calculated on semiannual Valuation Dates, on the basis of its initial level. The actual redemption date of these Certificates is directly related to the performance of the Underlying(s): the better the performance, the sooner the redemption date and conversely, the worse the performance and the later the redemption date. The return depends upon the fact that the performance of the Underlying(s) reaches or does not reach a pre-determined threshold. Accordingly, a small downward or upward movement of the Underlying(s) close to the threshold may result in a significantly larger increase or decrease of the return of the Certificates. The return of these Certificates is linked to the performances of the Underlying(s) as calculated on pre-determined Valuation Dates, and regardless of the level of such Underlying(s) between these dates. As a result, the Closing Price of the Underlying(s) on these dates will affect the value of the Certificates more than any other single factor. Under these Certificates, at maturity, the Certificateholders may not receive the amount initially invested. Certificateholders are entitled to receive a Final Redemption Amount which may, in case of an adverse evolution of the Underlying(s) during the term of the Certificates, be significantly lower than the amount per Certificate initially invested.

Pursuant to the provisions of the applicable Terms and Conditions, upon the occurrence of certain events or adjustments, the Calculation Agent may decide an Early Redemption of the Certificates on the basis of Market Value.

The actual redemption date of these Certificates is directly related to the performance of the Underlying(s): the better the performance, the sooner the redemption date and conversely, the worse the performance and the later the redemption date. The return depends upon the fact that the performance of the Underlying(s) reaches or does not reach a pre-determined threshold. Accordingly, a small |

The return of these Certificates is linked to the performances of the Underlying(s) as calculated on pre-determined Valuation Dates, and regardless of the level of such Underlying(s) between these dates. As a result, the Closing Price of the Underlying(s) on these dates will affect the value of the Certificates more than any other single factor. Under these Certificates, at maturity, the Certificateholders may not receive the amount initially invested. | D.2               | Key information on the key risks that are specific to the Issuer | <p>The Group is exposed to the risks inherent in its core businesses.</p> <p>The Group's risk management focuses on the following main categories of risks, any of which could materially adversely affect the Group's business, results of operations and financial condition:</p> <p><b>Credit and counterparty risk (including country risk):</b> risk of losses arising from the inability of the Group's customers, issuers or other counterparties to meet their financial commitments. Credit risk includes counterparty risk linked to market transactions (replacement risk) and as well as securitisation activities.</p> <p><b>Market risk:</b> risk of a loss of value on financial instruments arising from changes in market parameters, volatility of these parameters and correlations between them.</p> <p><b>Operational risks:</b> risk of losses or sanctions due to inadequacies or failures in internal procedures or systems, human error or external events;</p> <p><b>Structural interest and exchange rate risk:</b> risk of loss or of write-downs in the Group's assets arising from variations in interest or exchange rates.</p> <p><b>Liquidity risk:</b> risk of the Group not being able to meet its cash or collateral requirements as they arise and at a reasonable cost.</p> <p>The Guarantee constitutes a general and unsecured contractual obligation of the Guarantor and no other person, any payments on the Certificates are also dependent on the creditworthiness of the Guarantor.</p> <p>Prospective investors in Certificates benefiting from the Guarantee should note that the entitlement of the Certificateholder will be limited to the sums obtained by making a claim under the Guarantee, and the relevant provisions of the Guarantee and, in relation to Secured Certificates only, from the sums obtained following enforcement of the relevant Pledge Agreement.</p> <p>The Guarantee is a payment guarantee only and not a guarantee of the performance by the relevant Issuer or any of its other obligations under the Certificates benefiting from the Guarantee.</p> <p>The Guarantee may cover only part of the relevant Issuer's payment obligations under the relevant Series of Certificates. In such a case, Certificateholders may retain the risk that payments under the Certificates are less than the amounts due by the Issuer under the Certificates.</p> <p>Société Générale will act as issuer under the Programme, as the Guarantor of the Certificates issued by SG Issuer, SGA Société Générale Acceptance N.V. and SG Option Europe and also as provider of hedging instruments to each Issuer. As a result, investors will be exposed not only to the credit risk of the Guarantor but also operational risks arising from the lack of independence of the Guarantor, in assuming its duties and obligations as the Guarantor and provider of the hedging instruments.</p> <p>The potential conflicts of interests and operational risks arising from such lack of independence are in part intended to be mitigated by the fact that different divisions within the Guarantor will be responsible for implementing the Guarantee and providing the hedging instruments and that each division is run as a separate operational unit, segregated by Chinese walls (information barriers) and run by different management teams.</p> <p>The Issuers and the Guarantor and any of their subsidiaries and/or their affiliates, in connection with their other business activities, may possess or acquire material information about the underlying assets. Such activities and information may cause consequences adverse to Certificateholders.</p> <p>The Issuers and the Guarantor and any of their subsidiaries and/or their affiliates may act in other capacities with regard to the Certificates, such as market maker, calculation agent or agent. Il regolamento e la direttiva in materia di requisiti di capitale (rispettivamente CRR e CRD4) si applicherà a partire dal 1 gennaio 2014. L'attenuazione da parte del Comitato di Basilea dei requisiti di liquidità attraverso l'ammissione del liquidity coverage ratio (LCR) è prevista tra il 2015 e il 2019; le raccomandazioni del rapporto Likanen (che fa seguito al rapporto Vickers nel Regno Unito) suggerisce la separazione patrimoniale per le attività di mercato secondario, di negoziazione in conto proprio e di market making. In Francia, la legge in materia di separazione e regolamentazione delle attività bancarie richiede che le attività di negoziazione in conto proprio sugli strumenti finanziari (fatta eccezione, in particolare, per l'attività di market making, la fornitura di servizi ai client e l'attività di hedging) e le transazioni in conto proprio non collateralizzate con fondi a leva, siano segregate all'interno di una controllata entro il luglio 2015; la Regolamentazione in materia di Infrastrutture di Mercato (EMIR), adottata nel 2012, con lo scopo di fornire più trasparenza e stabilità sui mercati dei derivati e la Direttiva in materia di Mercati e Strumenti Finanziari (MiFID) volta ad accrescere tale trasparenza, sono state estese ai mercati delle merci; negli Stati Uniti, il Dodd-Frank Act ha posto le basi per la supervisione del rischio sistemico e la sorveglianza di certe attività delle banche corporate e di investimento (in particolare, attraverso la Volcker Rule); un'imposta sulle transazioni finanziarie, applicabile in Francia dal 2012, dovrebbe essere introdotta in 11 paesi membri dell'Unione Europea.</p> <p><b>B.5</b></p> <p>Société Générale è la capogruppo del Gruppo Société Générale.</p> <p>Il Gruppo Société Générale offre servizi di consulenza e di altra natura a clienti persone fisiche, società e istituzioni nell'ambito di tre linee di business principali: - Retail Banking in Francia con i marchi Société Générale, Crédit du Nord e Boursorama; - Retail Banking Internazionale, presente in Europa Centrale e Orientale, Russia, Bacino del Mediterraneo, Africa Sub-sahariana, Asia e nei Territori Francesi d'Oltremare; e- Corporate e Investment Banking con una vasta competenza in investment banking, finanza e attività di mercato.</p> <p><b>B.9</b></p> <p>Non applicabile. La data effettiva di scadenza dei Certificates è direttamente legata all'andamento dei Sottostanti: quanto migliore è la performance, tanto più vicina è la scadenza e, viceversa, quanto peggiore è la performance, tanto più lontana sarà la scadenza. Il rendimento dipende dal fatto che la performance del Sottostante raggiunga o non raggiunga una soglia predeterminata. Di conseguenza, un piccolo movimento verso il basso o verso l'alto del Sottostante vicino alla soglia può comportare un aumento o una diminuzione significativamente più grande del rendimento dei Certificates. Il rendimento dei Certificates è legato alla performance dei Sottostanti misurata in alcune Date di Valutazione predeterminate, e indipendentemente dal livello dei Sottostanti tra tali date. Ne consegue che il Prezzo di Chiusura dei Sottostanti in tali date impatterà sul valore dei Certificates più che ogni altro fattore. I Portatori dei Certificates hanno diritto di ricevere un Importo di Esercizio Finale che può, in caso di un'evoluzione sfavorevole dei Sottostanti durante la vita del prodotto, essere significativamente inferiore all'importo inizialmente investito sino ad essere oggetto di una perdita totale.</p> <p>In applicazione delle disposizioni contenute nei Termini e Condizioni Aggiuntive applicabili, al verificarsi di certi eventi e aggiustamenti, l'Agente di Calcolo può decidere un Rimborso Anticipato dei Certificates sulla base del</p> |
