I. SUMMARY

The information set out below is a summary only and should be read in conjunction with the rest of the Prospectus. This summary is intended to convey the essential characteristics and risks associated with the Issuer, and in relation to the Securities and does not purport to be complete. It is taken from, and is qualified in its entirety by, the remainder of this document, including the Conditions, which constitute the legally binding conditions of the Securities as attached to the global security. Accordingly, this summary should be read as an introduction to the Prospectus, and any decision to invest in the Securities should be based on consideration of the Prospectus as a whole by the investor.

Prospective investors should be aware that where a claim relating to the information contained in this Prospectus is brought before a court, the investor making the claim might, under the national legislation of the respective European Economic Area member state, have to bear the costs of translating the prospectus before the legal proceedings are initiated.

Civil liability attaches to the Issuer who has tabled the summary including the translation thereof and applied for its notification, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus.

A. SUMMARY OF RISK FACTORS

1. Risks relating to the Securities

An investment in the Securities involves risks. These risks may include, among others, equity market, bond market, foreign exchange, interest rate, market volatility and economic, political and regulatory risks and any combination of these and other risks. Prospective purchasers should be experienced with respect to transactions in instruments such as the Securities and in the underlying asset or other basis of reference for the Securities (the “**Underlying**”). Prospective purchasers should understand the risks associated with an investment in the Securities and should only reach an investment decision after careful consideration, with their legal, tax, accounting and other advisers, of (a) the suitability of an investment in the Securities in the light of their own particular financial, tax and other circumstances, (b) the information set out in this document and (c) the Underlying.

The Securities may decline in value and investors should be prepared to sustain a loss of their investment in the Securities.

An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the Underlying, and/or in the composition or method of calculation of the Underlying, as the return on any such investment will be dependent, inter alia, upon such changes. More than one risk factor may have simultaneous effect with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Securities.

2. Issuer Risk Factors

Prospective investors should consider all information provided in the Registration Document and consult with their own professional advisers if they consider it necessary. The following describes risk factors relating to the issuer’s ability to meet its obligations under the securities.

3. Ratings

Ratings assigned to the Issuer by certain independent rating agencies are an indicator of the Issuer’s ability to meet its obligations in a timely manner¹. The lower the assigned rating is on the respective scale the higher the respective rating agency assesses the risk that obligations will not be met at all or not be met in a timely manner.

As of the publication date of this summary, the following ratings were assigned to Deutsche Bank:

<i>Rating agency</i>	<i>Long term rating</i>	<i>Short term rating</i>
Standard & Poor’s (S&P)	A+	A-1
Moody’s	Aa3	P-1
Fitch	AA-	F1+

Rating agencies may change their ratings at short notice. A rating’s change may affect the price of securities outstanding.

¹ A rating is not a recommendation to buy, sell, or hold certificates, and may be subject to suspension, downgrading, or withdrawal by the rating agency. Any such suspension, downgrading, or withdrawal may have a negative effect on the market price of the certificates.

Early Closing of the Subscription of the Securities:	In accordance with the section titled "Country Specific Information", paragraph 2, the Issuer reserves the right for any reason to close the subscription period early.
Fees paid by the Issuer to the distributors: Placement Fee²	Up to 4% of the Issue Price ³ , according to market conditions.

2 The Issuer pays placement and trailer fees as sales-related commissions to the relevant distributor. The distributors act independently and not as agent for the Issuer. Placement fees are one-off payments from the proceeds of the issue; alternatively, the Issuer can grant the relevant distributor an appropriate discount on the issue price (without subscription surcharge). Payment of trailer fees are recurring and conditional upon the volume of securities issued. If Deutsche Bank AG is both the issuer and the distributor with respect to the sale of the Securities, Deutsche Bank's distributing division will be credited with the relevant amounts internally. – Further information on prices and price components are included in the section "Conflicts of interest" under nos. 5 and 6.

3 The amounts mentioned above are as of the date of the preparation of this document and subject to potential changes during the offering period and/or the term of the Securities; further information may be obtained from the distributor.

2. Further Information on the Terms of the Securities

- a) The Certificates (the “**Securities**”) represent an investment linked to the performance of the Underlying. The Securities offer investors a chance to receive, on certain predefined dates (the Barrier Determination Dates) prior to maturity of the Securities, a cash amount fixed for each such date or a cash amount at maturity.

Automatic early redemption. The Securities may be redeemed automatically and a specified amount will be paid if the value of each constituent of the Underlying on any specified barrier determination day is equal to or greater than the respective specified barrier level in respect of such day. The cash amount will be higher, the later such early redemption occurs. For that option the investors forego the opportunity to participate in any further growth in the value of the constituents of the Underlying beyond the specified barrier level after an early redemption of the Securities as described above has occurred.

Automatic redemption at maturity. If an early redemption does not occur, investors will receive a cash amount which will vary according to the value of each constituent of the Underlying (Basket Constituent) at Valuation Date, as described below in scenarios (A) and (B).

Scenario (A) If the value of each Basket Constituent on the Valuation Date is equal to or above its respective value at the time of issuance of the Certificates (Initial Reference Level), the cash amount payable at settlement will be equal to the issue price plus a specified premium.

Scenario (B) If the value of any of the Basket Constituents on the Valuation Date is lower than its respective Initial Reference Level, the amount payable at settlement will depend on the performance of the single Basket Constituents in respect to a specified level (Determination Level). In particular, if the value of each Basket Constituent is equal to or greater than the Determination Level, investors will receive at settlement an amount equal to the issue price. Otherwise, if the value of any of the Basket Constituents is lower than the respective Determination Level, the amount payable at settlement will be 90 per cent of the issue price.

In contrast to a direct investment in the Basket, the Cash Settlement Amount payable will never exceed the sum of the issue price and a fixed premium. Therefore, investors will forego the opportunity to participate in increases in the value of the Underlying to the extent such increases would result in a return higher than the Cash Settlement Amount. Nevertheless, the Securities offer a certain degree of protection against decreases in the value of the Underlying on the Valuation Date as the lowest cash amount payable at settlement is 90 per cent of the issue price.

A further difference from a direct investment in the Underlying is that investors will forego the right to receive any dividends, interest or similar amounts paid in respect of the Underlying.

The Underlying is a basket consisting of three shares.

- b) The Securities represent the right to receive the payment of the Cash Settlement Amount. The Cash Settlement Amount will depend on whether the Barrier Determination Amount of each constituent of the Underlying on any specified barrier determination day is equal to or greater than the respective specified barrier level in respect of such day (such event a “**Knock-Out Event**”). In this case, the Securities will be redeemed early by payment of an amount specified for the occurrence of such

case at the relevant settlement date and investors that buy the Securities at their issue date and hold the Securities until such early termination will receive a return on the initial investment, which will be higher, the later such early redemption occurs.

Should a Knock-Out Event not occur, the Cash Settlement Amount payable at maturity will depend on two conditions: (i) whether on the Valuation Date the value of each Basket Constituents is equal to or greater than its respective Initial Reference Level, and (ii) should the value of any of the Basket Constituents be lower than the respective Initial Reference Level, whether any Basket Constituent at Valuation Date is lower than the respective Determination Level.

Investors that buy the Securities at their issue date and hold the Securities for the entire term will receive - if the value of each of the constituents of the Underlying on the final valuation date is equal to or higher than the respective Initial Reference Level - a cash amount payable at maturity which will reflect the sum of the issue price and a fixed premium. Therefore, the investors can receive a cash amount which can be greater, equal or lower than the amount that they could have received from a direct investment in the Underlying. Otherwise, investors that buy the Securities at their issue date and hold the Securities for the entire term will obtain – if the value of any of the Basket Constituents is lower than the respective Initial Reference Level – either (i) the amount invested at issue date without exposure to the downside of the Underlying, when none of the constituents of the Underlying is below the respective Determination Level, or (ii) the 90 per cent of their initial investment therefore limiting their exposure to further falls in the value of the Underlying below the Determination Level.

In any case, the payment of the Cash Settlement Amount is subject to deduction of certain taxes, duties and/or expenses.

- c) The Securities do not provide a guarantee of payment of a set amount or for the right to receive repayment of the Issue Price in any circumstance. There is no return on the Securities other than the potential payment of the Cash Settlement Amount at settlement (either in case of early redemption or redemption at maturity). Accordingly, investors may only receive a positive return on their initial investment if the Cash Settlement Amount received on settlement or the amount received after a sale of the Securities in the secondary market during their term exceeds the price originally paid for the Securities. Investors will not receive any periodic payments in respect of the Securities and will not receive any amounts paid from time to time by way of interest or other distributions (e.g. dividends) by or in respect of the Underlying and will not have any rights against the issuer of the Underlying, any constituents of the Underlying or the issuer of any such constituents.

Prospective investors should note that the return (if any) on their investment in the Securities will depend on the performance of the Underlying and whether early redemption occurs.

If the value of each constituent of the Underlying on a specified barrier determination day is equal to or greater than the specified barrier level the Securities will be redeemed by payment of the amount specified above for the occurrence of such case at the respective time; in this case, investors that buy the Securities at the issue date and hold the Securities for the entire term will receive a return on the initial investment, which will be the higher the later such early redemption occurs. Accordingly, investors will profit the more from an investment in the Securities, the later during the term of the Securities the value of the constituents of the Underlying rises compared to their value at or around issuance of the Securities.

In the absence of an early redemption, investors that buy the Securities at the Issue Date and hold the Securities for the entire term will receive an amount which, in the

best case scenario, will be the sum of the issue price and a fixed premium, which represents the highest return which can be obtained.

However, investors will receive no return on their investment where on the final valuation date the value of any of the Basket Constituents is lower than the respective Determination Level. In this case, investors that have bought the Securities at the Issue Date and hold them for their entire term will make a loss on their investment. However, such loss is limited to the 10 per cent of the Issue Price.

Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

d) The market value of the Securities during their term depends primarily on the value and volatility of the Underlying during the life of the Securities. In general, if the value of the Underlying falls and/or there is a market perception that its value is likely to fall during the remaining life of the Securities, all other factors being equal, the market value of the Securities will be expected to fall. On the same basis, if the value of the Underlying rises and/or there is a market perception that its value is likely to rise during the remaining life of the Securities, the market value of the Securities will be expected to rise.

Furthermore the market value of the Securities will depend on the remaining term of the Securities to maturity and whether or not the value of any of the constituents of the Underlying has been below the respective specified barrier level.

Other factors which may influence the market value of the Securities include interest rates, potential dividend or interest payments, as applicable, in respect of the Underlying, changes in the basket constituents or in the method of calculating the value of the Underlying from time to time and market expectations regarding the future performance of the Underlying, its composition and the Securities.

In addition, each value of the Underlying relevant for the determination of the cash amount is deemed to be in the settlement currency, without reference to any exchange rate between the currency of the Underlying and the settlement currency (so-called "**quanto securities**"). As a result, an investment in the Securities will not involve exchange rate risks. However, the relative interest rate difference between the current interest rate relating to the currency in which each relevant value of the Underlying is deemed to be expressed and the current interest rate relating to the settlement currency of the Securities may influence the price of the Securities.

The value of the Underlying on any day will reflect the value of its constituents on such day. Changes in the composition of the Underlying and factors (including those described above) which either affect or may affect the value of the constituents, will affect the value of the Underlying and therefore may affect the return on an investment in the Securities.

In addition, investors will be exposed to exchange rate risk where the Settlement Currency is different from the currency of the investor's home jurisdiction or the currency in which an investor wishes to receive funds.

C. SUMMARY OF ISSUER DESCRIPTION

DEUTSCHE BANK AKTIENGESELLSCHAFT

Deutsche Bank Aktiengesellschaft ("**Deutsche Bank**" or the "**Bank**") originated from the reunification of Norddeutsche Bank Aktiengesellschaft, Hamburg, Rheinisch-Westfälische Bank Aktiengesellschaft, Duesseldorf and Süddeutsche Bank Aktiengesellschaft, Munich; pursuant to the Law on the Regional Scope of Credit Institutions, these had been disincorporated in 1952 from Deutsche Bank which was founded in 1870. The merger and the name were entered in the Commercial Register of the District Court Frankfurt am Main on 2 May 1957. Deutsche Bank is a banking institution and a stock corporation incorporated under the laws of Germany under registration number HRB 30 000. The Bank has its registered office in Frankfurt am Main, Germany. It maintains its head office at Theodor-Heuss-Allee 70, 60486 Frankfurt am Main and branch offices in Germany and abroad including in London, New York, Sydney, Tokyo and an Asia-Pacific Head Office in Singapore which serve as hubs for its operations in the respective regions.

Deutsche Bank is the parent company of a group consisting of banks, capital market companies, fund management companies, a real-estate finance company, instalment financing companies, research and consultancy companies and other domestic and foreign companies (the "**Deutsche Bank Group**").

The objects of Deutsche Bank, as laid down in its Articles of Association, include the transaction of all kinds of banking business, the provision of financial and other services and the promotion of international economic relations. The Bank may realise these objectives itself or through subsidiaries and affiliated companies. To the extent permitted by law, the Bank is entitled to transact all business and to take all steps which appear likely to promote the objectives of the Bank, in particular: to acquire and dispose of real estate, to establish branches at home and abroad, to acquire, administer and dispose of participations in other enterprises, and to conclude company-transfer agreements.

As of 31 December 2009, Deutsche Bank's issued share capital amounted to EUR 1,589,399,078.40 consisting of 620,859,015 ordinary shares without par value. The shares are fully paid up and in registered form. The shares are listed for trading and official quotation on all the German Stock Exchanges. They are also listed on the New York Stock Exchange.

The consolidated financial statements for the fiscal years starting 1 January 2007 are prepared in compliance with International Financial Reporting Standards (IFRS). As of 31 December 2009, Deutsche Bank Group had total assets of EUR 1,500,664 million, total liabilities of EUR 1,462,695 million and total equity of EUR 37,969 million on the basis of IFRS.

Deutsche Bank's long-term senior debt has been assigned a rating of A+ (outlook stable) by Standard & Poor's, Aa3 (outlook stable) by Moody's Investors Services and AA- (outlook negative) by Fitch Ratings.

II. RISK FACTORS

An investment in debt securities, including certificates, and money market papers issued by Deutsche Bank bears the risk that Deutsche Bank is not able to fulfil its obligations created by the issuance of the securities on the relevant due date.

In order to assess the risk, prospective investors should consider all information provided in the Registration Document and consult with their own professional advisers if they consider it necessary.

The risk related to an Issuer's ability to fulfil its obligations created by the issuance of debt securities and money market papers is described by reference to the credit ratings assigned by independent rating agencies. A credit rating is an assessment of the solvency or credit-worthiness of creditors and/or bond-issuers according to established credit review procedures. These ratings and associated research help investors analyse the credit risks associated with fixed-income securities by providing detailed information of the ability of issuers to meet their obligations. The lower the assigned rating is on the respective scale, the higher the respective rating agency assesses the risk that obligations will not, not fully and/or not timely be met. A rating is not a recommendation to buy, sell or hold any notes issued and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. A suspension, reduction or withdrawal of any rating assigned may adversely affect the market price of the notes issued.

Deutsche Bank is rated by Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc. ("**S&P**"), Moody's Investors Service, Inc. ("**Moody's**") and by Fitch Ratings Limited ("**Fitch**", together with S&P and Moody's, the "**Rating Agencies**").

As of the Publication Date of this document, the ratings assigned by the Rating Agencies to debt securities and money market papers of Deutsche Bank were as follows:

by S&P:	long-term rating:	A+
	short-term rating:	A-1
	outlook:	stable

S&P defines:

A: An obligation rated "A" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

Long-term ratings by S&P are divided into several categories ranging from "AAA", reflecting the strongest creditworthiness, over categories "AA", "A", "BBB", "BB", "B" "CCC", "CC", "C" to category "D", reflecting that an obligation is in payment default. The ratings from "AA" to "CCC" may be modified by the addition of a plus ("+") or minus ("-") sign to show relative standing within the major rating categories.

A-1: A short-term obligation rated "A-1" is rated in the highest category by S&P. The obligor's capacity to meet its financial commitment on the obligation is strong.

Short-term ratings by S&P are divided into several categories ranging from "A-1", reflecting the strongest creditworthiness, over categories "A-2", "A-3", "B", "C" to category "D" reflecting that an obligation is in payment default.

by Moody's:	long-term rating:	Aa3
	short-term rating:	P-1
	outlook:	stable

Moody's defines:

Aa3: Obligations rated "Aa" are judged to be of high quality and are subject to very low credit risk.

Moody's long-term obligation ratings are divided into several categories ranging from "Aaa", reflecting the highest quality with minimal credit risk, over categories "Aa", "A", "Baa", "Ba", "B", "Caa", "Ca" to category "C", reflecting the lowest rated class of bonds which are typically in default with little prospect for recovery of principal or interest. Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from "Aa" through "Caa". The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

P-1: Issuers rated Prime-1 have a superior ability to repay short-term debt obligations.

Moody's short-term ratings are divided into several categories ranging from "P-1", reflecting a superior ability of an Issuer to repay short-term debt obligations, over categories "P-2" and "P-3" to category "NP", reflecting that an Issuer does not fall within any of the Prime rating categories.

by Fitch:	long-term rating:	AA-
	short-term rating:	F1+
	outlook:	negative

Fitch defines:

AA-: A rating of "AA" denotes a very low expectation of credit risk. It indicates a very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

Fitch's long-term ratings are divided into several major categories ranging from "AAA", reflecting the highest credit quality, over categories "AA", "A", "BBB", "BB", "B", "CCC, CC, C" to category "DDD, DD, D", reflecting that an obligor has defaulted on some or all of its obligations. A plus ("+") or minus ("-") sign may be appended to a rating to denote the relative status within major rating categories. Such suffixes are not added to the "AAA" category or to categories below "CCC".

F1+: A rating of "F1" indicates the strongest capacity for timely payment of financial commitments. It may have an added plus ("+") sign to denote any exceptionally strong credit feature.

Fitch's short-term ratings are divided into several categories ranging from "F1", reflecting the highest credit quality, over categories "F2", "F3", "B", "C" to category "D" which denotes an actual or imminent payment default.

Rating of Subordinated Obligations

If Deutsche Bank enters into subordinated obligations, these obligations may be rated lower because, in the case of an insolvency or liquidation of the Bank, the claims and interest claims resulting from these obligations are subordinate to those claims of creditors of the Bank that are not also subordinated. Deutsche Bank will disclose the ratings of subordinated obligations (if any).

B. PRODUCT SPECIFIC RISK FACTORS

1. Introduction

The discussion below is intended to describe various risk factors associated with an investment in the Securities. No investment should be made in the Securities until after careful consideration of all those factors which are relevant in relation to the Securities. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Securities, but does not represent that the statements below regarding risks of holding the Securities are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this document and reach their own views prior to making any investment decision.

Prospective investors should also consider carefully the description of the Underlying (as defined below) in the sections "Product Conditions" and "Information relating to the Underlying" and the further information which is available in relation to the Underlying.

This document is not, and does not purport to be, investment advice.

An investment in the Securities involves risks. These risks may include, among others, equity market, bond market, foreign exchange, interest rate, market volatility and economic, political and regulatory risks and any combination of these and other risks. Some of these are briefly discussed below. Prospective purchasers should be experienced with respect to transactions in instruments such as the Securities and in the Underlying. Prospective purchasers should understand the risks associated with an investment in the Securities and should only reach an investment decision after careful consideration, with their legal, tax, accounting and other advisers, of (a) the suitability of an investment in the Securities in the light of their own particular financial, tax and other circumstances, (b) the information set out in this document and (c) the Underlying.

The Securities may decline in value.

An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the Underlying, and/or in the composition or method of calculation of the Underlying, as the return of any such investment will be dependent, *inter alia*, upon such changes. More than one risk factor may have simultaneous effect with regard to the Securities such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Securities.

Additional Risk Factors are set out under the headings "C. General Risk Factors relating to the Securities" and "D. Market Factors". In addition prospective investors should also review section "E. Conflicts of Interest".

2. Rights under the Securities

Prospective investors should note that the return (if any) on their investment in the Securities will depend on the performance of the Underlying and whether early redemption occurs.

If the value of each constituent of the Underlying on a specified barrier determination day is equal to or greater than the specified barrier level the Securities will be redeemed by payment of the amount specified above for the occurrence of such case at the respective time; in this case, investors that buy the Securities at the issue date and hold the Securities for the entire term will

receive a return on the initial investment, which will be the higher the later such early redemption occurs. Accordingly, investors will profit the more from an investment in the Securities, the later during the term of the Securities the value of the constituents of the Underlying rises compared to their value at or around issuance of the Securities.

In the absence of an early redemption, investors that buy the Securities at the Issue Date and hold the Securities for the entire term will receive an amount which, in the best case scenario, will be the sum of the issue price and a fixed premium, which represents the highest return which can be obtained.

However, investors will receive no return on their investment where on the final valuation date the value of any of the Basket Constituents is lower than the respective Determination Level. In this case, investors that have bought the Securities at the Issue Date and hold them for their entire term will make a loss on their investment. However, such loss is limited to the 10 per cent of the Issue Price.

Accordingly, an investment in the Securities involves a number of risks which may include, without limitation, a similar market risk to a direct investment in the Underlying and investors should take advice accordingly.

C. GENERAL RISK FACTORS RELATING TO THE SECURITIES

1. No Payments until Settlement

Prospective investors should note that no periodic interest payments or other distributions will be made during the term of the Security. A realisation in the secondary market of the Securities may be the only return potentially available to the investor prior to settlement of the Securities. However, investors should note the risk factors described under the headings "Market value" and "The Securities may be Illiquid" below in this regard.

2. Early Termination for Extraordinary Reasons, Illegality and Force Majeure

If the Issuer determines that, for reasons beyond its control, the performance of its obligations under the Securities has become illegal or, further to changes in the law and tax regulations, impractical in whole or in part, the Issuer may at its discretion and without obligation terminate the Securities early. If the Issuer terminates the Securities early, the Issuer will, if and to the extent permitted by applicable law, pay the holder of each such Security an amount equal to its fair market value notwithstanding the illegality or impracticality, as all determined by the Calculation Agent in good faith and in accordance with the reasonable market practice.

3. Market Disruption Events, Adjustments and Early Termination of the Securities

If so indicated in the Conditions, the Calculation agent may determine that a market disruption event has occurred or exists at a relevant time. Any such determination may delay valuation in respect of the Underlying which may have an effect on the value of the Securities and/or may delay settlement in respect of the Securities.

In addition, if so indicated in the Conditions, the Calculation Agent may make adjustments to the Conditions to account for relevant adjustments or events in relation to the Underlying including, but not limited to, determining a successor to the Underlying or its issuer or its sponsor, as the case may be. In addition, in certain circumstances, the Issuer may terminate early the Securities following any such event. In this case, in relation to each Security, the Issuer will pay an amount, if any, determined as provided in the Conditions.

Prospective purchasers should review the Conditions to ascertain whether and how such provisions apply to the Securities and what constitutes a event or relevant adjustment event.

4. Taxation

Potential purchasers and sellers of the Securities should be aware that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Securities are transferred. Securityholders are subject to the provisions of General Condition 6 and payment and/or delivery of any amount due in respect of the Securities will be conditional upon the payment of certain taxes, duties and/or expenses as provided in the Product Conditions.

Potential purchasers who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

5. Exercise Notice and Certifications

If the Securities are subject to provisions concerning delivery of an exercise notice and such notice is received by either the relevant principal agent with a copy to the clearing agent after the latest time specified in the Conditions, it will not be deemed to be duly delivered until the next following business day. Such deemed delay may in the case of cash settled Securities increase or decrease the cash amount payable at settlement from what it would have been but for such deemed delivery. In the case of Securities which are exercisable on one day only or only during an exercise period, any exercise notice, if not delivered by the latest time specified in the Conditions, shall be void.

The failure to deliver any certifications required by the Conditions could result in the loss or inability to receive amounts or deliveries otherwise due under the Securities. Prospective purchasers should review the Conditions to ascertain whether and how such provisions apply to the Securities.

Securities not exercised in accordance with the Conditions will expire worthless. Prospective purchasers should review the Conditions to ascertain whether the Securities are subject to automatic exercise, and when and how an exercise notice may be validly delivered.

6. Time Lag after Exercise

Where the Securities are to be settled by a cash payment, then, upon their exercise, there may be a time lag between the time exercise occurs and the time the applicable cash amount relating to such exercise is determined. Any such delay between the time of exercise and the determination of the cash amount will be specified in the Conditions. However, such delay could be significantly longer, particularly in the case of a delay in exercise of such cash settled Securities arising from, as described below, any daily maximum exercise limitation or, as described below, upon the determination by the calculation agent that an event has occurred at any relevant time. The applicable cash amount could decrease or increase from what it would have been but for such delay.

Prospective purchasers should review the Conditions to ascertain whether and how such provisions apply to the Securities.

7. Re-offer Price

The Issuer may enter into distribution agreements with various financial institutions and other intermediaries as determined by the Issuer (collectively the "**Selling Agents**"). The Selling Agents will agree, subject to the satisfaction of certain conditions, to subscribe for the Securities at a price equivalent to or below the Issue Price. The Selling Agents have agreed to bear certain costs in connection with the issue of the Securities. A periodic fee may be payable to the Selling Agents in respect of all outstanding Securities up to and including the Expiry Date at a rate as determined by the Issuer. Such rate may vary from time to time. The Selling Agents will agree to comply with the selling restrictions set out in the document as amended and supplemented by the additional selling restrictions set out in the relevant distribution agreements and prospectus.

The Issuer has the right to close the offering of the Securities prior to the end of the subscription period in case of adverse market conditions, as determined by the Issuer in its reasonable discretion, including but not limited to increased equity market volatility and increased currency exchange rate volatility.

D. MARKET FACTORS

1. Market Factors

1.1 Valuation of the Underlying

An investment in the Securities involves risk regarding the value of the Underlying or of any basket constituents comprising the Underlying. The value of the Underlying or of any basket constituents may vary over time and may increase or decrease by reference to a variety of factors which may include corporate actions, macroeconomic factors and speculation.

1.2 The Historical Performance of the Underlying or of any Basket Constituents is not an Indication of Future Performance

The historical value (if any) of the Underlying or of any basket constituents does not indicate the future performance of the Underlying or of any basket constituents. Changes in the value of the Underlying or of any basket constituents will affect the trading price of the Securities, but it is impossible to predict whether the value of the Underlying or of any basket constituents will rise or fall.

1.3 The Basis of Calculating the Level of the Underlying or of any Basket Constituents may Change over Time

The basis of calculating the level of the Underlying or of any basket constituents may from time to time be subject to change (as described in "Information relating to the Underlying") which may affect the market value of the Securities at any time and therefore the cash amount payable on settlement.

1.4 The Value of the Constituents of the Underlying will Affect its Value

The value of the Underlying on any day will reflect the value of the constituents on such day. Changes in the composition of the Underlying and factors (including those described in these Risk Factors) which either affect or may affect the value of the basket constituents will affect the value of the Securities. The historical value (if any) of the constituents does not indicate their future performance. Where the value of the constituents is determined in a different currency to the settlement currency of the Securities, investors may be exposed to exchange rate risk.

1.5 Exchange Rate Risk

Prospective investors should be aware that an investment in the Securities may involve exchange rate risks. For example, the settlement currency of the Securities may be different from the currency of an investor's home jurisdiction or the currency in which an investor wishes to receive funds.

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macroeconomic factors, speculation and central bank and government intervention or other political factors (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Securities and any amounts payable in respect of the Securities.

1.6 Interest Rate Risk

An investment in the Securities may involve interest rate risk where there are fluctuations in the interest rates payable on deposits in the settlement currency of the Securities. This may influence the market value of the Securities.

Interest rates are determined by factors of supply and demand in the international money markets which are influenced by macroeconomic factors, speculation and

central bank and government intervention or other political factors. Fluctuations in short term and/or long term interest rates may affect the value of the Securities.

2. Market Value

The market value of the Securities during their term depends primarily on the value and the volatility of the Underlying or of any basket constituents and the level of interest rates for instruments of comparable maturities.

The level of market volatility is not purely a measurement of the actual volatility, but is largely determined by the prices for instruments which offer investors protection against such market volatility. The prices of these instruments are determined by forces of supply and demand in the options and derivative markets generally. These forces are, themselves, affected by factors such as actual market volatility, expected volatility, macroeconomic factors and speculation.

Interest rate changes generally have the same impact on the value of the Securities as for fixed rate bonds: Rising interest rates will under normal conditions result in a lower value of the Securities, falling interest rates in a higher value of the Securities.

The value of the Underlying on any day will reflect the value of its constituents on such day. Changes in the composition of the Underlying and factors (including those described above) which either affect or may affect the value of the constituents, will affect the value of the Underlying and therefore may affect the return on an investment in the Securities.

3. Certain Hedging Considerations

Certain risks apply to purchasers that acquire the Securities for hedging purposes.

Prospective purchasers intending to purchase the Securities for the purpose of hedging their exposure to the Underlying or any basket constituents should recognise the risks of utilising the Securities in such manner. No assurance is or can be given that the value of the Securities will correlate with movements in the value of the Underlying or any basket constituents and the composition of the Underlying or any basket constituents may change over time. Furthermore, it may not be possible to liquidate the Securities at a price which directly reflects the value of the Underlying or any basket constituents. Therefore, there can be no assurance as to the level of any correlation between the return on an investment in the Securities and the return on a direct investment in the Underlying or any basket constituents.

Hedging transactions in order to limit the risks associated with the Securities might not be successful.

4. The Securities may be Illiquid

It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid. If so specified in this document, application has been made to list or quote or admit to trading the Securities on the stock exchange(s) or quotation system(s) specified. If the Securities are so listed or quoted or admitted to trading, no assurance is given that any such listing or quotation or admission to trading will be maintained. The fact that the Securities may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity than if they were not so listed or quoted or admitted to trading.

If the Securities are not listed or quoted or admitted to trading on any stock exchange or quotation system, pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities may be adversely affected. The liquidity of

the Securities may also be affected by restrictions on offers and sales of the Securities in some jurisdictions.

The Issuer may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation. Since the Issuer may be the only market-maker in the Securities, the secondary market may be limited. The more limited the secondary market is, the more difficult it may be for holders of the Securities to realise value for the Securities prior to settlement of the Securities.

In case of admission of the Securities to the SeDeX market of the Italian Stock Exchange, the Issuer in its capacity of market-maker will undertake to display and reset within 5 days bid and offer prices that do not differ by more than the maximum spread (the so called "bid/ask spread") as indicated in the Instructions to the Listing Rules of Borsa Italiana S.p.A. for a quantity at least equal to the minimum trade size, as all determined by Borsa Italiana S.p.A..

5. Creditworthiness of the Issuer

The value of the Securities is expected to be affected, in part, by investors' general appraisal of the Issuer's creditworthiness. Any reduction in the creditworthiness of the Issuer could result in a reduction in the value of the Securities. If a bankruptcy proceeding is commenced in respect to the Issuer, the return to a investor in the Securities may be limited and any recovery will likely be substantially delayed.

In addition, any deterioration of the creditworthiness of the Issuer during the term of the Securities could result in increasing refinancing costs of the Issuer and thus the value of the Securities may decrease. However, any improvement of the creditworthiness of the Issuer during the term of the Securities could result in decreasing refinancing costs of the Issuer, but may not increase the value of the Securities.

E. CONFLICTS OF INTEREST

1. Transactions Involving the Underlying

The Issuer and its affiliates may from time to time engage in transactions involving the Underlying for their proprietary accounts and for accounts under their management. Such transactions may have a positive or negative effect on the value of the Underlying and consequently upon the value of the Securities. As used in this section "Conflicts of Interest", references to the Underlying shall be deemed to include any of its constituents, if applicable.

2. Acting in other Capacities

The Issuer and its affiliates may from time to time act in other capacities with regard to the Securities, such as calculation agent, agent and/or index sponsor. Such functions can allow the Issuer to determine the composition of the Underlying or to calculate its value, which could raise conflicts of interest where securities or other assets issued by the Issuer itself or a group company can be chosen to be part of the Underlying, or where the Issuer maintains a business relationship with the issuer of such securities or assets.

3. Issuing of other Derivative Instruments in respect of the Underlying

The Issuer and its affiliates may issue other derivative instruments in respect of the Underlying and the introduction of such competing products into the marketplace may affect the value of the Securities.

4. Conducting of Hedging Transactions

The Issuer may use all or some of the proceeds received from the sale of the Securities to enter into hedging transactions. The Issuer believes that such hedging activity will under normal circumstances not have a material impact on the value of the Securities. However, it cannot be assured that the Issuer's hedging activities will not affect such value. The value of the Securities might in particular be affected by the liquidation of all or a portion of the hedging positions (a) at or about the time of the maturity or expiration of the Securities or (b), if the Securities provide for a knock-out, knock-in or a similar feature, at the time when the price or value of the Underlying approaches the relevant price or level for the knock-out, knock-in or other feature.

5. Issue Price

The issue price charged for the Securities can, in addition to loading charges, management or other fees charged, comprise a premium on the original mathematical ("fair") value of the Securities which is not visible to investors. Such premium is determined by the Issuer in its discretion and can differ from premiums charged by other issuers for comparable securities.

6. Market-Making for the Securities

The Issuer, or an agent on its behalf, may act as market-maker for the Securities. In such market-making, the Issuer or its agent will, to a large extent, determine the price of the Securities itself. The prices quoted by such market-maker will usually not correspond to the prices which would have formed without such market-making and in a liquid market.

Circumstances taken into account by the market-maker when setting the quoted bid-offer prices in the secondary market notably include the Securities' fair value, which, among other things, depends on the value of the Underlying, as well as a certain bid-offer spread targeted by the market-maker. The market-maker will in addition

regularly take into account a loading charge originally raised for the Securities and any fees or costs which at maturity of the Securities are to be subtracted from the cash amount (including management, transaction or other fees charged on the basis of the Product Conditions). Furthermore, the prices quoted in the secondary market will be influenced, for example, by a premium on the Securities' original value contained in their issue price (see under 5. above), and by dividends paid or received by the Underlying, or its constituents, or other proceeds which, due to the Securities' design, are economically attributable to the Issuer.

The bid-offer spread for the Securities will be set by the market-maker based on supply and demand for the Securities and certain revenue considerations.

Certain costs, like for example management fees charged on the basis of the Product Conditions, are in many cases not taken out of the quoted prices on a consistent basis over the term of the Securities (*pro rata temporis*), but are subtracted from the Securities' fair value completely at an earlier point in time, as determined by the market-maker in its discretion. The same applies for a premium contained in the issue price and for dividends and other proceeds of the Underlying which, due to the Securities' design, are economically attributable to the Issuer, which often are not subtracted when the Underlying, or its constituents, are traded "ex dividend", but at an early stage of the Securities' term based on expected dividends for the entire term or a certain time span. The rate at which such costs are subtracted depends, *inter alia*, on the net flow back of Securities to the market-maker.

Subsequently, the prices quoted by the market-maker can substantially differ from the fair value of the Securities, or the value to be expected economically on the basis of the factors mentioned above, at the relevant time. In addition, the market-maker can at any time alter the methodology used to set the quoted prices, e. g. increase or decrease the bid-offer spread.

7. Market-Making for the Underlying

The Issuer may, in certain cases, act as a market-maker for the Underlying, which might in particular be the case when the Issuer has also issued the Underlying. By such market-making, the Issuer will, to a large extent, determine the price of the Underlying, and consequently influence the value of the Securities itself. The prices quoted by the Issuer in its market-making function will not always correspond to the prices which would have prevailed without such market-making and in a liquid market.

8. Acting as Underwriter or otherwise for the issuer of Underlying

The Issuer and its affiliates may also act as underwriter in connection with future offerings of the Underlying or may act as financial adviser to the issuer of an Underlying or in a commercial banking capacity for the issuer of an Underlying. Such activities could present certain conflicts of interest and may affect the value of the Securities.

9. Obtaining of Non-public Information

The Issuer and/or its affiliates may acquire non-public information with respect to the Underlying, and neither the Issuer nor any of its affiliates undertakes to disclose any such information to any Securityholder. In addition, one or more of the Issuer's affiliates may publish research reports with respect to the Underlying. Such activities could present conflicts of interest and may affect the value of the Securities.

1. Material Adverse Change in Deutsche Bank's Financial Position and Significant Change in Deutsche Bank's Financial or Trading Position

Save as disclosed herein and in the Registration Document (including documents incorporated by reference) there has been no material adverse change in the prospects of Deutsche Bank since 31 December 2009, nor significant change in the financial or trading position of Deutsche Bank since 31 December 2009.

2. Legal and arbitration proceedings

Other than set out in the Registration Document and in the financial report for the year ended 31 December 2009, Deutsche Bank is not, or during the last twelve months has not been involved (whether as defendant or otherwise) in, nor does it have knowledge of any threat of any legal, arbitration, administrative or other proceedings the result of which may have, in the event of an adverse determination, a significant effect on its financial condition as presented in this Prospectus.

3. Post Issuance Information

The Issuer does not intend to provide any post-issuance information in relation to any assets underlying any issues under this prospectus except if required by any applicable laws and regulations.

The information regarding the Underlying are publicly available on the major Italian domestic newspapers (eg, "*Il Sole 24 Ore*" and/or "*MF*") as well as international financial newspapers (e.g., "*Financial Times*" and/or "*Wall street Journal Europe*"), as specified in section "*C. Information relating to the Underlying*" of section "*VI. Information Relating to the Securities*".

4. Use of Proceeds

The net proceeds from the issue of any Securities under this document will be applied by the Issuer for its general corporate purposes. A substantial portion of the proceeds from the issue of certain Securities may be used to hedge market risk with respect to such Securities.

IV. TERMS OF THE OFFER

1. Number of Securities

Up to 1,000,000 Securities will be issued. The actual number of Securities issued corresponds to the sum of all valid subscriptions or orders received by the Issuer.

2. The Subscription Period

Applications to subscribe for the Securities may be made from 22 March 2010 until the Primary Market End Date as described in the section titled "Country Specific Information" below, paragraph 2.

3. Cancellation of the Issuance of the Securities

The Issuer reserves the right for any reason to cancel the issuance of the Securities. If the Issuer cancels the issuance then the prospective investors will be notified by the relevant distributor.

4. Early Closing of the Subscription of the Securities

In accordance with the section titled "Country Specific Information" below, in paragraph 2, the Issuer reserves the right for any reason to close the subscription period early. If the Issuer closes the subscription period early then the prospective investors will be notified by the relevant distributor.

5. Delivery of the Securities

The Securities will be delivered against payment of the Issue Price, in accordance with applicable law and any rules and procedures for the time being of any clearing agent through whose books any of the Securities are transferred. Investors purchasing Securities will receive delivery of them on the value date through an account with a financial institution that is a member of one of the respective clearing agents.

6. Results of the Offer

The results of the offer will be published on the website of the Luxembourg Stock Exchange (www.bourse.lu) from the fifth Business Day after the Primary Market End Date.

V. GENERAL INFORMATION

A. GENERAL TAXATION INFORMATION

1. Introduction

Purchasers and/or sellers of Securities may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of transfer in addition to the issue price or purchase price of the Securities.

Transactions involving the Securities (including purchases, transfers, exercise or non-exercise or redemption, the accrual or receipt of any interest payable on the Securities and the death of a holder of any Securities) may have tax consequences for holders and potential purchasers which may depend, amongst other things, upon the tax status of the holder or potential purchaser and may relate to - amongst other taxes and duties - stamp duty, stamp duty reserve tax, income tax, corporation tax, trade tax, capital gains tax, withholding tax, solidarity surcharge and inheritance tax.

For more specific information on the tax consequences please see the appropriate Country Specific Information.

General Condition 6 (Taxation) in the General Conditions should also be considered carefully by all potential purchasers of any Securities.

Potential purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of transactions involving the Securities.

2. Taxation in Luxembourg

The following summary is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Securities should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

2.1 Non-resident Holders of Securities

Under Luxembourg general tax laws in force at the date of this Prospectus, there is no withholding tax on payments of principal, premium or interest made to non-residents holders of Securities, nor on accrued but unpaid interest in respect of the Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Securities held by non-resident holders of Securities.

However, under the Luxembourg laws of 21 June 2005 (the **Laws**), implementing the Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the **Territories**), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which are resident of, or established in, an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her/its country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the fiscal authorities of his/her country of residence in the required format to the relevant paying agent. Where withholding tax is applied, it will be levied at a rate of 20 per cent. for the three-year period starting 1 July 2008 and at a rate of 35% per cent. thereafter. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest

under the Securities coming within the scope of the Laws would at present be subject to withholding tax of 20 per cent.

2.2 Resident Holders of Securities

Under Luxembourg general tax laws currently in force, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Securities, nor on accrued but unpaid interest in respect of Securities, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Securities held by Luxembourg resident holders of Securities.

However, under the Luxembourg law of 23 December 2005 (the **Law**) payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 10 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Securities coming within the scope of the Law would be subject to withholding tax of 10 per cent.

3. Stamp Duty and Withholding Tax in Germany

The following paragraphs, which are intended as a general guide on stamp duty and withholding tax only, are based on legislation and German tax authority practice at the date of this Prospectus. They summarise certain aspects of German taxation only which may be applicable to the Securities but do not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase, hold, transfer or redeem the Securities. In particular, this general summary does not consider any specific facts or circumstances that may apply to a particular purchaser. Potential purchasers of the Securities who are in any doubt about their tax position on purchase, ownership, transfer or exercise or non-exercise or redemption, as the case may be, of any Security should consult their own tax advisers.

The purchase or sale of a Security is not subject to stamp, value added or similar taxes or charges in Germany, regardless of the place of issuance, execution and delivery of the Security.

Payments in respect of interest (if any) made in respect of a Security to its holder if made by an Agent having its specified office in Germany or any other financial institution in Germany or if made by the Issuer from Germany may be subject to withholding tax.

4. Stamp Duty and Withholding Tax in the United Kingdom

The following paragraphs, which are intended as a general guide only, are based on legislation and United Kingdom HM Revenue & Customs practice at the date of this Prospectus. They summarise certain aspects of United Kingdom taxation only and customs which may be applicable to the Securities but do not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase the Securities. In particular, this general summary does not consider any specific facts or circumstances that may apply to a particular purchaser. Potential purchasers of the Securities who are in any doubt about their tax position on purchase, ownership, transfer or exercise or non-exercise or redemption, as the case may be, of any Security should consult their own tax advisers.

A purchaser or a Security may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of purchase in addition to the purchase price of such Security.

Potential purchasers of the Securities should note that the Global Security may constitute an instrument which is subject to United Kingdom stamp duty on issue by reference to the amount of the consideration paid or the value of the Security. However, the Global Security will be executed and delivered outside the United Kingdom and should not be brought into the United Kingdom save for the purposes of enforcement. So long as the Global Security is held outside the United Kingdom, it will not be necessary to pay United Kingdom stamp duty or interest or penalties in connection therewith. However, if the Global Security were brought into the United Kingdom (for example, for enforcement purposes), United Kingdom stamp duty may be required to be paid on the Global Security (subject to the availability of exemptions and reliefs). In addition, where the Global Security is executed outside the United Kingdom is subsequently brought into the United Kingdom and stamped, interest on the amount of the unpaid stamp duty will be payable in addition to the stamp duty in respect of the period from the expiry of 30 days from the date of execution of the Global Security to the date of stamping, unless the Global Security is stamped within 30 days of execution, in which case no interest is payable. No penalties are payable where the Global Security is executed outside the United Kingdom and subsequently brought into the United Kingdom and stamped, provided the Global Security is stamped within 30 days of being brought into the United Kingdom. If the Global Security is subject to United Kingdom stamp duty, it would be inadmissible in evidence in civil (as opposed to criminal) proceedings in an English court unless duly stamped. It should be noted however, that the United Kingdom HM Revenue & Customs have recently indicated that cash-settled warrants are not subject to stamp duty on issue. The Securities have some of the features of warrants (such as the requirement for there to be an exercise before any amounts become payable to holders). However, other features of the Securities are less warrant-like (such as the Issuer's right to redeem). It is possible that HM Revenue & Customs would be prepared to treat the Securities as warrants for stamp duty purposes, in which case they would not be stampable on issue.

The comments above relate to United Kingdom stamp duty on issue only.

Any interest payable on the Securities, any original issue discount in respect of the Securities and/or any proceeds on redemption or exercise of the Securities will not be subject to United Kingdom withholding tax.

B. GENERAL SELLING AND TRANSFER RESTRICTIONS

1. Introduction

The distribution of this document and the offering of the Securities in certain jurisdictions may be restricted by law. Persons into whose possession this document comes are required by the Issuer to inform themselves about and to observe any such restrictions.

2. United States of America

The Securities have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), and trading in the Securities has not been approved by the United States Commodity Futures Trading Commission (the "**CFTC**") under the United States Commodity Exchange Act (the "**Commodity Exchange Act**"). Any offer or sale of the Securities must be made in a transaction exempt from the registration requirements of the Securities Act pursuant to Regulation S thereunder. No Securities, or interests therein, may at any time be offered, sold, resold or delivered, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person or to others for offer, sale, resale or delivery, directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person. No Securities may be exercised or redeemed by or on behalf of a U.S. person or a person within the United States. As used herein, "**United States**" means the United States of America (including the States and the District of Columbia), its territories, its possessions and other areas subject to its jurisdiction; and "**U.S. person**" means either a U.S. person as defined in Regulation S under the Securities Act or a person who does not come within the definition of a non-United States person under Rule 4.7 of the Commodity Exchange Act.

3. European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") the Securities have not been offered and will not be offered to the public in that Relevant Member State, except that, with effect from and including the Relevant Implementation Date, an offer of Securities to the public in that Relevant Member State may be made:

- (a) if the prospectus in relation to the Securities specify that an offer of those Securities may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Securities which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable;
- (b) at any time to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;
- (c) at any time to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of

more than €43,000,000; and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;

- (d) at any time to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (e) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of Securities referred to in 3.2 to 3.4 above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Securities to the public**" in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression "**Prospectus Directive**" means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

4. United Kingdom

- 4.1 An invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act ("**FSMA**") may only be communicated or caused to be communicated in connection with the issue or sale of any Securities in circumstances in which Section 21(1) of the FSMA would not, if the Issuer was not an authorised person, apply to the Issuer; and
- 4.2 all applicable provisions of the FSMA must be complied with in respect to anything carried out in relation to any Securities in, from or otherwise involving the United Kingdom.

VI. INFORMATION RELATING TO THE SECURITIES

A. PRODUCT CONDITIONS

These Product Conditions relate to the Securities and must be read in conjunction with, and are subject to, the General Conditions set out in this document. The Product Conditions and the General Conditions together constitute the Conditions of the Securities and will be attached to the Global Security representing the Securities.

1. Product Condition 1 - Definitions

"**Affiliate**" means any entity controlled, directly or indirectly, by the Issuer, any entity that controls, directly or indirectly, the Issuer, or any entity under common control with the Issuer. As used herein "**control**" means ownership of a majority of the voting power of the entity or, as the case may be, the Issuer and "**controlled by**" and "**controls**" shall be construed accordingly;

"**Agent**" means, subject to the provisions of General Condition 5, Deutsche Bank AG, acting through its principal office in Frankfurt am Main (the "**Principal Agent**") and through its branch office in London (Deutsche Bank AG London), (each an "**Agent**" and together the "**Agents**");

"**Barrier Determination Amount**" means, in relation to a Basket Constituent and in relation to any Barrier Determination Date, an amount determined by the Calculation Agent equal to the Reference Level of such Basket Constituent on such Barrier Determination Date and without regard to any subsequently published correction;

"**Barrier Determination Date**" means, in respect of each Basket Constituent, 27 April 2011 (the "**First Barrier Determination Date**"), 27 April 2012 (the "**Second Barrier Determination Date**") and 29 April 2013 (the "**Third Barrier Determination Date**") or, if any such day is not a Trading Day for any of the Basket Constituents, then in respect of that Basket Constituent or those Basket Constituents only the next following day that is a Trading Day for that Basket Constituent or those Basket Constituents unless, in the opinion of the Calculation Agent, a Market Disruption Event has occurred on such day in respect of one or more Basket Constituents. If there is a Market Disruption Event on such day, then the relevant Barrier Determination Date for each Basket Constituent not affected by a Market Disruption Event shall be the originally designated Barrier Determination Date and the Barrier Determination Date for each Basket Constituent affected (each an "**Affected Item**") by a Market Disruption Event shall be the first succeeding Trading Day on which there is no Market Disruption Event relating to that Affected Item, unless there is a Market Disruption Event relating to the Affected Item occurring on each of the eight Trading Days immediately following the original date which (but for the Market Disruption Event) would have been the Barrier Determination Date. In that case then (a) the eighth Trading Day shall be deemed to be the Barrier Determination Date for the Affected Item notwithstanding the Market Disruption Event and (b) the Calculation Agent shall determine the Barrier Determination Amount for the Barrier Determination Date by determining the price or level of the Affected Item as of that eighth Trading Day that would have prevailed but for the occurrence of a Market Disruption Event having regard to the then prevailing market conditions, the last reported, published or traded level or price of the Affected Item and such other factors as the Calculation Agent considers relevant;

"**Barrier Level**" means, in relation to a Basket Constituent, 100 per cent. of the respective Initial Reference Level, subject to adjustment in accordance with Product Condition 4;

"**Basket**" means, subject to adjustment in accordance with Product Condition 4, a basket of assets or other reference items comprised as follows:

<i>Type</i>	<i>Name</i>	<i>Reference Source</i>	<i>Security Code (Reuters RIC)</i>
Shares	Telefonica SA (ISIN: ES0178430E18)	Bolsa de Madrid (Madrid Stock Exchange)	TEF.MC
Shares	Vodafone Group Plc (ISIN: GB00B16GWD56)	London Stock Exchange	VOD.L

"**Basket Constituent**" means each of the assets listed in the column "Name of Basket Constituent" in the definition of "Basket" above, subject to adjustment in accordance with Product Condition 4;

"**Business Day**" means a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in, Frankfurt am Main Milan and a day on which each Clearing Agent is open for business and, for the purpose of making payments in Euro, and if applicable, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) system is open;

"**Calculation Agent**" means the Issuer, subject to the provisions of General Condition 5;

"**Cash Settlement Amount**" means, with respect to each Security, an amount determined by the Calculation Agent as follows:

- (A) If, in the determination of the Calculation Agent, on a Barrier Determination Date the Barrier Determination Amount of each of the Basket Constituents has been equal to or above the respective Barrier Level (such event a "**Knock-Out Event**"):
 - (i) if the Knock Out Event occurs in relation to the First Barrier Determination Date, EUR 106; or
 - (ii) if the Knock Out Event occurs in relation to the Second Barrier Determination Date, EUR 112; or
 - (ii) if the Knock Out Event occurs in relation to the Third Barrier Determination Date, EUR 118; or
- (B) If a Knock-Out Event has not occurred:
 - (i) if, in the determination of the Calculation Agent, the Final Reference Level of each Basket Constituent is equal to or greater than the respective Initial Reference Level, an amount equal to EUR 124;
 - (ii) if, in the determination of the Calculation Agent, the Final Reference Level of any of the Basket Constituents is lower than the respective Initial Reference Level and:
 - (a) the Final Reference Level of each Basket Constituents is equal to or greater than the respective Determination Level, an amount equal to EUR 100; or

- (b) the Final Reference Level of any of the Basket Constituents is lower than the respective Determination Level, an amount equal to EUR 90.

The Cash Settlement Amount will be rounded to the nearest two decimal places in the Settlement Currency, 0.005 being rounded downwards;

"**Clearing Agent**" means Euroclear Bank S.A./N.V. (1 Boulevard du Roi Albert II 1210 Brussels), Clearstream Banking S.A. (42 Avenue JF Kennedy L-1855 Luxembourg) in Luxembourg and Monte Titoli S.p.A., (Via Mantegna, 6 20154 Milan), in Italy, and such further or alternative clearing agent(s) or clearance system(s) as may be approved by the Issuer from time to time and notified to the Securityholders in accordance with General Condition 4 (each a "**Clearing Agent**" and together the "**Clearing Agents**");

"**Determination Level**" means, in relation to a Basket Constituent, 90 per cent of the respective Initial Reference Level, subject to adjustment in accordance with Product Condition 4;

"**Exercise Date**" means 28 April 2014 or, if such day is not a Business Day, the first succeeding Business Day;

"**Final Reference Level**" means, in relation to a Basket Constituent, subject to adjustment in accordance with Product Condition 4 and as provided in the definition of "Valuation Date", an amount equal to the respective Reference Level of such Basket Constituent on the Valuation Date, as determined by the Calculation Agent and without regard to any subsequently published correction(s);

"**Global Security**" has the meaning ascribed thereto in Product Condition 2;

"**Initial Reference Level**" means, in relation to a Basket Constituent and subject to adjustment in accordance with Product Condition 4 and as provided in the definition of "Initial Reference Valuation Date", an amount equal to the respective Reference Level on the Initial Reference Valuation Date as determined by the Calculation Agent and without regard to any subsequently published correction(s);

"**Initial Reference Valuation Date**" means, in respect of each Basket Constituent, 27 April 2010 or, if such day is not a Trading Day for any of the Basket Constituents, then in respect of that Basket Constituent or those Basket Constituents only the next following day that is a Trading Day for that Basket Constituent or those Basket Constituents unless, in the opinion of the Calculation Agent, a Market Disruption Event has occurred on such day in respect of one or more Basket Constituents. If there is a Market Disruption Event on such day, then the relevant Initial Reference Valuation Date for each Basket Constituent not affected by a Market Disruption Event shall be the originally designated Initial Reference Valuation Date and the Initial Reference Valuation Date for each Basket Constituent affected (each an "**Affected Item**") by a Market Disruption Event shall be the first succeeding Trading Day on which there is no Market Disruption Event relating to that Affected Item, unless there is a Market Disruption Event relating to the Affected Item occurring on each of the eight Trading Days immediately following the original date which (but for the Market Disruption Event) would have been the Initial Reference Valuation Date. In that case then (a) the eighth Trading Day shall be deemed to be the Initial Reference Valuation Date for the Affected Item notwithstanding the Market Disruption Event and (b) the Calculation Agent shall determine the Reference Level for the Initial Reference Valuation Date by determining the price or level of the Affected Item as of that eighth Trading Day that would have prevailed but for the occurrence of a Market Disruption Event having regard to the then prevailing market conditions, the last reported, published or traded level or price of the Affected Item and such other factors as the Calculation Agent considers relevant;

Calculation Agent, a Market Disruption Event has occurred on such day in respect of one or more Basket Constituents. If there is a Market Disruption Event on such day, then the relevant Valuation Date for each Basket Constituent not affected by a Market Disruption Event shall be the originally designated Valuation Date and the Valuation Date for each Basket Constituent affected (each an "**Affected Item**") by a Market Disruption Event shall be the first succeeding Trading Day on which there is no Market Disruption Event relating to that Affected Item, unless there is a Market Disruption Event relating to the Affected Item occurring on each of the eight Trading Days immediately following the original date which (but for the Market Disruption Event) would have been the Valuation Date. In that case then (a) the eighth Trading Day shall be deemed to be the Valuation Date for the Affected Item notwithstanding the Market Disruption Event and (b) the Calculation Agent shall determine the Reference Level for the Valuation Date by determining the price or level of the Affected Item as of that eighth Trading Day that would have prevailed but for the occurrence of a Market Disruption Event having regard to the then prevailing market conditions, the last reported, published or traded level or price of the Affected Item and such other factors as the Calculation Agent considers relevant;

"**Waiver Notice**" means the notice described in Product Condition 3 – Rights and Procedures;

Terms with initial capital letters which are not defined in these Product Conditions shall have the meanings ascribed to them in the General Conditions.

2. Product Condition 2 - Form

The Securities are represented by a global security (the "**Global Security**") which will, if deposited with a Clearing Agent in Germany, be in bearer form for the purposes of German law. The Global Security has been deposited with the Clearing Agent. No definitive Securities will be issued.

For the purposes of listing on SeDeX market of the Italian Stock Exchange, the Securities are dematerialised and centralised with Monte Titoli S.p.A., pursuant to Italian legislative decree no. 213/1998 as subsequently amended.

No definitive Securities will be issued.

The Securities are transferable in accordance with applicable law and any rules and procedures for the time being of any Clearing Agent through whose books such Securities are transferred.

If admitted to trading on the Italian Stock Exchange, the Securities are freely transferable by way of book entries in the accounts registered on the settlement system of Monte Titoli S.p.A. and they shall be transferred in lots at least equal to the Minimum Trade Size (as defined by the Listing Rules of the market organised and managed by Borsa Italiana S.p.A. ("**Regolamento di Borsa**")), or multiples thereof, as determined by Borsa Italiana S.p.A. and indicated in the Final Terms or other relevant documents concerning the Securities.

The terms "**Securityholders**" and "**holders of Securities**" will be construed to mean those persons recognised as the legal owner of the Securities pursuant to German law.

3. Product Condition 3 - Rights and Procedures

3.1 Exercise

3.1.1 Subject as provided in the Conditions, each Security will be exercised automatically on the Exercise Date or, if a Knock-Out Event occurs, on the Termination Date and the provisions of Product Condition 3.2 shall apply. The expressions "exercise", "due exercise" and related expressions shall be construed to apply to any Securities which are automatically exercised on the Exercise Date or, if a Knock-Out Event occurs, on the Termination Date in accordance with this provision. No Securityholder will be required to complete an Exercise Notice.

3.1.2 Notwithstanding clause 3.1.1, the Securityholder may waive such automatic exercise, in whole or in part, by delivering a Waiver Notice that must be received by the Settlement Agent by

17:00 CET of the Business Day following the Valuation Date.

The Waiver Notice shall:

- (1) specify the Series, the ISIN code and the number of Securities held by the Securityholder;
- (2) specify the number of Securities - equal at least to the Minimum Trade and Exercise Amount and multiples thereof - in respect of which automatic exercise is being waived by the Securityholder;
- (3) specify the number of the account of the Securityholder with the intermediary adhering to the "Monte Titoli" system where the Securities that are the subject of the waiver are held;
- (4) specify name, address and telephone and fax number of the Securityholder.

The Waiver Notice shall be sent via fax to the Settlement Agent and addressed as follows: Deutsche Bank S.p.A., Direzione Generale - Ufficio Titoli, Piazza del Calendario, 3 – 20126 Milan (Italy), Attention: Mr. Andrea Moioli, phone no. +39 02 4024 3864, fax no. +39 02 40242790.

The Waiver Notice shall be deemed received by the Settlement Agent at the time indicated on the facsimile transmission report.

Waiver Notices may not be withdrawn after their receipt by the Settlement Agent. The Securityholder, by way of sending the Waiver Notice, irrevocably exercises the right to waive the automatic exercise of the relevant Security. After a Waiver Notice is sent, the Security to which it refers may no longer be transferred, no Cash Settlement Amount shall be payable in respect thereof and the Issuer shall have no further obligations in respect thereof.

An incomplete Waiver Notice or a Waiver Notice which has not been timely sent, will be deemed as void and ineffective and the automatic exercise of the Securities shall apply on the Exercise Date in accordance with clause 3.1.1.

Any assessment relating to the validity, both from a substantial and a formal perspective, of the Waiver Notice will be performed by the Settlement Agent and will be final and binding for both the Issuer and the Securityholder.

When the Settlement Agent deems the Waiver Notice to be invalid or incomplete, the said Settlement Agent undertakes to notify such invalidity or incompleteness to the relevant Securityholder as soon as practicable.

In the event that such Waiver of Notice is subsequently amended in such a way that is satisfactory to the Settlement Agent, such Waiver Notice, as amended, will be deemed as a new Waiver Notice filed at the time such amendments are received by the Settlement Agent.

3.2 Settlement

Upon due exercise, each Security entitles its holder to receive from the Issuer on the Settlement Date, the Cash Settlement Amount less any Securityholder Expenses. The Issuer will be discharged of its payment obligations by payment to, or to the order of, the relevant Clearing Agent in respect of the amount so paid. Each of the persons shown in the records of a Clearing Agent as the holder of a particular number of the Securities must look solely to the relevant Clearing Agent for his share of each such payment so made by the Issuer to, or to the order of, the relevant Clearing Agent. All payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment and subject to the provisions of General Condition 6.

If a payment of any amount to be paid to a Securityholder, according to the rules of the relevant Clearing Agent, cannot be made in the Settlement Currency, such payment shall be made in the currency principally used by the relevant Clearing Agent for payments to holders holding accounts with such Clearing Agent, following a conversion of the relevant amount from the Settlement Currency, using the rate of exchange determined by the Calculation Agent by reference to such sources as the Calculation Agent may reasonably determine to be appropriate.

3.3 General

In the absence of gross negligence or wilful misconduct on its part, none of the Issuer, the Calculation Agent and any Agent shall have any responsibility for any errors or omissions in the calculation of any amount payable hereunder or in any other determination pursuant to the provisions hereof.

3.4 Securityholder Expenses

In respect of each Security, all Securityholder Expenses in respect thereof shall be for the account of the relevant Securityholder and where any Cash Settlement Amount and/or other amount in respect of a Security is payable no payment shall be made until all Securityholder Expenses in respect thereof have been paid to the satisfaction of the Issuer;

3.5 Exercise and Settlement Risk

Exercise and settlement of the Securities is subject to all applicable laws, regulations and practices in force at all relevant times, and neither the Issuer nor any Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. Neither the Issuer nor the Agents shall under any circumstances be liable for any acts or defaults of any Clearing Agent in relation to the performance of its duties in relation to the Securities.

4. Product Condition 4 - Adjustment Provisions

4.1 Shares

4.1.1 Definitions:

"**Affiliate**" is as defined in Product Condition 1;

"**Exchange Business Day**" means any Trading Day on which each Reference Source and each Related Exchange are open for trading during their respective regular trading sessions, notwithstanding any such Reference Source or Related Exchange closing prior to its Scheduled Closing Time;

"**Hedging Party**" means any party providing the Issuer directly or indirectly with a hedging arrangement;

"**Other Exchange**" means with respect to a Share, each exchange, trading system or quotation system other than the Reference Source on which such Share is listed, traded or quoted;

"**Reference Currency**" is as defined in Product Condition 1 or, if not defined in Product Condition 1, is the Settlement Currency;

"**Reference Level**" is as defined in Product Condition 1;

"**Reference Source**" is as defined in Product Condition 1;

"**Related Exchange**" means unless otherwise defined in Product Condition 1, with respect to a Share, each exchange, trading system or quotation system where trading has a material effect on the overall market for options contracts or futures contracts on such Share, all as determined by the Calculation Agent;

"**Relevant Country**" means each of

- (i) any country (or any political or regulatory authority thereof) in which a Reference Currency or the Settlement Currency is the legal tender or currency; and
- (ii) any country (or any political or regulatory authority thereof) with which a Share or the related Share Company has a material connection and, in determining what is material the Calculation Agent may, without limitation, refer to the country in which the Share Company is incorporated and/or such other factor(s) as it may deem appropriate,

all as determined by the Calculation Agent;

"**Relevant Time**" means with respect to any Share, the relevant time by reference to which the Calculation Agent determines the price or value of such Share for the purposes of determining the Reference Level;

"**Scheduled Closing Time**" means in respect of a Reference Source or Related Exchange and a Trading Day, the scheduled weekday closing time of such Reference Source or Related Exchange on such Trading Day, without regard to after hours or any other trading outside of the regular trading session hours;

"**Settlement Currency**" is as defined in Product Condition 1;

"**Share**" means the or, as the case may be, each share specified in the definition of "Underlying" or "Basket", as the case may be, in Product Condition 1;

"**Share Company**" means with respect to a Share, the issuer specified for such Share in the definition of "Underlying" or "Basket", as the case may be, in Product Condition 1; and

"Trading Day" is as defined in Product Condition 1.

Terms with initial capital letters which are not defined in this Product Condition 4 shall have the meanings ascribed to them in Product Condition 1.

4.1.2 Market Disruption

The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4 if a Market Disruption Event has occurred on any date with respect to which the Calculation Agent would, but for the occurrence of a Market Disruption Event, have been required by the Product Conditions to determine the price or value of a Share.

"Market Disruption Event" means:

- 4.1.2.1 the failure of a relevant Reference Source or any Related Exchange to open for trading during its regular trading session on any Trading Day; or
- 4.1.2.2 the occurrence or existence on any Trading Day at the Relevant Time for such Share or at any time during the one hour period that ends at the Relevant Time for such Share:
 - (A) of any suspension of or limitation imposed on trading by the relevant Reference Source or Related Exchange or otherwise (and whether by reason of movements in price exceeding limits permitted by the relevant Reference Source or any Related Exchange or otherwise):
 - 4.1.2.2.1 of the Share on the Reference Source or any Other Exchange; or
 - 4.1.2.2.2 in options contracts or futures contracts relating to the Share on any Related Exchange; or
 - (B) of any event (other than an event as described in 4.1.2.3 below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (i) to effect transactions in relation to or to obtain market values for, the Share on the relevant Reference Source or (ii) to effect transactions in, or obtain market values for options contracts or futures contracts on or relating to such Share on any relevant Related Exchange; or
- 4.1.2.3 the closure on any Exchange Business Day of the relevant Reference Source or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Reference Source(s) or Related Exchange(s) at least one hour prior to the earlier of (aa) the actual closing time for the regular trading session on such Reference Source(s) or Related Exchange(s) on such Exchange Business Day and (bb) the submission deadline (if applicable) for orders to be entered into the Reference Source or Related Exchange system for execution at the Relevant Time on such Exchange Business Day; or
- 4.1.2.4 a general moratorium is declared in respect of banking activities in any Relevant Country;

if, in the determination of the Calculation Agent, any of the foregoing is material and in determining what is "material" the Calculation Agent may have regard to such circumstances as it in its reasonable discretion deems appropriate, including any hedging arrangements of the Issuer and/or any of its Affiliates in relation to the Securities.

4.1.3 Potential Adjustment Events

Following any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a dilutive or concentrative or other effect on the theoretical value of the relevant Share and, if so, will (i) make the corresponding adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate to account for that dilutive or concentrative or other effect; and (ii) determine the effective date of that adjustment. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by a Related Exchange to options contracts or futures contracts on the relevant Share traded on that Related Exchange.

Upon making any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4, stating the adjustment made to the Conditions and giving brief details of the Potential Adjustment Event.

"Potential Adjustment Event" means any of the following:

- 4.1.3.1 a subdivision, consolidation or reclassification of relevant Shares (unless it has resulted in a Merger Event) or a free distribution or dividend of any such Shares to existing holders by way of bonus, capitalisation or similar issue;
- 4.1.3.2 a distribution, issue or dividend to existing holders of the relevant Shares of (1) such Shares, or (2) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Share Company equally or proportionately with such payments to holders of such Shares, or (3) share capital or other securities of another issuer as a result of a "spin-off" or other similar transaction, or (4) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or in other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- 4.1.3.3 an extraordinary dividend;
- 4.1.3.4 a call by the Share Company in respect of relevant Shares that are not fully paid;
- 4.1.3.5 a repurchase by or on behalf of the Share Company or any of its subsidiaries of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- 4.1.3.6 in respect of a Share Company, an event that results in any shareholder rights being distributed, or becoming separated from shares of common stock or other shares of the capital stock of such Share Company pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent;
- 4.1.3.7 any redemption of shareholder rights referred to in 4.1.3.6 above; and
- 4.1.3.8 any other event that may have a diluting or concentrative or other effect on the theoretical value of the relevant Shares.

4.1.4 Merger Event, Tender Offer, De-Listing, Nationalisation and Insolvency

If a Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency occurs in relation to relevant Shares and/or the relevant Share Company, as the case may be, the Issuer may take any action described in 4.1.4.1, 4.1.4.2 or 4.1.4.3 below:

- 4.1.4.1 require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the Conditions to account for the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency made by an options exchange to options on the Share traded on that options exchange; or
- 4.1.4.2 cancel the Securities by giving notice to Securityholders in accordance with General Condition 4. If the Securities are so cancelled, the Issuer will pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the fair market value of a Security taking into account the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, as all determined by the Calculation Agent in good faith and in accordance with the reasonable market practice. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4; or
- 4.1.4.3 following any adjustment to the settlement terms of options on the Shares traded on such exchange(s) or trading system(s) or quotation system(s) as the Calculation Agent in its reasonable discretion shall select (the "**Options Reference Source**") require the Calculation Agent to make a corresponding adjustment to any one or more of the Conditions, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Reference Source. If options on the Shares are not traded on the Options Reference Source, the Calculation Agent will make such adjustment, if any, to any one or more of the Conditions as the Calculation Agent determines appropriate, with reference to the rules and precedents (if any) set by the Options Reference Source, to account for the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Reference Source if such options were so traded.

Upon the occurrence of a Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 4 stating the occurrence of the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, giving details thereof and the action proposed to be taken in relation thereto. However, Securityholders should be aware that there may necessarily be some delay between the time at which any of the above events occurs and the time at which it is reported to Securityholders.

"De-Listing" means, for any Share for which the Reference Source is an exchange or a trading system or a quotation system, the Reference Source announces that pursuant to the rules of such Reference Source, such Share ceases (or will cease) to be listed, traded or publicly quoted on the Reference Source for any reason (other than a Merger Event or Tender Offer) and is not immediately re-listed, re-traded or re-quoted on an exchange, trading system or quotation system acceptable to the Calculation Agent.

"Insolvency" means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Share Company (A) all the Shares of that Share Company are required to be transferred to a trustee, liquidator or other similar official or (B) holders of the Shares of that Share Company become legally prohibited from transferring them.

"Merger Date" means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

"Merger Event" means, in respect of any relevant Shares, any (i) reclassification or change of such Shares that results in a transfer of or an irrevocable commitment to transfer all of such Shares outstanding to another entity or person, (ii) consolidation, amalgamation, merger or binding share exchange of a Share Company with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such Share Company is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding), (iii) takeover offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares of the Share Company that results in a transfer of or an irrevocable commitment to transfer all such Shares (other than such Shares owned or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger or binding share exchange of the Share Company or its subsidiaries with or into another entity in which the Share Company is the continuing entity and which does not result in a reclassification or change of all such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares immediately following such event, in each case if the Merger Date is on or before the last possible date on which the Calculation Agent could be required by the Product Conditions to determine the price or value of a Share.

"Nationalisation" means that all the Shares or all or substantially all of the assets of a Share Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

"Tender Offer" means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the Share Company, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

4.1.5. Additional Disruption Events

4.1.5.1 Without prejudice to Product Condition 4.1.2 or General Condition 2, following the declaration by the Issuer of the occurrence of any Additional Disruption Event and provided that such Additional Disruption Event has an effect on the Issuer and/or any of its Affiliates in connection with obligations of the Issuer under the Securities, the Issuer may take any one of the following actions:

4.1.5.1.1 require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment. Without limitation, such adjustment may take into account and pass on

to the Securityholder(s) any increased direct or indirect cost to the Issuer and or/any of its Affiliates as a result of or in connection with the relevant Additional Disruption Event; or

4.1.5.1.2 cancel the Securities by giving notice to Securityholders in accordance with General Condition 4. If the Securities are so cancelled, the Issuer will pay an amount to each Securityholder in respect of each Security held by such Securityholder which amount shall be the fair market value of a Security taking into account the Additional Disruption Event as all determined by the Calculation Agent in good faith and in accordance with the reasonable market practice. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4.

4.1.5.2 **"Additional Disruption Event"** means any of the following:

4.1.5.2.1 the Issuer determines that (i) due to the adoption of or any change in any applicable law or regulation (including without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), (A) it has or will become illegal or impractical for the Issuer and/or any of its Affiliates to hold, acquire or dispose of the Shares or (B) the Issuer and/or any of its Affiliates has or will incur a materially increased direct or indirect cost in performing its obligations under the Securities and/or any related hedging arrangements (including, without limitation, due to any increase in tax liability, decrease in tax benefits or other adverse effect on the tax position of the Issuer and/or any of its Affiliates); or

4.1.5.2.2 the Issuer determines that it and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any arrangement(s), transaction(s) or asset(s) it deems necessary to perform its obligations with respect to the Securities, or (B) realise, recover or remit the proceeds of any such arrangement(s), transaction(s) or asset(s); or

4.1.5.2.3 the Issuer determines that it and/or any of its Affiliates has or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any arrangement(s), transaction(s) or asset(s) it deems necessary to perform its obligations with respect to the Securities or (B) realise, recover or remit the proceeds of any such arrangement(s), transaction(s) or asset(s) or

4.1.5.2.4 (i) the Issuer determines, at any time, that a Market Disruption Event pursuant to Product Condition 4.1.2.4 has existed for eight or more Trading Days and continues to exist and that any alternative valuation methods provided for in the Product Conditions would, in the determination of the Issuer, not be appropriate for the purposes of making the relevant calculation; and

(ii) the Issuer then elects to treat such Market Disruption Event as an Additional Disruption Event.

5. Product Condition 5 - Governing Law and Place of Jurisdiction

The Securities are governed by and shall be construed in accordance with German law, save with respect to the constituting of the Securities, as described in Product Condition 2, which shall be governed by and construed in accordance with the laws of Italy. The place of jurisdiction for all proceedings arising from matters provided for in these Conditions of the Securities shall, to the extent legally permitted, be Frankfurt am Main.

B. GENERAL CONDITIONS

These General Conditions relate to the Securities and must be read in conjunction with, and are subject to, the Product Conditions set out in this document. The Product Conditions and the General Conditions together constitute the Conditions of the Securities.

1. Status of the Securities

The Securities constitute unsubordinated, unsecured contractual obligations of the Issuer and rank *pari passu* in all respects with each other.

2. Early Exercise, Redemption or Termination for Extraordinary Reasons, Illegality and Force Majeure

If the Issuer determines that, for reasons beyond its control, the performance of its obligations under the Securities or the maintenance of any relevant hedging agreements has become illegal, or further to changes in the applicable law and/or tax regulations, impracticable or burdensome, the Issuer may at its sole discretion and without obligation, terminate the Securities early by giving notice to the Securityholders in accordance with General Condition 4.

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

If the Issuer terminates the Securities early in accordance with the provision above, then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Securityholder in respect of each Security held by such holder equal to the fair market value of a Security notwithstanding such illegality or impracticality as determined by the Calculation Agent in good faith and in accordance with reasonable market practice. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 4.

3. Purchases

The Issuer may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation.

4. Notices

4.1 Validity

Notices to the Securityholders will be valid if delivered to the Clearing Agent(s) for communication by the Clearing Agent(s) to the Securityholders provided that so long as the Securities are listed on any stock exchange or publicly offered in any jurisdiction, any notice to the Securityholders shall be published in accordance with the rules and regulations of each such stock exchange and each such jurisdiction. In Luxembourg, it is expected that any notices to the Securityholders will normally be published on the website of the Luxembourg Stock Exchange (www.bourse.lu).

4.2 Delivery

Notices given pursuant to 4.1 above will become effective on, if delivered to the Clearing Agent(s), the third day after such delivery to the Clearing Agent or all the Clearing Agents (if more than one) or, if published (whether or not also so given), on the date of such publication, or, if published more than once, on the date of the first such publication or, if required to be published in more than one newspaper, on the date of the first such publication in all the required newspapers.

5. Agents, Calculation Agent, Determinations and Modifications

5.1 Agents

The Issuer reserves the right at any time to vary or terminate the appointment of any Agent and to appoint additional Agents, provided that no termination of appointment of the Principal Agent shall become effective until a replacement Principal Agent shall have been appointed and provided that, if and to the extent that any of the Securities are listed on any stock exchange or publicly offered in any jurisdiction, there shall be an Agent having a specified office in each country if so required by the rules and regulations of each such stock exchange and the securities regulators in each such jurisdiction. Notice of any appointment, or termination of appointment, or any change in the specified office, of any Agent will be given to Securityholders in accordance with General Condition 4. Each Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. Any calculations or determinations in respect of the Securities made by an Agent shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

5.2 Calculation Agent

The Issuer shall undertake the duties of calculation agent (the "**Calculation Agent**" which expression shall include any successor calculation agent) in respect of the Securities unless the Issuer decides to appoint a successor Calculation Agent in accordance with the provisions below.

The Issuer reserves the right at any time to appoint another institution as the Calculation Agent, provided that no termination of appointment of the existing Calculation Agent shall become effective until a replacement Calculation Agent shall have been appointed. Notice of any such termination or appointment will be given to the Securityholders in accordance with General Condition 4.

The Calculation Agent (except where it is the Issuer) acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders. Any calculations or determinations in respect of the Securities made by the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

5.3 Settlement Agent

The Issuer reserves the right at any time to vary or terminate the appointment of the Settlement Agent and to appoint additional Settlement Agents, provided however that no termination of appointment of the Settlement Agent shall become effective until a replacement Settlement Agent with offices in Italy shall have been appointed.

Notice of any appointment, substitution or termination of any Settlement Agents will be given to the Securityholders in accordance with General Condition 4.

Each Settlement Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders.

5.4 Determinations by the Issuer

Any determination made by the Issuer pursuant to the Conditions shall (save in the case of manifest error) be final, conclusive and binding on the Securityholders.

5.5 Modifications

The Issuer may, to the extent permitted by applicable law, modify the Conditions without the consent of the Securityholders or any of them in any manner which the Issuer may deem reasonably necessary in order to maintain or preserve the intended commercial purpose of the Conditions if such modification does not materially adversely affect the interests of the Securityholders or is of a formal, minor or technical nature or intended to correct a manifest error or to cure, correct or supplement any defective provision contained therein. Notice of any such modification will be given to the Securityholders in accordance with General Condition 4 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

6. Taxation

In relation to each Security the relevant Securityholder shall pay all Securityholder Expenses as provided in the Product Conditions. All payments or, as the case may be, deliveries in respect of the Securities will be subject in all cases to all applicable fiscal and other laws and regulations (including, where applicable, laws requiring the deduction or withholding for, or on account of, any tax, duty or other charge whatsoever). The Issuer shall not be liable for or otherwise obliged to pay, and the relevant Securityholder shall be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever which may arise as a result of, or in connection with, the ownership, any transfer, any payment and/or any delivery in respect of the Securities held by such Securityholder. The Issuer shall have the right, but shall not be obliged, to withhold or deduct from any amount payable or, as the case may be, any delivery due to the Securityholder such amount or portion as shall be necessary to account for or to pay any such tax, duty, charge, withholding or other payment. Each Securityholder shall indemnify the Issuer against any loss, cost or other liability whatsoever sustained or incurred by the Issuer in respect of any such tax, duty, charge, withholding or other payment as referred to above in respect of the Securities of such holder.

7. Further Issues

The Issuer shall be at liberty from time to time without the consent of Securityholders or any of them to create and issue further securities so as to be consolidated and form a single series with the Securities.

8. Substitution

8.1 Substitution of Issuer

The Issuer, or any previous substituted company, may at any time, without the consent of the Securityholders substitute for itself as principal obligor under the Securities any company (the "**Substitute**"), being any subsidiary or affiliate of the Issuer, subject to:

- (a) the obligations of the Substitute under the Securities being irrevocably and unconditionally guaranteed by Deutsche Bank AG (unless it is the Substitute);
- (b) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Securities represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and being in full force and effect;
- (c) the Issuer shall have given at least 30 days' prior notice of the date of such substitution to the Securityholders in accordance with General Condition 4.

In the event of any substitution of the Issuer, any reference in the Conditions to the Issuer shall henceforth be construed as a reference to the Substitute.

8.2 Substitution of Office

The Issuer shall have the right upon notice to Securityholders in accordance with General Condition 4 to change the office through which it is acting for the purpose of the Securities, the date of such change to be specified in such notice provided that no change can take place prior to the giving of such notice.

9. Replacement of Securities

Should any Security be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Agent (or such other place of which notice shall have been given in accordance with General Condition 4) upon payment by the claimant of the expenses incurred in connection therewith and on such terms as to evidence and as to indemnity as the Issuer may reasonably require. Mutilated or defaced Securities must be surrendered before replacements will be issued.

10. Adjustments for European Monetary Union

10.1 Redenomination

The Issuer may, without the consent of the Securityholders, on giving notice to the Securityholders in accordance with General Condition 4 elect that, with effect from the Adjustment Date specified in the notice, certain terms of the Securities shall be redenominated in euro;

The election will have effect as follows:

(a) where the Settlement Currency is the National Currency Unit of a country which is participating in the third stage of European Economic and Monetary Union, whether as from 1999 or after such date, such Settlement Currency shall be deemed to be an amount of euro converted from the original Settlement Currency into euro at the Established Rate, subject to such provisions (if any) as to rounding as the Issuer may decide and as may be specified in the notice, and after the Adjustment Date, all payments in respect of the Securities will be made solely in euro as though references in the Securities to the Settlement Currency were to euro;

(b) where the Conditions contain a rate of exchange or any of the Conditions are expressed in a currency (the "**Original Currency**") of a country which is participating in the third stage of European Economic and Monetary Union, whether as from 1999 or after such date, such rate of exchange and/or any other terms of the Conditions shall be deemed to be expressed in or, in the case of a rate of exchange, converted for or, as the case may be into, euro at the Established Rate; and

(c) such other changes shall be made to the Conditions as the Issuer may decide to conform them to conventions then applicable to instruments expressed in euro.

10.2 Adjustment to Conditions

The Issuer may, without the consent of the Securityholders, on giving notice to the Securityholders in accordance with General Condition 4 make such adjustments to the Conditions as the Issuer may determine to be appropriate to account for the effect of the third stage of European Economic and Monetary Union pursuant to the Treaty on the Conditions.

10.3 Euro Conversion Costs, etc.

Notwithstanding Condition 10.1 and/or Condition 10.2, none of the Issuer, the Calculation Agent and any Agent shall be liable to any Securityholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of euro or any currency conversion or rounding effected in connection therewith.

10.4 Definitions

In this General Condition, the following expressions have the following meanings:

"Adjustment Date" means a date specified by the Issuer in the notice given to the Securityholders pursuant to this Condition which falls, if the currency is that of a country not initially participating in the third stage of European Economic and Monetary Union pursuant to the Treaty, on or after such later date as such country does so participate;

"Established Rate" means the rate for the conversion of the Original Currency (including compliance with rules relating to rounding in accordance with applicable European Community regulations) into euro established by the Council of the European Union pursuant to the first sentence of Article 123(4), formerly 109 I (4) of the Treaty;

"National Currency Unit" means the unit of the currency of a country, as those units are defined on the day before the start of the third stage of European Economic and Monetary Union or, in connection with the expansion of such third stage, to any country which has not initially participated in such third stage;

"Treaty" means the treaty establishing the European Community.

11. Definitions

Terms in capitals which are not defined in these General Conditions shall have the meanings ascribed to them in the Product Conditions.

VII. COUNTRY SPECIFIC INFORMATION

This section should be read in conjunction with, and is subject to, the Product Conditions, the General Conditions and all other sections of this document.

1. Taxation

Purchasers of Securities may be required to pay taxes and other charges in accordance with the laws and practices of the country of purchase in addition to the issue price of each Security.

Transactions involving securities may have tax consequences for potential purchasers which may depend, amongst other things, upon the status of the potential purchaser and laws relating to transfer and registration taxes. Potential purchasers who are in any doubt about the tax position of any aspect of transactions involving securities should consult their own tax advisers.

The following is a summary of current Italian law and practise relating to the taxation of the Securities. Prospective purchasers of the Securities are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Securities.

The statements herein regarding taxation are based on the laws in force in Italy as at the date of this Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Securities and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules.

Italian Taxation of Securities

Where the Italian resident Securityholder is (i) an individual not engaged in an entrepreneurial activity to which the Securities are connected, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor exempt from Italian corporate income taxation, capital gains realised under the sale or the exercise of the Securities are subject to a 12.5% substitute tax ("imposta sostitutiva"). The Securityholder may opt for three different taxation criteria:

(1) Under the tax declaration regime (regime della dichiarazione), which is the default regime for Italian resident individuals not engaged in an entrepreneurial activity to which the Securities are connected, the imposta sostitutiva on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual holding the Securities not in connection with an entrepreneurial activity pursuant to all sales or redemptions of the Securities carried out during any given tax year. Italian resident individuals holding the Securities not in connection with an entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay the imposta sostitutiva on such gains together with any personal income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

(2) As an alternative to the tax declaration regime, Italian resident individuals holding the Securities not in connection with an entrepreneurial activity may elect to pay the imposta sostitutiva separately on capital gains realised on each sale or exercise of the Securities (the "risparmio amministrato regime"). Such separate taxation of capital gains is allowed subject to (i) the Securities being deposited with Italian banks, SIMs or certain authorised financial intermediaries and (ii) an express

election for the risparmio amministrato regime being timely made in writing by the relevant Securityholder. The depository is responsible for the application of the imposta sostitutiva in respect of capital gains realised on each sale or exercise of the Securities (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Under the risparmio amministrato regime, where a sale or exercise of the Securities results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the risparmio amministrato regime, the Securityholder is not required to declare the capital gains in the annual tax return.

(3) Any capital gains realised by Italian resident individuals holding the Securities not in connection with an entrepreneurial activity who have entrusted the management of their financial assets, including the Securities, to an authorised intermediary and have opted for the so-called "risparmio gestito" regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 12.5 per cent. substitute tax, to be paid by the managing authorised intermediary. Under this risparmio gestito regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the risparmio gestito regime, the Securityholder is not required to declare the capital gains realised in the annual tax return.

Where an Italian resident Securityholder is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the Securities are effectively connected, capital gains arising from the Securities will not be subject to imposta sostitutiva, but must be included in the relevant Securityholder's income tax return and are therefore subject to Italian corporate tax (IRES).

Capital gains realised by non – Italian resident Securityholders from the sale or the exercise of the securities traded on regulated markets are not subject to the imposta sostitutiva.

Capital gains realised by non-Italian resident Securityholders are not subject to Italian taxation, provided that the Securities are held outside of Italy.

Atypical securities

A different interpretation of current tax law may lead to the qualification of the Securities as 'atypical' securities pursuant to Article 8 of Law Decree No. 512 of 30 September, 1983 as implemented by Law No. 649 of 25 November, 1983. In this event, payments relating to Securities may be subject to an Italian withholding tax, levied at the rate of 27 per cent.

The 27 per cent. withholding tax mentioned above does not apply to payments made to a non-Italian resident Securityholder and to an Italian resident Securityholder which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (ii) a commercial partnership, or (iii) a commercial private or public institution. The 27 per cent. withholding tax is applied as an advance payment (ritenuta d'acconto) for Italian resident individuals engaged in an entrepreneurial activity to which the Securities are connected.

Early Redemption

Should instead the Securities qualify as "obbligazioni o titoli similari alle obbligazioni" and have an original maturity of not less than eighteen months, payments of interest

and other proceeds (including the original issue discount) will be subject to final flat tax (imposta sostitutiva) at a 12.50% rate in Italy if made to Italian resident beneficial owners that are private individuals holding Securities not in connection with an entrepreneurial activity. However, if such Securities are redeemed, in full or in part, prior to eighteen months from their date of issue, Italian resident beneficial owners will be required to pay an additional amount equal to 20% of the interest, premium and other proceeds (including original issue discount) accrued up to the time of the early redemption. If Italian withholding agents intervene in the collection of interest, premium and other proceeds on the Securities or in the redemption of the Securities, this additional amount will be levied by such withholding agents by way of withholding. In accordance with one interpretation of Italian fiscal law, the above 20% additional amount may be due also in the event of purchase of Securities by the Issuer with subsequent cancellation thereof prior to eighteen months from the date of issue.

Inheritance and gift tax

Any transfer of Securities by reason of gift, donation or succession proceedings is subject to Italian gift and inheritance tax as follows:

- 4% for transfers in favour of the spouse or direct relatives exceeding, for each beneficiary, the threshold of Eur 1,000,000.00
- 6% for transfers in favour of siblings exceeding, for each beneficiary, the threshold of Eur 100,000.00;
- 6% for transfers in favour of relatives up to the fourth degree and to all relatives in law in direct line and to other relatives in law up to the third degree irrespective of the value of the Securities;
- 8% for transfers in favour of any other person or entity, irrespective of the value of the Securities.

If the heir/heirress and/or the donee is a person with a severe disability pursuant to Law n. 104 of February 5, 1992, inheritance or gift tax is applied to the extent that the value of the inheritance or gift exceeds €1,500,000.

2. Subscription Period

In Italy, applications to subscribe for the Securities may be made at the offices of Deutsche Bank S.p.A., Piazza del Calendario, 3 - 20126 Milano and Finanza e Futuro Banca S.p.A., Piazza del Calendario, 1, Milan – 20126 (the “**Distributors**”) during the period commencing on 22nd March 2010 and ending on 23rd April 2010. However, the Issuer reserves the right for any reason to close the subscription period prior to its stated expiry.

Deutsche Bank S.p.A. will act as lead manager (“*Responsabile del Collocamento*”).

For the avoidance of doubt, the Issuer will not act as Distributor.

3. Description of the Application Process

Applications for the Certificates can be made in Italy through the Distributors. The applications can be made in accordance with the Distributors usual procedures.

During the Subscription Period described above, the public in Italy and qualified investors can accept the offer during normal banking hours in Italy.

During the Subscription Period no undertakings have been made by third parties to guarantee the subscription of the Securities.

A prospective investor should contact the Distributors in Italy prior to the end of the Subscription Period. A prospective investor will subscribe for the Securities by

signing a subscription application of the Distributors for the Securities. Such application must be specific for the Securities and drafted in accordance with the arrangements existing between the Distributors and their customers relating to the subscription of securities generally. Prospective investors will not be required to enter into any contractual arrangements directly with the Issuer related to the subscription for the Securities.

4. Details of the Minimum and/or Maximum Amount of Application

The minimum allocation per investor will be 1 Certificates. The maximum allocation of Certificates will be subject only to availability at the time of the application.

There are no pre-identified allotment criteria. The Distributors will adopt allotment criteria that ensures equal treatment of prospective investors. All of the Securities requested through the Distributors during the Subscription Period will be assigned up to the maximum amount of the offer.

In the event that during the Subscription Period the requests exceed the amount of the offer destined to prospective investors, equal to 1,000,000 Securities, the Issuer will decide, in its discretion, (i) to early terminate the Subscription Period and will immediately suspend the acceptance of further requests or (ii) to increase the amount of the offer to the extent permitted by, and pursuant to, the applicable regulation.

5. Details of the Method and Time Limits for Paying Up and Delivering the Securities

Investors will be notified by the Distributors of their allocations of Securities and the settlement arrangements in respect thereof. The Securities will be issued on the Issue Date against payment to the Issuer of the net subscription moneys. No dealings in the Certificates may take place prior to the Issue Date.

6. Categories of Potential Investors to which the Securities are Offered and whether Tranche(s) have been Reserved for Certain Countries

Offers may be made by through the Distributors in the Republic of Italy to any person.

Qualified investors may be assigned only those Securities remaining after the allocation of all Securities requested by the public in Italy during the Subscription Period. In other EEA countries, offers will only be made pursuant to an exemption under the Prospectus Directive as implemented in such countries.

Any investor not located in Italy should contact its financial advisor for more information, and may only purchase the Securities from its financial advisor, bank or financial intermediary.

7. Process for Notification to Applicants of the Amount Allotted and the Indication whether Dealing may Begin before Notification is Made

Not applicable.

No dealings in the Securities may take place prior to the Issue Date.

8. Settlement and Clearing

L'emittente (l'"**Emittente**") dei titoli descritti nel presente **Prospetto** (costituito da un Documento di Registrazione in data 9 aprile 2009, Nota Informativa e Nota di Sintesi) è Deutsche Bank AG, Francoforte sul Meno, società costituita ai sensi della legge tedesca.

L'Emittente è autorizzato e può emettere titoli collegati ad azioni e/o indici e/o altri titoli e/o quote di fondi e/o merci e/o tassi di cambio e/o altre attività finanziarie in quanto parte della propria attività bancaria generale (si veda l'articolo 2 comma 1 dello Statuto di Deutsche Bank AG).

L'Emittente ha stabilito di emettere fino a 1.000.000 *Autocallable Certificates* (i "**Certificates**") relativi al Paniere di azioni di cui sopra secondo le condizioni di prodotto previste nella sezione "**Condizioni di Prodotto**" del presente documento ed i termini e condizioni generali previste nel presente documento (le "**Condizioni Generali**" alle quali, unitamente alle Condizioni di Prodotto, si farà riferimento come le "**Condizioni**"). Il riferimento al termine "**Sottostante**" andrà interpretato come riferimento al Paniere di cui sopra.

L'Emittente ha il diritto di farsi sostituire e di cambiare la sede dalla quale opera, ai sensi di quanto previsto dall'articolo 8 delle Condizioni Generali.

Sarà presentata richiesta di ammissione alla quotazione dei Titoli sul Listino Ufficiale della Borsa Valori del Lussemburgo e alla negoziazione sul Mercato Regolamentato della Borsa Valori del Lussemburgo, nonché sul mercato SeDex presso la Borsa Valori di Milano, che costituiscono mercati regolamentati ai fini della direttiva 2004/39/CE. È stata richiesta alla CSSF di fornire alla autorità competente in Italia un certificato di approvazione attestante che il Prospetto è stato redatto in conformità alla Direttiva Prospetti, il Regolamento Prospetti e le misure di implementazione rilevanti in Lussemburgo ai fini dell'offerta di Titoli in Italia.

I potenziali acquirenti dei Titoli devono assicurarsi di aver compreso appieno la natura dei Titoli, nonché il limite della esposizione degli stessi ai rischi associati ad un investimento nei Titoli e devono considerare l'adeguatezza di un investimento nei Titoli alla luce, in particolare, della propria situazione finanziaria e fiscale e di altre circostanze. I potenziali acquirenti dei Titoli devono fare riferimento alla sezione "Fattori di Rischio" di questo documento. I Titoli rappresentano obbligazioni contrattuali non subordinate né garantite dell'Emittente di pari grado le une rispetto alle altre sotto tutti gli aspetti.

I Titoli non sono e non saranno registrati ai sensi dell'US Securities Act del 1933 come modificato. Qualsiasi offerta o vendita di Titoli deve essere effettuata con operazioni esenti dai requisiti di registrazione previsti da tale Act, ai sensi della Regulation S. I Titoli non potranno essere offerti, venduti o trasferiti in altro modo all'interno degli Stati Uniti o a soggetti che siano o una U.S. person secondo la definizione contenuta nella

WKN/ISIN: DB6YN0 / DE000DB6YN06

Regulation S di tale Act o soggetti che non rientrano nella definizione di soggetti non-statunitensi secondo la Rule 4.7 dell'United States Commodity Exchange Act e successive modifiche. Per maggiori informazioni circa le limitazioni di vendita e cessione dei Titoli, vi preghiamo di leggere la parte del presente documento relativa alle Restrizioni alla Vendita.

Deutsche Bank AG Francoforte sul Meno si assume la responsabilità delle informazioni contenute in questo documento. Per quanto a conoscenza dell'Emittente, il quale ha adottato tutta la diligenza del caso per assicurarsi di ciò, le informazioni contenute in questo documento sono conformi ai fatti e non omettono nulla che possa influenzare il significato di tali informazioni.

I. NOTA DI SINTESI

Le informazioni fornite di seguito costituiscono soltanto una sintesi e devono essere lette congiuntamente al resto del Prospetto. Questa sintesi ha lo scopo di illustrare le caratteristiche essenziali ed i rischi relativi all'Emittente ed ai Titoli e non intende essere esaustiva. Essa viene estrapolata, e deve essere valutata nel suo insieme unitamente al resto del presente documento, Condizioni incluse, che costituiscono le condizioni vincolanti dei Titoli, allegata al certificato globale¹. Pertanto, questa sintesi deve essere considerata quale nota introduttiva al Prospetto e qualunque decisione avente ad oggetto l'investimento nei Titoli deve basarsi sull'esame integrale del Prospetto da parte dell'investitore.

I potenziali investitori devono considerare che in caso di azioni giudiziali intentate sulla base delle informazioni contenute nel presente Prospetto, l'investitore che agisce in qualità di attore, ai sensi della legislazione nazionale del relativo Stato Membro dell'Unione Europea, deve farsi carico dei costi di traduzione del prospetto prima che il procedimento giudiziario abbia inizio.

All'Emittente che ha predisposto questa sintesi, ivi comprese le traduzioni della stessa, e che ha fatto richiesta di diffusione della stessa, non verrà attribuita alcuna responsabilità civile, sempre che questa sintesi non risulti ingannevole, imprecisa o non conforme alle altre parti del Prospetto se letto congiuntamente ad esse.

¹Qualora siano ammessi al mercato SeDex presso la Borsa Valori di Milano, i Titoli saranno dematerializzati e centralizzati presso Monte Titoli, ai sensi del Dlgs n° 213/1998 e successive modifiche.

A. SINTESI DEI FATTORI DI RISCHIO

1. Rischi relative ai Titoli

Un investimento in Titoli comporta dei rischi. Questi rischi possono includere, tra gli altri, rischi del mercato azionario, del mercato obbligazionario, dei tassi di cambio, dei tassi di interesse, della volatilità del mercato, rischi di natura economica, di natura politica e regolamentare e qualsiasi combinazione di questi e di altri rischi. I potenziali acquirenti devono avere esperienza rispetto ad operazioni in strumenti quali i Titoli e nei beni sottostanti o negli altri valori di riferimento dei Titoli (il “Sottostante”). I potenziali acquirenti devono comprendere i rischi associati ad un investimento nei Titoli e devono adottare una decisione di investimento soltanto dopo attenta valutazione, assieme ai propri consulenti legali, fiscali, contabili e di altra natura (a) dell’adeguatezza di un investimento nei Titoli alla luce della propria situazione finanziaria e fiscale, in particolare, e di altre circostanze; (b) delle informazioni contenute nel presente documento; (c) del Sottostante.

I Titoli possono perdere valore e gli investitori devono essere preparati a sostenere una perdita del proprio investimento in Titoli.

Un investimento in Titoli deve essere effettuato soltanto dopo aver valutato la direzione, la tempistica e l’ampiezza di future variazioni potenziali del valore del Sottostante e/o della composizione o del metodo di calcolo del Sottostante, in quanto il rendimento degli investimenti di questo genere dipende, tra l’altro, da tali variazioni. Più di un fattore di rischio può avere effetti simultanei rispetto ai Titoli in modo tale da rendere non prevedibile l’effetto di un particolare fattore di rischio. In aggiunta, più fattori di rischio possono avere un effetto composito che non può essere prevedibile. Non può essere data alcuna garanzia degli effetti che le combinazioni di rischi possono avere sul valore dei Titoli.

2. Fattori di Rischio relativi all’Emittente

I futuri investitori dovranno tenere conto di tutte le informazioni fornite dal Documento di Registrazione e, se lo riterranno necessario, rivolgersi ai propri consulenti professionali. Di seguito sono descritti i fattori di rischio relativi alla capacità dell’Emittente di adempiere alle proprie obbligazioni derivanti dai Titoli.

3. Ratings

I *Ratings* assegnati all’Emittente da alcune agenzie di *rating* indipendenti sono un indicatore della capacità dell’Emittente di adempiere puntualmente le proprie obbligazioni². Tanto minore è il *rating* assegnato sulla rispettiva scala tanto maggiore è il rischio valutato dall’agenzia di *rating* che le obbligazioni non siano adempiute o che non siano adempiute in modo non puntuale.

Alla data di pubblicazione della presente Nota di Sintesi, i seguenti *ratings* sono stati assegnati a Deutsche Bank:

² Il giudizio di rating non è una raccomandazione all’acquisto, alla vendita o al mantenimento dei *Certificates* e può essere soggetto a sospensione, downgrading o ritiro da parte delle agenzie di rating. Qualsiasi sospensione, downgrading o ritiro può avere un effetto negativo sul prezzo di mercato dei *Certificates*.

<i>Agenzia di Rating</i>	<i>Rating a lungo termine</i>	<i>Rating a breve termine</i>
Standard & Poor's (S&P)	A+	A-1
Moody's	Aa3	P-1
Fitch	AA-	F1+

Le agenzie di *rating* possono modificare i loro *rating* con un breve preavviso. Una modifica al rating può influenzare il prezzo dei titoli in circolazione.

2. Informazioni Ulteriori relative alle Condizioni dei Titoli

- a) I *Certificates* (i "Titoli") rappresentano un investimento collegato all'andamento del Sottostante. I Titoli offrono agli investitori l'opportunità di ricevere, in certe date predeterminate (le Date di Determinazione della Barriera) prima della scadenza dei Titoli, un importo in denaro prestabilito con riferimento a ciascuna di tale data e un importo in denaro a scadenza.

Esercizio Automatico Anticipato. I Titoli potranno essere esercitati automaticamente ed un importo prestabilito verrà corrisposto nel caso in cui il valore di ciascun elemento costitutivo del Sottostante in qualsiasi giorno di determinazione della barriera previsto sia pari o superiore al rispettivo livello barriera stabilito per tale giorno. L'importo di liquidazione sarà maggiore, quanto più tardi nel tempo si verificherà tale esercizio anticipato. A fronte di tale opzione, gli investitori rinunciano all'opportunità di partecipare ad incrementi ulteriori del valore degli elementi costitutivi del Sottostante oltre al prestabilito livello barriera a seguito del verificarsi dell'esercizio anticipato dei Titoli descritto in precedenza.

Esercizio Automatico alla data di maturazione. Nel caso in cui non si verifichi l'esercizio anticipato, gli investitori riceveranno un importo in denaro collegato al valore di ciascun elemento costitutivo del Sottostante (Componente del Paniere) alla Data di Valutazione, come descritto nelle ipotesi (A) e (B).

Ipotesi (A). Nel caso in cui il valore di ciascuno dei Componenti del Paniere sia uguale o superiore al suo rispettivo valore alla data di emissione dei *Certificates*

³ L'Emittente corrisponde al relativo collocatore commissioni di collocamento e commissioni *trailer*, quali commissioni legate alla vendita. I collocatori agiscono in via autonoma e non quali rappresentanti dell'Emittente. Le commissioni di collocamento sono pagamenti *una tantum* derivanti dai ricavi dell'emissione; alternativamente, l'Emittente può corrispondere al relativo collocatore un adeguato sconto sul prezzo di emissione (senza sovrapprezzo di sottoscrizione). I pagamenti delle commissioni *trailer* sono periodici e condizionati al volume di titoli emessi. Qualora Deutsche Bank AG ricopra il ruolo sia di emittente che di collocatore in relazione alla vendita dei Titoli, la divisione di collocamento di Deutsche Bank riceverà internamente i relativi importi. Ulteriori informazioni sui prezzi e sulle componenti del prezzo sono incluse nel paragrafo "Conflitti di interesse" ai n. 5 e 6.

⁴ Gli importi sopra menzionati sono validi dalla data di redazione del presente documento e sono soggetti a potenziali cambiamenti durante il periodo di offerta e/o durante la vita dei Titoli; ulteriori informazioni possono essere ottenute dal collocatore.

(Livello di Riferimento Iniziale), l'importo in denaro pagabile alla liquidazione sarà pari al prezzo di emissione più un premio predeterminato

Ipotesi (B) Se il valore di uno qualsiasi dei Componenti del Paniere alla Data di Valutazione è inferiore al suo rispettivo Livello di Riferimento Iniziale, l'importo pagabile alla liquidazione dipenderà dall'andamento di ciascuno dei singoli Componenti del Paniere rispetto ad uno specifico livello (Livello di Determinazione). In Particolare, se il valore di ciascuno dei Componenti del Paniere è pari o superiore al Livello di Determinazione, gli investitori riceverà alla liquidazione un importo pari al prezzo di emissione. Altrimenti, se il valore di uno qualsiasi dei Componenti del Paniere è inferiore al rispettivo Livello di Determinazione, l'importo pagabile alla scadenza sarà pari a 90% del prezzo di emissione.

A differenza di un investimento diretto nel Paniere, l'Importo di Liquidazione in Contanti che potrà essere ottenuto non eccederà mai la somma del prezzo di emissione più un premio prestabilito. Di conseguenza, gli investitori rinunciano all'opportunità di partecipare ad incrementi ulteriori del valore del Sottostante nella misura in cui tali incrementi risultino in un rendimento superiore all'Importo di Liquidazione in Contanti. Tuttavia, i Titoli offrono un certo livello di protezione contro le diminuzioni del valore del Sottostante alla Data di Valutazione dal momento che il minimo importo in denaro che potrà essere ottenuto alla scadenza è pari a 90% del prezzo di emissione.

Una differenza ulteriore rispetto ad un investimento diretto nel Sottostante è che gli investitori rinunceranno al diritto di ricevere dividendi, interessi o importi simili corrisposti in relazione al Sottostante.

Il Sottostante è un paniere costituito da tre azioni.

b) I Titoli rappresentano il diritto di ricevere il pagamento dell'Importo di Liquidazione in Contanti. L'Importo di Liquidazione in Contanti dipenderà dalla circostanza che l'Importo di Determinazione della Barriera di ciascun elemento costitutivo del Sottostante in qualunque giorno di determinazione della barriera prestabilito sia pari o superiore al rispettivo livello della barriera previsto per tale giorno (tale evento costituirà un "Evento di Knock-out"). In tal caso, i Titoli saranno esercitati oggetto di esercizio anticipato tramite pagamento di un importo predeterminato per il verificarsi di tale evento alla data di liquidazione rilevante e gli investitori che acquistano i Titoli alla loro data di emissione e li detengono fino a tale esercizio anticipato otterranno un guadagno rispetto all'investimento iniziale, che sarà maggiore, quanto più tardi nel tempo si verificherà tale esercizio anticipato.

Nel caso in cui non si verifichi, l'Importo di Liquidazione in Contanti da corrispondere alla scadenza dipenderà da due condizioni: (i) che alla Data di Valutazione il valore di ciascuno dei Componenti del Paniere sia pari o superiore al suo rispettivo Livello di Riferimento Iniziale, e (ii) nel caso in cui il valore di uno qualsiasi dei Componenti del Paniere risulti inferiore al rispettivo Livello di Riferimento Iniziale, che qualunque Componente del Paniere alla Data di Valutazione sia inferiore al rispettivo Livello di Determinazione.

Gli investitori che acquistano i Titoli alla loro data di emissione e detengono i Titoli per l'intera durata degli stessi, riceveranno – se il valore di ciascuno degli elementi costitutivi del Sottostante alla data di valutazione finale è pari o superiore al rispettivo Livello di Riferimento Iniziale – un importo in denaro pagabile alla scadenza che rifletterà la somma del prezzo di emissione e di un premio prestabilito. Di conseguenza, gli investitori potrebbero ricevere un importo superiore, pari o inferiore all'importo che avrebbero ricevuto nel caso di un investimento diretto nel Sottostante. Altrimenti, gli investitori che acquistano i Titoli alla loro data di emissione e li detengono per l'intera durata degli stessi, otterranno – se il valore di uno qualsiasi dei

Componenti del Paniere è inferiore al rispettivo Livello di Riferimento Iniziale – o (i) l'importo investito alla data di emissione senza esposizione al ribasso del Sottostante, laddove il valore di nessuno degli elementi costitutivi del Sottostante sia inferiore al rispettivo Livello di Determinazione, o altrimenti (ii) il 90% del loro investimento iniziale limitando così la loro esposizione a ulteriori ribassi del Sottostante oltre il livello di Determinazione.

Il pagamento dell'Importo di Liquidazione è soggetto alla deduzione di determinate tasse, imposte e/o spese.

- c) I Titoli non offrono una garanzia di pagamento di un importo stabilito o il diritto di ricevere la restituzione del prezzo di emissione. Non vi è alcun rendimento sui Titoli all'infuori del pagamento potenziale dell'Importo di Liquidazione in Contanti alla liquidazione (sia essa in caso di esercizio anticipato o in caso di esercizio alla scadenza) . Di conseguenza, gli investitori possono ricevere un rendimento positivo in relazione al proprio investimento iniziale soltanto se l'Importo di Liquidazione in Contanti ricevuto alla liquidazione o l'importo ricevuto a seguito della vendita dei Titoli nel mercato secondario nel corso della durata degli stessi superi il prezzo pagato in origine per i Titoli. Gli investitori non riceveranno pagamenti periodici rispetto ai Titoli e non riceveranno importi corrisposti occasionalmente a mezzo di interessi o di altri proventi (ad esempio dividendi) da o in relazione al Sottostante e non avranno diritto alcuno nei confronti dell'emittente del Sottostante, di qualsiasi elemento costitutivo del Sottostante o dell'emittente di tali elementi costitutivi.

I potenziali investitori devono essere consapevoli del fatto che il rendimento (eventuale) del proprio investimento nei Titoli dipende dall'andamento del Sottostante e dal verificarsi o meno di un esercizio anticipato.

Se il valore di ciascun elemento costitutivo del Sottostante in un prestabilito giorno di determinazione della barriera è pari o superiore al livello di barriera specificato, i Titoli verranno esercitati tramite pagamento dell'importo prestabilito per il verificarsi di tale caso al rispettivo momento come indicato sopra; in tale caso, gli investitori che acquistano Titoli per tutta la loro durata riceveranno un rendimento rispetto al loro investimento iniziale che sarà maggiore quanto più lontano nel tempo si verificherà tale esercizio anticipato. Di conseguenza, gli investitori avranno un profitto maggiore da un investimento in Titoli quanto più tardi cresca il valore degli elementi costitutivi del Sottostante, nel corso della durata dei Titoli, rispetto al valore degli stessi all'emissione dei Titoli o in prossimità della stessa.

Qualora non si verifichi un evento di esercizio anticipato, gli investitori che acquistano i Titoli per l'intera durata degli stessi otterranno un importo che, nella migliore delle ipotesi, sarà pari alla somma del prezzo di emissione più un premio predeterminato, che rappresenta il rendimento più alto ottenibile.

Ad ogni modo, gli investitori non riceveranno alcun rendimento rispetto al loro investimento laddove alla data di valutazione finale il valore di uno qualsiasi dei Componenti del Paniere sia inferiore al rispettivo Livello di Determinazione. In tale caso, gli investitori che acquistano i Titoli alla Data di Emissione e li detengono per tutta la loro durata subiranno una perdita in relazione al loro investimento. Tuttavia, tale perdita è limitata al 10% del Prezzo di Emissione.

Di conseguenza, un investimento nei Titoli comporta un numero di rischi che possono includere, a titolo esemplificativo, un rischio di mercato simile ad un investimento diretto nel Sottostante e gli investitori sono tenuti a richiedere una consulenza al riguardo.

- d) Il valore di mercato dei Titoli nel corso della durata degli stessi dipende principalmente dal valore e dalla volatilità del Sottostante nel corso della durata dei Titoli. In generale, nel caso in cui il valore degli elementi costitutivi del Sottostante

diminuisca e/o vi è la percezione di mercato che il valore degli elementi costitutivi del Sottostante possa diminuire nel corso della durata residua dei Titoli, nell'equivalenza di tutti gli altri fattori, si prevede che il valore di mercato dei Titoli diminuisca. Analogamente, se il valore degli elementi costitutivi del Sottostante aumenta e/o vi è la percezione di mercato che il valore degli elementi costitutivi del Sottostante possa aumentare nel corso della durata residua dei Titoli, si prevede che il valore di mercato dei Titoli aumenti.

Inoltre, il valore di mercato dei Titoli dipenderà nel periodo di durata residuo dei Titoli dalla maturazione e dall'eventualità che il valore di qualunque degli elementi costitutivi del Sottostante sia inferiore al rispettivo livello di barriera specificato.

Altri fattori che possono influenzare il valore di mercato dei Titoli includono i tassi di interesse, i dividendi potenziali o il pagamento di interessi, ove applicabile, in relazione al Sottostante, le variazioni dei componenti del paniere o del metodo di calcolo del valore del Sottostante di volta in volta e le aspettative di mercato relativa all'andamento futuro del Sottostante, la composizione dello stesso ed i Titoli.

Inoltre, ciascun valore del Sottostante utilizzato per determinare il valore dell'importo in denaro, si intende espresso nella valuta di liquidazione, senza riferimento ai tassi di cambio intercorrenti tra la valuta del Sottostante e la valuta di liquidazione (c.d. "**titoli quanto**"). Di conseguenza, un investimento in Titoli non comporterà rischi legati al tasso di cambio.

Il valore del Sottostante in qualsiasi giorno riflette il valore dei suoi elementi costitutivi in tale giorno. Le variazioni nella composizione del Sottostante e i fattori (inclusi quelli descritti sopra) che influenzano o potrebbero influenzare il valore degli elementi costitutivi, influenzeranno il valore del Sottostante e conseguentemente potranno influenzare il rendimento rispetto agli investimenti sui Titoli.

In aggiunta, gli investitori saranno esposti al rischio del tasso di cambio nel caso in cui la Valuta di Liquidazione sia diversa dalla valuta della giurisdizione dell'investitore o dalla valuta in cui l'investitore desidera ricevere i pagamenti.
