PRIIPS REGULATION: AVAILABILITY OF KEY INFORMATION

DOCUMENTS (KIDs) FOR DERIVATIVES CONTRACTS TRADED ON THE

IDEM MARKET – UPDATE (LAUNCH OF MICRO FIB)

Dear Customer,

as required by the Packaged Retail and Insurance-based Investment Products (PRIIPs) Regulation, Borsa Italiana is producing and distributing the Key Information Documents (KIDs) for derivatives contracts traded on its derivatives market, IDEM. Borsa Italiana is please to inform that the KID for the new Micro FIB contract, to be launched in October, is now available according to the technical specifications currently in place and described in this Notice.

The PRIIPs Regulation aims to encourage the development of efficient EU financial markets by helping investors to better understand and compare the key features, risks, rewards and costs of different PRIIPs, through access to a short and consumer-friendly Key Information Document (KID). The PRIIPS Regulation applies to persons who: i) manufacture PRIIPs (the 'manufacturers'), or ii) advise on or sell PRIIPs (the 'distributors').

The production and publication of KIDs by Borsa Italiana – that is considered, by the PRIIPs Regulation, as the 'manufacturer' of IDEM contracts – complements the regulatory obligations for market participants that offer trading services related to IDEM contracts to retails investors (the 'distributors').

The following table reports: i) the KIDs that are made available by Borsa Italiana, and ii) the IDEM derivatives contracts they refer to. Borsa Italiana is adopting an aggregated approach, taking into account the result provided by the joint regulators Q&A¹ that have clarified the possibility to produce aggregate KIDs for the exchange-traded derivatives that have the same characteristics and the same type of underlying instrument. Therefore, the presentation of risks and costs in a KID is the same for all products within the same product group.

Borsa Italiana also informs market participant that:

- the KIDs are available for download in pdf format, free of charge, on Borsa Italiana's website at the following address:
<http://www.borsaitaliana.it/derivati/kids/kids.en.htm> (English version);
 - KIDs are updated at least yearly, and in case will be updated following any modification of contract characteristics leading to a change of the potential payoff, risk profile or costs of the contract;
 - in addition, KIDs (last and previous versions) are available through an ftp repository accessible to all market participants and info providers. For instructions to access the ftp repository, please refer to section 2.5 ("FTP Reference Data") of "MIT702 - Connectivity Specification Main Market Issue 1.4", available at the following address:
<http://www.borsaitaliana.it/borsaitaliana/gestione-mercati/migrazionemillenniumit-mit/millenniumitmigration.htm>
- For additional information regarding KIDs ftp repository, please contact Client Technology Services (e-mail: Clients-Services@lseg.com; tel: +39 02 7242 6512)
- a pre-defined naming convention is in use for KIDs files, in order to facilitate automatic download and handling (see Appendix). Direct link to the 'pdf' file will be in the following format: [http://www.borsaitaliana.it/derivati/kids/\[filename\].pdf](http://www.borsaitaliana.it/derivati/kids/[filename].pdf);
 - KIDs are currently available in Italian, English, Deutsch, French, Spanish and (for equity derivatives only) in Dutch language. Additional languages will be evaluated in due course;
 - as clarified by the joint regulators Q&A document, cost information in Borsa Italiana's KIDs refer to the costs charged by Borsa Italiana to its direct clients. Distributors of IDEM contracts are responsible to inform around costs charged to their retail investors, and the impact that such costs will have on the investor's investment over time.

Borsa Italiana will publish additional details, if necessary, in due course.

Naming convention for IDEM's Key Information Documents (KIDs)

In order to facilitate automated downloading and handling of KIDs files, the following pre-defined naming convention is used to attribute pre-defined filenames to the last (most recent) version of each KID pdf file.

filename of the most recent version					Extension
3 letters	3 letters	1 letter	4 letters	1 letter	
'KID'	Language. One of: 'ita' 'eng' 'fre' 'deu' 'spa' 'dut' ³	Asset class ¹	First 4 letters of [ROOT] (+ symbol '-' where ROOT length is less than 4 chars) or 'aggr' for single name derivatives (Asset class "p", "q" and "o"), where an 'aggregated' KID is produced ²	'f' = future 'c' = call 'p' = put	.pdf

(1) Field "Asset class of derivatives" disseminated via in HSVF reference data for all instruments traded on IDEM market (in J and JF messages).

(2) 'p' = stock futures, 'q' = single stock dividend futures, 'o' = stock options.

(3) Dutch language is available for equity derivative contracts only.

In addition, all versions of KIDs files (most recent and previous versions) will be stored with the following filenames:

12 letters	8 letters	Extension
filename of the most recent version	Creation date in the format 'yyyymmdd'	.pdf
