

This document is a supplement to the prospectus dated 17 October 2023 (the “Prospectus”) issued by Tabula ICAV (the “ICAV”). This Supplement forms part of, and should be read in conjunction with, the Prospectus.

Investors’ attention is drawn, in particular, to the risk warnings contained in the section of the Prospectus entitled “Special Considerations and Risk Factors”.

This Supplement constitutes the listing particulars, including all information required by Euronext Dublin listing requirements, for the purposes of the applications to list the EUR Dist, EUR Acc, USD Hedged, GBP Hedged, CHF Hedged and SEK Hedged Shares.

TABULA ICAV

an Irish collective asset-management vehicle having registration number C174472 and established as an umbrella fund with segregated liability between sub-funds

SUPPLEMENT

in respect of

**Tabula EUR Ultrashort IG Bond Paris-Aligned Climate UCITS ETF
(the “Sub-Fund”)**

a UCITS ETF Sub-Fund of the ICAV

Dated 17 October 2023

The Director of the ICAV, whose names appear on page 1 of the Prospectus, accept responsibility for the information contained in this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

INTERPRETATION

Save as set out below, capitalised terms shall have the same meaning herein as in the Prospectus.

Definitions	
“Business Day”	means, unless otherwise determined by the Directors and notified in advance to the Shareholders, a day (excluding Saturdays and Sundays) on which the banks in the UK and the Target System are open for normal business.
“Dealing Day”	means, unless otherwise determined by the Directors and notified in advance to Shareholders, each Business Day excluding Christmas Eve (24 December) and New Year’s Eve (31 December); an up-to-date dealing calendar specifying the Sub-Fund’s Dealing Days will be available on http://www.tabulaim.com/ .
“EU Paris-Aligned Benchmark”	means a benchmark that is labelled as an EU Paris-Aligned Benchmark where the underlying securities are selected, weighted or excluded in such a manner that the resulting benchmark portfolio is on a decarbonisation trajectory and is also constructed in accordance with the minimum standards laid down in the delegated acts to the Low Carbon Benchmarks Regulation.
“Ultrashort”	means short-term fixed-income securities, maturing in less than one year
“Index”	means the Solactive ISS Paris Aligned Select 0-1 Year Euro Corporate IG Index
“Index Provider”	means Solactive AG
“Index Rebalancing Date”	means the last Business Day of each calendar month
“Index Value”	means the value of the Index calculated on each Business Day.
“Initial Offer Period”	means the period beginning at 9.00 a.m. (London time) on 11 September 2023 and terminating at 5.00 p.m. (London time) on 8 March 2024 or such other period determined by the Directors in accordance with the requirements of the Central Bank.
“Low Carbon Benchmarks Regulation”	means Regulation (EU) 2019/2089 of the European Parliament and of the Council of 27 November 2019 amending Regulation (EU) 2016/1011 as regards EU Climate Transition Benchmarks, EU Paris-aligned Benchmarks and sustainability-related disclosures for benchmarks.
“Minimum Dealing Size”	means in respect of the Sub-Fund the minimum number of Shares for subscription and redemption, which shall be 100,000 Shares.
“Paris Climate Agreement”	means the legally binding global climate change agreement adopted at the Paris climate conference (COP21) in December 2015.
“Settlement Time”	means the second Business Day after the relevant Dealing Day, or such other times as may be determined by the Directors provided that in the case of redemptions, the Settlement Time shall not be later than the tenth Business Day after the relevant dealing deadline.

Definitions**“Trade Cut-Off Time”**

means, for subscriptions and redemptions, 3:30pm (London time) on the relevant Dealing Day, or such other times as may be agreed with the Directors provided that the Trade Cut-Off Time shall always precede the Valuation Point.

“Valuation Point”

means, unless otherwise determined by the Directors and notified in advance to Shareholders 11pm (London time) on the relevant Dealing Day. Securities that are quoted, listed or traded on or under the rules of any Regulated Market shall be valued at the bid-price on the relevant Regulated Market at the Valuation Point.

INVESTMENT OBJECTIVE, STRATEGY AND POLICY

<p>Investment Objective</p>	<p>The investment objective of the Sub-Fund is to track the performance of the Index within an acceptable tracking error (which will take into account, amongst other things, the fees and expenses incurred) thereby aligning investments with the EU Paris-Aligned Benchmark framework, assisting the movement towards a low carbon economy.</p> <p>There can be no assurance that the Sub-Fund will achieve its investment objective.</p> <p>Investors should note that an investment in the Sub-Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.</p>
<p>Investment Policy</p>	<p>The Sub-Fund will seek to achieve its investment objective primarily through investment in a portfolio of EUR denominated, investment grade, Ultrashort corporate bonds that, as far as practicable, reflects the composition of the Index. The Sub-Fund may invest both in fixed rate and floating rate bonds.</p> <p>While it is intended that the Sub-Fund’s investments will comprise investment grade issues, issues may be downgraded in certain circumstances from time to time. In such event the Sub-Fund may hold non-investment grade issues until such time as the non-investment grade issues cease to form part of the Index (where applicable) and it is possible and practicable (in the Investment Manager’s view) to liquidate the position.</p> <p>The Sub-Fund will use an optimisation strategy and therefore may not hold every constituent of the Index and may not hold constituents in the same proportions as their weightings in the Index. When optimisation is used, the Investment Manager will use industry standard tools (i.e. non-proprietary tools that are readily available to all investment funds employing a sampling strategy, such as the Bloomberg Portfolio and Risk Analytics Terminal (PORT)) to assist in the selection of a portfolio with similar risk and return characteristics to the Index in order to generate similar returns and characteristics to the Index, while complying with the investment objective.</p> <p>The Sub-Fund may hold securities which are not constituent securities of the Index for efficient cash management purposes where such securities provide similar performance and a matching risk profile to certain constituent securities of the Index.</p> <p>The Sub-Fund may also invest in government and government-related bonds for efficient cash management.</p> <p>It is intended that the Sub-Fund will only invest in bonds of issuers that comply with the Index Provider’s climate criteria, environmental, social and governance (“ESG”) requirements and/or ESG ratings as detailed in the section below titled “<i>Description of the Index</i>”.</p> <p>The Sub-Fund may continue to hold bonds which no longer comply with the climate criteria, ESG requirements and/or ESG ratings of the Index (which are detailed in the section below titled “<i>Description of the Index</i>”)</p>

	<p>until such time as the relevant bonds cease to form part of the Index, where applicable, and/or it is possible, practicable and in the best interests of Shareholders to liquidate the position.</p> <p>As further described in the ‘Investment Techniques and Instruments’ section in the Prospectus, the Sub-Fund may also invest in financial derivative instruments (FDIs) related to a constituent of the Index, for efficient portfolio management purposes, where such FDIs would achieve a risk and return profile similar to that of the Index, a constituent of the Index or a sub-set of constituents of the Index. The FDIs in which the Sub-Fund may invest for efficient portfolio management purposes are swaps and futures as more particularly described in the Prospectus.</p> <p>The Sub-Fund may invest in FX forwards for currency hedging purposes. For further information, please see the section below titled “Share Classes” and the section of the Prospectus titled “Investment Techniques and Instruments”.</p> <p>The securities and FDIs in which the Sub-Fund invests will be primarily listed or traded on the stock exchanges and regulated markets set out in Schedule 1 of the Prospectus, although the Sub-Fund may also invest in unlisted securities in accordance with the limits set out in the UCITS Regulations.</p> <p>The Sub-Fund is not a money market fund and is therefore not subject to the requirements of the Central Bank on money market funds or Regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 designed to enable money market funds to maintain a stable net asset value.</p>
<p>Sustainability-related Disclosures</p>	<p>The Sub-Fund is an Article 9 fund for the purposes of SFDR. Investors’ attention is drawn to “Risks relating to SFDR classifications and allocations to sustainable investments” in the section of the Prospectus entitled “Special Considerations and Risk Factors”.</p> <p>Please refer to Annex I – Sustainability-related Disclosures for the pre-contractual disclosures for financial products referred to in Article 9(1), (2) and (3) of SFDR and Article 5 of Regulation (EU) 2020/852.</p>
<p>Futures</p>	<p>Futures contracts provide for the future sale by one party and purchase by another party of a specified amount of an underlying asset at a specified price, date, and time. Entering into a contract to buy an underlying asset is commonly referred to as buying a contract or holding a long position in the asset. Entering into a contract to sell an underlying asset is commonly referred to as selling a contract or holding a short position in the asset. Futures contracts may be traded on exchange (exchange-traded futures) or OTC. Futures contracts traded OTC are frequently referred to as forward contracts. The Funds may buy or sell the types of futures listed in the section titled “Investment Strategy”.</p> <p>For further information on techniques and instruments used by the Sub-Fund, please refer to the section of the Prospectus titled “Investment Techniques and Instruments”.</p>

<p>Tracking Error</p>	<p>Tracking error will arise because of trading costs and, while there can be no assurance that it will not exceed such figure, tracking error is expected to be up to 0.50% in normal market conditions. For the avoidance of doubt, the foregoing indication of tracking error does not take into account the Total Expense Ratio, as described below under the heading “Fees and Expenses”.</p>
<p>Description of the Index</p>	<p>The Index measures the performance of EUR denominated Ultrashort investment grade corporate bonds and is designed to help investors move towards a low carbon economy, align investments to the Paris Climate Agreement.</p> <p>The Index uses a weighting optimisation to ensure that Index composition remains in line with the 1.5°C scenario through 2050 (i.e. limiting global warming to 1.5°C above pre-industrial levels by 2050). To achieve this, the Index uses a special carbon emission metric called GHG Intensity.</p> <p>Bonds are selected from Solactive 0-1 Year Euro Corporate IG Index (the “Parent Index”) for inclusion in the Index according to the following criteria:</p> <ol style="list-style-type: none"> i. securities must be currently rated investment grade, as defined by the Index Provider; ii. denominated in EUR; iii. market cap weighted; iv. maximum issuer weight of 5% of the index; v. maturity of 0-1 year; and vi. issued by an issuer with an ISS ESG Rating. <p>ISS ESG Screens</p> <p>Additionally, all potential Index constituents are screened using ESG and climate data from ISS. Bonds which meet any one of the below criteria will be deleted from the investible universe:</p> <p><u>Norms and Social Exclusion Criteria</u></p> <ul style="list-style-type: none"> - Issued by a company which violates established norms such as the United Nations Global Compact principles, the Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises or the UN Guiding Principles for Business and Human Rights; - Issued by a company with verified or alleged involvement with controversial weapons; - Issued by a company involved in the following business lines/activities: adult entertainment, alcohol, recreational cannabis, civilian firearms, conventional weapons, gambling, nuclear weapons, thermal coal or tobacco. <p><u>Climate Exclusion Criteria</u></p> <ul style="list-style-type: none"> - Issued by a company which generates more than 1% of its revenues from coal mining, including thermal and metallurgical coal, and coal power generation;

	<ul style="list-style-type: none"> - Issued by a company which generates more than 10% of its revenues from fossil fuel production, exploration, distribution and services; and - Issued by a company which generates more than 50% of its revenues by generating electric power from fossil fuels. <p><u>Further Exclusion Criteria (SDG)</u></p> <ul style="list-style-type: none"> - Issued by a company which is found to significantly harm environmental objectives. <p>The Index is rebalanced monthly, incorporating any coupon income received by the Sub-Fund in respect of any bond held by it on the Index Rebalancing Dates.</p> <p>Additional information on the Index and the general methodology behind it is available at https://www.solactive.com/indices/. Further information on the Index, including its constituents and weightings, shall be available on demand and free of charge from the Investment Manager.</p>
What impacts the performance/return of the Sub-Fund?	<p>The performance of the Sub-Fund will depend on several factors including:</p> <ol style="list-style-type: none"> i. the market value of the securities held by the Sub-Fund; ii. gains, losses and transaction costs generated by any rebalancing of the Sub-Fund’s portfolio; iii. any coupon income received by the Sub-Fund and not yet reinvested; iv. fees borne by the Sub-Fund; and v. where relevant, any hedging costs.
Dividend Policy	<p>Certain Shares Classes of the Sub-Fund, as set out in the appendix to this Supplement, shall distribute dividends to Shareholders in accordance with the section of the Prospectus entitled “Dividend Policy”. Dividends will be paid in cash by electronic transfer and will generally be declared as at the end of each semi-annual period.</p> <p>In respect of the Share Classes marked “accumulating” in the appendix to this Supplement, the ICAV does not intend to distribute dividends. Net income will be managed in accordance with the UCITS cash management limits, whereupon it will be reinvested at the next Index Rebalancing Date.</p>
Profile of a Typical Investor in the Sub-Fund	<p>An investment in the Sub-Fund is suitable for investors who are able and willing to invest in a sub-fund with a medium risk grading.</p> <p>An investment in the Sub-Fund is intended for both professional and retail investors seeking investment exposures and profiles aligned with those of the Sub-Fund.</p>
Risk Factors	<p>Investors’ attention is drawn to the risk factors set out in the section of the Prospectus entitled “Special Considerations and Risk Factors”.</p>
Base Currency	<p>EUR</p>

UCITS Compliance	<p>The Investment Manager uses the methodology known as the “Commitment Approach” in order to measure the global exposure of the Sub-Fund and manage the potential loss to them due to market risk. The Commitment Approach is a methodology that aggregates the underlying market or notional values of FDI to determine the degree of global exposure of a Sub-Fund to FDI. Pursuant to the UCITS Regulations, in the event that a Sub-Fund uses leverage in the future, the global exposure for a Sub-Fund must not exceed 100% of that Fund’s Net Asset Value. While it is not the Investment Manager’s intention to leverage the Fund, any leverage resulting from the use of FDIs will be done in accordance with the UCITS Regulations.</p> <p>Further detail on the calculation of global exposure is set out in the financial derivative instrument risk management process of the Sub-Fund (“RMP”). The RMP employed enables the Investment Manager to accurately measure, monitor and manage the various risks associated with FDI, including leverage.</p>
Relevant Stock Exchanges	<p>Application will be made to list the Exchange-Traded Shares to Euronext Dublin (formerly the Irish Stock Exchange) for admission to the Official List and to trading on the regulated market of Euronext Dublin.</p> <p>Neither the admission of the Exchange-Traded Shares to the Official List, nor to trading on the regulated market of Euronext Dublin, nor the approval of the listing particulars pursuant to the listing requirements of the Euronext Dublin shall constitute a warranty or representation by Euronext Dublin as to the competence of service providers to or any other party connected with the ICAV, the adequacy of information contained in the listing particulars or the suitability of the ICAV or the Sub-Fund for investment purposes.</p> <p>Exchange-Traded Shares may also be listed and admitted for trading on a number of other stock exchanges (including, without limitation, the Main Market of the London Stock Exchange plc (the “LSE”), Borsa Italiana, SIX, BX Swiss and Xetra) but the ICAV does not warrant or guarantee that such listings will take place or continue to exist. In the event that such listings do take place, the primary list of the Exchange-Traded Shares will normally be on the main market of Euronext Dublin or the LSE (although the Exchange-Traded Shares may be primarily listed on an alternative stock exchange) and any other listings shall be secondary to the primary listing.</p>
Publication of Share Prices	<p>The Irish Stock Exchange trading as Euronext Dublin will be notified immediately of the Net Asset Value per Share of each relevant Exchange-Traded Share Class, which will be available on Euronext Dublin (www.ise.ie).</p> <p>The London Stock Exchange will be notified without delay of the Net Asset Value per Share of each relevant Exchange-Traded Share Class, which will be available on www.londonstockexchange.com.</p> <p>The Net Asset Value per Share of the relevant Exchange-Traded Share Classes will also be available on http://www.tabulaim.com/.</p>
Portfolio Holdings	<p>The portfolio holdings (for the previous day) will be published for a particular Fund and will be available daily on http://www.tabulaim.com/</p>

--	--

FEES AND EXPENSES

The establishment costs of the Sub-Fund will be paid by the Investment Manager.

The total annual fees and operating expenses of the Sub-Fund (except for transaction charges and taxes or duty charges for portfolio re-balancing, all of which are paid separately out of the assets of the Sub-Fund) per Share class will be up to the percentage per annum of the Net Asset Value of the (the “**Total Expense Ratio**” or “**TER**”) Share Class as set out in the Appendix to this Supplement.

Such fee shall accrue daily and be payable monthly in arrears to the Investment Manager. The Investment Manager will receive no further disbursement for expenses, out of pocket or otherwise from the Sub-Fund. Except for transaction charges and taxes or duty charges for portfolio re-balancing, all of which are paid separately out of the assets of the Sub-Fund, the Investment Manager will be responsible for the payment of all fees, costs, and expenses of the Sub-Fund, including but not limited to fees and expenses paid to any sub-distributor or paying agent, Depositary, Administrator, Manager and auditors.

Fees Payable by the Investor

In addition to Duties and Charges as described in the Prospectus, a subscription fee of up to 5% of the subscription monies may be charged, at the discretion of the Directors, in respect of a subscription in the Sub-Fund and a redemption fee of up to 3% of the redemption monies may be charged in respect of a redemption of Shares in the Sub-Fund. Such fees may be retained by the Sub-Fund or remitted to the Investment Manager, sales intermediaries or other third parties.

Any fees and expenses payable out of the assets of the Sub-Fund other than those set out in this Supplement are set out in the Prospectus in the section entitled “Fees and Expenses”.

SHARE CLASSES

Details of the Share Classes of the Sub-Fund are set out in the appendix hereto. The Share Classes comprise: (i) unhedged Share Classes in the Base Currency; and (ii) hedged Share Classes which hedge the foreign exchange exposure of the currency or currencies in which the underlying assets of the Sub-Fund are denominated to the currency of the relevant Share Class (each a “**Hedged Share Class**”). Further information is set out in the Prospectus in the section entitled “Currency Risk – Class Level”.

SUBSCRIPTIONS AND REDEMPTIONS

In respect of the Sub-Fund, payment for subscriptions for Shares will only be accepted in cash and redemption proceeds will only be paid in cash.

Unless otherwise stipulated in the appendix hereto, subscriptions and redemptions of Shares in the Sub-Fund will be subject to the Minimum Dealing Size. The Minimum Dealing Size may be waived or reduced for investors in a Share Class at the discretion of the Directors, who may delegate the exercise of such discretion to the Investment Manager.

USE OF COLLATERAL

The policy that will be applied to collateral arising from OTC derivative transactions relating to the Sub-Fund is to adhere to the requirements set out in Schedule 3 to the Prospectus. This sets out the permitted types of collateral, level of collateral required and haircut policy and, in the case of cash collateral, the re-investment policy prescribed by the Central Bank pursuant to the UCITS Regulations.

The categories of collateral which may be received by the Sub-Fund include Collateral Assets. From time to time and subject to the requirements in Schedule 3, the policy on levels of collateral required and haircuts may be adjusted, at the discretion of the Investment Manager, where this is determined to be appropriate in the context of the specific counterparty, the characteristics of the asset received as collateral, market conditions or other circumstances. The haircuts applied (if any) by the Investment Manager are adapted for each class of assets received as collateral, taking into account the characteristics of the assets such as the credit standing and/or the price volatility, as well as the outcome of any stress tests performed in accordance with the requirements in Schedule 3. Each decision to apply a specific haircut, or to refrain from applying any haircut, to a certain class of assets should be justified on the basis of this policy.

If cash collateral received by the Sub-Fund is re-invested, the Sub-Fund is exposed to the risk of loss on that investment. Should such a loss occur, the value of the collateral will be reduced and the Sub-Fund will have less protection if the counterparty defaults. The risks associated with the re-investment of cash collateral are substantially the same as the risks which apply to the other investments of the Sub-Fund. For further details see the section of the Prospectus entitled “Risk Factors”.

BORROWINGS AND LEVERAGE

As of the date of this Supplement, the Sub-Fund does not have any loan capital (including term loans) outstanding or created but unissued, and no outstanding bank overdrafts, mortgages, charges, debentures or other borrowings or indebtedness in the nature of borrowing under acceptances or acceptance credits, hire purchase or finance lease commitments, guarantees or other contingent liabilities. The Sub-Fund does not intend to use leverage for investment purposes or be actively leveraged through borrowing.

INDEX DISCLAIMER

The **Solactive ISS Paris Aligned Select 0-1 Year Euro Corporate IG Index** referenced herein is the property of Solactive AG and has been licensed for use in connection with the Sub-Fund. For the purpose of this document (i) the **Solactive ISS Paris Aligned Select 0-1 Year Euro Corporate IG Index** is an “**Index**”; and (ii) Solactive AG is the “**Index Sponsor**” for **Solactive ISS Paris Aligned Select 0-1 Year Euro Corporate IG Index**.

Each party acknowledges and agrees that the Sub-Fund is not sponsored, endorsed or promoted by the Index Sponsor. The Index Sponsor make no representation whatsoever, whether express or implied, and hereby expressly disclaim all warranties (including, without limitation, those of merchantability or fitness for a particular purpose or use), with respect to the Index or any data included therein or relating thereto, and in particular disclaim any warranty either as to the quality, accuracy and/or completeness of the Index or any data included therein, the results obtained from the use of the Index and/or the composition of the Index at any particular time on any particular date or otherwise and/or the creditworthiness of any entity, or the likelihood of the occurrence of a credit event or similar event (however defined) with respect to an obligation, in the Index at any particular time on any particular date or otherwise. The Index Sponsor shall not be liable (whether in negligence or otherwise) to the parties or any other person for any error in the Index, and the Index Sponsor is under no obligation to advise the parties or any person of any error therein.

The Index Sponsor makes no representation whatsoever, whether express or implied, as to the advisability of purchasing or selling the Sub-Fund, the ability of the Index to track relevant markets’ performances, or otherwise relating to the Index or any transaction or product with respect thereto, or of assuming any risks in connection therewith. The Index Sponsor has no obligation to take the needs of any party into consideration in determining, composing or calculating the Index. No party purchasing or selling the sub-Fund, nor the Index Sponsor, shall have any liability to any party for any act or failure to act by the Index Sponsor in connection with the determination, adjustment, calculation or maintenance of the Index. The Index Sponsor and its affiliates may deal in any obligations that compose

the Index, and may, where permitted, accept deposits from, make loans or otherwise extend credit to, and generally engage in any kind of commercial or investment banking or other business with the issuers of such obligations or their affiliates, and may act with respect to such business as if the Index did not exist, regardless of whether such action might adversely affect the Index or the Sub-Fund.

THE DIRECTORS OF THE ICAV, THE INVESTMENT MANAGER AND THE INDEX PROVIDER TOGETHER THE “RESPONSIBLE PARTIES” DO NOT GUARANTEE THE ACCURACY AND/OR THE COMPLETENESS OF ANY DESCRIPTION RELATING TO THE INDEX, THE FIXED INCOME INDICES OR ANY DATA INCLUDED THEREIN AND THE RESPONSIBLE PARTIES SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN. THE RESPONSIBLE PARTIES MAKE NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE SUB-FUND, TO ANY SHAREHOLDER IN THE SUB-FUND, OR TO ANY OTHER PERSON OR ENTITY IN RESPECT OF THE INDEX DESCRIBED HEREIN

IMPORTANT INFORMATION

Certain risks relating to the Shares are set out in the section of the Prospectus entitled Special Considerations and Risk Factors. In addition, Shareholders must also note the following risk considerations in relation to the Index.

This does not purport to be an exhaustive list of the risk factors relating to an investment in an Index Fund.

Index Performance. All Shareholders in the Sub-Fund should be aware that the value of their Shares will depend on the performance of the Index. There is no assurance as to how the Index will perform in either absolute terms or in relative terms. The Index is ultimately exposed to the performance of the components underlying the Index. No assurance can be given that such components and/or the methodology itself will generate positive returns. The Index return may be lower than the actual return of the selected components. It is not possible to predict whether the level of the Index will rise or fall. The actual performance of the Index may bear little relation to its historical levels. The complete methodology of the Index is available on www.solactive.com. Before making any investment decision, investors should ensure that they have read and understood these documents and should take professional advice on the potential risks to satisfy themselves that an exposure to the Index and an investment in the Shares is suitable and appropriate for them in light of their own circumstances.

Limited Operating History. The Index has only recently been established as a tradable strategy and therefore has limited historical performance data on which to evaluate its long-term historical performance. Any back-testing or similar analysis on the Index is illustrative only and may be based on estimates or assumptions not used in determining actual levels of the Index. Because the Index is of recent origin and limited historical performance data exists with respect to it, a potential investment in the Index may involve greater risk than investing in investments linked to one or more indices with an established record of performance.

Termination of Index licence. While the ICAV has the right to use and reference the Index in connection with the Sub-Fund in accordance with the terms of the Index licence, in the event that the licence is terminated the Sub-Fund may have to be terminated in certain circumstances.

Environmental, Social and Governance Risk: The Sub-Fund intends to invest in securities of issuers that manage their ESG exposures better relative to their peers in accordance with the criteria imposed by the Index Provider. This may affect the Sub-Fund’s exposure to certain issuers and cause the Sub-Fund to forego certain investment opportunities. The Sub-Fund may perform differently to other funds, including underperforming other funds that do not seek to invest in securities of issuers based on their ESG ratings.

Index-Related Risk. There is no guarantee that the Sub-Fund will achieve a high degree of correlation to Index and, therefore, achieve its investment objective. Market disruptions and regulatory restrictions could have an adverse effect on the Sub-Fund's ability to adjust its exposure to the required levels in order to track the Index. Errors in Index data may occur from time to time and may not be identified and corrected for a period of time and may have an adverse impact on the Sub-Fund and its Shareholders.

Optimisation. With a optimisation strategy, the Sub-Fund may not hold all of the securities in the Index and may invest in securities not included in the Index. The securities held by the Index may also be over or underweight relative to the securities in the Index. It is therefore possible that the Sub-Fund may be subject to larger tracking error.

Income Risk. Falling market interest rates can lead to a decline in income for the Sub-Fund. This can result when, in declining interest rate environment, (i) the Sub-Fund receives in-kind deposits of portfolio securities in connection with a subscription, (ii) the Sub-Fund Fund reinvests into securities at a lower yield than the then-current Sub-Fund Fund portfolio yield, or (iii) the floating rate securities in the portfolios experience lower yields.

Issuer Risk. The value of the Sub-Fund is subject to issuer risk of its underlying investments. A corporate issuer may willingly or unwillingly default on its obligation to make interest and principal payments (for example, many defaulted during the Global Financial Crisis in 2008 and 2009).

Credit Risk. The value of the Sub-Fund is affected by the credit worthiness of its underlying investments. A deterioration of credit quality (e.g. an issuer credit downgrade or credit event leading to widening of credit spread) of an underlying investment will adversely impact the value of such investment

Call Risk. The Sub-Fund may invest into callable fixed income securities that are subject to call risk. During periods of falling interest rate and rising security price, the issuer may prefer to "call" or repay the security prior to its stated maturity. The Sub-Fund may then have to reinvest such proceeds into lower yielding securities at a falling interest rate environment, which may thus result in a decline in the Sub-Fund's income.

Valuation Risk. In a thinly traded market, it may be more difficult to achieve fair value when purchasing or selling underlying securities because of the wide bid-ask spread. The inability to transact at advantageous times or prices may result in a reduction in the Sub-Fund's returns.

Illiquidity of Bonds Close to Maturity. The Sub-Fund's underlying fixed income securities may become more illiquid when nearing maturity. It therefore may be more difficult to achieve fair valuation in the market.

Insufficiency of Duties & Charges. A pre-set spread, included in Duties and Charges, related to subscription or redemption price calculation in a cash creation or cash redemption may be determined prior to trading of the underlying securities to cover estimated trading costs. If such spread is narrower than the actual associated trading costs, the Net Asset Value of the Sub-Fund will be adversely affected.

Market Risk. Past performance is not indicative of future performance. The Net Asset Value of the Sub-Fund will change with changes in the market value of the securities it holds. The price of Shares and the income from them may go down as well as up. Investors may not get back their original investment. There can be no assurance that the Sub-Fund will achieve its investment objective or that an investor will achieve profits or avoid losses, significant or otherwise. The capital return and income of the Sub-Fund is based on the capital appreciation and income on the securities it holds, less expenses incurred. The Sub-Fund's return may fluctuate in response to changes in such capital appreciation or income. Furthermore, the Sub-Fund may experience volatility and decline in a manner that broadly corresponds with the Index.

Distribution Yield. Whether or not distributions will be made by the Sub-Fund is at the discretion of the ICAV taking into account various factors and its own distribution policy. Some factors are beyond the control of the ICAV, such as issuer risk where the bond issuer fails to pay interest. There can be no assurance that the distribution yield of the Sub-Fund is the same as that of the Index due to factors such as expenses incurred by the Sub-Fund.

Asset Class Risk. Although the ICAV is responsible for the continuous supervision of the investment portfolio of the Sub-Fund, the returns from the types of securities in which the Sub-Fund invests may underperform returns from other securities markets or from investment in other assets. Different types of securities tend to go through cycles of out-performance and underperformance when compared with other general securities markets

Passive Investments. The Sub-Fund is not actively managed. Accordingly, the Sub-Fund may be affected by a decline in world market segments relating to the Index. The Sub-Fund invests in the securities included in or reflecting its Index regardless of their investment merit, except to the extent of any optimisation strategy. The Investment Manager does not attempt to select bonds individually or to take defensive positions in declining markets.

Investment Management Risk. Because the Sub-Fund may not fully replicate its Index and may hold non-index securities, it is subject to an investment management risk. This is the risk that the Investment Manager's strategy, the implementation of which is subject to a number of constraints, may not produce the intended results. In addition, the Investment Manager has absolute discretion, subject to the provisions of the Prospectus, Supplement and applicable legislation, to exercise shareholders' rights with respect to securities comprising the Sub-Fund. There can be no guarantee that the exercise of such discretion will result in the investment objective of the Sub-Fund being achieved. Investors should also note that in certain cases, none of the Investment Manager, the ICAV or the Shareholders has any voting rights with respect to securities held by the Sub-Fund.

Tracking Error Risk. The Net Asset Value of the Sub-Fund may not correlate exactly with the Index. Factors such as the fees and expenses of the Sub-Fund, imperfect correlation between the Sub-Fund's assets and the securities constituting the Index, inability to rebalance the Sub-Fund's holdings of securities in response to changes in the constituents of the Index, rounding of prices, changes to the Indices and regulatory policies may affect the Investment Manager's ability to achieve close correlation with the Index of the Sub-Fund. The Sub-Fund's returns may therefore deviate from the Index. In addition, any potential tax consequence in the underlying securities caused by a change in tax policy by a respective government may cause further deviation from the Sub-Fund's return

Foreign Security Risk. The Sub-Fund invests entirely within or relates to the debt markets of a single country or region. These markets are subject to special risks associated with foreign investment including market fluctuations caused by factors affected by political and economic development. Investing in the securities of non-domestic companies involves special risks and considerations not typically associated with investing in domestic companies. These include differences in accounting, auditing and financial reporting standards, the possibility of nationalisation of assets (in whole or in part), the possibility of expropriation or confiscatory taxation, adverse changes in investment or exchange control regulations, political instability which could affect local investments in foreign countries, and potential restrictions on the flow of international capital. Non-domestic companies may be subject to less governmental regulation than domestic companies. Moreover, individual foreign economies may differ favourably or unfavourably from the domestic economy in such respects as growth of gross domestic product, rate of inflation, capital reinvestment, resource self-sufficiency and balance of payment positions.

Floating Rate Notes Risk. Although floating rate notes are less sensitive to interest rate risk than fixed rate bonds, they are subject to credit, interest rate and default risks, and their value may be impaired if the couple rates are not reset immediately with the relevant market rates.
