What is this product?

Type: UCITS

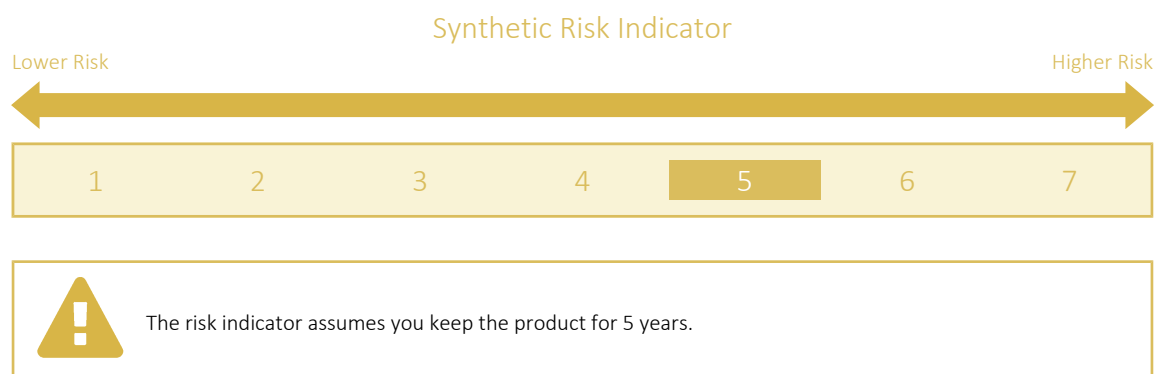

Term: There is no fixed term for this Sub-Fund.

Objectives: The investment objective of the Sub-Fund is to achieve long term capital appreciation. The Sub-Fund seeks to achieve its investment objective by tracking the performance of the S&P 500 Index (the Reference Index) while minimising as far as possible the tracking error between the Sub-Fund's performance and that of the Reference Index. The Reference Index measures the performance of the top 500 companies in the US equity market, weighted by market capitalisation. The Reference Index is generally rebalanced quarterly though constituents may on occasion be rebalanced more often if required by the methodology of the Reference Index, including for example where corporate actions such as mergers or acquisitions affect components of the Reference Index. The Sub-Fund will attempt to track the performance of the Reference Index by investing in equities and equity-related securities and up to 100% of its Net Asset Value in one or more Total Return Swaps that provide an exposure to the performance of the Reference Index and/or investing in all constituents of the Reference Index directly in a similar proportion to their weighting in the Reference Index or using a sampling process which may result in investment in securities which are not constituents of the Reference Index but which provide a similar exposure to certain securities of the Reference Index. In addition, the Manager will apply an actively managed overlay (the "Dynamic Hedge"), implementing an options strategy which will allow the Manager, depending on the prevailing market conditions, to manage exposure to specific constituents of the Reference Index in a cost-efficient manner, as further described in the supplement of the Sub-Fund (the Supplement). In addition to the above the Sub-Fund may use the derivatives and for the purposes as set out and in accordance with the Supplement and the prospectus of the ICAV (the Prospectus). The recommended holding period has been selected as the link between the risk and the potential returns of the Sub-Fund and can be fully appreciated only over the recommended holding period. The Sub-Fund is actively managed. There can be no guarantee that the investment objective will actually be attained and investors are explicitly warned that this Sub-Fund is not a capital guaranteed product. Typically, only authorised participants (i.e. brokers) can purchase shares directly from or sell shares directly back to the Sub-Fund. Other investors can purchase and sell shares on the secondary market as described in the prospectus. The Sub-Fund is not sponsored, endorsed, or promoted by S&P Dow Jones (the Index Sponsor) or Solactive AG (the Calculation Agent). None of the Index Sponsor or its affiliates or the Calculation Agent bear any liability for any errors, omissions or interruptions of or in connection with the Reference Index or any data included therein.

Intended retail investor:

- With a basic knowledge of investing in funds and no or limited experience of investing in the Sub-Fund or similar funds
- Who understand the risk of losing some or all of the capital invested
- This Sub-Fund may not be appropriate for investors who plan to withdraw their money before the recommended holding period

What are the risks and what could I get in return?

- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Sub-Fund is not able to pay you.
- We have classified this product as 5 out of 7, which is a medium-high risk class.
- This rates the potential losses from future performance at a medium-high level, and poor market conditions are very unlikely to impact the capacity of the Sub-Fund to pay you.
- This product does not include any protection from future market performance so you could lose some or all of your investment.
- If the ICAV is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The performances indicated in each of the proposed scenarios consider the application of any entry fees, and for the maximum amount envisaged by the prospectus, as indicated in the section below referring to costs and entitled: "Composition of Costs".

The favorable scenario at 5 years occurred for an investment in the product/applicable benchmark between October 2016 and October 2021.

What happens if Fineco Asset Management DAC is unable to pay out?

If the Manager were to become insolvent, the assets of the Sub-Fund should not be affected because they are held by the Depositary, which is legally required to keep the assets separate from its own assets and those of the Manager. However, if the Depositary were to become insolvent, there may be a financial loss for the Sub-Fund, but this should be minimized because the assets are held separate to the Depositary's own assets. If the Sub-Fund is closed or dissolved, the assets will be sold and the investors will receive a share of the proceeds, which may be more or less than their initial investment. The ICAV is not a guaranteed UCITS and as a result there is no guarantee scheme in place which provides a guaranteed rate of return. The Sub-Fund does not provide compensation or operate a guarantee against any loss in the value of an investment, the funds or any income generated.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different investment periods. We have assumed:

- In the first year, you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario.
- 10000 EUR is invested.

	If you cash in after 1 year	If you cash in after 5 years
Total costs	€ 72	€ 452
Annual cost impact (*)	0.7%	0.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.50% before costs and 13.80% after costs.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period of the Sub-Fund is expected to be 5 years. The recommended holding period of 5 years is based on the liquidity profile of the Sub-Fund as well as the risk profile of the underlying assets. In order to sell shares, investors must do so with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may receive less than the current Net Asset Value when selling shares. Typically, only authorised participants can purchase shares directly from or sell shares directly back to the Sub-Fund. Shareholders should consult the section of the prospectus entitled “Dealing in shares in the Secondary Market” for details on the limited circumstances where shares purchased on the secondary market may be sold directly back to the Sub-Fund. No fees or penalties are applied by the Manager.

How can I complain?

In relation to complaints about the person advising on or selling the Sub-Fund, investors can request information, complain and/or make comments free of charge by contacting FinecoBank S.p.A. In relation to complaints about the Sub-Fund or the conduct of the Manager, complainants can request information, complain and/or make comments free of charge by contacting the Manager.
