

## HANetf II ICAV

Supplement dated 12 November 2025

for

### KRC Cat Bond UCITS ETF

This Supplement contains specific information in relation to the **KRC Cat Bond UCITS ETF** (the **Sub-Fund**), a sub-fund of HANetf II ICAV (the **ICAV**), an Irish collective asset-management vehicle umbrella fund with segregated liability between sub-funds which is registered in Ireland by the Central Bank of Ireland (the **Central Bank**) and authorised under the UCITS Regulations.

**This Supplement forms part of the Prospectus of the ICAV dated 22 August 2024 (the Prospectus) and should be read in the context of and together with the Prospectus. Save as disclosed in this Supplement, there has been no significant change and no significant new matter has arisen since publication of the Prospectus.**

The Directors of the ICAV whose names appear in the section entitled **Directors of the ICAV** in the Prospectus accept responsibility for the information contained in this document. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure such is the case) the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

Words and expressions defined in the Prospectus shall, unless the context otherwise requires, have the same meaning when used in this Supplement.

**Shares purchased on the secondary market cannot usually be sold directly back to the Sub-Fund. Investors must buy and sell Shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current Net Asset Value when buying Shares and may receive less than the current Net Asset Value per Share when selling them.**

**The value of Shares may go down as well as up and investors may not get back any of the amount invested.**

**As the Sub-Fund may invest more than 30% of its assets in below investment grade bonds, investment in the Sub-Fund should not constitute a substantial portion of an investment portfolio and will not be appropriate for all investors.** Please refer to the **High-Yield Fixed-Income Securities Risk** below.

Prospective investors should review this Supplement and the Prospectus carefully in their entirety and consider the **Risk Factors** set out in the Prospectus and in this Supplement before investing in this Sub-Fund.

## **1 IMPORTANT INFORMATION**

### **1.1 Profile of a typical investor**

Investment in the Sub-Fund is suitable for investors seeking risk adjusted current income and capital appreciation over the long term.

The Sub-Fund is available to a wide range of investors seeking access to a portfolio managed in accordance with the investment objective and policy set out below. An investment should only be made by those persons who are able to sustain a loss on their investment. Typical investors in the Sub-Fund are expected to be investors who want to take exposure to the markets covered by the investment policy of the Sub-Fund and are prepared to accept the risks associated with an investment of this type, including the volatility of such markets.

### **1.2 General**

This Supplement sets out information in relation to the Shares and the Sub-Fund. You must also refer to the Prospectus which is separate to this document and describes the ICAV and provides general information about offers of shares in the ICAV. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

The term “KRC” is used in the name of the Sub-Fund to denote King Ridge Capital Advisors LLC, the investment manager for the Sub-Fund. See the section entitled **Investment Manager** of this Supplement for further details on the Investment Manager.

The Shares in the ETF Classes (as defined below) of the Sub-Fund will be issued and admitted to listing on the Official List and traded on the regulated market of Euronext Dublin.

### **1.3 Suitability of Investment**

You should inform yourself as to (a) the possible tax consequences, (b) the legal and regulatory requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which you might encounter under the laws of the country of your citizenship, residence or domicile and which might be relevant to your purchase, holding or disposal of the Shares.

The Shares are not principal protected. The value of the Shares may go up or down and you may not get back the amount you have invested. See the section entitled Risk Factors of the Prospectus and the section entitled Risk Factors of this Supplement for a discussion of certain risks that should be considered by you.

An investment in the Shares is only suitable for you if you are a sophisticated investor and (either alone or with the help of an appropriate financial or other advisor) are able to assess the merits and risks of such an investment and have sufficient resources to be able to bear any losses that may result from such an investment. The contents of this document are not intended to contain and should not be regarded as containing advice relating to legal, taxation, investment or any other matters.

## 1.4 Distribution of this Supplement and Selling Restrictions

Distribution of this Supplement is not authorised unless accompanied by a copy of the Prospectus and is not authorised in any jurisdiction after publication of the audited annual report of the ICAV unless a copy of the then latest annual report and, if distributed after the semi-annual report has been produced, a copy of the then latest published semi-annual report and unaudited accounts is made available in conjunction with the Prospectus and this Supplement. The distribution of this Supplement and the offering or purchase of the Shares may be restricted in certain jurisdictions. If you receive a copy of this Supplement and/or the Prospectus you may not treat such document(s) as constituting an offer, invitation or solicitation to you to subscribe for any Shares unless, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to you without compliance with any registration or other legal requirement other than those with which the ICAV has already complied. If you wish to apply for the opportunity to purchase any Shares it is your duty to inform yourself of, and to observe, all applicable laws and regulations of any relevant jurisdiction. In particular, you should inform yourself as to the legal requirements of so applying, and any applicable exchange control regulations and taxes in the countries of your respective citizenship, residence or domicile.

## 2 INVESTMENT MANAGER

2.1 The Manager has appointed King Ridge Capital Advisors LLC, with registered office at 207 Main St., New London, New Hampshire 03257, United States of America, as investment manager for the Sub-Fund (the **Investment Manager**) with a discretionary mandate pursuant to the investment management agreement dated 12 November 2025 between the Manager and the Investment Manager (the **Investment Management Agreement**) described under the heading **Material Contracts** below.

2.2 Under the terms of the Investment Management Agreement, the Investment Manager provides, subject to the overall supervision and control of the Manager, investment management services to the Manager in respect of the Sub-Fund's portfolio of assets. It may delegate all or part of the investment management responsibilities to one or more sub-investment managers, may obtain the services of investment advisers on a non-discretionary basis and may obtain third party research advice with the fees in respect of any such delegation being paid by the Investment Manager out of its own fee.

## 3 INVESTMENT OBJECTIVE AND POLICIES

### 3.1 Investment objective

The investment objective of the Sub-Fund is to achieve long term investment returns by primarily investing in a portfolio of catastrophe bonds (**Cat Bonds**) that may have the potential to generate income and capital preservation.

### 3.2 Investment policy

The Sub-Fund is actively managed and in order to achieve its investment objective, the Sub-Fund will primarily invest, in a manner consistent with the UCITS Regulations and Central Bank requirements, in a portfolio of Cat Bonds, which are listed or traded on a Regulated Market as set out in Appendix 1 of the Prospectus. The Investment Manager will select securities as described under the heading Investment Process below.

Under normal circumstances, the Sub-Fund will invest at least 80% of its net assets in Cat Bonds. Cat Bonds are financial instruments that allow insurers and reinsurers to transfer specific risks, typically those associated with trigger events related to natural disasters or other perils, such as

hurricanes, earthquakes, tsunamis, tornadoes, wildfires, floods, cybercrime and plane crashes to capital markets investors (the **Trigger Event(s)**). In order for a Trigger Event to be deemed to have occurred, three criteria must be satisfied while the bond is outstanding: an event; a geographic area in which the event must occur; and a threshold of economic or physical loss caused by the event, together with a method to measure such loss.

The Sub-Fund has no limit as to the types of natural catastrophes, geographic areas or thresholds of loss referenced by Cat Bonds in which it can invest. Within each natural peril and geographic region, the Sub-Fund seeks to diversify exposures to underlying insurance and reinsurance carriers, trigger types and lines of business.

While most of the Cat Bonds the Sub-Fund invests in will have Trigger Events that are natural catastrophes, as described above, some Trigger Events may be non-natural catastrophes, such as cybercrime, plane crashes or other events resulting in a specified level of physical or economic loss, such as mortality or longevity (life-span). The Sub-Fund will not invest greater than 10% of its net assets in Cat Bonds which have non-natural Trigger Events.

The Sub-Fund may diversify across regions and perils to mitigate concentration risk. The Investment Manager may select Cat Bonds issued on a global basis but it is anticipated that the Cat Bonds selected will predominantly be issued in the United States, Europe, Japan and other developed markets with mature reinsurance markets.

The Sub-Fund may invest in Cat Bonds of any credit quality and maturity. Depending upon the Investment Manager's allocation among different sectors, the Sub-Fund may invest without limit in securities rated below investment grade or unrated securities as classified by any of Standard & Poor's, Moody's or Fitch rating agencies. The Sub-Fund will not have a specific sector focus.

Investors should also note that the Sub-Fund may invest in other collective investment schemes authorised as UCITS (including ETFs and money market funds) in pursuit of its investment objective, subject to the investment restrictions outlined in the Prospectus.

The Sub-Fund may invest in ancillary liquid assets and money market instruments which may include bank deposits, certificates of deposit, commercial paper, floating rate notes and freely transferable promissory notes. In addition, for liquidity and efficient portfolio management purposes, the Sub-Fund may invest up to 10% of its net assets in short-dated investment grade corporate and/or government bonds with maturities not exceeding two years.

The transferable securities, ancillary liquid assets, money market instruments and FDI (other than permitted unlisted investments) held by the Sub-Fund will be listed or traded on the Regulated Markets referred to in Appendix 1 of the Prospectus.

### 3.3 **Investment Process**

The Sub-Fund seeks to achieve its investment objective through active allocation, with a primary focus on Cat Bonds. The Investment Manager applies its proprietary methodology that combines both qualitative and quantitative analysis to construct a well-diversified portfolio. The qualitative analysis of a Cat Bond focuses on the following:

- Peril Type – hurricane, earthquake, flood, tornado/hail, wildfire, etc.;
- Geographic Exposure – US, Canada, Europe, Japan, Mexico, etc.;
- Line of business – residential, commercial, etc.;
- Trigger Type – how the relevant Trigger Event determines when the Cat Bond will suffer a loss;

- Vintage and quality of Insurer's Property Exposure Data - The date when an insurer's portfolio of insured risks was last captured and modelled is critical in Cat Bond modelling because it directly affects the accuracy of loss estimates and risk assessment.

The quantitative analysis evaluates key actuarial metrics, including attachment probability (the likelihood that a given Cat Bond will trigger a payment), expected loss (the average loss anticipated for a Cat Bond over a defined period) and exhaustion probability (the chance that a security experiences a full write-down).

When evaluating Cat Bonds for inclusion in the investment portfolio, the Investment Manager assesses their relative return potential considering their expected risk profile. This framework is used to determine the optimal allocation of Cat Bonds across issuers, peril type and geographic exposures. By systematically assessing these factors, the Investment Manager aims to balance attractive yield opportunities with prudent risk management. In addition, the Investment Manager may consider the financial condition and risk profile of the sponsoring insurance company, drawing on information and analysis from brokers, dealers and ratings agencies (i.e. Standard & Poors, Moodys or Fitch).

This approach allows the Sub-Fund to capture a broad range of Cat Bond opportunities while maintaining resilience across different catastrophe scenarios. Active monitoring and ongoing portfolio adjustments further ensure that the strategy remains responsive to evolving market conditions, modelling insights and reinsurance supply-demand dynamics.

A portfolio security will be sold when the Investment Manager determines that it no longer contributes to the Sub-Fund's investment objective. This decision is based on the same criteria used during the selection process.

### 3.4 **EU Taxonomy**

The investments underlying this Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

### 3.5 **Sustainability Risks**

For the purposes of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (**SFDR**), the Sub-Fund is not deemed (i) a fund that promotes environmental or social characteristics; (ii) a fund that has sustainable investment as its objective; or (iii) a fund with reduction in carbon emissions as its objective. As such, the Sub-Fund discloses under Article 6 of the SFDR and does not disclose under Articles 8 or 9 of the SFDR.

The impact of Sustainability Risks on the returns of the Sub-Fund have been assessed by the Investment Manager and the Investment Manager has determined that the impact of Sustainability Risks is not materially relevant to the returns of the Sub-Fund. Sustainability Risks are not integrated into investment decisions for the Sub-Fund as the investment process involves a fundamental analysis as described in 3.3, rather than sustainability factor. Accordingly, the Investment Manager exercises discretion to actively select or deselect securities as part of the investment process but does not integrate Sustainability Risks in the investment process.

### 3.6 **Use of financial derivative instruments and efficient portfolio management**

The Sub-Fund may also invest in FDIs for efficient portfolio management and/or hedging purposes. The Sub-Fund may use FDIs such as futures and currency forwards for the purpose of reducing risk associated with currency exposures within the Sub-Fund. This may on occasions lead to an increase in the risk profile of the Sub-Fund or result in a fluctuation in the expected level of volatility. The Sub-

Fund may also enter into securities lending transactions for efficient portfolio management purposes, and in particular, to reduce costs. Please see the section entitled Risk Factors in the Prospectus in relation to such risks.

The Sub-Fund will employ the commitment approach to assess the Sub-Fund's global exposure and to ensure that the Sub-Fund's use of derivative instruments is within the limits specified by the Central Bank. Global exposure will be calculated daily. While the Sub-Fund may be leveraged through the use of the FDIs, any such leverage will not be in excess of 100% of the Sub-Fund's Net Asset Value. Including FDIs, the total exposure associated with the investments of the Sub-Fund, may not exceed 200% of the Net Asset Value of the Sub-Fund.

Investment in FDIs is subject to the conditions and limits contained in the Central Bank UCITS Regulations issued by the Central Bank. Subject to these limits, the Sub-Fund may invest in FDIs dealt on any of the regulated markets set out in the list of Regulated Markets in Appendix 1 to the Prospectus (and/or over the counter (**OTC**)) FDIs.

The ICAV employs a risk management process which enables it to accurately measure, monitor and manage at any time the various risks associated with FDIs and their contribution to the overall risk profile of the portfolio of assets of the Sub-Fund. The ICAV will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments. The Sub-Fund will only invest in FDIs in accordance with the risk management process filed with the Central Bank.

The Sub-Fund may invest in FDIs dealt over the counter provided that the counterparties to over-the-counter transactions are institutions subject to prudential supervision and belong to categories approved by the Central Bank.

Position exposure to the underlying assets of FDIs, when combined where relevant with positions resulting from direct investments, may not exceed the investment limits set out in the Central Bank UCITS Regulations.

Please see the section entitled **Use of Financial Derivative Instruments and Efficient Portfolio Management** in the Prospectus in relation to FDI.

### 3.7 **Securities financing transactions**

While the ICAV may enter into Securities Financing Transactions, it is not anticipated that the Sub-Fund will enter into any Securities Financing Transactions. However, in the event that the Sub-Fund contemplates entering into such transactions, investors will be provided with further details of the structure and use of such transactions, together with any other information required to be disclosed to investors in accordance with Articles 13 and 14 of the SFTR. The Supplement will be updated accordingly in the event that the Sub-Fund will enter into any Securities Financing Transactions.

## 4 **PORTFOLIO TRANSPARENCY**

Information about the Investments of the Sub-Fund shall be made available on a daily basis. The Sub-Fund will disclose on [www.HANetf.com](http://www.HANetf.com) at the start of each Business Day the identities and quantities of the securities and other assets held by it. The portfolio holdings will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on that Business Day.

## 5 INVESTMENT RESTRICTIONS

The general investment restrictions as set out in the Prospectus shall apply.

The Sub-Fund may not invest more than 10% of its Net Asset Value in open ended collective investment schemes.

## 6 BORROWING

The Sub-Fund may borrow money in an amount up to 10% of the market value of its net assets at any time for the account of the Sub-Fund and the Depositary may charge the assets of the Sub-Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes.

## 7 RISK FACTORS

7.1 While the general risk factors set out in the section entitled **Risk Factors** in the Prospectus apply to the Sub-Fund, the following risk factors described in the Prospectus under the headings **Absence of prior active market, Concentration Risk, Specialisation Risk, Currency Risk, Portfolio Currency Risk, Liquidity of Investments, Political and/or Legal/Regulatory Risk, Issuer-specific Risk, Specialisation Risk, Interest Rate Risk, FDI Risk, Risks associated with Investment in other Collective Investment Schemes, Underperformance Risk and Reliance on the Investment Manager Risk** are particularly relevant for the Sub-Fund.

7.2 The following risk relates specifically to the Sub-Fund:

### **Active Management Risk**

The Sub-Fund's assets will be actively managed by the Investment Manager who will have discretion (subject to the Sub-Fund's investment restrictions) to invest the Sub-Fund's assets in investments that it considers will enable the Sub-Fund to achieve its investment objective. There is no guarantee that the Sub-Fund's investment objective will be achieved based on the investments selected.

### **High-Yield Fixed-Income Securities Risk**

High-yield fixed-income securities are fixed-income securities rated below investment grade as classified by any of Standard & Poor's, Moody's or Fitch rating agencies. High-yield fixed-income securities are subject to additional risk factors, such as increased possibility of default, illiquidity of the security, and changes in value based on public perception of the issuer. These securities are generally considered speculative because they present a greater risk of loss, including default, than higher quality debt securities.

### **Cat Bond Risk**

The Sub-Fund is subject to the risk that a Trigger Event of a particular size/magnitude actually occurs in a designated geographic area and as a result, the Sub-Fund will lose all or a significant portion of the principal it has invested in a particular security and the right to additional interest payments with respect to the security. If multiple Trigger Events occur that impact a significant portion of the Sub-Fund's portfolio, the Sub-Fund could suffer significant losses. In addition, it is possible that certain Trigger Events (such as hurricanes, earthquakes and other natural, and, where relevant, non-natural catastrophes) will significantly impact the Sub-Fund's net asset value, market price and volatility in the period leading up to, during, and immediately after, such event as market participants assess the impact and the particular terms of the Sub-Fund's investments. A majority of the Sub-Fund's assets will be invested directly or indirectly in Cat Bonds tied to specific Trigger Events and there is

inherent uncertainty as to whether, when or where such Trigger Event(s) will occur.

There is no way to accurately predict whether a Trigger Events will occur and because of this significant uncertainty, Cat Bonds carry a high degree of risk.

### **Climate Risk**

Climate Risk refers to the financial and structural vulnerabilities entities face due to changing climatic conditions, including extreme weather events, rising sea levels, and shifts in temperature and precipitation patterns. The unpredictable nature of climate change presents substantial risks to the Sub-Fund because Trigger Events typically relate to natural disasters or events, including hurricanes, windstorms, tornados, fires, floods and other weather-related phenomena. To the extent that changing climate conditions increase the probability of Trigger Events occurring, the Sub-Fund could lose the principal value and remaining interest payments from its investments in Cat Bonds, resulting in losses to the Sub-Fund and resulting in a decrease in the Sub-Fund's Net Asset Value.

### **Reinsurance Industry Underperformance Risk**

The performance of Cat Bonds and the reinsurance industry itself are tied to the occurrence of Trigger Events causing physical and/or economic loss. Major natural disasters in populated areas (such as in the cases of Hurricane Katrina in New Orleans in 2005, Superstorm Sandy in the New York City metropolitan area in 2012 and Hurricane Irma in Florida and the Caribbean in 2017) or related to high-value insured property can result in significant losses and investors in reinsurance-related securities tied to such exposures may also experience substantial losses. If the likelihood and severity of natural, where relevant, non-natural and other large disasters increase, the risk of significant losses to reinsurers may increase. Typically, one significant Trigger Event (even in a major metropolitan area) will not result in financial failure for a reinsurer. However, a series of major Trigger Events could cause the failure of a reinsurer. Similarly, to the extent the Sub-Fund invests in reinsurance-related securities for which a Trigger Event occurs, losses associated with such event will result in losses to the Sub-Fund, and a series of major Trigger Events affecting a large portion of the reinsurance-related securities held by the Sub-Fund will result in substantial losses to the Sub-Fund. In addition, unexpected Trigger Events such as natural disasters and, where relevant, non-natural disasters could lead to government intervention. Political, judicial and legal developments affecting the reinsurance industry could also create new and expanded theories of liability or regulatory or other requirements. Such changes could have a material adverse effect on the Sub-Fund.

## **8 DIVIDEND POLICY**

The Sub-Fund may issue Distributing Shares and Accumulating Shares. Where any Distributing Shares are issued, the Directors may declare dividends on a regular basis to the Shareholders of such Shares out of the net income of the Sub-Fund attributable to the Distributing Shares, in accordance with the terms of the Prospectus. **Where distributions will be paid out of the capital of the Sub-Fund, investors may not receive back the full amount invested.**

The profits attributable to the Accumulating Shares in the Sub-Fund shall be retained within the Sub-Fund and will be reflected in the Net Asset Value of the Accumulating Shares.

9 KEY INFORMATION FOR SHARE DEALING

	ETF Classes	Non-ETF Classes
<b>Base Currency</b>	US Dollar	
<b>Minimum Initial Investment Amount</b>	N/A	\$150,000
<b>Creation Unit</b>	100,000 Shares or such other amount as may be determined by the Directors at their discretion.	N/A
<b>Minimum Sub-Fund Size</b>	The minimum size of the Sub-Fund will be \$1,000,000 or foreign currency equivalent thereof or such other amount as may be determined by the Directors at their discretion. When the size of the Sub-Fund is below \$1,000,000 or foreign currency equivalent, the Directors of the ICAV may compulsorily redeem all of the Shares of the Sub-Fund in accordance with the <b>Mandatory Redemptions</b> section of the Prospectus.	
<b>Business Day</b>	means a day on which markets are open for business in the UK (or such other day(s) as the Directors may from time to time determine and notify in advance to Shareholders).	
<b>Dealing Day</b>	In general, each Business Day will be a Dealing Day. However, certain Business Days will not be Dealing Days where, in the sole determination of the Directors: (i) markets on which the Sub-Fund's investments are listed or traded, or (ii) a significant (30% or more) proportion of markets on which constituents are listed or traded are closed; provided there is at least one Dealing Day per fortnight. The Dealing Days for the Sub-Fund are available from the Administrator or on the HANetf website at <a href="http://www.HANetf.com">www.HANetf.com</a> .	
<b>Dealing Deadline</b>	4.30 pm (Irish time) on the Business Day prior to the relevant Dealing Day.	
<b>Initial Offer Period</b>	The Initial Offer Period shall commence at 9.00 am (Irish time) on 13 November 2025 close on the earlier of the receipt of an initial subscription and 5.00pm (Irish time) on 11 May 2026 as may be shortened or extended by the Directors and notified to the Central Bank.  Settlement of orders for Creation Units during the Initial Offer Period must be received by the first Business Day after the end of the Initial Offer Period.	The Initial Offer Period shall commence at 9.00 am (Irish time) on 13 November 2025 close on the earlier of the receipt of an initial subscription and 5.00pm (Irish time) on 11 May 2026 as may be shortened or extended by the Directors and notified to the Central Bank.
<b>Settlement Date for Subscriptions</b>	In respect of cash subscriptions, on the first Business Day after the relevant Dealing Day; provided that if such day is not a day on which foreign exchange markets are open for settlement of payments in the relevant Share Class Currency (a <b>Currency Day</b> ), settlement will be postponed to the immediately following Currency Day;  In respect of in-kind subscriptions, on the third Business Day after the relevant Dealing Day or within such other period as the Directors may determine (not exceeding 10 Business Days following the relevant Dealing Deadline).	In respect of cash subscriptions, on the first Business Day after the relevant Dealing Day; provided that if such day is not a day on which foreign exchange markets are open for settlement of payments in the relevant Currency Day settlement will be postponed to the immediately following Currency Day.

<p><b>Redemptions</b></p> <p><b>Settlement Date for Redemptions</b></p>	<p>Creation Units may be redeemed on a Dealing Day at a price based on the Net Asset Value per Share multiplied by the number of Shares in a Creation Unit. A redeeming Shareholder will have deducted from redemption proceeds an appropriate amount of Duties and Charges, if applicable.</p> <p>The Shares in the ETF Classes which are the subject of the redemption must be received by the second Business Day after the relevant Dealing Day.</p> <p>Redemption proceeds will be typically transferred within 3 Business Days of the relevant Dealing Day and, in any event, within such other period as the Directors may determine (not exceeding 10 Business Days following the relevant Dealing Deadline), provided that all required documentation has been furnished to the Administrator and the relevant Shareholder has delivered, in the relevant Securities Settlement System, the Shares to be redeemed.</p>	<p>Shares in Non-ETF Classes may be redeemed on a Dealing Day at a price based on the Net Asset Value per Share. A redeeming Shareholder will have deducted from redemption proceeds an appropriate amount of Duties and Charges, if applicable.</p> <p>The Shares which are the subject of the redemption must be received by the Sub-Fund by the fifth Business Day after the relevant Dealing Day.</p> <p>Redemption proceeds will be typically transferred within 3 Business Days of the relevant Dealing Day and, in any event, within such other period as the Directors may determine (not exceeding 10 Business Days following the relevant Dealing Deadline), provided that all required documentation has been furnished to the Administrator.</p>
<p><b>Valuation Methodology</b></p>	<p>Assets and liabilities of the Sub-Fund which are listed or traded on one Regulated Market for which quotations are readily available at the valuation point for the relevant dealing day shall be valued at the last traded price on such Regulated Market. Where an investment is quoted, listed or traded on or under the rules of more than one Regulated Market, the Regulated Market which in the Manager's opinion constitutes the main Regulated Market for such investment or the Regulated Market which provides the fairest criteria for valuing the relevant Investment shall be used. Where for specific assets the last traded price does not in the opinion of the Manager or its duly authorised delegate, reflect their fair value or are not available, the value shall be calculated with care and in good faith by the Manager or by a competent person appointed by the Manager and approved for purpose by the Depositary or any other means provided the value is approved by the Depositary. This section entitled Valuation Methodology should be read in conjunction with the section entitled Calculation of Net Assets/ Valuation of Assets in the Prospectus.</p>

## 10 DESCRIPTION OF AVAILABLE SHARES

### 10.1 ETF Classes and Non-ETF Classes

The Share Classes currently available are as set out in the table below.

The Sub-Fund may comprise both listed Classes (being **ETF Classes**) and unlisted Classes (being **Non-ETF Classes**) in accordance with the requirements of the Central Bank. ETF Classes will be identified as such by the denominated "ETF". Classes without the "ETF" denominator are Non-ETF Classes.

In addition, the Sub-Fund may also offer Hedged Share Classes. Hedged Share Classes will be identified as such by the denominator "EUR/GBP/CHF Hedged". Classes without the "Hedged" denominator are unhedged Share Classes. Please see the section of the Prospectus headed **Share Class Hedging** and **Share Class Currency Risk** for further details.

Share Class Name	Dividend Policy	Hedged/Unhedged	Currency	Initial Offer Price
Accumulating ETF Share Class	Accumulating	Unhedged	USD	US\$10

## 11 CHARGES AND EXPENSES

11.1 This section entitled **Charges and Expenses** should be read in conjunction with the sections entitled **General Charges and Expenses** and **Management Charges and Expenses** in the Prospectus.

11.2 The following fees may be charged, at the discretion of the Manager, on the Net Asset Value per Share in the Creation Unit subscribed for by Shareholders in respect of the ETF Classes, and on the Net Asset Value per Share in respect of the Non-ETF Classes, (and will not be incurred by the ICAV on behalf of the Sub-Fund, and accordingly will not affect the Net Asset Value of the relevant Class of Share of the Sub-Fund).

Share Class	ETF Share Class	Non-ETF Share Class
<b>Preliminary Charge</b>	N/A	of up to 5% at the Manager's discretion
<b>Exchange Charge</b>	N/A	of up to 3% at the Manager's discretion
<b>Redemption Charge</b>	of up to 3% at the Manager's discretion	of up to 3% at the Manager's discretion
<b>Cash Transaction Fee</b>	of up to 3% at the Directors' discretion	N/A
<b>In Kind Transaction Fee</b>	of up to 3% at the Manager's discretion	N/A

11.3 The Preliminary Charge is in addition to the investment amount received from an investor for subscription for Shares. Such Preliminary Charge is payable to the Manager.

11.4 Neither the Cash Transaction Fee nor the In Kind Transaction Fee will be charged in circumstances where a Redemption Charge is payable.

11.5 The following fees and expenses will be incurred by the ICAV on behalf of the Sub-Fund and will affect the Net Asset Value of the relevant Class of Share of the Sub-Fund:

Share Class Name	Total Expense Ratio or TER
<b>Accumulating ETF Share Class</b>	Up to 1.3% per annum

11.6 The Total Expense Ratio or TER, a percentage of the Net Asset Value of the relevant Class of Shares (plus VAT, if any), is payable by the ICAV out of the Sub-Fund Assets to the Manager. The TER will accrue on each day and will be calculated on each Dealing Day and paid monthly in arrears. The TER will cover all of the ordinary fees, operating costs and expenses payable by the Sub-Fund including fees and expenses paid to the Manager, all ordinary costs and expenses connected with the management and operating activities of the Sub-Fund, including investment management and advisory fees, Director's fees, listing, registration, transfer agency, administration and depositary fees, regulators and auditors and certain legal expenses of the ICAV.

11.7 The TER does not include extraordinary/other costs and expenses (including but not limited to transaction charges, stamp duty or other taxes on the investments of the ICAV including duty charges for portfolio re-balancing, withholding taxes, commissions and brokerage fees incurred with respect to the ICAV's investments, interest on any non-overdraft credit facility and charges incurred in

negotiating, effecting or varying the terms of such facility, any commissions charged by intermediaries in relation to an investment in the Sub-Fund and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the ICAV all of which will be paid separately out of the assets of the Sub-Fund).

11.8 The cost of establishing the Sub-Fund will be borne by the Marketing Agent.

11.9 This section entitled Charges and Expenses should be read in conjunction with the sections entitled **General Charges and Expenses** and **Management Charges** and Expenses in the Prospectus.

## **12 MATERIAL CONTRACTS**

The Investment Management Agreement provides that the appointment of the Investment Manager as investment manager will continue in force unless and until terminated by the Manager immediately on written notice to the Investment Manager or by the Investment Manager giving not less than one hundred and eighty (180) days' notice in writing to the Manager although in certain circumstances the agreement may be terminated forthwith by notice in writing by either party to the other. Under this agreement, the Investment Manager shall not be liable to the Manager or any Shareholders or otherwise for any error of judgement or loss suffered by the Manager or any such Shareholder in connection with the Investment Management Agreement unless such loss arises from the fraud, bad faith, negligence or wilful default in the performance or non-performance by the Investment Manager or persons designated by it of its obligations or duties under the agreement or breach of contract on the part of the Investment Manager or any of its agents or delegates or their agents.

## **13 REGISTRATION FOR PUBLIC DISTRIBUTION AND LISTING**

Application will be made to register the Sub-Fund for public distribution in various European countries.

Application will be made to list the Shares in the ETF Classes on Euronext Dublin. Through the operation of such a secondary market, persons who are not Authorised Participants or not able or willing to subscribe for and redeem Creation Units will be able to buy or sell Shares in the ETF Classes from or to other retail investors or market makers, broker/dealers, or other Authorised Participants at prices which should approximate, after currency conversion, the Net Asset Value of the Shares in the ETF Classes.

## **14 HOW TO BUY AND SELL SHARES**

Applicants should note that investors in a Non-ETF Class can subscribe and redeem their Shares directly from the ICAV, whereas investors who have purchased Shares in an ETF Class on the secondary market should be aware that such shares cannot usually be sold directly back to the ICAV. Additionally, if exchanges are closed but it is a Dealing Day for the Sub-Fund, then Non-ETF Class investors may be able to subscribe and redeem with the Sub-Fund, while other investors will likely have to wait for the Exchanges to open again to buy and sell Shares.

Investors in an ETF Class can purchase or sell Shares on a stock exchange through an intermediary at any time during the trading day whereas investors in a Non-ETF Class may only purchase and sell shares directly with the ICAV prior to the Dealing Deadline for that Dealing Day.

### **14.1 ETF Classes**

Investors can buy and sell Shares in the ETF Classes on the secondary market with the assistance of an intermediary (e.g., a broker-dealer) as described above in accordance with the procedures set

out in the section entitled **Secondary Market** in the Prospectus and may incur fees charged by their intermediary or broker. In addition, investors in ETF Classes may pay more than the current Net Asset Value when buying Shares and may receive less than the current Net Asset Value when selling them.

Investors can otherwise subscribe for or redeem Creation Units in accordance with the procedures set out in the section entitled **Primary Market** in the Prospectus.

#### 14.2 **Non-ETF Classes**

Investors can buy and sell Shares in the Non-ETF Classes in accordance with the procedures set out in the section entitled **Share Dealing – Non-ETF Sub-Funds** in the Prospectus. Investors in Non-ETF Classes may pay the Preliminary Charge and the Redemption Charge in the section entitled **Charges and Expenses** to cover transactions costs of purchasing and selling Shares of the Sub-Fund.

### 15 **OTHER INFORMATION**

New Sub-Funds may be created from time to time by the Directors with the prior approval of the Central Bank in which case further Supplements incorporating provisions relating to those Sub-Funds will be issued by the ICAV.

The names of the Sub-Funds currently approved by the Central Bank are listed in the Global Supplement.
