TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND

Investment Objective of the Fund

The investment objective of the Fund is to provide exposure to the performance of equally weighted large capitalisation companies in the Eurozone.

Investment Policy of the Fund

In order to achieve the investment objective, the Fund will seek to replicate the net total return performance of the EURO STOXX 50 Equal Weight Index (the “**Reference Index**”) less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out below under “**General Description of the Reference Index**”.

The Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to replicate the Reference Index is set out in section 4 “**Investment Objective and Policies**” and section 5 “**Investment Restrictions and Permitted Investments**” of the Prospectus.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders’ interests or may not otherwise be possible or practicable.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under “**Appendix III - Use of Financial Derivative Instruments and Efficient Portfolio Management**”.

The Fund shall not invest more than 10% of its net assets in other UCITS, open ended CIS or closed ended collective investment funds that meet the requirements of the Central Bank (and, in the case of closed ended collective investment funds, that qualify as transferable securities).

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under **"Investment Objectives & Policies"** and under **"Investment Restrictions and Permitted Investments"**.

The Fund is not classified as an Article 8 or Article 9 fund pursuant to SFDR. The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities outlined in Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment.

The Manager delegates responsibility for investment management in relation to the Fund to the Investment Manager. As the Fund is passively managed, the Investment Manager does not exercise investment discretion and therefore does not integrate sustainability risks into the investment process. As sustainability risks are not integrated into the investment process, the impact of such risks on the returns of the Fund are not assessed. For further information on the Fund's approach to sustainability risks in accordance with Article 6 of SFDR, please refer to the Prospectus.

Index Tracking Strategy

It is anticipated that the "Tracking Error" of the Fund (being the standard deviation of the difference in returns between the Fund and the Reference Index) will be between 0% and 1.00% under normal market conditions. However, exceptional circumstances may arise which cause the Fund's Tracking Error to exceed 1.00%. Investors should note that the Tracking Error set out in this section is for the Unhedged Share Classes against the Reference Index (which is also unhedged).

Investment Restrictions of the Fund

Investors in particular must note that the general investment restrictions set out under **"Investment Restrictions and Permitted Investments"** in the Prospectus apply to the Fund.

Efficient Portfolio Management

Further information on efficient portfolio management techniques that may be used by the Fund is contained in the **"Securities Financing Transactions"** section below and in the main body of the Prospectus under the heading **"Use of Financial Derivative Instruments and Efficient Portfolio Management"**.

Securities Financing Transactions

The Fund may use Securities Financing Transactions, namely securities lending. The Fund's use of Securities Financing Transactions will be subject to the requirements of SFTR and in accordance with normal market practice and the Central Bank Rules. Such Securities Financing Transactions may be entered into for any purpose that is consistent with the investment objective of the Fund, including to generate income or profits in order to increase portfolio returns or to reduce portfolio expenses or risks. Securities lending will be for efficient portfolio management purposes only.

The type of assets that may be held by the Fund in accordance with its investment objective and policies and may be subject to such Securities Financing Transactions are equities. The maximum proportion of the Fund's assets that may be subject to securities lending is 100%, and the expected proportion of the Fund's assets that may be subject to securities lending is between 0% and 30%. Please refer to the Prospectus section **"Securities Financing Transactions"** for further details.

Currency Hedging Policy

The Fund may enter into transactions for the purposes of hedging the foreign exchange exposure in any hedged Share Classes (identified by **"Hdg"** in their names). The purpose of the hedging in the hedged Share Classes is to limit, at a Share Class level, the profit or loss generated from foreign exchange exposure when holding an asset in a currency other than the Base Currency of the Fund. This is achieved by the hedged

Share Classes employing 30 day rolling forward FX contracts, which are rolled monthly.

All costs and losses arising in relation to such currency hedging transactions will be borne by the hedged Share Class and all gains arising in connection with such hedging transactions will be attributable to the relevant Share Class. Although the Fund may utilise currency hedging transactions in respect of Share Classes, it shall not be obliged to do so and to the extent that it does employ strategies aimed at hedging certain Share Classes, there can be no assurance that such strategies will be effective. The costs and related liabilities/benefits arising from instruments entered into for the purposes of hedging the currency exposure for the benefit of any particular Share Class of the Fund (where the currency of a particular Share Class is different to the Base Currency of the Fund) shall be attributable exclusively to the Share Class. Under exceptional circumstances, such as, but not limited to, where it is reasonably expected that the cost of performing the hedge will be in excess of the benefit derived and therefore detrimental to Shareholders, the Company may decide not to hedge the currency exposure of such Share Classes.

Where the Investment Manager seeks to hedge against currency fluctuations, while not intended, this could result in over-hedged or under-hedged positions due to external factors outside the control of the Company. However, over-hedged positions will not exceed 105% of the Net Asset Value of the relevant Share Class and hedged positions will be kept under review to ensure that over-hedged positions do not exceed the permitted level and that under-hedged positions do not fall short of 95% of the portion of the Net Asset Value of the relevant Share Class and any under-hedged position will be kept under review to ensure it is not carried forward from month-to-month. This review will also incorporate a procedure to ensure that positions in excess of 100% of Net Asset Value will not be carried forward from month to month.

Further information on currency hedging at Share Class level is contained in the main body of the Prospectus under the heading "**Hedged Classes**".

Collateral Policy

- (a) Non-Cash Collateral: In addition to the requirements for valuation of non-cash collateral in the Prospectus, subject to any agreement on valuation made with the counterparty, collateral posted to a recipient counterparty for the benefit of the Fund will be valued daily at mark-to-market value.
- (b) Issuer Credit Quality: In addition to the requirement for Issuer Credit Quality set out in the Prospectus, assets provided by the Fund on a title transfer basis shall no longer belong to the Fund and shall pass outside the custodial network. The counterparty may use those assets at its absolute discretion. Assets provided to a counterparty other than on a title transfer basis shall be held by the Depositary or a duly appointed sub-depositary.

Further information on the criteria which collateral received by the Fund must meet is contained in the main body of the Prospectus under the heading "**Non-Cash Collateral**".

- (c) Collateral - Posted by the Fund: In addition to the requirements in respect of collateral posted to a counterparty in the Prospectus, collateral posted to a counterparty by or on behalf of the Fund will consist of such collateral as is agreed with the counterparty from time to time and may include any types of assets held by the Fund.
- (d) Valuation: Information in respect of the collateral valuation methodology used by the Company can be found in the Prospectus under the heading "**Appendix III - Efficient Portfolio Management and use of Financial Derivative Instruments**". The rationale for the use of this collateral valuation methodology is primarily to guard against the price volatility of assets being received by the Fund as collateral.

The risk exposure of the Fund to counterparties will remain within the limits prescribed in the Prospectus under "**Appendix II - Investment Restrictions Applicable to the Funds under the Regulations**".

Further information on the collateral policy is contained in Appendix III to the Prospectus under the heading "**Collateral Policy**".

Borrowing and Leverage

The Company on behalf of the Fund may borrow up to 10% of the Net Asset Value of the Fund on a temporary basis. Such borrowings may only be used for short term liquidity purposes to cover the redemption of Shares. Further information on Borrowing and Leverage is contained in the main body of the Prospectus under the heading "**Borrowing and Lending Powers**" and "**Leverage**" respectively.

The Company will use the commitment approach for the purposes of calculating global exposure for the Fund. The Fund's total exposure to the Reference Index will be limited to 100% of Net Asset Value.

While it is not the Investment Manager's intention to leverage the Fund, any leverage resulting from the use of FDIs will be done in accordance with the Regulations.

Dividend Policy

Dividends will be declared on a quarterly basis for the Dist Shares, the USD Hdg Dist Shares, the GBP Hdg Dist Shares, the CHF Hdg Dist Shares, the MXN Hdg Dist Shares, the SEK Hdg Dist Shares, and the HKD Hdg Dist Shares in accordance with the general provisions set out in the Prospectus under the heading "Dividend Policy" and Shareholders will be notified in advance of the date on which dividends will be paid. Distributions will not be made in respect of the Acc Shares, the USD Hdg Acc Shares, the GBP Hdg Acc Shares, the CHF Hdg Acc Shares, the MXN Hdg Acc Shares, the SEK Hdg Acc Shares, and the HKD Hdg Acc Shares and income and other profits will be accumulated and reinvested in respect of those Shares.

Trading

Application will be made to Euronext Dublin, the London Stock Exchange or Deutsche Boerse and/or such other exchanges as the Directors may determine from time to time (the "**Relevant Stock Exchanges**") for listing and/or admission to trading of the Shares issued and available to be issued on the main market of each of the Relevant Stock Exchanges on or about the Launch Date. This Supplement and the Prospectus together comprise listing particulars for the purposes of trading on the main market of each of the Relevant Stock Exchanges.

Exchange Traded Fund

The Fund is an Exchange Traded Fund ("**ETF**"). The Shares of this Fund are fully transferable among investors and will be listed and/or traded on the Relevant Stock Exchanges. It is envisaged that Shares will be bought and sold by private and institutional investors in the secondary market in the same way as the ordinary shares of a listed trading company.

The Management Fee, a percentage of the Net Asset Value of the relevant Class of Shares (plus VAT, if any), is payable by the Company out of the Fund Assets to the Manager. The Management Fee will accrue on each day and will be calculated on each Dealing Day and paid monthly in arrears. The Manager will pay out of its fees (and not out of the assets of the Fund) the fees and expenses (where appropriate) of the Investment Manager, the Administrator, the Depositary, the Directors and the ordinary fees, expenses and costs incurred by the Fund that include Setting Up Costs and Other Administrative Expenses as described in the Prospectus.

Where a distribution fee, commission or other monetary benefit is received by the Fund, the Manager or any person acting on behalf of the Fund or the Manager of the Fund, the fee, commission or other monetary benefit shall be paid into the assets of the Fund.

Dilution Levy: The Fund will not apply a dilution levy.

This section headed "**Fees and Expenses**" should be read in conjunction with the section headed "**Fees and Expenses**" in the Prospectus.

German Investment Tax Act

In accordance with the German Investment Tax Act as amended from time to time (GITA), the Fund intends to qualify as an equity fund as defined in section 2 para. 6 GITA and will continuously invest more than 50% of its Net Asset Value (as defined in section 2 para. 9b GITA) into equities (as defined in section 2 para. 8 GITA).

Exchange of Shares

Shareholders may apply to exchange on any Dealing Day all or part of their holding of Shares of any Class

of the Fund (the "**Original Class**") for Shares of another Class of the Fund which is being offered at that time (the "**New Class**") provided that all the criteria for applying for Shares in the New Class have been met.

The general provisions and procedures relating to redemptions will apply equally to exchanges. All exchanges will be treated as a redemption of the Shares of the Original Class and application to the purchase of Shares of the New Class, save that no Subscription Charge or Redemption Charge will be payable. Exchanges of Shares may be subject to an Exchange Charge of up to 3% of the Repurchase Price for the total number of Shares in the Original Class to be repurchased.

GENERAL DESCRIPTION OF THE REFERENCE INDEX

The Reference Index is an equal-weighted version of the EURO STOXX® 50 Index (the "**Parent Index**").

The Reference Index is further described below but only represents an extract of information available from public sources and neither the Directors, the Manager, STOXX Ltd. or such other successor sponsor to the Reference Index (the "**Index Provider**") nor the Investment Manager take any responsibility for the accuracy or completeness of such information.

The Parent Index is designed to represent the performance of the 50 largest blue-chip companies in the Eurozone based on free-float market capitalisation.

The Reference Index is constructed from the same stocks as the Parent Index and all changes affecting the Parent Index also apply to the Reference Index. However, a different weighting scheme is applied to the Reference Index whereby each company is equally weighted at each rebalancing date, rather than weighting companies by float-adjusted market capitalisation.

Capitalised terms used above and not defined herein are defined by the Index Provider. Further information on these terms and the Reference Index methodology can be found on the Index Provider's website.

Index Rebalancing

The Reference Index rebalances quarterly.

The Fund will bear the costs of any rebalancing trades (i.e. the costs of buying and selling securities of the Reference Index and associated taxes and transaction costs).

Index Provider and Website

The Reference Index is sponsored by STOXX Ltd. and more details on the Reference Index can be found at <https://www.stoxx.com/>.

Publication

The level of the Reference Index will be published on <https://stoxx.com/index/sx5ewe/?components=true>.
