

Franklin Templeton ICAV

Franklin S&P 500 Communication Services UCITS ETF

16 April 2026

(A sub-fund of Franklin Templeton ICAV, an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between sub-funds with registered number C167746 authorised by the Central Bank of Ireland pursuant to the UCITS Regulations).

This Supplement (the “Supplement”) forms part of the Prospectus dated 16 April 2026 (the “Prospectus”) in relation to Franklin Templeton ICAV (the “Fund”) for the purposes of the UCITS Regulations. This Supplement should be read in the context of, and together with, the Prospectus and contains information relating to the Franklin S&P 500 Communication Services UCITS ETF (the “Sub-Fund”) which is a separate sub-fund of the Fund.

The Sub-Fund is an Index Tracking Sub-Fund and all Shares in this Sub-Fund are designated as ETF Shares.

Prospective investors should review this Supplement and the Prospectus carefully and in their entirety and consider the risk factors set out in the Prospectus and in this Supplement before investing in this Sub-Fund. If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant and/or financial adviser.

The Directors, as listed in the “*Management*” section of the Prospectus accept responsibility for the information contained in this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information. The Directors accept responsibility accordingly.

Unless otherwise defined herein or unless the context otherwise requires, all defined terms used in this Supplement shall bear the same meaning as in the Prospectus.

INVESTMENT OBJECTIVE AND STRATEGY

Investment Objective. The objective of the Sub-Funds is to provide exposure to large capitalisation stocks within the communication services sector in the United States.

Investment Policy. The investment policy of the Sub-Fund is to track the performance of the Index (or such other index determined by the Directors from time to time as being able to track substantially the same market as the Index and which is considered by the Directors to be an appropriate index for the Sub-Fund to track, in accordance with the Prospectus) as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Sub-Fund's performance and that of the Index. Any determination by the Directors that the Sub-Fund should track another index at any time shall be subject to the provision of reasonable notice to Shareholders to enable any Shareholders who wish to do so to redeem their Shares prior to implementation of this change and the Supplement will be updated accordingly.

The Index is a free float market capitalisation weighted index which tracks US companies within the Communication Services sector based on the Global Industry Classification Standard, which classifies companies to a specific economic sector and industry group that best defines their business operations. Further information on the Global Industry Classification Standard can be found here: https://www.spglobal.com/spdji/en/documents/methodologies/methodology-gics.pdf?force_download=true. The Index is derived from the S&P 500 index which includes approximately 500 of the largest companies on the US stock market. The Index is rebalanced quarterly in March, June, September, and December and seeks to prevent over concentration in any single company by capping at least quarterly, and monthly if necessary, to ensure that no more than 35% of the Index's weight may be allocated to a single company and that the next largest company has an index weighting of no more than 20%. In order for the Sub-Fund to track the Index accurately, the Sub-Fund will make use of the increased diversification limits available under Regulation 71 of the UCITS Regulations. These limits permit the Sub-Fund to hold positions in individual constituents of the Index issued by the same body of up to 20% of the Sub-Fund's Net Asset Value and, in the case of one constituent, of up to 35% of the Sub-Fund's Net Asset Value in exceptional market conditions (i.e. a single company has a particularly large market capitalisation in the relevant sector, as measured by the Index).

Further information in respect of the Index, including its rules, components and performance, is available at: [S&P Indices Methodology](#)

and

[S&P 500 Capped 35/20 Communication Services Sector Index | S&P Dow Jones Indices](#)

Further information in respect of the Index weightings can be found here: [Europe | S&P Dow Jones Indices](#)

In order to seek to achieve the Sub-Fund's investment objective, the Investment Manager will aim to replicate the Index by holding all of the Index Securities in a similar proportion to their weighting in the Index. However, in certain circumstances, full replication of the Index may not be reasonably practical (for example as a result of the illiquidity or unavailability of certain securities within the Index) or possible (for example as a result of applicable legal, regulatory or similar reasons referred to above) and in such circumstances the Sub-Fund may hold only those of the Index Securities which are available or may invest in instruments that are not included in the Index but which the Investment Manager believes will help the Sub-Fund replicate the Index, e.g. securities which provide similar price and yield performance and risk profiles to constituents of the Index. Any such securities which are not Index Securities will be (i) equities (such as common stock or preferred stock); and (ii) depositary receipts (which are securities issued by financial institutions which evidence ownership interests in a security or a pool of securities deposited with the financial institution) and will be selected by virtue of the fact that they provide substantively the same exposure by industry and by company characteristics in the case of liquidity considerations or corporate actions to certain Index Securities.

The Sub-Fund may concentrate its investments in a particular industry or group of industries where the Index is similarly concentrated.

The Sub-Fund may for efficient portfolio management purposes, and in accordance with the conditions and limits imposed by the Central Bank, use forward foreign currency exchange contracts (both deliverable and non-deliverable), currency futures, equity futures, equity index futures and total return swaps for hedging or in order to gain efficient exposure to an Index or its constituents for the purpose of assisting the Sub-Fund in tracking the performance of the Index for example in managing large subscriptions. Forward foreign currency exchange contracts (both deliverable and non-deliverable) and currency futures will be used for currency hedging purposes and equity futures, equity index futures and total return swaps will be used to provide exposure to the Index and / or its constituents. Forwards, futures and total return swaps and their use for these purposes are described under "*Use of Financial Derivative Instruments*" in the "*Investment Techniques*" section of the Prospectus. The global exposure relating to FDIs will not exceed 100% of the Sub-Fund's Net Asset Value.

The securities in which the Sub-Fund invests will be primarily listed or traded on Recognised Markets in the United States in accordance with the limits set out in the UCITS Regulations. The Sub-Fund may hold ancillary liquid assets (deposits and commercial paper) in accordance with the UCITS Regulations. The Sub-Fund may also invest in other regulated, open-ended collective investment schemes as described under "*Investment in Collective Investment Schemes*" in the "*Investment Techniques*" section of the Prospectus where the objectives of such funds are consistent with the objective of the Sub-Fund.

The Sub-Fund will use the replication methodology in order to seek to track as closely as possible the returns of the Index after deduction of fees and expenses. It is currently anticipated that the tracking error of the Sub-Fund will be in the range of 0.2% under normal market conditions, where the tracking error is defined as the standard deviation of the delivered excess returns over an annual period. The causes of tracking error for ETFs can include but are not limited to the following: holdings/size of the Sub-Fund, cash flows, such as any delays in investing subscription proceeds into the Sub-Fund or realising investments to meet redemptions, fees, and where undertaken, any currency hedging activity and the frequency of rebalancing against the Index. For information in relation to the difficulties associated with tracking indices, please refer to "*Index Tracking Risk*" in the "*Risk Considerations*" section of the Prospectus.

The anticipated tracking error figure is an estimate only and the actual percentage may vary over time depending on various factors, such as, but not limited to, any deviation from normal market conditions.

As at the date of this Supplement, the Sub-Fund does not routinely enter into total return swaps. The expected proportion of the Net Asset Value of the Sub-Fund that could be subject to such transactions is 20%. The expected proportion is an estimate only and the actual percentage may vary over time depending on various factors such as, but not limited to, any deviation from normal market conditions. The maximum proportion of the Net Asset Value of the Sub-Fund that could be subject to such transactions is 20%.

SUSTAINABLE FINANCE

The Sub-Fund's investment policy and the nature of the broad market capitalisation Index means that the Manager will not be able to take Sustainability Risks into account in making investment decisions, as such decisions will be driven instead by the constituents of the Index. While Sustainability Risks can lead to a significant deterioration in the financial profile, profitability or reputation of the Sub-Fund's underlying investment, the Manager's assessment is that the Index, as a large index of securities provides broad diversified exposure with generally reduced risk and exposure to any individual security. Taking Sustainability Risks into account in an investment decision process may have the effect of excluding investments that would assist the Sub-Fund in achieving its index tracking objective. However, in accordance with its asset stewardship programme, the Manager may engage with issuers whose securities are held by the Sub-Fund on sustainability matters as a shareholder, on behalf of the Sub-Fund.

For further details with respect to ESG Integration for the Sub-Fund through which the Manager may engage with issuers of securities held by the Sub-Fund on sustainability issues, investors should refer to the "*Sustainable Finance*" section of the Prospectus

The investments underlying this fund do not take into account the EU criteria for environmentally sustainable economic activities as the Sub-Fund does not seek to promote environmental and social characteristics, within the meaning of Article 8 and does not have a sustainable objective, within the meaning of Article 9.

SECURITIES LENDING

The expected proportion of the Net Asset Value of the Sub-Fund that could be subject to securities lending transactions is 25% and is subject to a maximum of 45%. The expected proportion is an estimate only and the actual percentage may vary over time depending on various factors such as, but not limited to, any deviation from normal market conditions.

INVESTMENT RISKS

Investment in the Sub-Fund carries with it a degree of risk including the risks described in the "*Risk Considerations*" section of the Prospectus. The "*General Risks*" section describes the risks that relate generally to the Sub-Fund, whereas the "*Specific Risks*" section describes the risks associated with the investment strategy and techniques that may be employed by a given Sub-Fund. For this Sub-Fund, the Specific Risks that are relevant to the investment objective and strategy of this Sub-Fund include the following:

Counterparty Risk.

Currency Risk.

Equity Risk.

Foreign Exchange Hedging Risk.

Futures Contracts and Other Exchange-Traded Derivatives Risk.

Index License Risk.

Index-Related Risk.

Index Tracking Risk.

Market Risk.

Over-the-Counter Derivatives Risk.

Passive Investment Risk.

Single Country Risk.

These risks are not intended to be exhaustive and potential investors should review the Prospectus and this Supplement carefully and consult with their professional advisers before purchasing Shares.

The Sub-Fund is not expected to have an above average risk profile or high volatility as a result of its use of FDIs. For information in relation to risks associated with the use of financial derivative instruments, please refer to “*Derivatives Risk*” in the “*Risk Considerations*” section of the Prospectus.

INVESTOR PROFILE

Typical investors in the Sub-Fund are expected to be institutional and retail investors who want to gain exposure to the US communication services equity market, by way of an exchanged traded fund.
