What are the key risks that are specific to the Issuer and the Group?

1. The Group’s ability to repay its financial indebtedness depends on its ability to generate cash flows. There can be no assurance that sufficient funds will be available to repay the Company’s existing and future financial indebtedness.
2. The Group has consistently pursued and intends to pursue in the future a strategy of growth through acquisitions, however, the Group’s ability to maintain its current growth rates will depend, among other things, on the successful implementation of its growth strategy and the investments the Group intends to pursue in order to develop its business.
3. The Group is exposed to the risk of suffering hacking attacks/activities against its IT systems which could lead to potential claims for damages, loss of customers or part of the turnover generated by such customers and with material adverse effects on the reputation of the Group and on the Group’s business, results of operations, economic and financial condition and prospects.
4. The activities carried out by the Group are based on a wide use of IT systems. Any errors, defects or failures of IT systems, as well as any disruptions in services or unlawful conduct by third parties, may result in the interruption of Group’s services or connectivity.
5. The Group is exposed to the risk of goodwill impairment. An adverse development in business activities may require the Group to recognize additional significant impairment charges and write off all or a substantial part of the carrying amount of its goodwill and intangible assets.
6. A substantial portion of the Group’s revenue is generated from a limited number of clients. The loss of, or a significant reduction in sales of cloud computing services to, such key clients could have a material adverse effect on the Group’s results.
7. The success of the Issuer and the Group depend to a significant extent on the contribution of certain individuals who hold key roles in the organization and who have significant professional and management experience, including the members of the Board of Directors of the Issuer (in particular Mr.

Alessandro Cozzi) and other key managers. The performance of the Issuer and the Group and their ability to implement the Group's strategies depend on the efforts and abilities of its management team and key employees.

8. As of the date of the Prospectus, the Issuer holds a large number of certifications which contribute to confirm the quality of its architectures (i.e. data centers) and the services it provides (in terms of security and compliance), holding both a Tier IV certification for the Milan data center and SAP and ISO/ISAE certifications.
9. The Issuer and the Group are exposed to the risk that the procedures implemented, the measures adopted and the activities performed in relation to the European legislation on data protection referred to in EU Regulation 2016/679 (General Data Protection Regulation, so-called "GDPR") prove to be inadequate and that the necessary privacy safeguards are not correctly implemented and/or data could be lost, stolen, disclosed or processed for purposes other than those disclosed or authorized by the interested parties.
10. As of the date of this Prospectus, the Issuer and its Italian subsidiary Etaeria have adopted a specific organization, management and control model (Model 231) concerning the administrative liability of legal bodies/persons (as set out in the Italian Legislative Decree No 231/2001). Despite the adoption of Model 231, there is no guarantee that such compliance model can be considered adequate by the judicial authorities that may be called upon to decide whether or not applicable laws may have been violated.

Borsa Italiana has admitted the Notes to listing on the MOT with order n. LOL-004558 dated 13 September 2021.
Is there a guarantee attached to the securities?	The Notes will not have the benefit of a guarantee.
What are the key risks that are specific to the Notes?	<ol style="list-style-type: none"> Risk Relating to the specific characteristics of the Notes - The Notes are fixed rate unsecured securities and their market price may be affected by fluctuations in market interest rates. Furthermore, in the event of the insolvency or winding-up of the Issuer, the Notes will rank equally with the Issuer’s other unsecured senior indebtedness, and, where security has been granted over assets of the Issuer to secure indebtedness, below such secured indebtedness in respect of such assets. Risks relating to the terms of the Offering - The Offering Period may be extended or amended, and the Offering may be terminated, postponed or withdrawn for a number of reasons, including a failure to satisfy the Minimum Offer Condition or any extraordinary change in the political, financial, economic, regulatory or currency situation of the markets in which the Group operates that could have a materially adverse effect on the conditions of the Group and their business activities. Risks relating to the tax treatment of the Notes and risks related to change of law and administrative practice - Payments made to non-resident entities without an Italian permanent establishment to which the Notes are effectively connected may be subject to Italian withholding taxes or deduction of taxes. Furthermore, future changes to law or administrative practice may affect the application of the Terms and Conditions of the Notes. Risks relating to the primary market of the Notes - The market price of the Notes could decrease if the creditworthiness of the Issuer worsens or is perceived to worsen. In addition, changes in accounting standards may lead to adjustments in the relevant accounting positions of the Group which could have an adverse effect on the Group’s financial condition, which could in turn affect the market price of the Notes.

In the course of the bookbuilding procedure, the Placement Agent will accept within a limited period of time indications of interest in subscribing for the Notes from investors, including credit spreads usually within a predetermined spread range. Subsequently, the Placement Agent will determine, in consultation with the Issuer and based on, among other things, the quantity and quality of the expressions of interest received from Investors during the book-building procedure, the interest rate (coupon), the final yield and the redemption prices (which will be expressed as a percentage of the principal amount on the redemption date, plus accrued and</p>

Payments and transfers of the Notes will be settled through Euroclear and Clearstream, Luxembourg. The Issuer will not charge any costs, expenses or taxes directly to any Investor. Investors must, however, inform themselves about any costs, expenses or taxes in connection with the Notes which are generally applicable in their respective country of residence related to the opening of a bank account or a temporary deposit account with an Intermediary, if necessary, and/or any costs related to the execution, acceptance and transmission of Purchase Offers imposed by such Intermediaries.</p>

RISK FACTORS

Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the Group and the industry in which they and the Group operate, together with all other information contained in this Prospectus, including, in particular, the risk factors described below. Each of the risks discussed below could have a material adverse effect on the Group's business, financial condition, results of operations or prospects which, in turn, could have a material adverse effect on the principal amount and interest which Investors will receive in respect of the Notes. In addition, each of the risks discussed below could have a material adverse effect on the trading or the trading price of the Notes or the rights of Investors under the Notes and, as a result, Investors could lose some or all of their investment. Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Prospectus have the same meanings in this section.

The Issuer and the Group believe that the following factors may affect Issuer's ability to fulfil the obligations under the Notes.

The Issuer and the Group believe that the factors described below represent the principal risks inherent in investing in Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons which may not be considered significant risks by the Issuer and the Group based on information currently available to them and which they may not currently be able to anticipate.

FACTORS THAT MAY AFFECT THE ISSUER'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER THE NOTES

The following are risk factors relating to the Issuer and the Group that may affect the Issuer's ability to fulfil its obligations under the Notes

RISK FACTORS RELATING SPECIFICALLY TO THE ISSUER AND THE GROUP

1. Risks relating to the Group's financial situation

Risks related to the Group's net financial indebtedness

The Group's consolidated Net Financial Debt amounted to Euro 72.6 million as of 30 June 2021, Euro 95.9 million as of 31 December 2020 and Euro 26 million as of 31 December 2019. The decrease of Euro 23.3 million in the Net Financial Debt as of 30 June 2021, compared to 31 December 2020, was mainly due to the execution in May 2021 of a share capital increase for a total amount of Euro 25.5 million. The increase of Euro 69.8 million in the Net Financial Debt as of 31 December 2020, compared to 31 December 2019, was mainly due to new loans for Euro 69.6 million obtained during 2020 to finance M&A transactions and, in particular, the acquisition of myLoc Managed IT AG (for further information, see "*Information about the Group – External growth and internationalization*" below). The increase in the Group's consolidated Net Financial Debt as of 31 December 2020 was also contributed to by the completion of the acquisition of the remaining stake (40%) in Etaeria's share capital and the payment of the related variable price components (earn-out). For further information, see "*Information about the Group – External growth and internationalization*" below.

On 7 January 2020, the Issuer and Banca IMI S.p.A., Intesa Sanpaolo S.p.A. and Banco BPM S.p.A. (the "**Lenders**"), entered into a facility agreement, subsequently amended on 17 September 2020, providing a cash financing of up to Euro 82.5 million made up of different credit lines. The maturity of the financing is between 31 December 2024 and 30 June 2026 depending on the specific credit line. The financing under the facility agreement is mainly aimed to support the Group's acquisition-led growth strategy and investment plan, on the Italian and the international market. For further information, see "*Information about the Group – Material Contracts – Euro 82.5 million facility agreement*" below.

As of the date of the Prospectus, the Issuer is also party to certain financial agreements that do not provide for any particular covenants, cross-default or cross-acceleration clauses. It cannot be excluded that the Issuer may enter in the future into financing arrangements which may require the Group, to comply with various covenants that limit its ability to, among other things: dispose of assets; complete merger or acquisition transactions; incur indebtedness; encumber assets; pay dividends or make other distributions to holders of WIIT's shares; make specified investments; change certain key management personnel and engage in transactions with its affiliates. These restrictions could inhibit the Group's ability to pursue its business strategies.

The Group's ability to repay its financial indebtedness depends on its ability to generate cash flows. There can be no assurance that sufficient funds will be available to repay the Company's existing and future financial indebtedness. Lenders may require full and immediate repayment of the Group's financing.

Should any of the above risks materialize, it could have a material adverse effect on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks related with the impairment of the Group's goodwill (impairment test)

The Group is exposed to the risk of goodwill impairment. In particular, goodwill is recognized as an intangible asset and is subject to an impairment test, at least annually or upon the occurrence of significant events or changes in circumstances that indicate an impairment has occurred. An adverse development in business activities may require the Group to recognize additional significant impairment charges and write off all or a substantial part of the carrying amount of its goodwill and intangible assets. A write-off of all or a part of the Group's goodwill and intangible assets would have a material adverse effect on its business, results of operations, economic and financial conditions and prospects.

In accordance with the rules set forth by the International Accounting Standards, the Issuer has to make assessments, estimates and assumptions that may influence the application of the accounting standards and the amounts of assets, liabilities, costs and revenues recorded in the financial statements, as well as provide information on potential assets and liabilities. The estimates and related assumptions are based on past experiences and on other factors that are considered reasonable and are used to assess the carrying value of assets and liabilities that cannot be readily calculated from other sources.

Should the Group's results be worse than those set forth in the forecasts and estimates on which the impairment test was based, the Group may be required to impair goodwill recorded on the statement of financial position, and record related expenses in the income statement, which, in turn could have a material adverse effect on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks associated with the global coronavirus (COVID-19) pandemic or other global public health pandemics

The Group's business, results of operations and financial condition may be adversely affected if a global public health pandemic, including the current coronavirus, named COVID-19, pandemic ("COVID-19"), interferes with the ability of the Group's managers and employees, suppliers and customers to perform the Group's and their respective responsibilities and obligations relative to the conduct of the Group's business and operations. The COVID-19 pandemic has significantly impacted economic activity and markets around the world, and it is not possible to exclude that in the future it could have a material adverse effect on the Group's business and operations.

In addition, the severity and related consequences of COVID-19 is causing and could continue to cause significant uncertainty in both domestic and global financial markets and could have an impact on the

business environment as well as on the legal, tax and regulatory framework (particularly further to certain legislative measures adopted by national governments).

The extent to which the COVID-19 pandemic, or other outbreaks of disease or similar public health threats, may impact the Group's business, results of operations and financial condition in the future is highly uncertain and will depend on future developments. Such developments may include the geographic spread and duration of the virus, the emergence and spread of new variant strains, the efficacy of vaccines and the actions that may be taken by various governmental authorities and other third parties in response to the outbreak. In addition, the Group cannot predict how quickly, and to what extent, normal economic and operating conditions can resume, and the resumption of normal business operations may be delayed or constrained by lingering effects of the COVID-19 pandemic on the Group's suppliers, third-party service providers or customers. Certain markets, including those in which the Group operates, were less affected than the wider economy by the negative impacts of the COVID-19 pandemic, and even experienced a positive performance during this period. Although the Group's performance has consistently been positive since the outbreak of the pandemic, it may not continue in the future. Any slowed growth in revenue or decline in revenue as a result of decreased demand of services or changing consumer preferences may have a material adverse effect on the Group's business, results of operations, economic and financial conditions and prospects.

While the Group is continuing to monitor and assess the evolution of the pandemic and its macroeconomic effects, as of the date of the Prospectus it is not possible for the Group to reliably calculate future and unexpected potential impact of COVID-19 on the Group's activities, financial performance and operations. This could have a material adverse effect on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

2. *Risks related to the Group's business activity and industry*

Risks related to the Group's future acquisitions and its strategy of growth through acquisitions

The Group has consistently pursued and intends to pursue in the future a strategy of growth through acquisitions. As part of its growth strategy, the Group intends to perform suitable scouting activities to select investment opportunities in the cloud computing sector (for further information, see "*Information about the Group – External growth and internationalization*" below).

However, there is a risk that the Group will not be able to identify suitable acquisition targets or successfully complete strategic acquisitions, for example due to competition from other potential bidders or difficulties experienced in executing such acquisitions. This may lead to slowed or reduced the growth of the Group. In addition, the Group may not be able to complete any future acquisitions due to a failure to obtain the required regulatory approvals or other reasons, or the Group may experience unexpected delays in completing any acquisitions, which may divert management time and resources for a prolonged period of time.

Growth through acquisitions also involves the risk of not being able to successfully integrate newly acquired businesses, their management and their employees. The Group may also incur significant acquisition and administrative expenses, including expenses for restructuring or other expenses in connection with acquisitions. Furthermore, the synergies and benefits that the Group expects to generate from the integration of an acquired business may take longer than estimated or may not be realised. Any of these circumstances may have a material adverse effect on the Group's business, results of operations, economic and financial conditions and prospects.

When other companies are acquired, the due diligence performed by the Company may not identify all the information needed to make the right decision from a financial, business, legal or regulatory point of view.

In particular, there is a risk that the Group may not be able to identify all potential liabilities or obligations before the acquisition or that the seller lacks the financial resources to compensate the Group, whether adequately or at all, if any such obligation is not met. Future acquisitions may also lead to debts and contingent liabilities being incurred, plus depreciation costs related to intangible assets. This may have a negative effect on the Group's business, results of operations, economic and financial condition and prospects.

In addition, the Group has sometimes acquired, and may from time to time continue to acquire, majority rather than whole ownership interests in certain companies. Although the Group is the majority shareholder in most of these companies, minority shareholders have certain protective rights, whether contractually or pursuant to applicable local laws and regulations, may have economic or business interests or goals that are not consistent with the Group's interests or may, as a result of financial or other difficulties, be unable or unwilling to fulfil their obligations as minority shareholders. Additionally, any disagreements or disputes between the Group and the minority shareholders in any of these companies may lead to litigation and/or harm the Group's reputation or the achievement of its strategic or financial goals for such business. Any of these events could have a material adverse effect on the operation, performance and growth prospects of, or dilute the value of and return on the Group's investment in, these businesses.

Over the last years, the Group and its activities have experienced a rapid development and a high and constant growth achieved through organic and inorganic growth strategy. However, the Group's ability to maintain its current growth rates will depend, among other things, on the successful implementation of its growth strategy and the investments the Group intends to pursue in order to develop its business.

These circumstances could have a material adverse effect on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks related to hacking activities and Data Center IT security

The Group is exposed to the risk of suffering hacking attacks/activities against its IT systems that could result in unauthorised access to customer's data, the use of such data – whether intentional or not – theft, loss or destruction, from a wide range of stakeholders and persons (e.g. current or former employees, advisors or suppliers or by other parties who have had access to such data), which could lead to potential claims for damages, loss of customers or part of the turnover generated by such customers and with material adverse effects on the reputation of the Group and on the Group's business, results of operations, economic and financial condition and prospects.

Cloud computing services offered by the Group require the storage and the management in data centres of a large amount of data and information belonging to customers, which are sometimes highly confidential and sensitive. If the security measures put in place by the Group were to be breached and the integrity and/or confidentiality and/or availability of customer's data were to be compromised, the Group could incur serious liability towards its customers. In this respect, the Group is particularly exposed to the risk deriving from the continuous evolution of technologies and hacking techniques that can be used to access illegally or sabotage computer systems. Consequently, given the rapid and continuous evolution of hacking activities, the Group may not be able to prevent or avoid such attacks, whose danger is increased by the fact that they cannot be detected until after they have been launched against a specific target (e.g. against a Data Centre).

In case of cyber attack, any unauthorised access to IT systems or even the mere attempt at intrusion, could change customers' perception of the security of the Group's infrastructures, IT systems and software, and could result in the loss of customers (even significant ones) and in a negative impact on sales of cloud computing services. In addition, any misappropriation, unlawful use of such information, loss of data or communication of confidential and/or proprietary information, or the tampering with such information

could also lead to a breach by the Group of the data protection rules. The Group could therefore incur liability, with material adverse effects on its reputation as well as on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks associated with the operation of IT systems and Data Centers

The activities carried out by the Group are based on a wide use of IT systems, subject to operational risks, such as, for instance, errors, defects, equipment breakdowns, work interruptions, third parties' unlawful conducts as well as events of an exceptional nature, including natural disasters, which could jeopardise the functioning of such systems and compel Group's companies to suspend or interrupt the supply and delivery of their services with potential harm to the Group's reputation and business. These operational risks mainly concern IT tools and systems (e.g. servers and data centres) owned by the Group and/or by third parties that the Group uses to provide certain services. Any errors, defects or failures of IT systems, as well as any disruptions in services or unlawful conduct by third parties, may result in the interruption of Group's services or connectivity. These circumstances could negatively affect Group's reputation and the demand for cloud computing services, with material adverse effects on the Group's business, results of operations, economic and financial condition and prospects.

A specific risk related to the operation of the Group's systems concerns data centres operational risks, including equipment (server) failures, malfunctions, interruptions to work streams or network connectivity, access by unauthorised persons aimed at tampering with systems and/or vandalism, external attacks aimed at interrupting or reducing the Group's ability to provide its services (so-called DDoS – Distributed Denial of Service), losses or unauthorised access to data during transmission, as well as events of an exceptional nature (such as earthquakes, terrorist attacks, floods, fires, loss of power supply). If such events were to occur, they could lead to disruption for customers, forcing the Group to temporarily suspend or interrupt the supply of its services and this could cause the slowing down, interruption or even blocking of the activities/operations of customers. These circumstances could also lead to the payment of penalties set forth in the supply agreements entered into with Group's customers, the non-renewal of such supply agreements or the reduction in demand for cloud computing services, as well as making it more difficult for the Group finding new customers, with material adverse effects on the Group's business, results of operations, economic and financial condition and prospects.

Despite the preventive measure/actions taken by the Group, if the remedies adopted should prove to be inadequate to prevent and/or limit the negative effects of such events, there could be slowdowns or interruptions in the supply of services to clients and the Group could be forced to pay the penalties set forth in the supply agreements entered into with Group's customers. This could have a material adverse effect on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks related to the concentration of the Group's revenue on a limited number of key customers

A substantial portion of the Group's revenue is generated from a limited number of clients. The loss of, or a significant reduction in sales of cloud computing services to, such key clients could have a material adverse effect on the Group's results.

The percentage of the Group's top 10 customers collectively accounted for approximately 39.16% as of 31 December 2020 and for approximately 43.85% as of 31 December 2019.

Considering the significant rate of customer concentration, the Group's growth and future development depends on its ability to renew supply agreements with existing customers and to sell additional services, which can be difficult in relation to medium-sized companies (the Group's main customers) due to their prudential cost monitoring. If one or more of such key customers does not renew its supply agreements or reduces its orders for services over time, this could have a material adverse effect on the results, the outlook

and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks related to the Group's dependence on the Italian market

As the Group generates a large part of its consolidated revenues in Italy (75.48% of as of 30 June 2021, 88.97% as of 31 December 2020 and 95.85% as of 31 December 2019) resulting in the Group's activities and economic and financial results being linked to the performance of the Italian economy and exposed to the risks prevailing in the current economic context and to the weakness of the concrete prospects for economic recovery. If the recovery of the Italian economy is delayed or slow, this could negatively affect the demand for cloud computing services, with material adverse effects on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks related to the ability of the Issuer and the Group to retain and/or attract the management team and key personnel

The success of the Issuer and the Group depends to a significant extent on the contribution of certain individuals who hold key roles in the organization and who have significant professional and management experience, including the members of the Board of Directors of the Issuer (in particular Mr. Alessandro Cozzi) and other key managers. The performance of the Issuer and the Group and their ability to implement the Group's strategies depend on the efforts and abilities of its management team and key employees.

The Issuer and the Group also depend on their ability to attract and retain highly trained personnel. Should any such personnel leave the Group, it may not be possible to replace them with personnel with requisite skills.

There can be no guarantee that in the future the Issuer and the Group will be able to retain their management team or their current key personnel. Loss of one or more of these managers or of a significant number of highly trained personnel could make the Group less competitive and delay or prevent its growth and, in turn, could have a material adverse effect on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks related to the achieving and retention of Issuer's certifications

As of the date of the Prospectus, the Issuer holds a large number of certifications which contribute to confirm the quality of its architectures (*i.e.* data centers) and the services it provides (in terms of security and compliance), holding both a Tier IV certification for the Milan data center and SAP and ISO/ISAE certifications. See "*Information about the Group – Overview*".

The failure to obtain or the loss of one or more of the abovementioned certifications could have a material adverse effect on the results, the outlook and the economic and financial position of the Issuer and the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks related to technological developments in the IT and cloud computing sector and to the Group's ability to continue creating innovative services

The sector in which the Group operates is driven by rapid technological development and affected by competitive pressure deriving from the development of technology (e.g. the shift from hard disk storage to Cloud technology) which leads to rapid technological obsolescence of services.

If the Group is unable to adapt to changes in customers' needs or to develop and continue to offer innovative and competitive services compared to those of its main competitors in terms of, *inter alia*, price, quality, functionality, or if there are delays in the release of new services on the market that are strategic for

its business, the Group's market shares could be reduced. This could have a material adverse effect on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks associated with the IT and cloud computing market estimates

The Group's success depends, to a large extent, on the willingness of companies (and, in particular, medium-size companies) to accept the supply of cloud computing services. A large number of companies have already incurred significant costs in integrating traditional business software into their IT systems and, hence, may not be willing to migrate these applications to cloud computing services. There is therefore a risk connected to the market acceptance of the cloud computing services provided by the Group. The market acceptance of cloud computing services is, inter alia, related to the level of security, reliability and availability which can be ensured, to the customers' concerns about entrusting third parties with the storage and management of data/information (usually confidential and sensitive), to the ability to maintain a high level of customer satisfaction, to the ability to reduce the duration and costs for the implementation of the IT services as well as to the level of customization of such services.

Although the global cloud computing market has grown sharply in the last years and is expected to grow globally by around 23% in 2021 and 19.6% in 2022¹, it cannot be excluded that in the future the growth rate of this market sector may be lower than forecasts and estimates.

These phenomena could have a material adverse effect on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks associated with the high level of competition in the cloud computing market

The Group operates in a highly dynamic and competitive sector driven by rapid change in consumer preferences and is therefore exposed to the risk that new competitors might enter the cloud computing market, attracting the Group's clients and depriving the Group of customers and/or market shares.

As of the date of this Prospectus, the Group competes with larger and well-established companies and industrial groups, including multinationals, and specialized operators that may have greater resources than the Group or which may have particularly developed sector-specific competencies that allow for a better positioning on the reference market. These companies, having greater resources at their disposal, could also develop very effective (even aggressive) marketing strategies that could weaken the Group's brand recognition.

Therefore, should the Group not be able to compete with the strategies and commercial offers of competitors or the entry of new national or international competitors it could lose customers and/or market shares, this could have a material adverse effect on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

3. Credit and liquidity risks

Credit risks

Credit risk is represented by the exposure of the Group to potential losses that may result from the failure to meet obligations by its counterparts. In particular, the Group is exposed to the risk that its customers may delay or fail to fulfil their payment obligations set forth in the supply agreements entered into the with

Group and that internal procedures adopted in relation to the evaluation of the creditworthiness and solvency of such customers may not be sufficient to guarantee the successful collection of receivable.

Any non-payments, late payments or other defaults may be due to the insolvency or bankruptcy of the client, to cyclical events or to client-specific situations which are outside the Group's control.

Breaches by counterparts in the fulfilment of their obligations could have a material adverse effect on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks connected with interest rate trends

The Group is subject to the market risk deriving from interest rate fluctuations. In particular, fluctuations in interest rates may affect the market value of the Group's financial assets and liabilities and the level of net financial expenses, as some of the loans granted to the Group are at variable rates.

As of 30 June 2021, approximately 1.06% of the Group's banking financial debt accrued interest at variable rates (approximately 1.04% as of 30 June 2020).

Interest rates are influenced by a series of factors that are beyond the Group's control, including the monetary policies of governments and central banks in the main markets where the Group operates. Any increase in interest rates would lead to an increase in the interest to be paid by the Group, with material adverse effects on the Group's business, results of operations, economic and financial condition and prospects.

4. *Legal, tax and regulatory risks*

Risks relating to the collection, storage and processing of personal data

The Issuer and the Group are exposed to the risk that the procedures implemented, the measures adopted and the activities performed in relation to the European legislation on data protection referred to in EU Regulation 2016/679 (General Data Protection Regulation, so-called "GDPR") prove to be inadequate and that the necessary privacy safeguards are not correctly implemented and/or data could be lost, stolen, disclosed or processed for purposes other than those disclosed or authorized by the interested parties. The Issuer and the Group must also comply with the provisions of the Italian Legislative Decree 196/2003, as amended by Legislative Decree 101/2018, (so-called "Privacy Code"), as well as the measures/orders of the Italian data protection authority.

This is a material risk due to the fact that, in carrying out its business, the Issuer and its subsidiaries collect, stores, processes and has continuous access to personal data – also belonging to special categories – of its customers, employees and the persons with whom, for various reasons, it has relations (i.e. suppliers, advisors, visitors, candidates, etc.).

The personal data processed by the Issuer and the Group are stored at the Group companies' data centres in Italy and in Germany

The Issuer and the Group are exposed to the risk that the procedures implemented and the measures adopted to protect such data prove to be inadequate and/or that the necessary privacy controls are not correctly implemented in the various areas of activity resulting in personal data being damaged or lost, or stolen, disclosed or processed for purposes other than those made known or authorized by the parties concerned. The occurrence of such circumstances could lead to the imposition by the data protection authority of significant administrative sanctions and, in specific cases, criminal sanctions against the perpetrators of the unlawful conduct that could constitute a crime, as well as entitle relevant parties to bring civil legal actions.

The circumstances above mentioned could also have a material adverse effects on the Issuer and the Group's reputation as well as on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risk relating to changes of tax and other laws affecting the Group, external tax audits and additional tax payments

The Group is subject to Italian tax laws. Any changes to Italian tax legislation and/or case law or to its interpretation or application by the Italian tax authorities, including through the application of anti-avoidance or anti abuse principles, a different tax treatment or a different interpretation or classification from a legal or substantive point of view in relation to any transaction and/or operation, including extraordinary transactions, or a different classification of the components recorded in the financial statements, may cause the Issuer to incur higher taxes or be subject to applicable penalties and late payment interest, to the reduction of previous tax losses, or to other events that could have a material adverse effect on its business, results of operations, economic and financial conditions and prospects.

The Group supply its services in different countries (i.e. Italy and Germany), consequently, from time to time, it is subject to tax audits and investigations by the tax authorities in the countries where it operates, which include investigations with respect to the direct tax and indirect tax regime of any of the Group's transactions and/or value-added tax classification of products sold

Adverse development in these laws or regulations, or any change in position by the relevant Italian tax authority regarding the application, administration or interpretation of these laws or regulations, could have a material adverse effect on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks related to the specific laws and regulations applicable to the business sectors in which the Group operates

The Group in carrying out its activities as hosting provider is subject to Directive 2000/31/EC and Italian Legislative Decree no. 70/2003. Although the aforementioned regulatory provisions recognize a merely passive role for the hosting provider, limited to "merely technical, automatic and passive activities", the most recent case law, both Italian and EU, has in some cases recognized an active role for the hosting provider.

Should this new interpretation be upheld, the hosting provider would also be held responsible for the content of the information stored on its servers, since it is considered its manager. This means that the Group could in future be held responsible for the content stored on the Group's infrastructures (such as, for example, the information uploaded by customers in their websites) and could therefore be involved in related disputes (concerning, for example, intellectual property rights, civil and/or criminal liability, etc.).

Although as of the date of the Prospectus, the Group is not involved in any proceedings relating to the violation of such laws and/or regulations, it is not however possible to exclude that it may be involved in one or more proceedings in the future. The potential involvement of the Group in one or more litigations could have a material adverse effect on its reputation as well as on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

Risks related to legal proceedings

The Group is involved in litigation in the ordinary course of business and could become involved in additional disputes in the future, which may involve substantial claims for damages or other payments in connection with past or future violations of laws or disputes with the Group's suppliers and customers. The Group may also be subject to significant product liability and other liability risks that are inherent in the design, development and supply of the Group's services, including claims for failure to meet minimum

service levels agreed with the clients pursuant to the service level agreement. The Group may also be involved in disputes relating to its use of intellectual property. The outcome and impact of potential future legal and other proceedings is difficult to predict with any certainty and provisions for potential future liabilities arising from such proceedings may not be sufficient to cover for such liabilities. In the event of a negative outcome of any material legal or arbitration proceeding, whether based on a judgment, award or a settlement, the Group could be obligated to make substantial payments. Even claims without merit could subject the Group to adverse publicity and require it to incur significant legal fees. The Group may also not be able to recover on the claims the Group brings against the Group's clients/customers and third parties. In addition, the cost related to litigation and arbitration proceedings may be significant. If any of these risks materialise, they could have a material adverse effect on Group's reputation as well as on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

5. Internal control risks

Risks related to the adoption of the organisational and compliance model pursuant to Legislative Decree No. 231/2001

As of the date of this Prospectus, the Issuer and its Italian subsidiary Etaeria have adopted a specific organization, management and control model (**Model 231**) concerning the administrative liability of legal bodies/persons (as set out in the Italian Legislative Decree No 231/2001). Despite the adoption of Model 231, there is no guarantee that such compliance model can be considered adequate by the judicial authorities that may be called upon to decide whether or not applicable laws may have been violated. Moreover, except as set out above, as of the date of this Prospectus, neither the Issuer's Italian subsidiaries nor its foreign subsidiaries have adopted specific compliance and organisational model pursuant to their applicable legal framework and, therefore, they do not benefit from the defence against administrative liability provided for in Decree 231.

Therefore, it is not possible to exclude that, should administrative liability be ascertained, the Issuer and/or its subsidiaries may be exposed to the risk of fines or disqualification/prohibitory sanctions. Even if the Issuer and its subsidiaries have current measures in place or adopts any future measures, these may be inadequate or ineffective and the Issuer may be unable to prevent Group's employees, commercial partners and distributors from violating the relevant laws. Such events could have a material adverse effect on Group's reputation as well as on the results, the outlook and the economic and financial position of the Group and, consequently, on the Issuer's ability to fulfil its financial obligations under the Notes.

FACTORS WHICH ARE MATERIAL FOR THE PURPOSE OF ASSESSING THE MARKET RISKS ASSOCIATED WITH THE NOTES

1. Risk Relating to the specific characteristics of the Notes

The Notes are fixed rate securities and are vulnerable to fluctuations in market interest rates

The Notes will carry fixed interest. A holder of a security with a fixed interest rate is exposed to the risk that the price of such security falls as a result of changes in the current interest rate on the capital market (the "**Market Interest Rate**"). While the nominal interest rate of a security with a fixed interest rate is fixed during the life of such security or during a certain period of time, the Market Interest Rate typically changes on a daily basis. As the Market Interest Rate changes, the price of such security changes in the opposite direction. If the Market Interest Rate increases, the price of such security typically falls, until the yield of such security is approximately equal to the Market Interest Rate. Conversely, if the Market Interest Rate falls, the price of a security with a fixed interest rate typically increases, until the yield of such security is approximately equal to the Market Interest Rate. Investors should be aware that movements of the Market Interest Rate could have a material adverse effect on the market price of the Notes.

The Notes are unsecured

The Notes will be (subject to “Terms and Conditions of the Notes – Negative Pledge”) unsecured obligations of the Issuer. In the event of any insolvency or winding-up of the Issuer, the Notes will rank equally with the Issuer’s other unsecured senior indebtedness.

The Notes are unsecured and, therefore, will be effectively subordinated to the liabilities of the Issuer and the Group’s companies that are secured by property and assets that do not secure the Notes to the extent of the value of the property or assets securing such debt and, although they restrict the giving of security by the Issuer and its Material Subsidiaries over Capital Markets Indebtedness and guarantees in respect of such Capital Markets Indebtedness, a number of exceptions apply, as more fully described in “Terms and Conditions of the Notes – Negative Pledge”.

Therefore, the Subsidiaries of the Issuer will not provide any security in respect of the Notes and will not have any obligation to pay any amounts due under the Notes or to make funds available to the Issuer for that purpose. Moreover, the holders of indebtedness of, and trade creditors of the Subsidiaries, including lenders under bank financing agreements, are, generally, entitled to payments of their claims from the assets of such Subsidiaries before these assets are made available for distribution to the Issuer, as a direct or indirect shareholder and the creditors of the Issuer will have no right to proceed against the assets of such Subsidiary.

Where security has been granted over assets of the Issuer to secure indebtedness, in the event of any insolvency or winding-up of the Issuer, such secured indebtedness will rank in priority over the Notes and other unsecured indebtedness of the Issuer in respect of such assets.

The Notes may be redeemed prior to maturity

In the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Relevant Jurisdiction or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may, pursuant to “*Terms and Conditions of the Notes – Redemption for taxation reasons*”, redeem all outstanding Notes in accordance with the Conditions. In addition, the Issuer may elect to redeem the Notes in whole, but not in part, or, in the case of early redemption by the Issuer pursuant to Condition 7(c) (*Redemption at the option of the Issuer*), in whole or in part, at any time pursuant to “*Terms and Conditions of the Notes – Redemption at the option of the Issuer*”. In either case, the Notes would be redeemed prior to their scheduled maturity date.

The limitations on indebtedness in the Notes and the instruments governing the Group’s other debt may limit the Group’s ability to operate its business.

The Notes and the instruments governing the Group’s other debt contain certain covenants restricting, among other things and with exceptions, the Group’s ability to incur additional debt, sell assets, create liens or other encumbrances, make certain payments and dividends and merge or consolidate. See “*Information about the Group – Material Contracts*”. Until such time as the Group’s other debts have been redeemed or repaid in their entirety, such restrictions could affect the ability of the Group to operate its business and may limit its ability to take advantage of potential business opportunities as they arise. In addition, the Group will remain subject to the covenants in the Notes, which could limit the Group’s ability to operate its business.

If the Group does not comply with the covenants and restrictions in the Notes and its other debt instruments, if any, it could be in default under those agreements. Any default under the Notes could lead to an acceleration of debt under other debt instruments that contain cross acceleration or cross default provisions. If the debt under the Notes or other debt instruments is accelerated, the Group may not have sufficient assets to repay amounts due thereunder. The Group’s ability to comply with these provisions and

other agreements governing its other debt may be affected by changes in economic or business conditions or other events beyond its control.

Modification

The terms and conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Furthermore, under Italian law Noteholders have the right to attend (in person or through audio systems or by proxy) and vote at meetings of Noteholders. Vote at the meeting can be given by Noteholders who have been notified to the Issuer of the Notes as being Noteholders by the relevant custodian bank through the release of proper proofs of holding of the Notes. Moreover, Italian COVID-19 emergency provisions provide that corporate meetings (including Noteholders' meeting) may be attended online. As a matter of practice, the attendance to this meeting is generally run through a proxy and the process to gather proxies is generally run through the clearing systems by depositary banks so that each person entitled to attend can vote in the meeting by proxy.

As a result, a Noteholder is subject to the risk of being outvoted and losing rights against the Issuer under the Notes against its will in the event that Noteholders holding a sufficient aggregate principal amount of the Notes participate in the vote and agree to amend the Conditions in accordance with the Conditions.

2. Risks relating to the terms of the Offering

The Offering Period may be extended or amended, and the Offering may be terminated or withdrawn.

The Issuer together with the Placement Agent has the right to extend or amend the Offering Period and to terminate, postpone or withdraw the Offering for a number of reasons, including a failure to satisfy the Minimum Offer Condition or any extraordinary change in the political, financial, economic, regulatory or currency situation of the markets in which the Group operates that could have a materially adverse effect on the conditions of the Group and their business activities. See "*Sale and Offer of the Notes — Offering of the Notes — Offering Period, Early Closure, Extension and Withdrawal*".

3. Risks relating to the tax treatment of the Notes and risks related to change of law and administrative practice

Payments in respect of the Notes may in certain circumstances be made subject to withholding or deduction of tax

All payments in respect of the Notes will be made free and clear of withholding or deduction of Italian taxation, unless the withholding or deduction is required by law. In that event, the Issuer will pay such additional amounts as will result in the Noteholders receiving such amounts as they would have received in respect of such Notes had no such withholding or deduction been required. The Issuer's obligation to gross up is, however, subject to a number of exceptions, including deduction of *imposta sostitutiva* (Italian substitute tax), pursuant to Decree 239 (as defined in the following section "*Taxation*") or Decree 461 (as defined in the following section "*Taxation*") or withholding pursuant to Italian Presidential Decree No. 600 of 29 September 1973 or Italian Law Decree 30 September 1983, No. 512 converted into law with amendments by Law 25 November 1983, No. 649.

Prospective purchasers of the Notes should consult their tax advisers as to the overall tax consequences of acquiring, holding and disposing of the Notes and receiving payments of interest, principal and/or other amounts under the Notes, including in particular the effect of any state, regional or local tax laws of any country or territory. See also the section headed "*Taxation*" below.

Change of law or administrative practice

The terms and conditions of the Notes are based on English law in effect as at the date of this Prospectus and the appointment of a Noteholders' Representative are subject to compliance with mandatory provisions of Italian law. No assurance can be given as to the impact of any possible judicial decision or change to English law and/or Italian law (where applicable) or administrative practice after the date of this Prospectus.

4. Risks related to the primary market of the Notes

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk.

The market value of the Notes could decrease if the creditworthiness of the Issuer worsens or is perceived to worsen.

If any of the risks regarding the Group described herein materialises, then the Issuer is less likely to be in a position to fully perform all obligations under the Notes when they fall due, and the market value of the Notes will suffer. In addition, even if the Issuer is not actually less likely to be in a position to fully perform all obligations under the Notes when they fall due, market participants could nevertheless have a different perception. In addition, the market participants' estimation of the creditworthiness of corporate debtors in general or debtors operating in the same business areas as the Group could adversely change and have resulting effects on the perceptions of the Group's creditworthiness, whether warranted or otherwise.

Furthermore, changes in accounting standards may lead to adjustments in the relevant accounting positions of the Group which could have an adverse effect on the Group's financial condition, which could in turn affect the market value of the Notes.

An active and liquid trading market for the Notes may not develop or be maintained

The Notes represent a new issue of securities which may not be widely distributed and for which there is currently no established trading market. Although the Issuer has applied for admission of the Notes to trading on the regulated market of Euronext Dublin and the regulated market of the MOT of Borsa Italiana, there can be no assurance that a market for the Notes will develop or, if it does develop, continue or that it will be liquid, thereby enabling Investors to sell their Notes when desired, or at all, or at prices they find acceptable.

The development or continued liquidity of any secondary market for the Notes will be affected by a number of factors including prevailing interest rates, the market for similar securities, general economic conditions and the creditworthiness of the Issuer as well as other factors such as the time remaining to maturity of the Notes, the outstanding amount of the Notes and the redemption features of the Notes. Such factors will also affect the market value of the Notes.

Investors may not be able to sell Notes readily or at prices that will enable Investors to realise their anticipated yield. No Investor should purchase Notes unless the Investor understands and is able to bear the risk that the Notes may not be readily sellable, that the value of the Notes will fluctuate over time and that such fluctuations may be significant.

The Notes are subject to inflation risks

The inflation risk is the risk of future money depreciation. The real yield from an investment is reduced by inflation. The higher the rate of inflation, the lower the real yield of a Note. If the inflation rate is equal to or higher than the nominal yield, the real yield is zero or even negative. Currently, worldwide interest rates are low. Any increases in such interest rates would reduce the real amount of a Noteholder's return on an investment in the Notes.

The Notes are subject to transaction costs and charges

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the purchase or sale price of the Notes. These incidental costs may significantly reduce or eliminate any profit from holding the Notes. Credit institutions as a rule charge commissions which are either fixed minimum commissions or pro-rata commissions, depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including, but not limited to, domestic dealers or brokers in foreign markets, Noteholders may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs).

The trading market for debt securities may be volatile and may be adversely affected by many events

The market for debt securities issued by the Issuer is influenced by a number of interrelated factors, including economic, financial and political conditions and events in Italy, as well as economic conditions and, to varying degrees, market conditions, interest rates, currency exchange rates and inflation rates in other European and other industrialised countries. There can be no assurance that events in Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the market price of the Notes or that economic and market conditions will not have any other adverse effects. Accordingly, the price at which an Investor will be able to sell the Notes prior to maturity may be discounted, even substantially, from the Issue Price or the purchase price paid by such Investor.

No assurance can be given as to the effect of any possible judicial decision or change of laws or administrative practices after the date of this Prospectus.

The Conditions are governed by the laws of England and Wales in effect as at the date of this Prospectus. No assurance can be given as to the effect of any possible judicial decision or any change to the laws of England and Wales, administrative practices or the official application or interpretation of English law after the date of this Prospectus.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to the purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

5. Risks relating to the secondary market of the Notes

Transfers of the Notes may be restricted, which may adversely affect the secondary market liquidity and/or trading prices of the Notes

The ability to transfer the Notes may also be restricted by securities laws or regulations of certain jurisdictions or regulatory bodies. See “*Sale and Offer of the Notes*”. The Notes have not been, and will not be, registered under the Securities Act or any state securities laws or the securities laws of any other jurisdiction. Noteholders may not offer the Notes in the United States or for the account or benefit of a U.S. person, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. It is the obligation of each Noteholder to ensure that offers and sales of Notes comply with all applicable securities laws. In addition, transfers to certain persons in certain other jurisdictions may be limited by law, or may result in the imposition of penalties or liability. For a description of restrictions which may be applicable to transfers of the Notes, see “*Sale and Offer of the Notes*”.

6. Risks relating to exchange rates and exchange controls

The Issuer will pay principal and interest on the Notes in Euro. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than Euro. These include the risk that exchange rates may change significantly (including changes due to devaluation of the Euro or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Euro would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes and (iii) the Investor's Currency-equivalent market value of the Notes.

In addition, government and monetary authorities may impose, as some have done in the past, exchange controls that could have a material adverse effect on the applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

PRESENTATION OF FINANCIAL AND CERTAIN OTHER INFORMATION

The audited consolidated financial statements of the Group as of and for the years ended 31 December 2019 and 31 December 2020 incorporated by reference in this Prospectus have been prepared in accordance with International Financial Reporting Standards as endorsed by the European Union (“IFRS”). These audited consolidated financial statements are referred to in this Prospectus as the “2019 Audited Consolidated Financial Statements” and the “2020 Audited Consolidated Financial Statements” respectively.

The interim unaudited consolidated financial statements of the Group as of and for the six months ended 30 June 2021 incorporated by reference in this Prospectus have been prepared in accordance with IFRS applicable to interim financial reporting (IAS 34), endorsed by the European Union. These unaudited financial statements are referred to in this Prospectus as the “2021 Unaudited Consolidated Semi-Annual Financial Statements”.

Financial data of the Issuer and the Group included in this Prospectus has been derived from the 2020 Audited Consolidated Financial Statements and the 2021 Unaudited Consolidated Semi-Annual Financial Statements. The financial information as at and for the periods ended 31 December 2019 and 30 June 2020 included in this Prospectus has been taken respectively from the comparative information included in the 2020 Audited Consolidated Financial Statements, and in the 2021 Unaudited Consolidated Semi-Annual Financial Statements.

Alternative Performance Measures

In order to better evaluate the Group’s financial management performance, management has identified Alternative Performance Measures (each an “APM”). The Issuer believes that these APMs provide useful information for investors as regards the financial position, cash flows and financial performance of the same, because they facilitate the identification of significant operating trends and financial parameters. This Prospectus contains the following alternative performance measures as defined by the European Securities and Markets Authority’s Guidelines on Alternative Performance Measures (ESMA/2015/1415), which are used by the management of the Issuer to monitor its financial and operating performance:

“**EBITDA**”: calculated as Net profit for the year excluding Income taxes; Financial income; Profit (losses) from equity-accounted investee; Financial expenses; Exchange gains/(losses) and Amortisation, depreciation & write-downs.

“**EBITDA Adjusted**”: calculated as Net profit for the year excluding Income taxes; Financial income; Profit (losses) from equity-accounted investee; Financial expenses; Exchange gains/(losses); Amortisation, depreciation & write-downs; M&A professional services costs; Costs for listing to MTA; Tax Credit for MTA listing costs; and Incentive Plan/Stock Option/Stock Grant Costs.

“**EBIT**”: calculated as Net profit for the year excluding Income taxes; Financial income; Profit (losses) from equity-accounted investee; Financial expense and Exchange gains/(losses);

“**EBIT Adjusted**”: calculated as Net profit for the year excluding Income taxes; Financial income; Profit (losses) from equity-accounted investee; Financial expenses; Exchange gains/(losses); M&A professional services costs; Costs for listing to MTA; Tax Credit for MTA listing costs; Amortisation Customer list from PPA; Amortisation Data Center & platform from PPA; and Incentive Plan/Stock Option/Stock Grant Costs.

“**Net Profit Adjusted**”: calculated as Net profit for the year excluding M&A professional services costs; Costs for listing to MTA; Tax Credit for MTA listing costs; Amortisation Customer list from PPA; Amortisation Data Center & platform from PPA; Incentive Plan/Stock Option/Stock Grant Costs and Tax effects on reconciliated items.

“**Net Financial Debt**”: means ESMA Net Financial Indebtedness as required by the CONSOB circular and in accordance with ESMA 32-382-1138.

“**Net Financial Debt Adjusted**”: means ESMA Net Financial Indebtedness as required by the CONSOB circular and in accordance with ESMA 32-382-1138, deducted, where applicable, other non-current assets related to guarantee deposits and the effects of IFRS 16 – Leases.

“**Net Financial Position**”: means ESMA Net Financial Debt determined in accordance with the provisions of paragraph 127 of the recommendations contained in the ESMA document no. 319 of 2013, implementing Regulation (EC) 809/2004; and

“**Net Financial Position of Operations**”: means ESMA Net Financial Debt determined in accordance with the provisions of paragraph 127 of the recommendations contained in the ESMA document no. 319 of 2013, implementing Regulation (EC) 809/2004, deducted, where applicable, non-current receivables and financial assets and deducted, where applicable, the effects of IFRS 16 – Leases.

“**Total Adjusted Revenues**”: means the total adjusted consolidated revenues and operating income being a non-GAAP measure used by the Group to measure performance. Total Adjusted Revenues are calculated as total operating revenues and income as per the income statement, in accordance with IFRS, less the non-recurring item regarding the tax credit classified to “Other revenues and income”. Total Adjusted Revenues are not recognised as an accounting measure within IAS/IFRS adopted by the European Union. Consequently, the determination criterion applied by the Group may not be homogeneous with that adopted by other groups and, therefore, the amount obtained by the Group may not be comparable with that determined by the latter;

EBIT and EBITDA can also be adjusted in order to take into account any Exceptional Items (as defined in the Conditions).

These indicators are also the instruments which make it easier for the administrators themselves to identify operational trends and to take decisions regarding investments, allocation of resources and other operational decisions.

With reference to the interpretation of these APMs, the following factors are also to be taken into consideration:

- (i) these indicators are constructed exclusively from the Group’s historic data and are no indication of the future direction of the Group;
- (ii) APMs are not taken into consideration by IFRS and, despite being derived from the Issuer’s consolidated accounts, are not subject to auditing;
- (iii) APMs should not be seen as substitutes for the indicators set out pursuant to IFRS;
- (iv) the APMs should be read in conjunction with the financial information of the Group taken from the 2019 Audited Consolidated Financial Statements, the 2020 Audited Consolidated Financial Statements and the 2021 Unaudited Consolidated Semi-Annual Financial Statements;
- (v) the definitions of the indicators used by the WIIT Group, in so far as they are not derived from IFRS, may not align with those adopted by other companies/groups and thus not comparable; and
- (vi) the APMs used by the WIIT Group are calculated with continuity and homogeneity of definition and representation for all the periods for which financial information is included in the present Prospectus.

- (ii) only extends to the use of this Prospectus to make Public Offers in the Republic of Italy.**

Any Authorised Offeror using the Prospectus has to state on its website that it uses the Prospectus in accordance with the Issuer’s consent and its conditions.

Arrangements between an Investor and the Authorised Offeror who will distribute the Notes

Neither the Issuer nor, for the avoidance of doubt, the Placement Agent has any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

An Investor intending to acquire or acquiring any Notes from an Authorised Offeror will do so, and offers and sales of the Notes to such Investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between that Authorised Offeror and such Investor including as to price, allocations and settlement arrangements (the “Terms and Conditions of the Public Offer”). The Issuer will not be a party to any such arrangements with such Investor and, accordingly, this Prospectus does not contain such information. The Terms and Conditions of the Public Offer shall be provided to such Investor by

that Authorised Offeror at the time the offer is made. Neither the Issuer nor, for the avoidance of doubt, the Placement Agent or other Authorised Offerors has any responsibility or liability for such information.

The offer, sale and delivery of the Notes and the distribution of this Prospectus in certain jurisdictions are restricted by law. Persons into whose possession this Prospectus comes are required by the Issuer and the Placement Agent to inform themselves about and to observe any such restrictions. Neither the Issuer nor the Placement Agent represents

In particular, no action has been taken by the Issuer, the Fiscal Agent or the Placement Agent which is intended to permit a public offering of any Notes or distribution of this Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations and the Placement Agent has represented that all offers and sales by them will be made on the same terms. In particular, the Notes have not been, and will not be, registered under the Securities Act and are subject to United States tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons.

For a further description of certain restrictions on offerings and sales of the Notes and distribution of this Prospectus (or of any part thereof) see “*Sale and Offer of the Notes - Selling Restrictions*”. This Prospectus is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see “*Information Incorporated by Reference*”). This Prospectus should be read and construed on the basis that such documents are incorporated in and form part of this Prospectus.

Investors should rely only on the information contained in this Prospectus. The Issuer has not authorised anyone to provide investors with different information. Neither the initial purchasers, nor is the Issuer making any offer of the Notes in any jurisdiction where the offer is not permitted. You should not assume that the information contained in this Prospectus is accurate as of any date other than the date on the cover of this Prospectus regardless of the time of delivery of this Prospectus or of any sale of the Notes.

The Issuer has not authorised the making or provision of any representation or information regarding the Issuer or the Notes other than as contained in this Prospectus or as approved for such purpose by the Issuer. Any such representation or information should not be relied upon as having been authorised by the Issuer, the Fiscal Agent or the Placement Agent.

Neither the delivery of this Prospectus nor the offering, sale or delivery of any Note shall in any circumstances create any implication that the information contained herein concerning the Issuer and/or the Group is correct at any time subsequent to the date hereof or that any other information supplied in connection with the offering of the Notes is correct as of any time subsequent to the date indicated in the document containing the same or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the condition (financial or otherwise) of the Issuer and/or the Group since the date of this Prospectus.

Neither this Prospectus nor any other information supplied in connection with the offering, sale or delivery of any Note (a) is intended to provide the basis of any credit or other evaluation or (b) should be considered as a recommendation by the Issuer, the Fiscal Agent or the Placement Agent that any recipient of this Prospectus or any other information supplied in connection thereto should purchase any Note. Each investor contemplating purchasing any Note should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer and the Group. Neither this Prospectus nor any other information supplied in connection with the issue of the Notes constitutes an offer or invitation by or on behalf of the Issuer, the Fiscal Agent or the Placement Agent to any Person to subscribe for or to purchase any Notes.

Save for the Public Offer in the Public Offer Jurisdiction, this Prospectus does not constitute an offer of, or an invitation to subscribe for or purchase, any Notes.

Each recipient of this Prospectus shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer and the Group (as defined below) and of the rights attaching to the Notes.

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus, the Interest Rate, Yield and Redemption Prices Notice, the Offering Results Notice or any applicable supplement;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the potential investor's currency;
- (d) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The investment activities of certain Investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential Investor should consult its legal advisers prior to investing in the Notes to determine whether and to what extent (i) the Notes are permitted investments for it, (ii) where relevant, the Notes can be used as collateral for various types of borrowing, and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of the Notes under any applicable risk-based capital or similar rules. Each Investor should also consider the tax consequences of investing in the Notes and consult its own tax advisers with respect to the acquisition, sale and redemption of the Notes in light of its personal situation.

Neither the Notes nor the long-term debt of the Issuer is rated. To the extent that any credit rating agencies assign credit ratings to the Notes or any other senior unsecured indebtedness of the Issuer, such ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating or the absence of a rating is not a recommendation to buy, sell or hold Notes and may be revised or withdrawn by the rating agency at any time.

The legally binding language of this Prospectus, according to Article 27 of the Prospectus Regulation, is English, however certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law. For the purposes of the offer of the Notes to the public in Italy a courtesy translation in Italian of the section entitled “*Summary*” will be made available separately with this Prospectus.

References to “**US Dollar**” are to the lawful currency of the United States of America. References to “**billions**” are to thousands of millions.

Certain figures included in this Prospectus have been subject to rounding adjustments; accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

This Prospectus may only be used for the purpose for which it has been published.

This Prospectus does not constitute, and may not be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.

Forward-looking statements

This Prospectus may contain forward-looking statements, including (without limitation) statements identified by the use of terminology such as “anticipates”, “believes”, “estimates”, “expects”, “intends”, “may”, “plans”, “projects”, “will”, “would” or similar words. These statements are based on the Issuer’s current expectations and projections about future events and involve substantial uncertainties. All statements, other than statements of historical facts, contained herein regarding the Issuer’s strategy, goals, plans, future financial position, projected revenues and costs or prospects are forward-looking statements. Forward-looking statements are subject to inherent risks and uncertainties, some of which cannot be predicted or quantified. Future events or actual results could differ materially from those set forth in, contemplated by or underlying forward-looking statements. The Issuer does not undertake any obligation to publicly update or revise any forward-looking statements.

Market share information and statistics

Information regarding markets, market size, market share, market position, growth rates and other industry data pertaining to the Group’s business contained in this Prospectus consists of estimates based on data reports compiled by professional organisations and analysts, on data from other external sources, and on the Issuer’s knowledge of its reference markets. In many cases, there is no readily available external information (whether from trade associations, government bodies or other organisations) to validate market-related analyses and estimates, requiring the Issuer to rely on internally developed estimates. While the Issuer have compiled, extracted and accurately reproduced market or other industry data from external sources, including third parties or industry or general publications, neither the Issuer, the Placement Agent nor the Fiscal Agent have independently verified that data. As far the Issuer is aware, no facts have been omitted which would render the reproduced information inaccurate or misleading. The Issuer cannot assure investors of the accuracy and completeness of, or take any responsibility for, such data other than the responsibility for the correct and accurate reproduction thereof.

Independent review and advice

Each prospective investor in the Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, the suitability of such investment and that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks specific to the Issuer and to the Group and inherent in investing in or holding the Notes.

In particular, each prospective investor should have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus, the Interest Rate, Yield and Redemption Prices Notice, the Offering Results Notice or any applicable supplement to this Prospectus and should be able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment in the Notes and its ability to bear the applicable risks.

Each prospective investor should consult its own advisers as to legal, tax and related aspects of an investment in the Notes. A prospective investor may not rely on the Issuer, the Placement Agent, the Fiscal Agent, or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes.

- b. in respect of a Relevant Period in relation to which an Elevated CNL Ratio Compliance Certificate has been given, greater than the Elevated CNL Ratio (as defined below),

(B) If in a Relevant Period the Issuer or one of its Subsidiaries has completed the acquisition of a company or a business unit having an Enterprise Value of at least €50,000,000 (the “**Relevant Acquisition**”), the Issuer may indicate in the Compliance Certificate delivered by the Issuer on the Reporting Date immediately following the Relevant Acquisition (any such Compliance Certificate, an “**Elevated CNL Ratio Compliance Certificate**”) that the Base CNL Ratio for the purposes of paragraph (A) above for the Relevant Period ending on the immediately subsequent Determination Date after the date on which the Relevant Acquisition has been made and for the two immediately subsequent Determinations Dates in the Relevant Period(s) subsequent to such Relevant Period is elevated to 5:1 (the “**Elevated CNL Ratio**”).

For the purposes of this Condition 4(a):

- (i) the Consolidated Net Leverage Ratio for the applicable Relevant Period shall be determined giving a *pro forma* effect to the incurrence of such additional Indebtedness (together with any other additional Indebtedness already incurred since the end of such Relevant Period) as if the same had been incurred, and the net proceeds thereof applied, on the first day of such Relevant Period and the Consolidated Adjusted EBITDA for the applicable Relevant Period shall be determined giving a *pro forma* effect to any acquisition(s) completed on or before that Relevant Period as if any such acquisition(s) had been completed on the first day of the Relevant Period; and
- (ii) prior to delivery of the first Compliance Certificate, the Consolidated Adjusted EBITDA for the purposes of the calculation of the Consolidated Net Leverage Ratio shall be the one for the twelve months ended 30 June 2021, being €25,699,224 (subject to any *pro forma* adjustments as described in paragraph (i) above) and the “Relevant Period” for such purposes shall be the twelve months ended 30 June 2021.

A breach by the Issuer of the covenants contained in this Condition 4(a) shall constitute an Event of Default pursuant to Condition 10(b) (*Breach of other obligations*) below, *provided that*, the sole non-compliance by the Issuer of the applicable CNL Ratio Requirement on any Determination Date shall not constitute an Event of Default pursuant to Condition 10(b) (*Breach of other obligations*) if no additional Indebtedness (other than Permitted Indebtedness) is incurred during the Relevant Period in which the applicable CNL Ratio Requirement is not complied with.

- (b) **Compliance Certificate:** For so long as any Notes or Coupons remain outstanding, the Issuer will, on each Reporting Date thereafter according to Condition 4(a) (*Covenants – Limitation on Indebtedness*), provide the Noteholders, in accordance with Condition 15 (*Notices*), with a Compliance Certificate confirming:

 - (ii) that as at the Certified Date the Issuer has complied with its obligations under the Agency Agreement and that as at such date there did not exist, nor had there existed since the Certified Date of the last Compliance Certificate, or in the case of the first Compliance Certificate since the Issue Date, any Event of Default or Ownership Event, or if such an event has occurred or if the Issuer is not in compliance, specifying such event or the nature of such non-compliance;

5 Negative pledge

So long as any Note or Coupon remains outstanding (as defined in the Agency Agreement), the Issuer will not create or have outstanding, and will ensure that none of its Material Subsidiaries will create or have outstanding, any mortgage, charge, lien, pledge or other encumbrance or security interest (each a “**Security Interest**”), upon the whole or any part of its present or future business, undertaking, assets or revenues (including any uncalled capital) to secure any Capital Markets Indebtedness or to secure any guarantee or indemnity in respect of any Capital Markets Indebtedness, unless in any such case:

- (i) before or at the same time as the creation of the Security Interest, any and all action necessary shall have been taken to ensure that:
 - (A) all amounts payable by the Issuer under the Notes are secured equally and rateably with the Capital Markets Indebtedness or guarantee or indemnity, as the case may be; or
 - (B) such other Security Interest or guarantee or other arrangement (whether or not including the giving of a Security Interest) is provided in respect of all amounts payable by the Issuer under the Notes as shall be approved by an Extraordinary Resolution of the Noteholders; or
- (ii) the Security Interest is to secure any Capital Markets Indebtedness (or any guarantee or indemnity in respect of such Capital Markets Indebtedness) of a Material Subsidiary, being an entity that became a Material Subsidiary after the Issue Date, so long as:
 - (A) such Security Interest was outstanding on the date on which such Material Subsidiary became a Material Subsidiary and was not created in contemplation of such Subsidiary becoming a Subsidiary; and

6 Interest

The Notes bear interest from and including the Issue Date, but excluding, 7 October 2026, at a rate of interest per annum (the “**Rate of Interest**”) which is a minimum rate of 2.00 per cent. per annum (the “**Minimum Interest Rate**”), payable in equal instalments annually in arrear on 7 October in each year, commencing on 7 October 2022 (each an “**Interest Payment Date**”).

The Rate of Interest will be determined prior to the Issue Date and will be set out in the Interest Rate, Yield and Redemption Prices Notice and will be included in the final form of the Conditions.

Each Note will cease to bear interest from the due date for redemption unless, upon due presentation, payment of principal is improperly withheld or refused. In such event, it shall continue to bear interest at such rate (both before and after judgment) until whichever is the earlier of (a) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant holder, and (b) the day which is 5 days after date on which the full amount of the money payable in respect of such Notes has been received by the Fiscal Agent and the Fiscal Agent has notified Noteholders of receipt of all sums due in respect of all the Notes up to that 5th day (except to the extent that there is failure in the subsequent payment to the relevant holders under these Conditions). Save as provided above in relation to equal instalments, the day-count fraction will be calculated on an “Actual/Actual (ICMA)” basis as follows:

- (a) if the Accrual Period is equal to or shorter than the Determination Period during which it falls, the day-count fraction will be the number of days in the Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year; and
- (b) if the Accrual Period is longer than one Determination Period, the day-count fraction will be the sum of:
 - (i) the number of days in such Accrual Period falling in the Determination Period in which it begins divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year; and
 - (ii) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (a) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year

where:

“**Accrual Period**” means the relevant period for which interest is to be calculated (from and including the first such day to but excluding the last); and

“**Determination Period**” means the period from and including 7 October in any year to but excluding the next 7 October in each year.

Interest in respect of any Note shall be calculated per €1,000 in principal amount of the Notes (the “**Calculation Amount**”). The amount of interest payable per Calculation Amount for any period, save as provided above in relation to the First Interest Period, shall be equal to the product of the Rate of Interest, the Calculation Amount and the day-count fraction (calculated on an “Actual/Actual (ICMA)” basis, as set out above) for the relevant period, rounding the resulting figure to the nearest cent (half a cent being rounded upwards).

Prior to the publication of any notice of redemption pursuant to this Condition 7(b), the Issuer shall deliver to the Fiscal Agent to be made available by the Fiscal Agent for inspection to the Noteholders (A) a certificate signed by a duly authorised signatory of the Issuer stating that the obligation referred to in (i) above cannot be avoided by the Issuer taking reasonable measures available to it and (B) an opinion of independent legal advisers of recognised international standing to the effect that the Issuer has or would be obliged to pay such additional amounts as a result of such change and the Fiscal Agent shall be entitled to accept and rely on such certificate and legal opinion (without liability to any Person) as sufficient evidence of the satisfaction of the condition precedent set out in (ii) above, in which event it shall be conclusive and binding on the Noteholders and the Couponholders.
- (c) **Redemption at the option of the Issuer:** The Issuer may, at any time on or after 7 October 2023, on giving not less than 30 nor more than 60 days' irrevocable notice to the Noteholders in accordance with Condition 15 (*Notices*), redeem the outstanding Notes in whole or in part at the following redemption prices (expressed as a percentage of the principal amount of the Notes on the date fixed for redemption), plus accrued and unpaid interest (as defined in the Agency Agreement) to the relevant redemption date:

To exercise the right to require early redemption of any Notes, in addition to the note under paragraph 7(d) (v) above, the holder of the Notes must deliver at the specified office of any Paying Agent, on any Business Day before the Ownership Event Response Date, a duly signed and completed notice of exercise in the form (for the time being current and which may, if such Notes are held in a clearing system, be in any form acceptable to such clearing system and may be delivered in any manner acceptable to such clearing system) obtainable from the specified office of any Paying Agent (a “**Put Notice**”) and in which the holder must specify a bank account to which payment is to be made under this Condition 7(d) (*Redemption at the option of the Noteholders upon an Ownership Event*) accompanied by such Notes or evidence satisfactory to the Paying Agent concerned that such Notes will, following the delivery of the Put Notice, be held to its order or under its control. A Put Notice given by a holder of any Notes shall be irrevocable except where, prior to the Ownership Event Redemption Date, an Event of Default has occurred and is continuing in which event such holder, at its option, may elect by notice to the Issuer to withdraw the Put Notice.

All payments of principal and interest by or on behalf of the Issuer in respect of the Notes and the Coupons shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Republic of Italy or any political subdivision or any authority therein or thereof having power to tax, unless such withholding or deduction of such taxes, duties, assessments or governmental charges is required by law. In that event, the Issuer shall pay such additional amounts as will result in receipt by the Noteholders and the Couponholders of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable in respect of any Note or Coupon:

- (a) presented for payment in the Republic of Italy or in any Relevant Jurisdiction; or

- (d) presented for payment more than 30 days after the Relevant Date except to the extent that a holder would have been entitled to additional amounts on presenting the same for payment on the last day of the period of 30 days assuming that day to have been a Business Day for payment as provided in Condition 8(d) (Payments on Business Days); or
- (e) in the event of payment to a non-Italian resident legal entity or a non-Italian resident individual, to the extent that interest or other amounts are paid to a non-Italian resident legal entity or a non-Italian resident individual which is resident in a country not included in the list of countries set forth in D.M. 4 September 1996 (as, or as may subsequently be, amended or supplemented) which allow for a satisfactory exchange of information with the Italian tax authorities; or
- (f) on account of *imposta sostitutiva* pursuant to Decree 239 or 461, with respect to any Note or Coupon, including all circumstances in which the procedures to obtain an exemption from *imposta sostitutiva* or any alternative future system of deduction or withholding set forth in Decree 239, have not been met or complied with; or
- (g) any combination of the items above.

For the avoidance of doubt, notwithstanding any other provision of the Conditions, any amounts to be paid on the Notes by or on behalf of the Issuer will be paid net of any deduction or withholding imposed or required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”), or otherwise imposed pursuant to Sections 1471 to 1474 of the Code (or any regulations thereunder or official interpretations thereof) or an intergovernmental agreement between the United States and another jurisdiction facilitating the implementation thereof (or any fiscal or regulatory legislation, rules or practices implementing such an intergovernmental agreement) (any such withholding or deduction, a “**FATCA Withholding**”). Neither the Issuer nor any other Person will be required to pay any additional amounts in respect of FATCA Withholding.

12 Replacement of Notes and Coupons

If any Note or Coupon is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Fiscal Agent, subject to all applicable laws and stock exchange or other relevant authority requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may require (provided that the requirement is reasonable in the light of prevailing market practice). Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

13 Meetings of Noteholders, modification and waiver

- (a) **Meetings of Noteholders:** The Agency Agreement contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including any modifications of the Conditions or of any provisions of the Agency Agreement. Such provisions are subject to the Issuer’s by-laws in force from time to time and the mandatory provisions of Italian law in force from time to time.

All meetings of Noteholders are held in accordance with applicable provisions of Italian law (including, without limitation, Legislative Decree no. 58 of 24 February 1998, as amended) in force at the time and the Issuer’s by-laws in force from time to time. Meetings can be held in a single meeting or in multiple meetings, pursuant to Italian law.

In accordance with Article 2415 of the Italian Civil Code, the meeting of Noteholders is empowered to resolve upon the following matters: (i) the appointment and revocation of a joint representative (*rappresentante comune*) of the Noteholders, having the powers and duties set out in Article 2418 of the Italian Civil Code; (ii) any amendment to these Conditions; (iii) motions for administration under supervision (*amministrazione controllata*) or composition with creditors (*concordato*) of the Issuer; (iv) establishment of a fund for the expenses necessary for the protection of the common interests of the Noteholders and the related statements of account; and (v) on any other matter of common interest to the Noteholders.

A meeting may be convened by the Board of Directors of the Issuer, any Noteholders’ representative (*rappresentante comune*) appointed pursuant to Articles 2415 and 2417 of the Italian Civil Code and shall be convened by any of them upon the request in writing of Noteholders holding not less than one-twentieth of the aggregate principal amount of the outstanding Notes.

If the meeting has not been convened following such request of the Noteholders or any Noteholders' representative, the same may be convened by a decision of a competent court in accordance with Article 2367 of the Italian Civil Code. Every such meeting shall be held at such time and place as provided pursuant to Article 2363 of the Italian Civil Code and the by-laws of the Issuer in force from time to time.

A meeting of Noteholders will be validly held provided that there are one or more persons present, being or representing Noteholders holding:

- (i) in the case of the first meeting, at least one half of the aggregate principal amount of the outstanding Notes; or
- (ii) in the case of a second meeting following adjournment of the first meeting for want of quorum, more than one third of the aggregate principal amount of the outstanding Notes; or
- (iii) in the case of any subsequent meeting following any further adjournments for want of quorum or single meeting (*convocazione unica*), as the case may be, at least one fifth of the aggregate principal amount of the outstanding Notes,

and the resolution will have to be sanctioned by one or more persons holding or representing not less than two thirds of the principal amount of the Notes represented at the meeting. For the avoidance of doubt, each meeting will be held as a sole call meeting or as a multiple call meeting depending on the applicable provisions of Italian law and the Issuer's by-laws in force from time to time.

No consent or approval of Noteholders shall be required in connection with any Permitted Reorganisation.

Any resolution duly passed at a meeting of Noteholders shall be binding on all the Noteholders, whether or not they were present at the meeting at which such resolution was passed.

In accordance with the Italian law, a *rappresentante comune*, being a joint representative of Noteholders, may be appointed in accordance with Article 2417 of the Italian civil code in order to represent the Noteholders' interests hereunder and to give effect to the resolutions of the meeting of the Noteholders with the powers and duties set out in article 2418 of the Italian civil code.

The *rappresentante comune* may be a person who is not a Noteholder and may be (i) a company duly authorised to carry on investment services (*servizi di investimento*) or (ii) a trust company (*società fiduciaria*). The *rappresentante comune* is appointed by resolution passed at a Noteholders' meeting. If a Noteholders' meeting fails to appoint the *rappresentante comune*, the appointment is made by a competent court upon the request of one or more Noteholders or the directors of the Issuer. The *rappresentante comune* shall remain in office for a period not exceeding three financial years from appointment and may be reappointed; remuneration shall be determined by the meeting of Noteholders which makes the appointment.

- (b) **Modification of Agency Agreement:** The Issuer shall only permit any modification of, or any waiver or authorisation of any breach or proposed breach of or any failure to comply with, the Agency Agreement, if to do so could not reasonably be expected to be prejudicial to the interests of the Noteholders.

14 Further issues

The Issuer may, from time to time, without the consent of the Noteholders or Couponholders, create and issue further securities, either having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest on them), and so that such further issue shall be consolidated and form a single series with the outstanding securities of any series (including the Notes), or upon such terms as the Issuer may determine at the time of their issue. References in these Conditions to the Notes include (unless the context requires otherwise) any other securities issued pursuant to this Condition 14 and forming a single series with the Notes.

15 Notices

Except as otherwise provided in the Conditions or the Prospectus, all notices to the Noteholders will be valid if duly published on the Issuer's website and in a manner which complies with the rules and regulations on any stock exchange on which the Notes are, for the time being, listed. The Issuer shall also ensure that notices are duly given or published in a manner which complies with the rules and regulations on any stock exchange on which the Notes are, for the time being, listed. Any such notice shall be deemed to have been given on the date of first publication (or, if required to be published in more than one manner, on the first date on which publication shall have been made in all the required manners). Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the Noteholders in accordance with this Condition 15. In addition, so long as the Notes are listed on Borsa Italiana, the Issuer shall also provide a copy of any notice to Noteholders published in accordance with these Conditions to Borsa Italiana.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Fiscal Agent or, if the Notes are held in a clearing system, may be given through the clearing system in accordance with its standard rules and procedures.

For so long as the Notes are represented by the Permanent Global Note (or, as the case may be, by the Permanent Global Note and/or the Temporary Global Note) and the Permanent Global Note is (or, as the case may be, the Permanent Global Note and/or the Temporary Global Note are) held on behalf of Euroclear or Clearstream, Luxembourg or an alternative clearing system, notices required to be given to Noteholders pursuant to these Conditions shall be given by the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg or such alternative clearing system and, in any case, such notices shall be deemed to have been given to the Noteholders in accordance with this Condition 15 (Notices) on the date of delivery to Euroclear and Clearstream, Luxembourg.

16 Contracts (Rights of Third Parties) Act 1999

No Person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any Person which exists or is available apart from that Act.

17 Governing law

- (a) **Governing law:** The Agency Agreement, the Notes and the Coupons, and any non-contractual obligations arising out of or in connection with them, are governed by, and shall be construed in accordance with, English law. Condition 13(a) (*Meetings of Noteholders*) and the provisions of Schedule 3 of the Agency Agreement which relate to the convening of meetings of Noteholders and the appointment of a Noteholders' representative, and any non-contractual obligations arising out of or in connection with them, are subject to compliance with Italian law.
- (b) **Jurisdiction:** The courts of England are to have jurisdiction to settle any disputes which may arise out of or in connection with the Notes or the Coupons, and, accordingly, any Proceedings may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of such courts and waives any objection to Proceedings in such courts whether on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. This submission is made for the benefit of each of the Noteholders and shall not limit the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).
- (c) **Agent for service of process:** The Issuer irrevocably appoints Law Debenture Corporate Services Limited at its registered office for the time being at 8th Floor, 100 Bishopsgate, London, EC2N 4AG, United Kingdom as its agent in England and Wales to receive service of process in any Proceedings in England. If for any reason the Issuer does not have such an agent in England, it will promptly appoint a substitute process agent

and notify the Noteholders of such appointment. Nothing herein shall affect the right to serve process in any other manner permitted by law.

SUMMARY OF PROVISIONS RELATING TO THE NOTES IN GLOBAL FORM

The Notes will initially be in the form of a Temporary Global Note which will be deposited on or around the Issue Date with a common safekeeper for Euroclear and Clearstream, Luxembourg.

The Notes will be issued in new global note (“NGN”) form. On 13 June 2006, the European Central Bank (the “ECB”) announced that Notes in NGN form are in compliance with the “Standards for the use of EU securities settlement systems in ECB credit operations” of the central banking system for the Euro (the “Eurosystem”), provided that certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

The Notes are intended to be held in a manner which would allow Eurosystem eligibility – that is, in a manner which would allow the Notes to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

The Notes will be represented by the Global Notes except in certain limited circumstances described in the Permanent Global Note. The Global Notes will be deposited with a common depository for Euroclear and Clearstream, Luxembourg. Except in certain limited circumstances described in the Permanent Global Note, investors will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by the Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

The Issuer will discharge its payment obligations under the Notes by making payments to or to the order of the common depository for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies.

The Temporary Global Note will be exchangeable in whole or in part for interests in the Permanent Global Note not earlier than 40 days after the Issue Date upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

The Permanent Global Note will become exchangeable in whole, but not in part, for Notes in definitive form (“**Definitive Notes**”) in the denomination of €1,000 each, at the request of the bearer of the Permanent Global Note against presentation and surrender of the Permanent Global Note to the Fiscal Agent if Euroclear or Clearstream, Luxembourg or any alternative clearing system through which the Notes are held is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business.

So long as the Notes are represented by a Global Note and the relevant clearing system(s) so permit, the Notes will be tradeable only in the minimum authorised denomination of €1,000.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons attached, in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the

Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the occurrence of the relevant Exchange Event.

In addition, the Temporary Global Note and the Permanent Global Note will contain provisions which modify the Terms and Conditions of the Notes as they apply to the Temporary Global Note and the Permanent Global Note. The following is a summary of certain of those provisions:

Payments: All payments in respect of the Temporary Global Note and the Permanent Global Note will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Temporary Global Note or (as the case may be) the Permanent Global Note to or to the order of any Paying Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Notes. On each occasion on which a payment of principal or interest is made in respect of the Temporary Global Note or (as the case may be) the Permanent Global Note, the Issuer shall procure that the payment is entered *pro rata* in the records of Euroclear and Clearstream, Luxembourg.

Payments on business days: In the case of all payments made in respect of the Temporary Global Note and the Permanent Global Note Condition 8(d) (*Payments on business days*) shall not apply, and all such payments shall be made on a day on which the TARGET System is open.

Redemption at the option of the Issuer: In order to exercise the option contained in Condition 7(b) (*Redemption for taxation reasons*) and 7(c) (*Redemption at the option of the Issuer*) the Issuer shall give notice to the Noteholders, the relevant clearing system and to the Fiscal Agent (or procure that such notice is given on its behalf) within the time limits set out in and containing the information required by that condition and Condition 7(f) (*Notice of redemption*). In the case of Condition 7(c) (*Redemption at the option of the Issuer*) and a partial exercise of an option, the rights of accountholders with the relevant clearing system in respect of the Notes will be governed by the standard procedures of the relevant clearing system and shall be reflected in the records of the relevant clearing system as either a pool factor or a reduction in nominal amount, at their discretion. Following the exercise of any option, the Issuer shall procure that the nominal amount of the Notes recorded in the records of the relevant clearing system and represented by the Global Note shall be reduced accordingly.

Redemption at the option of the Noteholders upon an Ownership Event: The option of the Noteholders in Condition 7(d) (*Redemption at the option of the Noteholders upon an Ownership Event*) may be exercised by the holder of the Permanent Global Note giving notice to the Fiscal Agent of the principal amount of Notes in respect of which the option is exercised within the time limits specified in Condition 7(d) (*Redemption at the option of the Noteholders upon an Ownership Event*).

Notices: Notwithstanding Condition 15 (*Notices*), while all the Notes are represented by the Permanent Global Note (or, as the case may be, by the Permanent Global Note and/or the Temporary Global Note) and the Permanent Global Note is (or, as the case may be, the Permanent Global Note and/or the Temporary Global Note are) held on behalf of Euroclear or Clearstream, Luxembourg or an alternative clearing system, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and Clearstream, Luxembourg or such alternative and, in any case, such notices shall be deemed to have been given to the Noteholders in accordance with Condition 15 (*Notices*) on the date of delivery to Euroclear and Clearstream, Luxembourg except that, for so long as such Notes are admitted to trading on Euronext Dublin and it is a requirement of applicable law or regulations, such notices shall be published on the website of Euronext Dublin (<https://live.euronext.com/>).

The same shareholders’ meeting also resolved to increase the share capital, for a maximum amount of Euro 61,720, to service the “remedy shares” (“**Remedy Shares**”), which was a mechanism that provided that, upon achievement of a minimum objective in terms of adjusted EBITDA and occurrence of certain conditions (i.e. failure to complete a mandatory or a voluntary takeover bid concerning all the Issuer’s Shares), the Company would issue and assign without consideration pro quota the Remedy Shares to its shareholders.

The Company submitted to Borsa Italiana, on 30 May 2017, the application for admission to trading on AIM Italia, obtained following the institutional placement aimed exclusively at qualified Italian and foreign institutional investors. The share capital of the Company after the institutional placement was equal to Euro 2,566,074, divided into no. 2,566,074 Shares. The institutional placement had a total value of Euro 31.9 million. On 5 June 2017, trading of the Shares on AIM Italia began.

In 2017, Orizzonte SGR fully exercised its right of early conversion pursuant to the CB 2013 and the CB 2015, and WIIT Fin, Orizzonte SGR and Mr. Nicola Mogavero fully exercised their right of early conversion pursuant to the CB 2016. Orizzonte SGR therefore received no. 118,509 Shares, WIIT Fin no. 14,044 Shares and Mr. Nicola Mogavero no. 2,808 Shares.

During 2018, the Issuer achieved the so-called minimum target set for the purposes of the Remedy Shares mechanism. Since the further conditions to which the issuance of the Remedy Shares was subject did not occur, the Remedy Shares were not issued.

On 23 April 2018, the Company completed the purchase of the shares representing 20% of the share capital of Qube S.r.l.

On 18 July 2018, the Company completed the acquisition from Mr. Francesco Baroncelli of 100% of the share capital of Adelante S.r.l., which in turn owned (i) 100% of the share capital of Inventi In20 S.r.l., (ii) 100% of the share capital of the Albanian company ICT Watcher Sh.pk and (iii) a shareholding equal to 20% of the share capital of Comm.it S.r.l. (which, in turn, owned 100% of the share capital of the Albanian company Comm.IT Software Sh.pk). For further information thereon, see *“Information about the Group – External growth and internationalization”* below.

On the same 3 December 2018, the reverse merger between Adelante S.r.l. and Inventi In20 S.r.l. was completed. The merging company’s name was changed into “Adelante” S.r.l.

On 31 December 2018, the beneficiaries of the aforementioned Performance Share Plan received all the Shares to which they were entitled, by means of assignment of newly issued WIIT Shares under the share capital increase approved by the extraordinary shareholders’ meeting on 20 July 2016, as amended with subsequent resolution of 19 May 2017. Following the conversion, the Issuer’s share capital was equal to Euro 2,652,066, divided into 2,652,066 Shares.

On 15 October 2019, the merger of Foster S.r.l. into the Company was completed. The merger became effective from the date of execution of the last statutory registrations and filings, with the exception of the tax effects, produced starting from 1 January 2019.

On 25 March 2019, Borsa Italiana admitted the Shares to listing on the MTA. On 28 March 2019 CONSOB communicated to WIIT the approval of the prospectus relating to the admission to listing of ordinary Shares on the MTA. The trading of WIIT Shares on the STAR Segment of the MTA began on 2 April 2019. The admission to listing of the WIIT Shares on the MTA resulted in the loss, by the Company, of its qualification as Innovative SME.

On 7 June 2021, the Issuer’s Board of Directors approved a share capital increase with the exclusion of the option right by means of issue of no. 1,500,000 new ordinary shares, all subscribed in the context of a private placement through the so-called accelerated book building offering. BUSINESS DESCRIPTION

Overview

The Issuer is an European player in the cloud computing market for businesses, focusing on the provision of uninterrupted hybrid cloud and hosted private cloud services for critical applications. WIIT main activity consists in the preparation and provision of IT infrastructures developed for the specific needs of customers (mainly in the hosted private cloud and hybrid cloud) and in the provision of complementary services for the configuration, management and control of infrastructures in order to guarantee their functionality and availability on a continuous basis (mainly PaaS or Platform-as-a-Service services, as described in sub-section “*Information about the Group – Products and services*” below).

The Group’s activities at the date of the Prospectus are divided into a single area of activity (business unit) relating to the provision of cloud solutions for critical applications of its customers, namely those applications whose malfunctions may have an impact on the company business continuity and whose correct and continuous functioning must therefore be protected. This type of application includes the main ERPs - Enterprise Resource Planning - on the market such as, for example, SAP, Oracle and Microsoft, as well as critical applications developed ad hoc for the customer’s company (known as custom applications).

At the date of the Prospectus, the Group consists of 8 operating companies located in Italy, Switzerland, Albania and Germany. Considering all the countries in which its cloud computing services are used, the Group operates in 4 regions and in over 80 countries. The Issuer, as parent company, carries out the functions of (i) corporate affairs for the controlled operating companies; (ii) administration, finance and control; (iii) strategic planning, business coordination & development and mergers & acquisitions, (iv) cloud services and more generally services in the information and communication technologies domain (“ICT”).

In general terms, cloud services can be divided into categories depending on:

- (i) the type of IT infrastructure (known as location) that is made available to the customer (tailored to the needs of the customer in the case of the hosted private cloud and the hybrid cloud or standardized and used by several different users in the case of the public cloud); and
- (ii) the type of management, control and maintenance services that are offered on the infrastructure (distinguishing between the basic services of providing server infrastructures and storage / saving space for data in the case of IaaS services (as described below) and more complex services that include infrastructure management and maintenance on an ongoing basis in the case of PaaS and SaaS services).

The following table sets out the main segmentations of the cloud computing activity both in terms of the type of IT infrastructure and in terms of the range of services.

Infrastructure / platform		Services	
Private cloud and hosted private cloud	These consist in the preparation of an IT infrastructure designed for the specific needs of a single company and are usually used for sensitive or confidential data and critical applications.	SaaS - Software-as-a-Service	Cloud computing services in which software is developed, operated and managed directly by the software developer that makes them available to customers.
hybrid Cloud	This combines aspects of both the public cloud and the private cloud to make the most of the characteristics of both forms of cloud.	PaaS or Platform-as-a-Service	Cloud computing services through which one or a set of IT platforms are provided to a customer. In addition to providing the platform, the provider manages and controls the IT infrastructure.
Public cloud	Provision of standardized cloud services through the Internet to various customers. The infrastructure, the platform and the applications are owned and managed by the provider, and shared with customers. infrastructure
management services
on its own.

Among the different segmentations of cloud services in terms of infrastructure / platform offered, the Group specializes in the hosted private cloud and hybrid cloud sectors, which provide for the preparation of tailor-made IT infrastructures for customers and which are considered by the Issuer's management to be the most responsive to the needs of IT security, of service level guarantee and of performance that companies have for the applications that they consider of strategic interest for the purposes of the business continuity.

To a lesser extent, the Group provides cloud services in the public cloud sector, integrating and managing the more standardized solutions offered by large market operators, in order to adapt them to the needs of its customers.

With reference to the type of services offered on IT infrastructures, the Group's offer consists of all three main categories of cloud services (IaaS, PaaS and SaaS), as well as the additional categories described below (End User Productivity, Application Management, Digital Services and Cyber Security Services, all as defined below), with a particular specialization in the sector of PaaS services aimed at guaranteeing business continuity - i.e. the continuity of the customer's main business functions through the control of the infrastructure that supports the software, at the network level, of the servers, of space, of the operating systems of the databases of the control parameters of the main ERP management software (SAP, Oracle JDEdwards, Microsoft AX), as well as of the programs, critical for the business, developed and customized by the customers.

In order to guarantee the business continuity of its customers, the Group's services are provided through multiple servers and storage, aimed at maximising continuous availability in the event of any malfunction or interruption of any of them. The Group then makes available to its customers the business continuity service, starting with high availability services up to the disaster recovery service (which allows replication of the processing systems and all critical customer data almost in real time) and proceeds to save data on a daily basis and every day at different times (known as back-up).

The infrastructures, platforms and servers used by the Group to carry out its business are owned by the Group or in any case are for its exclusive use pursuant to rental, leasing and/or operating rental contracts.

In particular, the Group owns 9 data centres. The main data centre of the Group is located in Milan and is TIER IV certified (i.e. the highest level of reliability) by the Uptime Institute of Seattle, United States of America. As of the date of this Prospectus, worldwide there are no. 57 TIER IV data centres certified by the Uptime Institute in the Constructed Facility category². The property where the data centre of Milan is located is owned by WIIT Fin and is leased to the Issuer, while all the systems that effectively make up the data centre (i.e. the electrical systems and panels, the structured cabling, the generators, the continuity systems, air conditioning systems, fire systems, alarm systems, etc.) are owned by the Issuer. The data centre of Milan is a so-called primary one, being used by the Group for rendering its services to the customers.

With reference to the data centre located in Castelfranco Veneto (TV), the Italian companies of the Group use this tool mainly to guarantee their customers the business continuity in the event of inefficiencies in the Milan data centre of such a magnitude as to preclude its operation. In relation to the second Data Centre, the property where this is located is leased to the Issuer by a third company, while all the systems that effectively make up the data centre (i.e. the electrical systems and panels, the structured cabling, the generators, the continuity systems, air conditioning systems, fire systems, alarm systems, etc.) are owned by the Issuer.

With regard to the infrastructures necessary to host the customers' IT systems (and, in particular, the set of processing systems – i.e. servers – the set of data management systems – i.e. storage, backup – and the set of

network systems – i.e. switch, router) within the data centres, these are assets that are for the most part owned by the Issuer or, alternatively, used under leasing. These leasing contracts have an average duration of 4 years and provide the Issuer with a right of redemption. The aggregate monthly fees under the leasing contracts entered into by the Issuer amount to around Euro 200 thousand.

Following recent international acquisitions (see “*Information about the Group – External growth and internationalization*” below), the Group further owns data centres located in Germany. More specifically, the German subsidiary myLoc Managed IT AG owns 6 data centres in Dusseldorf and the German subsidiary Mivitech GmbH owns 1 data centre in Munich.

In carrying out its business, the Group also makes use of infrastructures owned by specialized third parties to the extent that the provision of accessory services, such as network services (routers, data lines), is required (see “*Information about the Group – Business model*” below). This operating model allows direct control over almost the entire chain of technical components and services and is considered innovative and effective.

In relation to the data centres, the Group has obtained international certifications over time, in particular for the security of its services (ISO20000 (Process Compliance), ISO27001 (Information Security), and ISO22301 (Business Continuity) certifications and for the provision of services compliant with the ITIL (Infrastructure Library) standard. These certifications are not necessarily related to a specific data centre, except for the TIER IV certification referred to above, which was granted with specific reference to the data centre located in Milan.

The Issuer has also certified the management model of its customers’ information systems according to the international standard ISO/IEC 20000:2005, as well as its organization according to the ISO 9001:2015 standard for the development and provision of Business Process Outsourcing services.

The last certifications obtained by the Issuer are ISO 27017, relating to Information Security for Cloud, and ISO 27018, which is a security standard part of the broader group of standards represented by ISO/IEC 27000; this was the first international standard on privacy in cloud computing services promoted by the industry.

In order to protect the correct management and protection of the data and information managed through its information systems, the Issuer obtained in 2012 the international certification ISO/IEC 27001:2013 and developed a methodology on business continuity inspired by the directive ISO 22301:2012.

In addition to these certifications, the Issuer is a top SAP partner and is one of only two companies in the world to have obtained all the 5 SAP platform certifications³. In particular, as of the date of this Prospectus, the Issuer holds the following certifications: SAP Cloud and Infrastructure Operations; SAP Hana Operations; SAP Hosting Operations; SAP Business Process Outsourcing Services; SAP DevOPS.

On top of these 5 certifications, WIIT has also acquired the SAP Business Suite Solutions Operations. This last certifies the Issuer’s capability to manage and maintain the application part of SAP landscapes in proper working order.

The Group has a business continuity and disaster recovery plan that defines the procedures to be implemented for restoring the IT systems subject to business continuity/disaster recovery after an accident (known as a fault) and/or after a catastrophic event, with the aim of allowing the safeguard of the business continuity with an efficient recovery plan in the shortest possible time. Regarding network and connectivity, the Group is the owner of an Autonomous System (AS), which is a set of Internet routable IP prefixes belonging to a network or a collection of networks that are managed, controlled and supervised by a single entity or organization; in this way the Issuer is able to manage and control the network provided by specialized providers, which use highly reliable networks and guarantee high levels of service and timely recovery to reduce the risk of malfunctions or disservices.

Total Adjusted Revenues are not recognised as an accounting measure within IAS/IFRS adopted by the European Union. Consequently, the determination criterion applied by the Group may not be homogeneous with that adopted by other groups and, therefore, the amount obtained by the Group may not be comparable with that determined by the latter.

General Group's terms and conditions for service provision

The provision of the Group's services usually takes place by means of a standard type of contract, unique for all the different types of services (IaaS, Paas, End User Productivity, Application Management, SaaS, Digital Services and Cyber Security Services), which are usually combined in the framework of a single economic and contractual offer.

The paragraphs below summarize the main clauses and general conditions of supply provided for in the standard service contract, it being understood that, in the context of the negotiation of economic and regulatory offers with customers, it is possible that derogations and / or exceptions to the provisions of the contract standard shown below are agreed.

With reference to the duration of the contracts, this is generally between three and five years, with automatic renewal for similar terms (provided the right of cancellation within 6 months before the expiry date). The contracts normally provide for the initial supply of services aimed at implementing the so-called "start-up" phase, functional to the provision of the services offered by the Group (the "**Start-Up Activities**") and the subsequent provision of the specific services requested by the customer.

In order to carry out the Start-Up Activities, the customer must pay a one-off sum. For the provision of the subsequent specific services, on the other hand, a basic fee is provided, which is fixed for the entire duration of the contract and for any renewals, but which is in any case subject to variation on an annual basis as per the index published by the National Institute of Statistics – "*ISTAT*" (relating to the increase in the cost of life for blue-collar and white-collar families). Contracts with customers usually provide for billing mechanisms on a monthly or quarterly basis with payments within 30 or 60 days of the invoice being issued. Any changes requested by the customer during the life of the contract generally entail additional fees.

In the event of non-payment of the amount due by the customer, the Issuer generally has the right to suspend the provision of services, retain the customer's data located in the hardware owned by the Group or its auxiliaries and in any case prevent access to customer data until its claims are satisfied. Furthermore, usually, if the non-payment of the consideration continues for a certain period (i) the basic consideration due by the customer under the contract until its expiry date becomes immediately due, and (ii) the Group can terminate the contract.

Contracts usually provide for a right of early termination in favour of the customer in the event that certain levels of service (after a period of implementation) are not respected and the disservice continues for a certain specific period of time. Failure to comply with the agreed service levels also entails the application of a penalty; normally, the amount of compensation for damage due by the Group is calculated in proportion to the level of disservice and, in most cases, taking into account the duration of the disservice and the so-called "system availability" (i.e. the availability of the systems), which must not fall below a certain limit threshold contractually identified. The amounts of penalties are capped generally at a range between 10% and 20% of the contractual annual fees.

The customer is generally granted, after a certain period of time (normally not less than at least half the duration term of the contract), the option to withdraw from the contract with the Group, it being understood however that, in such an event, the customer must pay, by way of consideration, an amount usually between 70% and 50% of the residual value of the contract. The exercise of the right of withdrawal must generally be communicated with 6 months notice.

The contracts contain clauses aimed at governing the rights and obligations of the Group and the customer in matters of confidentiality. There may also be, under certain conditions, a right in favour of the Group to be preferred for the provision of services to companies belonging to the customer's group, as well as a prohibition for the customer to make job offers to the Issuer's resources for the entire duration of the contract and for the 6 months following its expiry.

With reference to intellectual property rights, the contracts generally set forth that what is developed by the Issuer's staff, or with their collaboration, in the execution of the contract can be used by both parties. Moreover, should the object of the development activity assume the value of invention, discovery or improvement, the rights on the same are exclusively reserved to the Group, which grants a free license to the customer for the duration of the contract.

Without prejudice to the general conditions described above, partially different contractual terms have been negotiated with some of the Group's main customers, which in some cases provide for express termination clauses in the event of certain serious breaches by the Group, compensation clauses for damages caused to third parties, renewal options (instead of tacit renewal), right of withdrawal in the event of changes in the composition of the Issuer's corporate structure, right to set off claims by the customer against the Issuer, as well as insurance obligations with limits determined to cover any liability deriving from execution of the contract. The contracts with some of the main customers do not envisage the retention of the data present on the Group's IT infrastructures in the event of delay or failure to pay the fees due.

Business model

The Group's business model is based on the division of activities into different phases, each of which is overseen by a dedicated team of resources. The activities are mainly carried out internally, in such a way as to allow the Group to maintain a high level of control over the quality of the process and the final service, and to reduce the risk that third parties may exercise a dominant position vis-à-vis the Group and/or impact, through their pricing policies or commercial pressures, the Group's profit margins.

The main and strategic services are provided by the Group through its organization and its infrastructures, as the use of third parties is limited to accessory connectivity services - to the extent that the customer is not already autonomously equipped with its own network connection - and to some specialist services of marginal importance or in any case fungible.

Suppliers

The Group's suppliers can be mainly grouped into three different categories: network and connectivity service providers, hardware component suppliers and specialist service providers complementary to the Group's offer and deemed to support the effective provision of the service to the end customer.

In this context, the Group makes use of market operators considered by the Issuer to be of high standing, which offer telecommunication services through the use of advanced technologies (optical fiber, xDLS) and which the Issuer believes are able to ensure a high degree of network security and reliability. The selection of providers is made on the basis of the commercial proposal and the levels of service and quality offered by the supplier. At the end of the selection, a connectivity service contract is then entered into, the content of which, in terms of technical solutions and network characteristics (technology, bandwidth and type of service), is modulated on the basis of the characteristics of the Group's end customer to which the network is destined. Service contracts normally have a duration of several years - which varies on the basis of the type of network service offered - and generally provide for minimum levels of service that must be guaranteed by the provider. Such contracts normally provide for automatic renewal upon expiry and, as of the date of this Prospectus, there are no circumstances or facts, known to the Issuer, which could lead to non-renewal.

The Issuer believes that the use of connectivity providers and network services considered to be of high standing, the provision of "backup" lines and, in any case, of highly reliable technical solutions, together with the provision of minimum service levels in the related contracts, are elements that contribute to ensure the quality and continuity of the services offered to its customers.

With reference to the suppliers of hardware components, their selection is made taking into consideration the market leaders that provide high quality solutions, in line with the continuous evolution of the market and their commercial proposal. The purchase of new hardware is carried out in an aggregate manner, based on needs and future growth prospects.

With regard to specialist services, the Group values those specialised suppliers providing services complementary to the Group's offer, and which are deemed to support the effective provision of the services to the end customers (e.g. intermediation with the invoice exchange system of the Revenue Agency (“*Agenzia delle Entrate*”), digitization of tax documents), or which respond to the needs of compliance (e.g. auditing) of operation (e.g. tax consultants), and continuous improvement of the company (e.g. trainers). The evaluation of the purchase of these services is carried out on the basis of compliance and business needs.

Research and development

The Group has always paid particular attention to investment in research and development, which has made it possible to implement the offer with a range of innovative services. The goal is to offer its customers technologically advanced services, with new solutions and high quality standards. The team dealing with innovation moves in this direction, which, thanks to the analysis of trends in the cloud and information and communication technologies sector, compares and analyses new market proposals.

Once an area or technology deemed compatible with WIIT's offer has been identified, this is first implemented and tested internally and subsequently proposed to both existing and new customers, with a view to offering customers innovative services.

Marketing communication & brand positioning activities

The Group's marketing strategy focuses on activities aimed at increasing the awareness of the WIIT brand and generating new business opportunities, operating on offline and online channels. In relation to brand awareness, the Group has carried out multi-channel advertising campaigns with the aim of reaching the decision makers of the target of WIIT customers. Due to the Covid-19 pandemic, in 2020 the Company adapted its marketing strategy by focusing its investments and activities exclusively on digital and online channels and suspending investments in offline visibility.

Lead generation campaigns (i.e. aimed at identifying users potentially interested in purchasing the services provided by WIIT), supported by surveys addressed to chief information officers and chief financial officers of companies that could become potential customers, have allowed (i) to improve the customer relationship management and (ii) to provide the sales function with support in creating new opportunities.

In 2018, an inbound marketing project was launched which consists of creating digital content aligned with the interests of customers (current or potential) in order to attract additional customers to the Group's services. The project was confirmed also in 2020.

In order to promote knowledge of the main factors of technological innovation in Italy, WIIT is a partner and active member of the Cloud Observatory of the Politecnico di Milano.

WIIT also actively participates in some Italian Awards with the aim of discussing the most innovative projects. During 2020, the Issuer participated in some digital events, such as the Digital 360 Awards where it won, for the second time, with the cybersecurity solution “Intelligent Security Awareness”.

Sales and commercial

The Group's sales model is based on a team that operates mainly directly, and partially indirectly, in the market, interacting in depth with the different operational levels of customers/potential customers (whether partners, advisors, influencers, board members, suppliers) in order to maximize the ability to engage and finalize contracts. The Group has, to date, recorded a growing base of significant customers and a positive rate of renewal of expiring significant contracts. In Italy the sales model is largely based on a direct sales approach, while in Germany the sales model is a mix of direct and online sales. The Group's customer base is diversified and consists of small, medium and large companies. In particular:

- i) the Italian customer base is mainly made up of large companies (generally with a turnover between Euro 200 million and Euro 4,000 million) that require high service levels (SLAs) for so-called "critical applications"; a minor part of this customer base is made up of medium-sized companies enterprises (with turnover generally between Euro 50 million and Euro 200 million);
- ii) the German customer base is mainly made up of medium-sized enterprises (with turnover generally between Euro 200 million and Euro 4,000 million) and partially of small enterprises with a direct online sales purchasing process.

Over the years, the Issuer has strategically chosen to focus on cloud services for so-called "critical applications", as well as on more important orders and customers, progressively reducing the number of customers considered "not significant" as smaller or otherwise focused on services considered outside the Group's core business.

With reference to the economic sectors involved in the Group's offering, the Group proposes services to companies operating in differentiated economic sectors with different characteristics and needs, while for strategic choice the Group since 2016 operates only marginally in the public administration sector. As to the Italian market, customers are active mainly in the retail, luxury, professional services and financial industries; as to the German market, the customers are mainly active in these same industries with a focus on media.

For the year ended 31 December 2020, the first ten clients of the Group generated aggregate revenues amounting to around Euro 22.3 million, equal to 39.16% of turnover, while for the year ended 31 December 2019, the first ten clients of the Group generated aggregate revenues amounting to around Euro 14.8 million, equal to 43.85% of turnover.

In the last five years and up to the date of this Prospectus, the Group has not faced any problems with its customers (e.g. inefficiencies, failure to supply or failure to comply with service levels) that have led to contractual terminations or payment of penalties.

The sales structure is subdivided on the basis of reference markets (e.g. Manufacturing, CPG&Retail, Financial Services, Professional Services, etc.) and the company's turnover bracket. In particular, the Group's Sales and Commercial structure is divided on the basis of two macro-organizations: Small-Medium Enterprise, under Euro 100 million turnover, where Adelante S.r.l. and Matika S.p.A. mainly operate with direct sales teams and where Etaeria S.r.l. mainly operates with indirect sales approach, and Mid Large Enterprise, above Euro 100 million turnover, where WIIT operates. The pursued objective is to have an effective sales model in the respective market segment and to have a portfolio of services in line with the economic and business needs of the various segments.

Operations

The Operations team is in turn divided into seven groups: (i) Program Management; (ii) Delivery Management; (iii) Cloud Services; (iv) Service Desk; (v) Application Management; (vi) Cyber Security; and (vii) Digital Services.

Competitive strength

The management believes that the Group's competitive strength are focused on the following points.

1. *Reliability of data centres*

The Group owns 9 data centres, whose main one (located in Milan) is TIER IV certified (i.e. the highest level of reliability) by the Uptime Institute. Ownership of more data centres in the same country increases the level of reliability in the event that there are disruptions such as to preclude the operation of one of the data centres. The Issuer believes that data centres currently operate around 50% of their own capabilities, so the Group will have the opportunity to expand its customer base without the need of immediate investments to adjust its capacity.

2. *Market-leading Business Continuity Solutions*

The Group uses a significant number of references in the use of business continuity solutions developed in the military field, then acquired by Dell EMC and today used in critical areas all over the world.

3. *Use of “best in market” technologies*

The Group, through its partners, offers and uses the main innovative solutions and technologies on the market. Historical suppliers of the Group in the world of technologies are Dell EMC, HP and CISCO while in the world of software these are SAP, Oracle and Microsoft.

4. *Proprietary tools for the provision of the main services*

The main tools necessary for the provision of services (such as the ticketing and knowledge base system, the monitoring system, the asset management system, the reporting systems and the calculation of service levels) were developed internally and are registered software. The main proprietary tools and processes are ISO20000 certified, in line with the best international standards for the provision of ICT services (ITIL standard, “Information Technology Infrastructure Library”).

5. *Quality and innovativeness of services*

The Group believes that the internal quality of resources and attention to service delivery processes constitute its own distinctive feature. The high quality standards and efficiency of the Group’s services is attested by the possession of various certifications, also international ones, including certifications relating to the security of its services (ISO20000 (Process Compliance), ISO27001 (Information Security), and ISO22301 (Business Continuity)), as well as those relating to the ITIL (Infrastructure Library) standard.

6. *Customer base loyalty*

The offer model and the high quality of the services provided have enabled the Group to acquire important customers and over the last few years the Group has recorded a growing customer base and a high rate of renewal of expiring contracts (in particular among first customers by turnover, with reference to which stable renewal rates were recorded).

7. *Own “End-to-End” Service model*

To ensure a high quality of the services provided, the Group has developed its own “End-to-End” service model, which provides for direct control of the entire chain of technical components and services: all the main strategic assets are owned by the Group and also the skills are internal, with limited use of resources and external suppliers for the provision of services to its customers. Furthermore, the main tools necessary for the provision of services are developed internally and the operational structures and technical resources with the highest value operate remotely and are shared on many customers, generating economies of scale.

8. *SAP Partner*

The Group holds 6 SAP certifications and is one of the most certified SAP partners in the world for Outsourcing services⁶. Over time, the Group has also acquired important contracts, experiences and references in the management of complex SAP infrastructures in the Cloud, as well as, more recently, a high degree of experience and references in the new SAP product based on the HANA memory database (i.e. S/4 and ECC on HANA).

9. *“Worldwide ready”*

The Group provides its services 7 days a week, 24 hours a day and the help desk, the contact point for customers, operates in Italian and English.

In 2020 the Italian cloud market, including both private and public cloud, accounted for Euro 3,4 billion with a growth of 20% YoY⁷. The private cloud market accounted for less than Euro 800 million, with a growth in the range of 8-10%, which is expected to be confirmed also in 2021 and the following years due to the digital transformation process of the public and private sectors for which cloud represents one of the main enabling pillars.

External growth and internationalization

The Group's development strategy is aimed at consolidating its position in the reference markets, growing in applications and markets where the Group's presence is less significant, maintaining and consolidating its ability to develop technological and innovative solutions.

In particular, the Group's external growth strategy is aimed at consolidating the Group's position in its reference market (i.e. the Italian market) and strategically expanding its activities abroad in markets deemed to be attractive (currently, mainly in Europe - Germany, France, the United Kingdom and the Netherlands - and, wherever possible, in the United States of America).

In general, the Issuer believes that the dimensional growth by external lines can be achieved through acquisitions or mergers with companies operating in its own sector or in complementary sectors or also through the creation of joint ventures with operators of the sector.

The Issuer intends to pursue this growth strategy also through the acquisition of companies whose offer is aimed at medium-sized and medium-large-sized enterprises for consolidating its competitive position.

In order to implement its external growth strategy, the Group uses scouting services provided by specialist advisors with a view to identifying/selecting possible companies to be acquired or merged or possible partners.

Set out below is a summary of the acquisitions carried out by the Group from 2018 up to the date of this Prospectus.

On 23 April 2018, the Issuer completed the purchase of the shares representing 20% of the share capital of Qube S.r.l., based on the preliminary sale and purchase agreement entered into on 15 March 2018 with Mr. Andrea Rebosio, who held the remaining 80% of the company's share capital. The cash consideration was nominal, consisting in Euro 1.00, taking into consideration that the Qube's net equity resulting from the last approved financial statements available was negative for Euro 268,831 and that the nominal value of the equity interests held by the Issuer was equal to Euro 6,000; this valuation was not supported by the opinion of an independent third party.

On 18 July 2018, the Issuer completed the acquisition from Mr. Francesco Baroncelli of 100% of the share capital of Adelante S.r.l., which in turn owned (i) 100% of the share capital of Inventi In20 S.r.l., (ii) 100% of the share capital of the Albanian company ICT Watcher Sh.pk and (iii) a shareholding equal to 20% of the share capital of Comm.it S.r.l. (which, in turn, owned 100% of the share capital of the Albanian company Comm.IT Software Sh.pk). The payment of the price was divided into deferred instalments, the last of which will be due on 30 June 2022. The purchase price of the equity investment was set at Euro 6.4 million to which was added the net cash position at the date of the closing, initially estimated at Euro 1 million and subsequently verified in the amount of Euro 1,410,000, resulting in a price adjustment of Euro 410,000 in favor of Francesco Baroncelli; this price adjustment for Euro 410,000 was settled on October 26, 2018. In addition to the price of the equity investment and subject to the achievement of certain objectives defined in the Adelante Group's business plan, Mr. Francesco Baroncelli may accrue the right to the payment of a maximum total earn out of approximately Euro 4.4 million; the first tranche of the earn out (amounting to Euro 460,000) was paid on 19 February 2019; the last instalment is set forth following the approval of financial statements for the financial year closed on 31 December 2021. At the date of this Prospectus, Mr. Francesco Baroncelli, is a director of the Issuer acting as Chief Mergers & Acquisition Officer.

On 4 July 2019, the Company completed the purchase of the shares representing 60% of the share capital of Matika S.p.A. The consideration paid is around Euro 6.4 million. The relevant agreements provide for the progressive purchase, through reciprocal put and call option rights, of the residual 40% as follows: (i) an additional 20% following the approval of the financial statements at 31 December 2020, which has been acquired on 24 June 2021; and (ii) the remaining 20% following the approval of the financial statements as at 31 December 2021; in relation to this residual stake interests, the consideration for each option right is composed of a fixed component of around Euro 1.2 million (plus 20% of Matika's net financial position resulting on the day of completion of the purchase) and of a variable component, conditioned to the reach of certain profitability targets set out in the business plan 2019-2021, for a maximum amount of about Euro 4 million, based on achieved results in terms of EBITDA, and of about Euro 1.5 million, based on the increases of turnover deriving from commercial synergies between WIIT and Matika.

On 5 January 2020, WIIT completed the purchase of the business branch owned by Aedera S.r.l., a company belonging to the Kelyan Group, as well as the shares representing 60% of the share capital of Etaeria S.r.l., a company belonging to the Kelyan Group as well. The statements herein regarding taxation are based on the laws in force in Italy and on published practices of the Italian tax authorities in effect in Italy as at 14 September 2021 and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. WIIT S.p.A. (WIIT) will not update this summary to reflect changes in laws and if such a change occurs the information in this summary could become invalid. The following is a summary of certain material Italian tax consequences of the purchase, ownership, redemption and disposition of Notes for Italian resident and non-Italian resident beneficial owners only and it is not intended to be, nor should it be constructed to be, legal or tax advice. This summary also assumes that WIIT is resident in the Republic of Italy for tax purposes. Changes in WIIT's organizational structure, tax residence or the manner in which it conducts its business may invalidate this summary. This summary also assumes that each transaction with respect to the Notes is at arm's length. Where in this summary English terms and expressions are used to refer to Italian concepts, the meaning to be attributed to such terms and expressions shall be the meaning to be attributed to the equivalent Italian concepts under Italian law.

The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to make a decision to subscribe for, purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in security or commodities) may be subject to additional or special rules.

The Issuer will not update this summary to reflect changes in laws and if such a change occurs, the information in this summary could become invalid.

Tax Treatment of interest on the Notes

Legislative Decree No. 239 of 1 April 1996, as subsequently amended (“**Decree 239**”), provides for the applicable regime with respect to the tax treatment of interest, premium and other income, including the difference between the redemption amount and the issue price (the “**Interest**”), deriving from notes falling within the category of bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*), according to Article 44 of Italian Presidential Decree No. 917 of December 22, 1986, as amended and supplemented (“**TUIR**”), issued, *inter alia*, by Italian resident companies whose shares are listed on a regulated market or on a multilateral trading platform of a State Member of the European Union or of the European Economic Area, which provides for a satisfactory exchange of information as listed in the Italian Ministerial Decree 4 September 1996, as amended from time to time or in a decree to be issued according to the provisions of Article 11(4)(c) of Decree 239 (as amended by Legislative Decree No. 147 of 14 September 2015) or in any other decree or regulation that will be issued in the future to provide the list of such countries (any of them, the “**White List**”).

The provisions of Decree 239 only apply to notes which qualify as bonds or securities similar to bonds pursuant to Article 44 of TUIR. For these purposes, according to Article 44, paragraph 2, letter c), no. 2) of TUIR, securities (i) that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value, with or without the payment of periodical amounts, (ii) that do not give any right to directly or indirectly participate in or control the management of the issuer or of the business in relation to which they are issued and (iii) whose remuneration is not linked to the profits of the issuer, qualify as securities similar to bonds for Italian income tax purpose.

Italian resident Noteholders

According to Decree 239, payments of Interest relating to Notes, issued by the Issuer, that qualify as *obbligazioni* or *titoli similari alle obbligazioni* are subject to a tax, referred to as *imposta sostitutiva*, levied at the rate of 26% (either

when Interest is paid or when payment thereof is obtained by the holder on a sale of the Notes) where an Italian resident holder of Notes is the beneficial owner of such Notes, and is:

- (i) an individual not engaged in an entrepreneurial activity to which the Notes are connected, unless the Notes are held in a discretionary investment portfolio managed by an authorised intermediary with the option for the so-called *risparmio gestito* regime provided for by Article 7 of Legislative Decree No. 461 of 21 November 1997, as amended (“**Decree 461**”), according to which a flat rate of 26% on the year-end appreciation (which includes Interest accrued on the Notes) of the investment portfolio accrued, even if not realised, applies; or
- (ii) a partnership (other than a *società in nome collettivo* or *società in accomandita semplice* or similar partnership) or a *de facto* partnership not carrying out commercial activities or professional association; or
- (iii) a private or public entity (other than a company and an undertaking for collective investments) or a trust not carrying out commercial activities; or
- (iv) an investor exempt from Italian corporate income taxation.

If the holder of the Notes mentioned in (i) and (iii) above is engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional income tax and may be deducted from the taxation on income due.

Where an Italian resident Noteholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected and the Notes are deposited with an Intermediary (as defined below), Interest from the Notes will not be subject to *imposta sostitutiva*, but must be included in the relevant Noteholder’s annual income tax return and are subject to Italian corporate taxation (“**IRES**”). In certain circumstances, subject to the “status” of the Noteholder, also regional tax on productive activities (“**IRAP**”) may apply.

Interest on the Notes accrued during the relevant holding period in the hands of Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998 and Article 14-*bis* of Law No. 86 of 25 January 1994 (“**Real Estate Funds**”) provided that inter alia the Notes are timely deposited with an Intermediary (as defined below), are subject neither to *imposta sostitutiva* nor to any other income tax at the level of the Real Estate Fund. However, a withholding or substitute tax of 26% will apply, in certain circumstances, to income realized by unitholders or shareholders of such Real Estate Funds or in the event of distributions, redemption or sale of the units or shares. Moreover, in certain circumstances, income of Real Estate Funds is attributed on a *pro-rata* basis to their unitholders or shareholders irrespective of any actual distribution. According to Article 9 of Legislative Decree No. 44 of 4 March 2014, the above regime applies also to Interest on Notes held by real estate closed-ended investment companies (*società di investimento a capitale fisso*, or “**Real Estate SICAFs**”), which meets the requirement provided for by applicable law.

Where an Italian resident Noteholder is a non-real estate open-ended or a closed-ended collective investment fund (a “**Fund**”), or an open-ended investment company (*Società di Investimento a Capitale Variabile*, or “**SICAV**”) or an a non-real estate closed-ended investment company (*Società di Investimento a Capitale Fisso non Immobiliare* or “**Non-Real Estate SICAF**”) established in Italy and either (i) the Fund, the SICAV or the non-real estate SICAF or (ii) their manager is subject to the supervision of a regulatory authority and the Notes are timely deposited with an Intermediary (as defined below), Interest on the Notes accrued during the relevant holding period will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund, the SICAV or the non-real estate SICAF. The Fund, the SICAV or the non-real estate SICAF are subject neither to *imposta sostitutiva* nor to any other income tax at their level, but a withholding tax at a rate of 26 percent will instead apply, in certain circumstances, to distributions made in favour of unitholders or shareholders of the Fund, the SICAV or the non-real estate SICAF (the **Collective Investment Fund Tax**).

Where an Italian resident Noteholder is a pension fund subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005 and the Notes are deposited with an Intermediary (as defined below

), Interest relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the results of the relevant portfolio accrued at the end of the tax period, to be subject to a 20% substitute tax.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity, social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 and pension fund subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005 may be exempt from any income taxation on Interest relating to the Notes if the Notes are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1, paragraphs 100-114 of Law No. 232 of 11 December 2016, as subsequently amended, Article 1, paragraphs 211-215 of Law No. 145 of 30 December 2018, as subsequently amended, Article 13-*bis* of Law Decree No. 124 of 26 October 2019, as subsequently amended and supplemented, and Article 1, paragraphs 219-226 of Law No. 178 of 30 December 2020.

According to Decree 239, *imposta sostitutiva* is applied by banks, *Società di intermediazione mobiliare* (“*SIMs*”), fiduciary companies, *Società di gestione del risparmio* (“*SGRs*”), stockbrokers and other entities identified by a decree of the Ministry of Economics and Finance (each an “*Intermediary*”), as subsequently amended and integrated, which must (i) be (a) resident in Italy or (b) resident outside Italy, with a permanent establishment in Italy or (c) an entity or a company not resident in Italy, acting through a system of centralised administration of Notes and directly connected with the Department of Revenue of the Italian Ministry of Finance having appointed an Italian representative for the purposes of Decree 239; and (ii) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change in ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any Italian intermediary paying interest to a Noteholder or by the Issuer.

Non-Italian resident Noteholders

Where the Noteholder is a non-Italian resident, without a permanent establishment in Italy to which the Notes are effectively connected, an exemption from *imposta sostitutiva* applies provided that the non-Italian resident beneficial owner is either (a) resident, for tax purposes, in a country which allows for a satisfactory exchange of information with Italy included in the White List (“*White List Country*”); or (b) subject to certain exceptions, an institutional investor that is resident or established in a White List Country even if it does not possess the status of a taxpayer in its own country of residence; (c) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or (d) a Central Bank or an entity which manages, inter alia, the official reserves of a foreign State.

In order to ensure gross payment, non-Italian resident holders of the Notes must (i) deposit, directly or indirectly, the Notes with an intermediary which qualifies as a “*second level bank*” for the purpose of application of the *imposta sostitutiva*, such as an Italian resident bank or brokerage company (“*SIM*”) or a permanent establishment in Italy of a non-resident bank or *SIM* or a non-Italian resident entity that maintains direct relationships, via telematic link, with the Department of Revenue of the Ministry of Economy and Finance, such as Euroclear or Clearstream, and (iii) duly file with the relevant depository, prior to or at the time of the deposit of the Notes, a declaration, which remain valid until withdrawn or revoked, complying with the instructions set forth in Ministerial Decree 12 December 2001 as subsequently amended, stating, *inter alia*, that such holder of the Notes is eligible for the exemption from the *imposta sostitutiva*. Specific additional requirements as to the conditions to be satisfied and the content of the declaration are provided for non-Italian resident holders of the Notes which qualify as institutional investors. Such declaration is not required for non-Italian resident investors that are international bodies or entities set up in accordance with international agreements which have entered into force in Italy or in the case of foreign Central Banks or entities which manage, inter alia, the official reserves of a foreign State

Where the holder of the Notes is a non-Italian resident, without a permanent establishment in Italy to which the Notes are effectively connected, not eligible for the exemption from the *imposta sostitutiva* and/or does not comply in a timely manner with the procedure above, Interest arising from the Notes are subject to the 26% *imposta sostitutiva*. The provisions of applicable double tax treaties entered into between the country of residence of a non-Italian resident holder of the Notes and Italy, if any, may provide for the application of the *imposta sostitutiva* at a reduced (or even nil) rate

Capital Gains Tax

Italian resident Noteholders

Capital gain realized upon transfer or redemption⁹ of the Notes by an holder of the Notes which is an Italian resident corporation or similar commercial entity, an Italian individual holder of the Notes engaged in entrepreneurial activities to which the Notes are effectively connected, or a permanent establishment in Italy of non-Italian resident entity to which the Notes are effectively connected, would be included in the relevant taxable income base of the holder of the Notes (and, in certain cases, depending on the "status" of such holder of the Notes, may also be included in its taxable base for IRAP purposes) and therefore would be subject to general Italian corporate taxation, or to personal income taxation (as business income), as the case may be, according to the ordinary rules

Capital gain realised upon the transfer of the Notes by an Italian resident Noteholder who is (i) an individual not holding the Notes in connection with an entrepreneurial activity, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, would be subject to an *imposta sostitutiva* pursuant to Decree 461 levied at the rate of 26% (the "**CGT**"). Under some conditions and limitations, Noteholders may set off losses with gains. In respect of the application of the CGT, taxpayers may opt for one of the three regimes described below:

- (a) Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for taxation of capital gains realised by Noteholders under (i) to (iii) above, the CGT on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains, net of any offsettable capital loss, realised by the relevant Noteholder pursuant to all transfers of the Notes carried out during any given tax year. The Noteholders must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in their annual tax return and pay CGT on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.
- (b) As an alternative to the tax declaration regime, Italian resident Noteholders under (i) to (iii) above may elect to pay the CGT separately on capital gains realised on each transfer of the Notes (the *risparmio amministrato* regime provided for by Article 6 of Decree 461. Such separate taxation of capital gains is allowed subject to (a) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries and (b) an express election for the *risparmio amministrato* regime being made timely in writing by the relevant Noteholder. The depository is responsible for accounting for CGT in respect of capital gains realised on each transfer of the Notes, net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *risparmio amministrato* regime, where a transfer of the Notes results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Noteholder is not required to declare the capital gains in the annual tax return.
- (c) Capital gains realised or accrued by Italian resident Noteholders who have entrusted the management of their financial assets, including the Notes, to an authorised intermediary and have opted for the so-called *risparmio*

⁹ According to Article 68, paragraph 7 of TUIR, "income from capital" accrued and included in the redemption amount or sale price of bonds must be excluded from the computation of capital gains ("*redditi diversi*") since it is taxed as "income from capital" deemed to be realised upon redemption or sale.

gestito regime provided by Article 7 of Decree 461 will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26% substitute tax, to be paid by the managing authorised intermediary. Under this *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Noteholder is not required to declare the capital gains realised in the annual tax return.

Any capital gains realised by a Noteholder who is an Italian Pension Fund will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20% substitute tax.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity, social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 and pension fund subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005 may be exempt from Italian capital gain taxes, including the CGT, on capital gains realised upon sale or redemption of the Notes if the Notes are included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1, paragraphs 100-114 of Law No. 232 of 11 December 2016, as subsequently amended, Article 1, paragraphs 211-215 of Law No. 145 of 30 December 2018, as subsequently amended, Article 13-*bis* of Law Decree No. 124 of 26 October 2019, as subsequently amended and supplemented, and Article 1, paragraphs 219-226 of Law No. 178 of 30 December 2020.

Any capital gains realized by a Noteholder which qualifies as a Real Estate Fund or a Real Estate SICAF are not taxable at the level of such entity. Please refer also in respect of such entities to section “*Tax treatment of the Notes*”, paragraph “*Tax treatment of Interest — Italian resident Noteholders*” above.

Any capital gains realized by a Noteholder which qualifies as a Fund, a SICAV and a Non-Real Estate SICAF is subject neither to CGT nor to any other income tax in the hands of the above entities. Please refer in respect of such entities to section “*Tax treatment of the Notes*”, paragraph “*Tax treatment of Interest — Italian resident Noteholders*” above.

Non-Italian resident Noteholders

The CGT may in certain circumstances be due on capital gains realized upon sale for consideration or redemption of the Notes by non-Italian resident holders of the Notes without a permanent establishment in Italy to which the Notes are effectively connected, if the Notes are held in Italy.

However, capital gains, realised by non-Italian resident holders of the Notes without a permanent establishment in Italy to which the Notes are effectively connected, are not qualified as Italian source income according to Article 23, paragraph 1, letter f) of TUIR and therefore are not subject to any Italian income tax, if the Notes are listed in regulated markets. In this respect, the Italian tax authorities have recently clarified (see Circular Letter No. 32 of 23 December 2020) that a multilateral trading facility (MTF) is considered a regulated market for IRES purpose.

If the Notes are not listed on a regulated market, according to Article 5, paragraph 5 of Decree 461, non-Italian resident holders of the Notes without a permanent establishment in Italy to which the Notes are effectively connected are not subject to Italian CGT on capital gains realized upon the transfer of the Notes, provided that they are (i) resident in a White Listed Country or (ii) institutional investors incorporated in a White Listed Country, even if they do not possess the status of taxpayer in their own country or (iii) international bodies and organizations set up in accordance with international agreements which have entered into force in Italy or (iv) Central Banks or entities which manage, *inter alia*, the official reserves of a foreign State. In order to benefit from the exemption, non-Italian resident holders of the Notes are required to file appropriate documentation stating their entitlement to it.

In addition, capital gains realised upon the transfer of Notes by non-Italian resident holder of the Notes without a permanent establishment in Italy to which the Notes are effectively connected, who may benefit from a double

taxation treaty with Italy providing that capital gains realised upon the transfer of Notes are to be taxed only in the country of tax residence of the recipient, would not be subject to the CGT in Italy.

Other Italian Tax Provisions

Inheritance and gift taxes

According to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, as subsequently amended, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are generally taxed as follows:

- (i) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4% on the value of the inheritance or the gift exceeding, for each beneficiary, Euro 1,000,000;
- (ii) transfers in favour of relatives up to the fourth degree or relatives-in-law of a direct lineage or after relatives-in-law of a collated lineage up to the third degree are subject to an inheritance and gift tax applied at a rate of 6% on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6% inheritance and gift tax on the value of the inheritance or the gift exceeding, for each beneficiary, Euro 100,000; and
- (iii) any other transfer, in principle, is subject to an inheritance and gift tax applied at a rate of 8% on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax is levied at the rate, mentioned above in (i), (ii) and (iii) on the value exceeding, for each beneficiary, Euro 1,500,000.

Under Article 1, paragraph 114) of Law No. 232 of 11 December 2016, as subsequently amended, the mortis causa transfer of financial instruments included in a long-term savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements set forth in Article 1, paragraphs 100-114, Article 1, paragraphs 211-215 of Law No. 145 of 30 December 2018, as subsequently amended, Article 13-*bis* of Law Decree No. 124 of 26 October 2019 and Article 1, paragraphs 219-226 of Law No. 178 of 30 December 2020 are exempt from inheritance taxes.

Registration Tax

Contracts relating to the transfer of the Notes are subject to the registration tax as follows:

- (i) public deeds and notarised deeds (*atti pubblici e scritture private autenticate*) are subject to fixed registration tax at rate of Euro 200;
- (ii) non notarized private deeds (*scritture private non autenticate*) are subject to a fixed registration tax of Euro 200 in case of voluntary registration or if the so-called “*caso d'uso*” or “*enunciazione*” occur.

If the contracts relating to the transfer of the Notes also include other clauses or provisions with economic content, additional Italian registration tax may be due, up to 3%.

Stamp duty (“*imposta di bollo*”) on the Notes

Pursuant to Article 7 of the Table attached to Italian Presidential Decree No. 642 of 26 October 1972 (“**Decree No. 642**”) no Italian stamp duty (“*imposta di bollo*”) is payable on the issuance of the Notes.

According to Article 13 of the Tariff, Part I, attached to the Presidential Decree 26 October 1972, no. 642, as amended, a proportional stamp duty applies on a yearly basis to the periodic reporting communications sent by financial intermediaries to their clients for the securities deposited therewith. The stamp duty applies at a rate of 0.20% on the market value or, if no market value is available, on the nominal value or the redemption amount of the securities (but cannot exceed Euro 14,000 for investors other than individuals).

Based on the wording of the Italian Law Decree No. 201 of 6 December 2011, converted into Law No. 214 of 22 December 2011 and of the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to investors that qualify as clients (as defined in the regulations issued by the Bank of Italy on 20 June 2012) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory. The communication is deemed to be sent to the clients at least once a year, even for instruments for which it is not mandatory (in such respect, see Ruling No. 376 published by the Italian Tax Authorities on 10 September 2019).

Tax Monitoring Obligations

Italian resident individuals, non-commercial entities and non-commercial partnerships, including *società semplici* or similar partnerships pursuant to article 5 of the TUIR, are, in certain circumstances, required to report in their yearly income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return), according to Law Decree No. 167 of 28 June 1990 converted into law by Law Decree No. 227 of 4 August 1990, as amended from time to time, for tax monitoring purposes, the amount of Notes held abroad during each tax year. The requirement applies also where the persons above, being not the direct holder of the financial instruments, are the actual owner of the instrument.

The above mentioned reporting is not required with respect to Notes deposited for management with qualified Italian financial intermediaries and to contracts entered into through their intervention, provided that the items of income derived from such contracts and the Notes have been subjected to Italian withholding or substitute tax by such intermediaries.

Wealth Tax on securities deposited abroad (IVAFE)

According to Article 19, paragraph 18 of Decree 201, as subsequently amended and supplemented, Italian resident individuals, non-commercial entities and non-commercial partnerships including *società semplici* or similar partnerships pursuant to article 5 of the TUIR, holding the Notes outside the Italian territory are subject to a wealth tax (*imposta sul valore delle attività finanziarie detenute all'estero* - "IVAFE") at a rate of 0.20% for each year. The maximum amount due is set at Euro 14,000 for Noteholders other than individuals.

IVAFE is calculated on the market value of the financial assets held outside the Italian territory at the end of the relevant year or, if no market value is available, on their nominal value or redemption value. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the IVAFE due).

SALE AND OFFER OF THE NOTES

General

In connection with the Offering, Equita S.I.M. S.p.A. as placement agent (the “**Placement Agent**”) has, according to Article 2.4.3 of the trading rules of Borsa Italiana, been appointed by the Issuer to offer and display the Notes for sale on the MOT. Furthermore, the Placement Agent has been appointed by the Issuer to act as the specialist (the “**Specialist**”). The Specialist may act in a market-making capacity by effecting purchases of the Notes on the secondary market with a view to supporting the liquidity of the Notes. Purchases effected by the Specialist may be made at prices which, within a range set by Borsa Italiana, may be higher than the price that would otherwise prevail. The Specialist’s market-making activities will be done in compliance with all quantity- and duration-related requirements set forth by Borsa Italiana. The fees payable to the Placement Agent in connection with the structuring and placement of the Offering will be equal overall to 1.0 per cent. of the total principal amount of the Notes issued pursuant to offers to purchase the Notes (“**Purchase Offers**”). In any case the fees are subject to a minimum total amount of €1,300,000. In addition to the foregoing, the Issuer may grant to the Placement Agent an additional fee (“**Additional Fee**”) up to a maximum amount of €750,000. The Placement Agent considers its clients to be each of the Issuer and potential investors in the Notes. The Placement Agent and its affiliates have provided from time to time, and expect to provide in the future, investment services to the Issuer or its affiliates, for which the Placement Agent and its affiliates have received or will receive customary fees and commissions. In addition, in the ordinary course of their business activities, the Placement Agent and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or its affiliates. Typically, the Placement Agent and its affiliates would hedge and do hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes. Any such short positions could adversely affect future trading prices of the Notes. The Placement Agent and its affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. There are no interests of natural and legal persons other than the Issuer and the Placement Agent involved in the issue of the Notes, including conflicting ones that are material to the issue.

Offering of the Notes

Offering Amount

Subject to the Minimum Offer Condition, the Issuer is offering for subscription and listing and admission to trading on the MOT a minimum of €130,000,000 aggregate principal amount of the Notes (the “**Minimum Offer Amount**”) and a maximum of €150,000,000 aggregate principal amount of the Notes (the “**Maximum Offer Amount**”). The Maximum Offer Amount may be reduced by the Issuer prior to the Launch Date. If the Maximum Offer Amount is reduced below €150,000,000 the Issuer will publish a notice specifying the revised Maximum Offer Amount on the Issuer’s Website, the Euronext Dublin Website and released through the SDIR-NIS system of Borsa Italiana. Moreover, in such a case a supplement to this Prospectus will be published by the Issuer in accordance with Article 23 of the Prospectus Regulation.

For the purpose of this section “**Minimum Offer Condition**” shall occur if, at the expiration of the Offering Period, Purchase Offers have not been placed sufficiently for the sale of at least the Minimum Offer Amount, the Offering will be withdrawn.

Pricing Details

The Notes will be issued at a price of 100 per cent. of their principal amount (the “**Issue Price**”).

Disclosure of the Interest Rate, Yield, Redemption Prices and the Results of the Offering

The interest rate (which shall not be less than the Minimum Interest Rate) will be determined on the basis of the tenor of the Notes, the yield and the demand by investors in the course of the determination of the conditions (the bookbuilding procedure) prior to the start of the Offering Period. In the course of the bookbuilding procedure, the Placement Agent will accept within a limited period of time indications of interest in subscribing for the Notes from investors, including credit spreads usually within a predetermined spread range. Subsequently, the Placement Agent will determine, in consultation with the Issuer and based on, among other things, the quantity and quality of the expressions of interest received from Investors during the book-building procedure, the interest rate (coupon), the final yield and the redemption prices (expressed as a percentage of the principal amount on the redemption date, plus accrued and unpaid interest and additional amounts, if any, to the relevant redemption date). The interest rate of the Notes (which shall not be less than the Minimum Interest Rate), the yield and the minimum prices will be set out in the Interest Rate, Yield and Redemption Prices Notice, which will be filed with the CBI and published on the Issuer's Website (<https://www.wiit.cloud/en>), the Euronext Dublin Website (<https://live.euronext.com/>) and released through the SDIR-NIS system of Borsa Italiana prior to the start of the Offering Period.

The aggregate principal amount of the Notes and the proceeds of the Offering will be set out in the Offering Results Notice which will be filed with the CBI and published on the Issuer's Website (<https://www.wiit.cloud/en>), the Euronext Dublin Website (<https://live.euronext.com/>) and released through the SDIR-NIS system of Borsa Italiana no later than the second business day after the end of the Offering Period. No trading in the Notes will start before the Offering Results Notice is published as set out above.

Conditions of the Offering

Except for the Minimum Offer Condition, the Offering is not subject to any conditions.

Subscription rights for the Notes will not be issued. Therefore, there are no procedures in place for the exercise of any right of pre-emption, the negotiability of subscription rights and the treatment of subscription rights not exercised.

The Investors will be required to remit payment in exchange for the issuance of the Notes for which they have placed Purchase Offers on the Issue Date, which will initially be 7 October 2021. In the case of an extension of the Offering Period the Issue Date will be the fifth business day following the closure of the Offering Period. Notwithstanding any early closure of the Offering, the Notes will be issued on the original Issue Date (7 October 2021).

The Offering Period is an approximate period and has been determined by the Issuer. The Issuer expressly reserves the right to postpone or extend the Offering Period or modify the Launch Date and/or the Offering Period End Date in agreement with the Placement Agent by giving due notice to the CBI, Euronext Dublin and Borsa Italiana through the publication of a supplement to this Prospectus (a "**Supplement**") (as such postponement or extension will be a significant new factor, as defined in Article 23 of the Prospectus Regulation) and, by way of a notice published on the Issuer's Website, the Euronext Dublin Website and released through the SDIR-NIS system of Borsa Italiana, to the general public. Any notice of postponement or modification of the Offering Period will be given no later than the business day prior to the Launch Date. If, following the Launch Date and before the Offering Period End Date, the Notes have not been placed for an amount equal to the Maximum Offer Amount or the Minimum Offer Amount because of the market conditions and the Issuer decides to extend the Offering Period in agreement with the Placement Agent, a notice of extension of the Offering Period will be published before the last day of the Offering Period.

If, during the Offering Period, Purchase Offers exceed the Maximum Offer Amount, the Placement Agent, in agreement with the Issuer, will close the Offering prior to the expiration of the Offering Period, and all Purchase Offers in excess of the Maximum Offer Amount will not be executed. The Issuer will promptly communicate an early closure of the Offering Period to the CBI and Borsa Italiana and, by way of a notice published on the Issuer's Website, to the general public.

The Issuer and the Placement Agent expressly reserve the right to withdraw the Offering at any time prior to 16:45 (CET) on the Offering Period End Date and (ii) shall withdraw the Offering, if Purchase Offers are lower than the Minimum Offer Amount. The Issuer will promptly communicate a withdrawal of the Offering to the CBI, Euronext Dublin and Borsa Italiana, and, subsequently, to the general public, by way of a dedicated notice published on the Issuer's Website, the Euronext Dublin Website and released through the SDIR-NIS system of Borsa Italiana.

The Placement Agent, in agreement with the Issuer, expressly reserves the right to cancel the launch of the Offering at any time between the date of this Prospectus and the Launch Date or to withdraw the Offering at any time after the Launch Date and before 16:45 (CET) on the Offering Period End Date in the case of (i) any extraordinary change in the political, financial, economic, regulatory, currency or market situation of the markets in which the Group operates which could have a materially adverse effect on the Offering, or the economic, financial and/or management conditions of the Issuer and/or the Group or on their business activities, or (ii) any act, fact, circumstance, event, opposition or any other extraordinary situation which has not yet occurred at the date of this Prospectus which may have a materially adverse effect on the Offering, or the economic, financial and/or management conditions of the Issuer and/or the Group or on their business activities. If the launch of the Offering is cancelled or the Offering is withdrawn, the Offering itself and all submitted Purchase Offers will be deemed cancelled. Prompt notice of any decision to cancel the launch of the Offering or withdraw the Offering after the Launch Date will be communicated to the CBI, Euronext Dublin and Borsa Italiana and, by way of a notice published on the Issuer's Website, the Euronext Dublin Website and released through the SDIR-NIS system of Borsa Italiana, to the general public.

If, prior to the Issue Date, Borsa Italiana has failed to set the the start date of official trading of the Notes on the MOT (the "**MOT Trading Start Date**"), the Offering will be automatically withdrawn by giving notice to the CBI, Euronext Dublin and, no later than the day after notice has been given to the CBI and Euronext Dublin by notifying the general public by way of a notice published on the Issuer's Website, the Euronext Dublin Website and released through the SDIR-NIS system of Borsa Italiana.

The Placement Agent and its affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer, consistent with their customary risk management policies. Typically, the Placement Agent and its affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in the Issuer's securities, including potentially the Notes offered hereby. Any such short positions could adversely affect future trading prices of the Notes offered hereby. The Placement Agent and its affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. In particular, the Placement Agent will receive a commission (as further described in "*Sale and Offer of the Notes*").
