After this time, (1) the next Scheduled Trading Day which is not a Disrupted Day (up to the eighth) shall be deemed to be the Valuation Date; and (2) the Determination Agent will make the relevant determination by estimating the price of the Affected Share that would have prevailed on such Scheduled Trading Day. In respect of each Share not affected by the occurrence of a Disrupted Day, the Valuation Date shall be the Scheduled Valuation Date.
Unlawfulness or Impracticability	The Issuer may redeem or cancel the Securities by giving notice to Securityholders if it determines that, as a result of certain extrinsic factors, the performance by the Issuer or any of its Affiliates of any obligation under the Securities is or will become unlawful or impracticable. Limb (b) in respect of the Issuer's and/or Affiliate's Hedge Positions is applicable. See the General Conditions for more details.
Non-compliance with Benchmarks Regulation:	If, in respect of the Securities, it (i) is or would be unlawful at any time under Regulation (EU) 2016/1011 of 8 June 2016 and amending directives 2008/48/EC and 2014/17/EU and Regulation (EU) 596/2014 (as may be amended from time to time, the Benchmarks Regulation) or (ii) would contravene any applicable licensing requirements, in each case, for the Determination Agent or Issuer (as applicable) to make a determination or carry out some other action which it would otherwise be obliged to do under the terms and conditions of the Securities, then the Determination Agent and the Issuer (as applicable) shall not be obliged to make such determination or carry out such other action and shall be excused performance thereof without incurring any liability whatsoever to Securityholders.
Notices	The Issuer or Determination Agent shall give notice to the Securityholders of any adjustment, redemption or cancellation as soon as practicable following the occurrence of the event triggering such adjustment, redemption and cancellation. Failure by the Issuer or Determination Agent to publish or give notice shall not affect the validity or effectiveness of any such adjustment, redemption and cancellation.

RISK FACTORS

THESE RISK FACTORS HIGHLIGHT ONLY SOME OF THE RISKS OF THE PRODUCT DESCRIBED IN THIS DOCUMENT (THE "PRODUCT") AND MUST BE READ IN CONJUNCTION WITH THE RISK FACTOR SECTIONS IN THE PROSPECTUS. INVESTORS MUST BE CAPABLE OF ASSESSING AND UNDERSTANDING THE RISKS OF INVESTING IN THE PRODUCT. WHERE A POTENTIAL INVESTOR DOES NOT UNDERSTAND OR WOULD LIKE FURTHER INFORMATION ON THE RISKS OF THE PRODUCT, THE POTENTIAL INVESTOR SHOULD SEEK PROFESSIONAL ADVICE BEFORE MAKING ANY INVESTMENT DECISION.

NO GOVERNMENT OR OTHER PROTECTION	THIS PRODUCT IS NOT PROTECTED BY THE FINANCIAL SERVICES COMPENSATION SCHEME or any other government or private protection scheme.
BARCLAYS FINANCIAL STANDING	INVESTORS ARE EXPOSED TO BARCLAYS' FINANCIAL STANDING. If Barclays becomes insolvent, Barclays may not be able to make any payments under the Product and investors may lose their capital invested in the Product. A decline in Barclays' financial standing is likely to reduce the market value of the Product and therefore the price an investor may receive for the Product if they sell it in the market.
CREDIT RATINGS	CREDIT RATINGS MAY BE LOWERED OR WITHDRAWN WITHOUT NOTICE. A rating is not a recommendation as to Barclays' financial standing or an evaluation of the risks of the Product.
VOLATILITY	THE PERFORMANCE OF THIS PRODUCT MAY CHANGE UNPREDICTABLY. This unpredictable change is known as "volatility" and may be influenced by the performance of any underlying asset as well as external factors including financial, political and economic events and other market conditions.
CAPITAL AT RISK	THE CAPITAL INVESTED IN THIS PRODUCT IS AT RISK. Investors may receive back less than the capital invested in the Product.
CAPITAL AT RISK ON EARLY SETTLEMENT	THE PRODUCT MAY BE REDEEMED OR CANCELLED BEFORE ITS SCHEDULED MATURITY DATE OR EXPIRY DATE. IF THE PRODUCT IS REDEEMED EARLY OR CANCELLED, INVESTORS MAY RECEIVE BACK LESS THAN THEIR ORIGINAL INVESTMENT IN THE PRODUCT, OR EVEN ZERO. The amount payable to an investor on an early redemption or cancellation may factor in Barclays' costs of terminating hedging and funding arrangements associated with the Product.
SELLING RISK	AN INVESTOR MAY NOT BE ABLE TO FIND A BUYER FOR THE PRODUCT SHOULD THE INVESTOR WISH TO SELL THE PRODUCT. If a buyer can be found, the price offered by that buyer may be lower than the price that an investor paid for the Product or the amount an investor would otherwise receive at the maturity or expiry of the Product.
BAIL-IN RISK	The EU Directive establishing a framework for the recovery and resolution of credit institutions and investment firms (the "**BRRD**") was published in the EU Official Journal on 12 June 2014. The BRRD gives certain powers under a "bail-in tool" to national supervisory authorities with respect to certain institutions (which could include the Issuer) in circumstances where a national supervisory authority has determined that such an institution is likely to fail. In the United Kingdom, the majority of the requirements of the BRRD have been implemented into national law in the Banking Act, including the introduction of the bail-in tool as of 1 January 2015. The Banking Act confers substantial powers on a number of UK authorities designed to enable them to take a range of actions in relation to UK banks and certain of their Affiliates in the event a bank in the same group is considered to be failing or likely to fail. This bail-in tool includes the ability to cancel all or part of the principal and/or interest of any unsecured liabilities or to convert certain debt claims into equity or other securities of the issuer or another person. These powers could be exercised in respect of the Securities. As a result, the exercise of any resolution power or any suggestion of any such exercise could materially adversely affect the value of the Securities and could lead to the investors losing some or all of the value of their investment in the Securities.
NO INVESTMENT IN OR RIGHTS TO UNDERLYING ASSETS	AN INVESTMENT IN THE PRODUCT IS NOT THE SAME AS AN INVESTMENT IN THE UNDERLYING ASSETS REFERENCED BY THE PRODUCT. An investor in the Product has no ownership of, or rights to, the underlying assets referenced by the Product. The

market value of the Product may not reflect movements in the price of such underlying assets. Payments made under the Product may differ from payments made under the underlying assets.

ADJUSTMENTS

THE TERMS OF THE PRODUCT MAY BE ADJUSTED BY BARCLAYS UPON CERTAIN EVENTS TAKING PLACE WHICH IMPACT THE UNDERLYING ASSETS, INCLUDING MARKET DISRUPTION EVENTS.

SMALL HOLDINGS

SMALL HOLDINGS MAY NOT BE TRANSFERABLE. Where the Product terms specify a minimum tradable amount, investors will not be able to sell the Product unless they hold at least such minimum tradable amount.

INTEREST RATE RISK

INVESTORS IN THE PRODUCT WILL BE EXPOSED TO INTEREST RATE RISK. Changes in interest rates will affect the performance and value of the Product. Interest rates may change suddenly and unpredictably.

PAYMENTS

PAYMENTS FROM BARCLAYS MAY BE SUBJECT TO DEDUCTIONS FOR TAX, DUTY, WITHHOLDING OR OTHER PAYMENTS REQUIRED BY LAW.

OVER-ISSUANCE

THE ISSUER MAY ISSUE MORE SECURITIES THAN THOSE WHICH ARE TO BE INITIALLY SUBSCRIBED OR PURCHASED BY INVESTORS. The Issuer (or the Issuer's affiliates) may hold such Securities for the purpose of meeting any future investor interest or to satisfy market making requirements. Prospective investors in the Securities should not regard the issue size of any Series as indicative of the depth or liquidity of the market for such Series or of the demand for such Series.

OTHER RISKS

THIS DOCUMENT CANNOT DISCLOSE ALL POSSIBLE RISKS OF THE PRODUCT. Before investing, investors must be satisfied that they have sufficient information and understand the risks related to the Product so as to make an informed investment decision. If investors are uncertain as to whether they have sufficient information, they should seek independent professional advice before investing.

FOREIGN EXCHANGE RISK

INVESTORS ARE EXPOSED TO FOREIGN EXCHANGE RISK. Foreign exchange rates may change suddenly and unpredictably. Changes in the exchange rate between an investor's home currency and the Product currency or settlement currency may impact the performance of the Product and an investor's return.

LEVERAGE

THIS PRODUCT MAY BECOME LEVERAGED. Leverage increases the investor's exposure to the underlying assets referenced by the Product and amplifies the investor's losses and gains.

INTERACTION RISK

THIS PRODUCT COMBINES DIFFERENT FINANCIAL COMPONENTS AND EXPOSURES WHICH MAY INTERACT UNPREDICTABLY AND COULD AFFECT THE PERFORMANCE OF THE PRODUCT.

PERFORMANCE OF SHARES

THE PERFORMANCE OF SHARES IS UNPREDICTABLE. It depends on financial, political, economic and other events as well as the share issuers' earnings, market position, risk situation, shareholder structure and distribution policy.

SHARE ISSUER ACTION

THE SHARE ISSUER IS NOT INVOLVED IN THE PRODUCT. The issuer of the shares may take actions that adversely affect the value and performance of the Product.

PHYSICAL DELIVERY

THE SHARES MAY BE PHYSICALLY DELIVERED. Where shares are physically delivered to an investor, the value of such shares when sold by such investor may be less than the investor's original investment in the Product or the value of the Product on redemption or cancellation.

DISRUPTED DAYS

IF THE DETERMINATION AGENT DETERMINES THAT A DISRUPTED DAY HAS OCCURRED THIS MAY CHANGE THE SCHEDULED DATE OF THE VALUATION AND REDEMPTION OR CANCELLATION OF THE PRODUCT. The events giving rise to Disrupted Days are described in the Prospectus.

INTEREST OR COUPON LINKED TO ONE OR MORE UNDERLYING ASSET(S)

The Securities may bear interest at a rate that is contingent upon the performance of one or more Underlying Asset(s) and may vary from one interest payment date to the next. The interest rate reflected by any given interest payment may be less than the rate that the Issuer (or any other bank or deposit-taking institution) may pay in respect of fixed rate Securities for an equivalent period and the relevant interest payment may be as low as zero. If interest payments are contingent upon the performance of one or more Underlying Asset(s), the investor should be aware of the risk that they may not receive any interest payments if the Underlying Asset(s) do not meet the performance criteria.

'MEMORY' INTEREST OR COUPON FEATURE	The payment of interest or coupon will be conditional on the value or performance of the Underlying Asset. The interest or coupon amount payable will be zero on an interest or coupon payment date if the Underlying Asset does not perform in accordance with the terms of the Securities. If the Underlying Asset meets the performance criteria on a future date, the interest or coupon payable will be an amount for the current interest or coupon payment date plus any amounts from previous interest or coupon payment dates where interest or coupon was not paid. The investor will not be paid any interest or coupon or other allowance for the deferred payments of interest or coupon and it is possible that the Underlying Asset never meets the performance criteria, meaning that the investor will not receive any interest or coupon at all for the lifetime of the Securities.
'CAP'	The ability to participate in any positive change in the value of the Underlying Asset(s) (or any positive change in floating interest rates) will be limited, no matter how much the level, price or other value of the Underlying Asset(s) (or floating interest rates) rises above the cap level over the life of the Securities. Accordingly, the value of or return on the Securities may be significantly less than if the investor had purchased the Underlying Asset(s) (or invested in instruments which pay an uncapped floating rate of interest) directly.
A BASKET OF UNDERLYING ASSET(S)	The investor will be exposed to the performance of each Underlying Asset in the basket and should refer to the relevant risk factors in this section relating to each of the asset classes represented. The investor should also consider the level of interdependence or 'correlation' between each of the basket constituents with respect to the performance of the basket. If the Underlying Asset(s) are correlated, the performance of the Underlying Asset(s) in the basket can be expected to move in the same direction. The performance of basket constituents may be moderated or offset by one another. This means that, even in the case of a positive performance of one or more constituents, the performance of the basket as a whole may be negative if the performance of the other constituents is negative to a greater extent.
'WORST-OF' FEATURE	The investor will be exposed to the performance of the Underlying Asset(s) which has the worst performance, rather than the basket as a whole. This means that, regardless of how the other Underlying Asset(s) perform, if the worst performing Underlying Asset in the basket fails to meet a relevant threshold or barrier for the payment of interest or the calculation of any redemption amount, the investor might receive no interest payments or return on the initial investment and could lose some or all of the investment.
'BARRIER' FEATURE	The calculation of interest or coupon or the calculation of any settlement amount depends on the level, value or price of the Underlying Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities, therefore such interest or coupon or settlement amount may alter dramatically depending on whether the barrier is reached or crossed (as applicable). This means the investor may receive less (or, in certain cases, more) if the level, value or price of the Underlying Asset(s) crosses or reaches (as applicable) a barrier, than if it comes close to the barrier but does not reach or cross it (as applicable), and in certain cases the investor might receive no interest or coupon payments and/or could lose some or all of the investment.
FINAL PERFORMANCE	The Securities determine the settlement amount based on the performance of the Underlying Asset(s) as at the final valuation date only (rather than in respect of multiple periods throughout the term of the Securities) therefore the investor may not benefit from any movement in level, value or price of the Underlying Asset(s) during the term of the Securities that is not maintained in the final performance.

AUTOCALL	The terms of your Securities provide that they will be automatically redeemed prior to the scheduled redemption date if an automatic redemption (autocall) event occurs. An automatic redemption (autocall) event will occur if the level, price, value or performance of the Underlying Asset(s) breaches one or more specified thresholds on one or more specified dates. In the event that such an automatic redemption (autocall) event occurs, you will be paid an early redemption amount equal to the Calculation Amount. In such case, you may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest rate for a similar level of risk. You should consider such reinvestment risk in light of other available investments before you purchase the Securities. In the event that an automatic redemption (autocall) event does not occur during the term of your Securities, you may lose some or all of your investment at maturity, depending on the performance of the Underlying Asset(s) and the specific terms and conditions of your Securities.

14 febbraio 2028	Data di rimborso

Estinzione alla data di rimborso: Nel caso in cui il prodotto non si sia estinto anticipatamente, alla **data di rimborso**, l'investitore riceverà:

1. nel caso in cui il **prezzo di riferimento finale** del **sottostante con performance peggiore** sia pari o superiore al relativo **prezzo della barriera**, un pagamento in denaro di importo pari a 100 EUR; o
2. nel caso in cui il **prezzo di riferimento finale** del **sottostante con performance peggiore** sia inferiore al relativo **prezzo della barriera**, un pagamento in denaro il cui importo sarà direttamente collegato alla performance del **sottostante con performance peggiore**. L'importo di tale pagamento in denaro sarà pari a (i) l'**ammontare nominale del prodotto** per (ii) (A) il **prezzo di riferimento finale** del **sottostante con performance peggiore** diviso per (B) il relativo **prezzo di esercizio**.

Ai sensi dei termini e condizioni del prodotto, alcune delle date sotto e sopra specificate saranno modificate nel caso in cui non cadano in un giorno lavorativo o in un giorno di negoziazione (a seconda dei casi). Ogni modifica potrebbe avere un impatto sul rendimento del prodotto, ove esistente.

I termini e le condizioni del prodotto prevedono inoltre che nel caso in cui si verifichino alcuni eventi straordinari (1) potrebbero essere effettuati degli aggiustamenti sul prodotto e/o (2) l'emittente potrebbe estinguere anticipatamente il prodotto. Tali eventi sono specificati nei termini e nelle condizioni del prodotto e riguardano principalmente i **sottostanti**, il prodotto e l'emittente. Nel caso in cui si verifichi tale estinzione anticipata, è probabile che il rendimento (ove esistente), sia diverso da quello indicato negli scenari sopra descritti e potrebbe essere inferiore al capitale investito.

All'acquisto di questo prodotto nel corso della sua durata, il prezzo di acquisto potrebbe includere le cedole maturate su base proporzionale.

L'investitore non ha alcun diritto di riscuotere dei dividendi derivanti da qualsiasi **sottostante** né di qualsiasi ulteriore diritto connesso a tale **sottostante** (ad es. i diritti di voto).

Investitori al dettaglio a cui si intende commercializzare il prodotto

Il prodotto è destinato ad essere offerto agli investitori al dettaglio che soddisfino tutti i requisiti di seguito riportati:

1. abbiano la capacità di prendere decisioni d'investimento consapevoli attraverso la conoscenza sufficiente e la comprensione del prodotto e degli specifici rischi e benefici ad esso associati, indipendentemente oppure avvalendosi di una consulenza professionale, con esperienza negli investimenti in prodotti simili e/oppure nella detenzione dei prodotti simili che forniscono una simile esposizione al mercato;
2. mirino ad un profitto, si aspettino un andamento dei sottostanti tale da generare un rendimento positivo e abbiano un orizzonte temporale di investimento medio e siano consapevoli che il prodotto si potrebbe estinguere anticipatamente;
3. siano in grado di sostenere eventuali perdite superiori al proprio investimento iniziale, coerentemente con il profilo di rimborso del prodotto alla scadenza (rischio di mercato);
4. accettino il rischio che l'emittente possa non essere in grado di pagare o di adempiere ai propri obblighi derivanti dal prodotto, indipendentemente dal profilo di rimborso del prodotto stesso (rischio di credito);
5. al fine di ottenere rendimenti potenziali, siano disposti ad accettare un livello di rischio di 6 su 7, che riflette il rischio secondo più alto (come indicato nell'indicatore sintetico di rischio riportato di seguito che tiene conto sia del rischio di mercato che del rischio di credito).

2. Quali sono i rischi e qual è il potenziale rendimento?

Indicatore di rischio

1	2	3	4	5	**6**	7

Rischio più basso — Rischio più alto

L'indicatore di rischio presuppone che il prodotto sia mantenuto fino al 21 febbraio 2028. Il rischio effettivo può variare in misura significativa in caso di disinvestimento in una fase iniziale e la somma rimborsata potrebbe essere minore. Potrebbe non essere possibile vendere facilmente il prodotto o potrebbe essere possibile vendere soltanto a un prezzo che incide significativamente sull'importo incassato.

L'indicatore sintetico di rischio è un'indicazione orientativa del livello di rischio di questo prodotto rispetto ad altri prodotti. Esso esprime la probabilità che il prodotto subisca perdite monetarie a causa di movimenti sul mercato o a causa della nostra incapacità di pagarvi quanto dovuto.

Abbiamo classificato questo prodotto al livello 6 su 7, che corrisponde alla classe di rischio seconda più alta. Ciò significa che le perdite potenziali dovute alla performance futura dei sottostanti sono classificate nel livello alto, e che è molto improbabile che le cattive condizioni di mercato influenzino la nostra capacità di pagarvi quanto dovuto.

L'inflazione erode il valore di acquisto del denaro nel corso del tempo. Ciò può comportare un calo in termini reali di qualsiasi capitale rimborsato o di qualsiasi interesse che può essere pagato all'investitore nell'ambito dell'investimento.

Questo prodotto non comprende alcuna protezione dalla performance futura del mercato; pertanto potreste perdere il vostro intero investimento o parte di esso.

Nel caso in cui non fossimo in grado di pagarvi quanto dovuto, potreste perdere il vostro intero investimento.

Per informazioni più dettagliate su tutti i rischi relativi al prodotto, si rinvia alle sezioni rischio del prospetto e agli eventuali supplementi al medesimo, come precisato di seguito nella sezione "7. Altre informazioni rilevanti".

Scenari di performance

Il possibile rimborso dipenderà dall'andamento futuro dei mercati, che è incerto e non può essere previsto con esattezza.

Gli scenari riportati sono illustrazioni basate sui risultati passati e su alcune ipotesi. Nel futuro i mercati potrebbero avere un andamento molto diverso.

Periodo di detenzione raccomandato:	**Fino al richiamo o alla scadenza del prodotto** Può essere diverso in ciascuno scenario ed è indicato nella tabella
Esempio di investimento:	10.000 EUR

Scenari		*In caso di uscita dopo 1 anno*	*In caso di uscita per richiamo o alla scadenza*
Minimo	**Non esiste un rendimento minimo garantito. Potreste perdere il vostro intero investimento o parte di esso.**		
Stress (fine del prodotto dopo 4 anni)	**Possibile rimborso al netto dei costi** Rendimento medio per ciascun anno	1.074 EUR -89,26%	994 EUR -43,49%
Sfavorevole (fine del prodotto dopo 4 anni)	**Possibile rimborso al netto dei costi** Rendimento medio per ciascun anno	5.159 EUR -48,41%	2.962 EUR -25,98%
Moderato (fine del prodotto dopo 1 anno)	**Possibile rimborso al netto dei costi** Rendimento medio per ciascun anno	8.638 EUR -13,62%	11.380 EUR 13,25%
Favorevole (fine del prodotto dopo 2 anni e 7 mesi)	**Possibile rimborso al netto dei costi** Rendimento medio per ciascun anno	11.314 EUR 13,14%	13.565 EUR 12,30%

Lo scenario favorevole, lo scenario moderato, lo scenario sfavorevole e quello di stress rappresentano i risultati possibili che sono stati calcolati sulla base di simulazioni che utilizzano la performance passata degli asset di riferimento per un periodo fino a 5 anni. Nel caso di rimborso anticipato, è stato ipotizzato che non si sia verificato alcun reinvestimento. Lo scenario di stress indica quale potrebbe essere l'importo rimborsato in circostanze di mercato estreme. Questo prodotto non è facilmente liquidabile. In caso di uscita da un investimento prima del periodo di detenzione raccomandato potrebbe essere necessario sostenere costi supplementari.

Le cifre riportate comprendono tutti i costi del prodotto in quanto tale, ma possono non comprendere tutti i costi da voi pagati al consulente o al distributore. Le cifre non tengono conto della vostra situazione fiscale personale, che può incidere anch'essa sull'importo del rimborso.

3. Cosa accade nel caso in cui l'ideatore non sia in grado di corrispondere quanto dovuto?

State assumendo il rischio che l'emittente possa non essere in grado di adempiere alle obbligazioni assunte in relazione al prodotto, ad esempio a causa di fallimento o nel caso di una decisione ufficiale per l'avvio di un'azione di risoluzione. Ciò potrebbe avere un impatto negativo significativo sul valore del prodotto e potrebbe comportare la perdita di una parte o dell'intero capitale investito. Il prodotto non è un deposito e pertanto non è coperto da nessun sistema di protezione dei depositi.

4. Quali sono i costi?

La persona che fornisce consulenza sul PRIIP o che lo vende potrebbe addebitare altri costi, nel qual caso fornirà informazioni su tali costi, illustrandone l'impatto sull'investimento.

Andamento dei costi nel tempo

Le tabelle mostrano gli importi prelevati dall'investimento per coprire diversi tipi di costi. Tali importi dipendono dall'entità dell'investimento, dalla durata della detenzione del prodotto e dall'andamento del prodotto. Gli importi sono qui riportati a fini illustrativi e si basano su un importo esemplificativo dell'investimento e su diversi periodi di investimento.

La durata di questo prodotto è incerta in quanto può estinguersi in momenti diversi a seconda dell'evoluzione del mercato. Gli importi qui indicati prendono in considerazione due diversi scenari (richiamo e scadenza anticipata). In caso di uscita prima della conclusione del prodotto, in aggiunta agli importi qui indicati possono essere addebitati costi di uscita.

Si è ipotizzato quanto segue:

- 10.000 EUR di investimento
- performance del prodotto coerenti con ciascun periodo di detenzione indicato.

	Se il prodotto è richiamato alla prima data possibile, il 19 febbraio 2025	*Se il prodotto raggiunge la scadenza*
Costi totali	1.169 EUR	1.169 EUR
Incidenza annuale dei costi*	14,40% ogni anno	3,22% ogni anno

*Dimostra come i costi riducano ogni anno il rendimento nel corso del periodo di detenzione. Ad esempio, se l'uscita avviene alla scadenza, si prevede che il rendimento medio annuo sarà pari al 6,48% prima dei costi e al 3,26% al netto dei costi.

Una parte dei costi può essere condivisa con la persona che vende il prodotto per coprire i servizi che fornisce. L'importo vi verrà comunicato in seguito.

Composizione dei costi

	Costi una tantum di ingresso o di uscita	**In caso di uscita dopo 1 anno**
Costi di ingresso	11,69% dell'importo pagato al momento della sottoscrizione dell'investimento. Questi costi sono già inclusi nel prezzo pagato.	1.169 EUR
Costi di uscita	0,50% del vostro investimento prima che vi venga pagato. Questi costi sono già inclusi nel prezzo che ricevete e sono sostenuti soltanto in caso di uscita prima della scadenza. Nel caso in cui avvenga un'estinzione anticipata o deteniate il prodotto fino alla scadenza, non incorrerete in alcun costo di uscita.	50 EUR

5. Per quanto tempo dovrei detenerlo? Posso ritirare il capitale prematuramente?

Periodo di detenzione raccomandato: 4 anni

Il prodotto è finalizzato a rimborsare l'importo descritto nella sezione "1. Cos'è questo prodotto?". Tuttavia, ciò vale solamente nel caso in cui il prodotto venga detenuto fino alla data di scadenza. Pertanto, si raccomanda di detenerlo fino al 21 febbraio 2028 (data di scadenza).

Questo prodotto non garantisce la possibilità di disinvestimento, se non tramite la vendita del prodotto fuori borsa, qualora vi sia un'offerta per tale prodotto. Salvo diversamente specificato nei costi di uscita (si veda la sezione "4. Quali sono i costi?" di cui sopra), nessuna commissione o penale sarà addebitata dall'emittente per tali transazioni, tuttavia potrebbe essere applicata una commissione di esecuzione da parte dell'intermediario, se del caso. Vendendo il prodotto prima della scadenza, l'investitore potrebbe ricevere un importo inferiore all'importo che si sarebbe ricevuto detenendo il prodotto fino alla data di scadenza.

In caso di condizioni di mercato volatili o eccezionali, o in caso di problemi tecnici/malfunzionamenti, l'acquisto e/o la vendita del prodotto possono essere temporaneamente impediti e/o sospesi o anche risultare del tutto impossibili.
