RISK FACTORS

THESE RISK FACTORS HIGHLIGHT ONLY SOME OF THE RISKS OF THE PRODUCT DESCRIBED IN THIS DOCUMENT (THE "PRODUCT") AND MUST BE READ IN CONJUNCTION WITH THE RISK FACTOR SECTIONS IN THE PROSPECTUS. INVESTORS MUST BE CAPABLE OF ASSESSING AND UNDERSTANDING THE RISKS OF INVESTING IN THE PRODUCT. WHERE A POTENTIAL INVESTOR DOES NOT UNDERSTAND OR WOULD LIKE FURTHER INFORMATION ON THE RISKS OF THE PRODUCT, THE POTENTIAL INVESTOR SHOULD SEEK PROFESSIONAL ADVICE BEFORE MAKING ANY INVESTMENT DECISION.

NO GOVERNMENT OR OTHER PROTECTION	THIS PRODUCT IS NOT PROTECTED BY THE FINANCIAL SERVICES COMPENSATION SCHEME or any other government or private protection scheme.
BARCLAYS FINANCIAL STANDING	INVESTORS ARE EXPOSED TO BARCLAYS' FINANCIAL STANDING. If Barclays becomes insolvent, Barclays may not be able to make any payments under the Product and investors may lose their capital invested in the Product. A decline in Barclays' financial standing is likely to reduce the market value of the Product and therefore the price an investor may receive for the Product if they sell it in the market.
ISSUER CREDIT RISK	INVESTORS WILL BE EXPOSED TO BARCLAYS' CREDIT RISK. If Barclays becomes insolvent it will not be able to make income or principal payments under the Product and in such event the Product may return zero. A decline in Barclays' credit quality is likely to reduce the market value of the Product and therefore the price an investor may receive for the Product if they sell it in the market.
CREDIT RATINGS	CREDIT RATINGS MAY BE LOWERED OR WITHDRAWN WITHOUT NOTICE. A rating is not a recommendation as to Barclays' financial standing or an evaluation of the risks of the Product.
VOLATILITY	THE PERFORMANCE OF THIS PRODUCT MAY CHANGE UNPREDICTABLY. This unpredictable change is known as "volatility" and may be influenced by the performance of any underlying asset as well as external factors including financial, political and economic events and other market conditions.
CAPITAL AT RISK AT MATURITY	THE CAPITAL INVESTED IN THIS PRODUCT IS AT RISK. Investors may receive at maturity of the Product less than the capital invested in the Product.
CAPITAL AT RISK ON EARLY SETTLEMENT / CANCELLATION	THE PRODUCT MAY BE REDEEMED OR CANCELLED BEFORE ITS SCHEDULED MATURITY DATE OR EXPIRY DATE. IF THE PRODUCT IS REDEEMED OR CANCELLED EARLY, INVESTORS MAY RECEIVE BACK LESS THAN THEIR ORIGINAL INVESTMENT IN THE PRODUCT, OR EVEN ZERO. The amount payable to an investor on an early redemption or cancellation may factor in Barclays' costs of terminating hedging and funding arrangements associated with the Product.
SELLING RISK	AN INVESTOR MAY NOT BE ABLE TO FIND A BUYER FOR THE PRODUCT SHOULD THE INVESTOR WISH TO SELL THE PRODUCT. If a buyer can be found, the price offered by that buyer may be lower than the price that an investor paid for the Product or the amount an investor would otherwise receive at the maturity or expiry of the Product.
BAIL-IN RISK	<p>The EU Directive establishing a framework for the recovery and resolution of credit institutions and investment firms (the "BRRD") was published in the EU Official Journal on 12 June 2014. The BRRD gives certain powers under a "bail-in tool" to national supervisory authorities with respect to certain institutions (which could include Barclays Bank PLC as the Issuer) in circumstances where a national supervisory authority has determined that such an institution is likely to fail. In the United Kingdom, the majority of the requirements of the BRRD have been implemented into national law in the Banking Act, including the introduction of the bail-in tool as of 1 January 2015. The Banking Act confers substantial powers on a number of UK authorities designed to enable them to take a range of actions in relation to UK banks and certain of their Affiliates in the event a bank in the same group is considered to be failing or likely to fail.</p> <p>This bail-in tool includes the ability to cancel all or part of the principal and/or interest of any unsecured liabilities or to convert certain debt claims into equity or other securities of the issuer or another person. These powers could be exercised in respect of the Securities.</p>

As a result, the exercise of any resolution power or any suggestion of any such exercise could materially adversely affect the value of the Securities and could lead to the investors losing some or all of the value of their investment in the Securities.

NO INVESTMENT IN OR RIGHTS TO UNDERLYING ASSETS	AN INVESTMENT IN THE PRODUCT IS NOT THE SAME AS AN INVESTMENT IN THE UNDERLYING ASSETS REFERENCED BY THE PRODUCT. An investor in the Product has no ownership of, or rights to, the underlying assets referenced by the Product. The market price of the Product may not reflect movements in the price of such underlying assets. Payments made under the Product may differ from payments made under the underlying assets.
ADJUSTMENTS	THE TERMS OF THE PRODUCT MAY BE ADJUSTED BY BARCLAYS UPON CERTAIN EVENTS TAKING PLACE WHICH IMPACT THE UNDERLYING ASSETS, INCLUDING MARKET DISRUPTION EVENTS.
SMALL HOLDINGS	SMALL HOLDINGS MAY NOT BE TRANSFERABLE. Where the Product terms specify a minimum tradable amount, investors will not be able to sell the Product unless they hold at least such minimum tradable amount.
INTEREST RATE RISK	INVESTORS IN THE PRODUCT WILL BE EXPOSED TO INTEREST RATE RISK. Changes in interest rates will affect the performance and value of the Product. Interest rates may change suddenly and unpredictably.
PAYMENTS	PAYMENTS FROM BARCLAYS MAY BE SUBJECT TO DEDUCTIONS FOR TAX, DUTY, WITHHOLDING OR OTHER PAYMENTS REQUIRED BY LAW.
OVER-ISSUANCE	THE ISSUER MAY ISSUE MORE SECURITIES THAN THOSE WHICH ARE TO BE INITIALLY SUBSCRIBED OR PURCHASED BY INVESTORS. The Issuer (or the Issuer's affiliates) may hold such Securities for the purpose of meeting any future investor interest or to satisfy market making requirements. Prospective investors in the Securities should not regard the issue size of any Series as indicative of the depth or liquidity of the market for such Series or of the demand for such Series.
OTHER RISKS	THIS DOCUMENT CANNOT DISCLOSE ALL POSSIBLE RISKS OF THE PRODUCT. Before investing, investors must be satisfied that they have sufficient information and understand the risks related to the Product so as to make an informed investment decision. If investors are uncertain as to whether they have sufficient information, they should seek independent professional advice before investing.
FOREIGN EXCHANGE RISK	INVESTORS ARE EXPOSED TO FOREIGN EXCHANGE RISK. Foreign exchange rates may change suddenly and unpredictably. Changes in the exchange rate between an investor's home currency and the Product currency or settlement currency may impact the performance of the Product and an investor's return.
LEVERAGE	THIS PRODUCT MAY BECOME LEVERAGED. Leverage increases the investor's exposure to the underlying assets referenced by the Product and amplifies the investor's losses and gains.
INTERACTION RISK	THIS PRODUCT COMBINES DIFFERENT FINANCIAL COMPONENTS AND EXPOSURES WHICH MAY INTERACT UNPREDICTABLY AND COULD AFFECT THE PERFORMANCE OF THE PRODUCT.
PERFORMANCE OF SHARES	THE PERFORMANCE OF SHARES IS UNPREDICTABLE. It depends on financial, political, economic and other events as well as the share issuers' earnings, market position, risk situation, shareholder structure and distribution policy.
SHARE ISSUER ACTION	THE SHARE ISSUER IS NOT INVOLVED IN THE PRODUCT. The issuer of the shares may take actions that adversely affect the value and performance of the Product.
DISRUPTED DAYS	IF THE DETERMINATION AGENT DETERMINES THAT A DISRUPTED DAY HAS OCCURRED THIS MAY CHANGE THE SCHEDULED DATE OF THE VALUATION AND REDEMPTION OR CANCELLATION OF THE PRODUCT. The events giving rise to Disrupted Days are described in the Prospectus.
INTEREST OR COUPON LINKED TO ONE OR MORE UNDERLYING ASSET(S)	The Securities may bear interest at a rate that is contingent upon the performance of one or more Underlying Asset(s) and may vary from one interest payment date to the

next. The interest rate reflected by any given interest payment may be less than the rate that the Issuer (or any other bank or deposit-taking institution) may pay in respect of fixed rate Securities for an equivalent period and the relevant interest payment may be as low as zero. If interest payments are contingent upon the performance of one or more Underlying Asset(s), the investor should be aware of the risk that they may not receive any interest payments if the Underlying Asset(s) do not meet the performance criteria.

'MEMORY' INTEREST OR COUPON FEATURE	The payment of interest or coupon will be conditional on the value or performance of the Underlying Asset. The interest or coupon amount payable will be zero on an interest or coupon payment date if the Underlying Asset does not perform in accordance with the terms of the Securities. If the Underlying Asset meets the performance criteria on a future date, the interest or coupon payable will be an amount for the current interest or coupon payment date plus any amounts from previous interest or coupon payment dates where interest or coupon was not paid. The investor will not be paid any interest or coupon or other allowance for the deferred payments of interest or coupon and it is possible that the Underlying Asset never meets the performance criteria, meaning that the investor will not receive any interest or coupon at all for the lifetime of the Securities.
'CAP'	The ability to participate in any positive change in the value of the Underlying Asset(s) (or any positive change in floating interest rates) will be limited, no matter how much the level, price or other value of the Underlying Asset(s) (or floating interest rates) rises above the cap level over the life of the Securities. Accordingly, the value of or return on the Securities may be significantly less than if the investor had purchased the Underlying Asset(s) (or invested in instruments which pay an uncapped floating rate of interest) directly.
A BASKET OF UNDERLYING ASSET(S)	<p>The investor will be exposed to the performance of each Underlying Asset in the basket and should refer to the relevant risk factors in this section relating to each of the asset classes represented. The investor should also consider the level of interdependence or 'correlation' between each of the basket constituents with respect to the performance of the basket. If the Underlying Asset(s) are correlated, the performance of the Underlying Asset(s) in the basket can be expected to move in the same direction.</p> <p>The performance of basket constituents may be moderated or offset by one another. This means that, even in the case of a positive performance of one or more constituents, the performance of the basket as a whole may be negative if the performance of the other constituents is negative to a greater extent.</p>
'WORST-OF' FEATURE	<p>The investor will be exposed to the performance of the Underlying Asset(s) which has the worst performance, rather than the basket as a whole.</p> <p>This means that, regardless of how the other Underlying Asset(s) perform, if the worst performing Underlying Asset in the basket fails to meet a relevant threshold or barrier for the payment of interest or the calculation of any redemption amount, the investor might receive no interest payments or return on the initial investment and could lose some or all of the investment.</p>
'BARRIER' FEATURE	The calculation of interest or coupon or the calculation of any settlement amount depends on the level, value or price of the Underlying Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities, therefore such interest or coupon or settlement amount may alter dramatically depending on whether the barrier is reached or crossed (as applicable). This means the investor may receive less (or, in certain cases, more) if the level, value or price of the Underlying Asset(s) crosses or reaches (as applicable) a barrier, than if it comes close to the barrier but does not reach or cross it (as applicable), and in certain cases the investor might receive no interest or coupon payments and/or could lose some or all of the investment.
FINAL PERFORMANCE	The Securities determine the settlement amount based on the performance of the Underlying Asset(s) as at the final valuation date only (rather than in respect of multiple periods throughout the term of the Securities) therefore the investor may not benefit

from any movement in level, value or price of the Underlying Asset(s) during the term of the Securities that is not maintained in the final performance.

AUTOCALL

The terms of your Securities provide that they will be automatically redeemed prior to the scheduled redemption date if an automatic redemption (autocall) event occurs. An automatic redemption (autocall) event will occur if the level, price, value or performance of the Underlying Asset(s) breaches one or more specified thresholds on one or more specified dates. In the event that such an automatic redemption (autocall) event occurs, you will be paid an early redemption amount equal to the Calculation Amount. In such case, you may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest rate for a similar level of risk. You should consider such reinvestment risk in light of other available investments before you purchase the Securities. In the event that an automatic redemption (autocall) event does not occur during the term of your Securities, you may lose some or all of your investment at maturity, depending on the performance of the Underlying Asset(s) and the specific terms and conditions of your Securities.
