10. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for

tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

EXAMPLES

THE EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY.

For the purposes of each Example:

- (i) the Optional Redemption Amount (Call) in respect of each Optional Redemption Date (Call) is EUR 100;
- (ii) in respect of each Series, the Issue Price is EUR 100 per Certificate and the Calculation Amount is EUR 100; and
- (iii) in respect of each Series and the Underlying Asset corresponding to such Series, the Barrier Level is 50 per cent. (50%) of the Asset Initial Price of such Underlying Asset.

FIXED COUPON AMOUNT

For the purposes of these Examples only, the Fixed Coupon Amount payable on each Fixed Coupon Payment Date in respect of each Series is deemed to be EUR 0.65. The actual Fixed Coupon Amount payable on each Fixed Coupon Payment Date in respect of each Series will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Coupon Value corresponding to such Series. As a result, the actual Fixed Coupon Amount payable on each Fixed Coupon Payment Date may be a lesser amount than EUR 0.65 as used in the Example.

OPTIONAL REDEMPTION AMOUNT (CALL)

If the Issuer redeems all of the Securities on the Optional Redemption Date (Call) scheduled to fall on December 10, 2024 by giving notice to the Holders on or prior to the corresponding Call Option Notice Date, the Optional Redemption Amount (Call) payable in respect of each Certificate on the Optional Redemption Date (Call) will be EUR 100.

SETTLEMENT AMOUNT

Example 1 – neutral scenario: *The Issuer does not redeem the Securities on an Optional Redemption Date (Call) by giving notice to the Holders on or before the corresponding Call Option Notice Date and the Final Closing Price of the Underlying Asset is 50 per cent. (50%) or more of the Asset Initial Price.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable in respect of each Certificate on the Maturity Date will be 100 per cent. (100%) of the Calculation Amount, i.e., EUR 100.

Example 2 – negative scenario: *The Issuer does not redeem the Securities on an Optional Redemption Date (Call) by giving notice to the Holders on or before the corresponding Call Option Notice Date and the Final Closing Price of the Underlying Asset is 49 per cent. (49%) of the Asset Initial Price.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable in respect of each Certificate on the Maturity Date will be 49 per cent. (49%) of the Calculation Amount, i.e., EUR 49. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a substantial loss of the amount invested in the Certificates (apart from the Fixed Coupon Amounts paid on and prior to the Maturity Date).**

Example 3 – negative scenario: *The Issuer does not redeem the Securities on an Optional Redemption Date (Call) by giving notice to the Holders on or before the corresponding Call Option Notice Date and the Final Closing Price of the Underlying Asset is zero per cent. (0%) of the Asset Initial Price.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement

Amount payable in respect of each Certificate on the Maturity Date will be zero per cent. (0%) of the Calculation Amount, i.e., zero. **In this Example, an investor will sustain a total loss of the amount invested in the Certificates (apart from the Fixed Coupon Amounts paid on and prior to the Maturity Date).**

What are the key risks that are specific to the Issuer?
The Issuer is subject to the following key risks: The payment of any amount due on the Securities is subject to the credit risk of the Issuer. The Securities are the Issuer's unsecured obligations. Investors are dependent on the Issuer's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness. The Securities are not bank deposits, and they are not insured or guaranteed by any compensation or deposit protection scheme. The value of and return on the Securities will be subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness. GSG and its consolidated subsidiaries ("Goldman Sachs") is a leading global investment banking, securities and investment management group and faces a variety of significant risks which may affect the Issuer's ability to fulfil its obligations under the Securities, including market risks, liquidity risks, credit risks, operational risks, legal and regulatory risks, competition risks and market developments and general business environment risks. GSI is a wholly-owned subsidiary of the Goldman Sachs group and a key banking subsidiary of the Goldman Sachs group. As a result, it is subject to a variety of risks that are substantial and inherent in its businesses including risks relating to economic and market conditions, regulation, market volatility, liquidity, credit markets, concentration of risk, credit quality, composition of client base, derivative transactions, operational infrastructure, cyber security, risk management, business initiatives, operating in multiple jurisdictions, conflicts of interest, competition, changes in underliers, personnel, negative publicity, legal liability, catastrophic events and climate change. GSI is subject to the Bank Recovery and Resolution Directive, which is intended to enable a range of actions to be taken by a resolution authority in relation to credit institutions and investment firms considered by the resolution authority to be at risk of failing and where such action is necessary in the public interest. The resolution powers available to the resolution authority include powers to (i) write down the amount owing, including to zero, or

² "Subordinated loans" are included within "total unsecured borrowings" and therefore are not included as a single line item.

convert the Securities into other securities, including ordinary shares of the relevant institution (or a subsidiary) – the so-called "bail-in" tool; (ii) transfer all or part of the business of the relevant institution to a "bridge bank"; (iii) transfer impaired or problem assets to an asset management vehicle; and (iv) sell the relevant institution to a commercial purchaser. In addition, the resolution authority is empowered to modify contractual arrangements, suspend enforcement or termination rights that might otherwise be triggered. The resolution regime is designed to be triggered prior to insolvency, and holders of Securities may not be able to anticipate the exercise of any resolution power by the resolution authority. Further, holders of Securities would have very limited rights to challenge the exercise of powers by the resolution authority, even where such powers have resulted in the write down of the Securities or conversion of the Securities to equity.

Rights attached to the Securities:

The Securities will give each investor the right to receive a return, together with certain ancillary rights such as the right to receive notice of certain determinations and events. The return on the Securities will comprise the payment of (i) the Fixed Coupon Amount on each Fixed Coupon Payment Date, (ii) (if the Issuer gives notice to the Holders on or before the Call Option Notice Date immediately prior to an Optional Redemption Date (Call) of its election to redeem the Securities), the payment of the Optional Redemption Amount (Call), and (iii) (unless otherwise early redeemed) the Settlement Amount, and such amount will depend on the performance of the relevant Underlying Asset (being, in respect of each Series, such underlying asset specified in the column entitled "Name of Share(s)" in the row corresponding to such Series in the table set out at the end of this Summary).

Fixed Coupon Amount: in respect of each Series and each Fixed Coupon Payment Date, the Fixed Coupon Amount payable is calculated in accordance with the following formula:

$$CA \times CV$$

Optional Redemption Amount (Call): if the Issuer elects to exercise its call option on a Call Option Notice Date, the Optional Redemption Amount (Call) will be payable on the Optional Redemption Date (Call) immediately following such Call Option Notice Date.

Settlement Amount: unless previously exercised early, or purchased and cancelled, the Settlement Amount in EUR payable in respect of each Security on the Maturity Date will be:

- (i) if the Final Closing Price of the Underlying Asset is greater than or equal to its Barrier Level, an amount calculated in accordance with the formula below:

$$CA \times \text{Redemption Percentage}; \text{ or}$$

- (ii) if the Final Closing Price of the Underlying Asset is less than its Barrier Level, an amount calculated in accordance with the formula below:

$$CA \times \frac{\text{Final Reference Value}}{\text{Initial Reference Value}}$$

Non-scheduled Early Repayment Amount: The Securities may be redeemed prior to the scheduled maturity: (i) at the Issuer's option (a) if the Issuer determines a change in applicable law has the effect that performance by the Issuer or its affiliates under the Securities or hedging transactions relating to the Securities has become (or there is a substantial likelihood in the immediate future that it will become) unlawful or impracticable (in whole or in part), or (b) where applicable, if the Calculation Agent determines that certain additional disruption events or adjustment events as provided in the terms and conditions of the Securities have occurred; or (ii) upon notice by a Holder declaring such Securities to be immediately repayable due to the occurrence of an event of default which is continuing.

The Non-scheduled Early Repayment Amount payable on such unscheduled early redemption shall be, for each Security, an amount representing the fair market value of the Security taking into account all relevant factors less all costs incurred by the Issuer or any of its affiliates in connection with such early redemption, including those related to unwinding of any underlying and/or related hedging arrangement. **The Non-scheduled Early Repayment Amount may be less than your**

initial investment and therefore you may lose some or all of your investment on an unscheduled early redemption.

Governing law: The Securities are governed by English law.

Status of the Securities: The Securities are unsubordinated and unsecured obligations of the Issuer and will rank equally among themselves and with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

The taking of any action by a resolution authority under the Bank Recovery and Resolution Directive, in relation to the Issuer could materially affect the value of, or any repayments linked to, the Securities, and/or risk a conversion into equity of the Securities.

Description of restrictions on free transferability of the Securities: The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances that will result in compliance with any applicable laws and regulations. Subject to the above, the Securities will be freely transferable.

Where will the Securities be traded?

The Securities will not be admitted to trading on any regulated market. Application has been made to admit the Securities to trading on the SeDeX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A.

What are the key risks that are specific to the Securities?

Risk factors associated with the Securities: The Securities are subject to the following key risks:

The value and quoted price of your Securities (if any) at any time will reflect many factors and cannot be predicted.

- Depending on the performance of the Underlying Asset, you may lose some or all of your investment.
- The market price of your Securities prior to maturity may be significantly lower than the purchase price you pay for them. Consequently, if you sell your Securities before the stated scheduled redemption date, you may receive far less than your original invested amount.
- Your Securities may be redeemed in certain extraordinary circumstances set out in the conditions of the Securities prior to scheduled maturity and, in such case, the early redemption amount paid to you may be less than the amount

you paid for the Securities. In certain circumstances, such early redemption amount may be zero.

Risks relating to certain features of the Securities:

- Your Securities may be redeemed early if the Issuer has a call option and exercises it. The terms of your Securities provide that we have the right to call the Securities. Following the exercise by the Issuer of such option, you will no longer be able to realise your expectations for a gain in the value of such Securities and, if applicable, will no longer participate in the performance of the Underlying Asset(s).
- The terms and conditions of your Securities provide that the Securities are subject to a cap, so your ability to participate in any change in the value of the Underlying Asset(s) over the term of the Securities will be limited, no matter how much the price of the Underlying Asset(s) may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Asset(s) directly.
- The Fixed Coupon Payment Date(s) will be postponed if the Coupon Reference Date corresponding to such Fixed Coupon Payment Date is not a day on which we would usually value the Underlying Asset (despite the fact that no value of any Underlying Asset is being taken on such Coupon Reference Date), and this may result in holders suffering a delay in the payment of the relevant Fixed Coupon Amount until after the date on which such Fixed Coupon Payment Date is scheduled to fall.

Risks relating to the Underlying:

- *The value of and return on your Securities depends on the performance of the Underlying Asset(s).* The return on your Securities may depend on the performance of one or more Underlying Asset(s). The price of the Underlying Asset(s) may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the price of an Underlying Asset, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.
- *Past performance of an Underlying Asset is not indicative of future performance.* You should not regard any information about the past performance of the Underlying Asset(s) as indicative of the range of, or trends in, fluctuations in the Underlying Asset(s) that may occur in the future. The Underlying Asset(s) may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.
- The performance of Shares is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as business risks faced by the issuers thereof. Any one or a combination of such factors could adversely affect the performance of the Underlying Asset(s) which, in turn, would have a negative effect on the value of and return on your Securities.

KEY INFORMATION ON THE OFFER OF THE SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

Terms and conditions of the offer:

An offer of the Securities may be made by the Authorised Offeror other than pursuant to Article 1(4) of the EU Prospectus Regulation in the Republic of Italy (the "**Public Offer Jurisdiction**") during the period commencing on (and including) the first day on which the Securities are traded on SeDeX and ending on (and including) the date on which the Authorised Offeror ceases to carry on active marketing activities in respect of the Securities in the Public Offer Jurisdiction, which date is expected to fall on or around September 30, 2024. The Issuer will pay third parties to carry out advertising activities.

The Securities will be offered at the market price which will be determined by the Authorised Offeror on a continuous basis in accordance with the market conditions then prevailing.

Who is the offeror and/or the person asking for admission to trading?

See the item entitled "Authorised Offeror(s)" above. The Issuer is the entity that requested for the admission to trading of the Securities on the SeDeX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A.

Why is this Prospectus being produced?

Reasons for the offer or for the admission to trading on a regulated market, estimated net amount of proceeds and use of proceeds: The net amount of proceeds of the offer will be used by the Issuer to provide additional funds for its operations and for other general corporate purposes (i.e., for making profit and/or hedging certain risks).

Underwriting agreement on a firm commitment basis: The offer of the Securities is not subject to an underwriting agreement on a firm commitment basis.

Material conflicts pertaining to the issue/offer: The Issuer is subject to a number of conflicts of interest between its own interests and those of holders of Securities, including: (a) in making certain calculations and determinations, there may be a difference of interest between the investors and the Issuer, (b) in the ordinary course of its business the Issuer (or an affiliate) may effect transactions for its own account, may act as a member of a market determination committee and may enter into hedging transactions with respect to the Securities or the related derivatives, which may affect the market price, liquidity or value of the Securities, and (c) the Issuer (or an affiliate) may have confidential information in relation to the Underlying Asset(s) or any derivative instruments referencing them, but which the Issuer is under no obligation (and may be subject to legal prohibition) to disclose.

- GSI è una società controllata interamente detenuta dal gruppo Goldman Sachs e una società bancaria controllata principale del gruppo Goldman Sachs. Di conseguenza, è soggetta ad una varietà di rischi che sono sostanziali e inerenti alle proprie attività, compresi i rischi legati alle condizioni economiche e di mercato, di regolamentazione, alla *Brexit*, alla volatilità del mercato, liquidità, mercati di credito, concentrazione del rischio, qualità del credito, composizione della base di clientela, operazioni di strumenti derivati, infrastrutture operative, sicurezza informatica, la gestione del rischio, iniziative imprenditoriali, operatività in multiple giurisdizioni, conflitti di interessi, concorrenza, cambiamenti nelle attività sottostanti, personale, pubblicità negative, responsabilità legale, eventi catastrofici e cambiamento climatico.
GSI è soggetta alla *Bank Recovery and Resolution Directive* (Direttiva sul Risanamento e la Risoluzione delle Crisi Bancarie), che ha lo scopo di consentire una serie di azioni da parte di un'autorità di risoluzione delle crisi in relazione agli enti creditizi e alle imprese di investimento che l'autorità di risoluzione delle crisi considera a rischio di fallimento e quando tale azione è necessaria nell'interesse pubblico. I poteri di risoluzione delle crisi di cui dispone l'autorità di risoluzione delle crisi comprendono il potere di (i) svalutare l'importo dovuto, anche a zero, o convertire gli Strumenti Finanziari in altri titoli, comprese le azioni ordinarie dell'ente interessato (o di una controllata) - il cosiddetto strumento del "bail-in"; (ii) trasferire tutta o parte dell'attività dell'ente interessato a una "banca ponte"; (iii) trasferire attività deteriorate o problematiche a un veicolo di gestione patrimoniale; e (iv) vendere l'ente interessato a un acquirente commerciale. Inoltre, l'autorità di risoluzione delle crisi ha la facoltà di modificare gli accordi contrattuali, sospendere i diritti di esecuzione o di recesso che potrebbero altrimenti essere attivati. Il regime di risoluzione delle crisi è concepito per essere attivato prima dell'insolvenza

e i detentori degli Strumenti Finanziari possono non essere in grado di anticipare l'esercizio del potere di risoluzione delle crisi da parte dell'autorità di risoluzione delle crisi. Inoltre, i detentori degli Strumenti Finanziari avrebbero diritti molto limitati di contestare l'esercizio dei poteri da parte dell'autorità di risoluzione delle crisi, anche nel caso in cui tali poteri abbiano portato alla svalutazione degli Strumenti Finanziari o alla conversione degli Strumenti Finanziari in capitale.

Gli Strumenti Finanziari daranno a ciascun investitore il diritto di ricevere un rendimento, insieme ad alcuni diritti accessori, come il diritto di ricevere la notifica di determinate determinazioni ed eventi. Il rendimento degli Strumenti Finanziari comprenderà il pagamento (i) dell'Importo del Coupon Fisso ad ogni Data di Pagamento del Coupon Fisso, (ii) (se l'Emittente comunica ai Detentori, alla o prima della Data di Avviso dell'Opzione *Call* immediatamente precedente una Data di Rimborso Opzionale (*Call*), la propria scelta di rimborsare gli Strumenti Finanziari), il pagamento dell'Importo di Rimborso Opzionale (*Call*), e (iii) (salvo rimborso anticipato) dell'Importo di Regolamento, e tale importo dipenderà dal rendimento dell'Attività Sottostante di riferimento (che è, con riferimento a ciascuna Serie, tale attività sottostante specificata nella colonna intitolata "Nome dell'Azione(i)" nella riga corrispondente a tale Serie nella tabella riportata alla fine della presente Nota di Sintesi).

Importo di Regolamento: salvo che siano stati esercitati anticipatamente, o acquistati e cancellati, l'Importo di Regolamento in EUR pagabile in relazione a ciascuno Strumento Finanziario alla Data di Scadenza sarà:

- (i) se il Prezzo di Chiusura Finale dell'Attività Sottostante è superiore o uguale al suo Livello della Barriera, un importo calcolato secondo la formula riportata di seguito:

$$CA \times \text{Percentuale di Rimborso}; \text{ o}$$

- (ii) se il Prezzo di Chiusura Finale dell'Attività Sottostante è inferiore al suo Livello della Barriera, un importo calcolato secondo la formula riportata di seguito:

$$CA \times \frac{\text{Valore di Riferimento Finale}}{\text{Valore di Riferimento Iniziale}}$$

Importo di Rimborso Anticipato Non Programmato: gli Strumenti Finanziari potranno essere rimborsati prima della scadenza programmata (i) a scelta dell'Emittente (a) qualora l'Emittente determini che un cambiamento della legge applicabile abbia l'effetto di rendere la prestazione dell'Emittente o delle sue società controllate, collegate, o sottoposte a comune controllo ai sensi degli Strumenti Finanziari o gli accordi di copertura relativi a Strumenti Finanziari, illegali o

eccessivamente onerosi (in tutto o in parte) (o vi sia una sostanziale probabilità che lo diventino nell'immediato futuro), o (b) se del caso, qualora l'Agente di Calcolo determini che taluni eventi di turbativa o eventi di rettifica addizionali come previsti nei termini e nelle condizioni degli Strumenti Finanziari si siano verificati; o (ii) in virtù di comunicazione da parte di un Portatore che dichiara gli Strumenti Finanziari immediatamente esigibili a causa del verificarsi di un evento di default che sia ancora in corso.

L'Importo di Rimborso Anticipato Non Programmato pagabile in relazione a tale rimborso anticipato non programmato sarà, per ciascuno Strumento Finanziario, un importo che rappresenta l'equo valore di mercato (*fair market value*) degli Strumenti Finanziari, tenendo conto di tutti fattori rilevanti al netto dei costi sostenuti dall'Emittente o da qualsiasi sua società controllate, collegate, o sottoposte a comune controllo in relazione a tale rimborso anticipato, compresi quelli relativi alla liquidazione del sottostante e/o degli accordi di copertura correlati. ***L'Importo di Rimborso Anticipato Non Programmato può essere inferiore al vostro investimento iniziale e pertanto potreste perdere parte del o tutto il vostro investimento per un rimborso anticipato non programmato.***

Legge applicabile: Gli Strumenti Finanziari sono regolati dal diritto inglese.

Stato degli Strumenti Finanziari: Gli Strumenti Finanziari sono obbligazioni non subordinate e non garantite dell'Emittente e si classificheranno allo stesso modo tra di loro e con tutte le altre obbligazioni non subordinate e non garantite dell'Emittente di volta in volta in essere.

L'adozione di qualsiasi azione da parte di un'autorità di risoluzione ai sensi della Direttiva sul Risanamento e la Risoluzione delle Crisi Bancarie, in relazione all'Emittente, potrebbe materialmente influenzare il valore dei, o qualsiasi rimborso collegato agli, Strumenti Finanziari, e/o rischiare una conversione in capitale degli Strumenti Finanziari.

Descrizione delle restrizioni alla libera trasferibilità degli Strumenti Finanziari: Gli Strumenti Finanziari non sono stati e non saranno registrati ai sensi dello U.S. Securities Act del 1933 (il "**Securities Act**") e non possono essere offerti o venduti all'interno degli Stati Uniti o a, o per conto o a beneficio di, persone statunitensi, tranne che in alcune operazioni esenti dagli obblighi di registrazione del Securities Act e dalle leggi statali applicabili in materia di strumenti finanziari. Nessuna offerta, vendita o consegna degli Strumenti Finanziari, o distribuzione di qualsiasi materiale d'offerta relativo agli Strumenti Finanziari, può essere effettuata in o da qualsiasi giurisdizione, salvo in circostanze che risultino conformi

alle leggi e ai regolamenti applicabili. Fermo restando quanto sopra, gli Strumenti Finanziari saranno liberamente trasferibili.

Dove verranno negoziati gli Strumenti Finanziari?

Gli Strumenti Finanziari non saranno ammessi alla negoziazione su alcun mercato regolamentato. E' stata richiesta l'ammissione degli Strumenti Finanziari alla negoziazione sul mercato SeDeX, un sistema multilaterale di negoziazione organizzato e gestito da Borsa Italiana S.p.A.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Fattori di rischio associati agli Strumenti Finanziari: Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

Il valore ed il prezzo stimato dei suoi Strumenti Finanziari (se del caso) in qualsiasi momento dipenderanno da molti fattori e non potranno essere prevedibili.

- A seconda della performance dell'Attività Sottostante, potreste subire la perdita di una parte o della totalità del vostro investimento.
- Il prezzo di mercato dei vostri Strumenti Finanziari prima della scadenza può essere significativamente inferiore al prezzo di acquisto pagato. Di conseguenza, se vendete i vostri Strumenti Finanziari prima della data di rimborso prevista, potreste ricevere molto meno dell'importo investito inizialmente.
- I vostri Strumenti Finanziari possono essere rimborsati in determinate circostanze straordinarie indicate nelle condizioni degli Strumenti Finanziari prima della scadenza prevista e, in tal caso, l'importo di rimborso anticipato a voi pagato potrebbe essere inferiore dell'importo che avete pagato per gli Strumenti Finanziari. In alcune circostanze, tale importo di rimborso anticipato può essere pari a zero.

Rischi relativi a determinate caratteristiche degli Strumenti Finanziari:

- I vostri Strumenti Finanziari possono essere rimborsati anticipatamente se l'Emittente ha un'opzione *call* e la esercita. I termini dei vostri Strumenti Finanziari prevedono che abbiamo il diritto di *call* sugli Strumenti Finanziari. A seguito dell'esercizio di tale opzione da parte dell'Emittente, non sarete più in grado di realizzare le vostre aspettative di guadagno nel valore di tali Strumenti Finanziari e, se del caso, non parteciperete più alla performance della/e Attività Sottostante/i.
- I termini e le condizioni dei sui Strumenti Finanziari prevedono che gli Strumenti Finanziari siano soggetti ad un cap. Quindi la sua capacità di partecipare in qualsiasi cambiamento nel valore delle Attività Sottostanti per tutta la durata degli Strumenti Finanziari sarà limitata, a prescindere da quanto il prezzo dell'Attività Sottostante sia superiore al livello del cap nel corso di vita degli Strumenti Finanziari. Di conseguenza, il rendimento sui suoi Strumenti Finanziari potrebbe essere significativamente inferiore a quello che sarebbe stato se avesse acquistato l'Attività Sottostante direttamente.
- La(e) Data(e) di Pagamento del Coupon Fisso sarà(saranno) posticipata(e) se la Data di Riferimento del Coupon corrispondente a tale Data di Pagamento del Coupon Fisso non è un giorno in cui solitamente valutiamo l'Attività Sottostante (nonostante il fatto che in tale Data di Riferimento del Coupon non venga rilevato il valore di alcuna Attività Sottostante), e ciò può comportare per i detentori un ritardo nel pagamento del relativo Importo del Coupon Fisso fino a dopo la data in cui tale Data di Pagamento del Coupon Fisso è prevista.

Richi relativi all'Attività Sottostante:

- *Il valore ed il rendimento dei vostri Strumenti Finanziari dipendono dall'andamento dell'Attività Sottostante:* Il rendimento dei vostri Strumenti Finanziari dipende dalla performance di uno o più Attività Sottostanti. Il prezzo dell'Attività Sottostante può essere soggetto nel tempo a modifiche imprevedibili. Questo grado di cambiamento è noto come "volatilità". La volatilità dell'Attività Sottostante può essere condizionata da eventi nazionali ed internazionali di natura finanziaria, politica, militare o economica, incluse azioni governative, o da azioni da parte dei partecipanti al mercato rilevante. Uno qualunque di questi eventi o azioni può influenzare negativamente il valore ed il rendimento degli Strumenti Finanziari. La volatilità non implica una direzione del prezzo di un'Attività Sottostante anche se un'Attività Sottostante che è più volatile è più probabile che aumenti o diminuisca di valore più spesso e/o in misura maggiore rispetto ad una che è meno volatile.
- *L'andamento passato dell'Attività Sottostante non è indicativo dell'andamento futuro:* Non dovete considerare informazioni relative all'andamento passato delle Attività Sottostanti come indicative del *range*, delle tendenze, o di fluttuazioni delle Attività Sottostanti nelle Attività Sottostanti che possano verificarsi in futuro. L'Attività (Le Attività) Sottostante(i) possono avere un andamento diverso (o uguale) rispetto al passato, e ciò può avere un significativo effetto negativo sul valore e sul rendimento dei Vostri Strumenti Finanziari.

- L'andamento delle Azioni dipende da fattori macroeconomici, come i livelli di interesse e prezzo sui mercati dei capitali, sviluppi valutari, fattori politici così come fattori specifici relativi alle società quali utili, posizione di mercato, situazione di rischio, struttura azionaria e politica di distribuzione, così come pure rischi di *business* cui sono esposti i relativi emittenti. Uno qualsiasi di tali fattori o una loro combinazione possono influenzare negativamente l'andamento delle Attività Sottostanti che, a sua (loro) volta, avrebbero un effetto negativo sul valore e sul rendimento dei vostri Strumenti Finanziari.
