3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Certificates has an interest material to the offer. The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Certificates and Calculation Agent of the Certificates.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Certificateholders on the other hand cannot be excluded.

When the management company of the fund used as Underlying is a subsidiary of Société Générale S.A., and also to the extent that Société Générale provides funding to the fund used as Underlying, and can be counterparty of a derivative transaction with the fund used as Underlying, there may be conflicts between the interests of the management company of the Underlying and those of Société Générale in these roles on one hand, and between those of entities of the Société Générale group in their roles and those of the Certificateholders in the other hand.

7. PERFORMANCE AND EFFECT ON VALUE OF INVESTMENT

(i) **PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT** (*Structured Certificates only*)

The value of the Certificates and the payment of a redemption amount to a Certificateholder on the final exercise date will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Certificates is linked to the positive or negative performance of the underlying instrument. The amount(s) to be paid is determined on the basis of the condition which is satisfied (or not) if the performance of the underlying instrument is higher than or equal to a predefined barrier performance.

Performance of the underlying instrument can be leveraged and/or capped.

During the lifetime of the Certificates, the market value of these Certificates may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.

The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.

Key risks that are specific to the guarantor

Due to Société Générale's role as guarantor and counterparty to the Issuer's hedging transactions, investors are essentially exposed to Société Générale's credit risk and have no recourse against the Issuer in the event of the Issuer's default.

WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE SECURITIES?

Any sale of the Certificates prior to the scheduled maturity date will result in the loss of the full protection of the amount invested.

Although it is subject to market making agreement, the liquidity of the product may be affected by exceptional circumstances that make it difficult to sell the product or at a price that results in a total or partial loss of the amount invested.

The market value of the Certificates depends on the evolution of market parameters at the time of exit (price level of the Underlying(s), interest rates, volatility and credit spreads) and may therefore result in a risk of total or partial loss on the amount initially invested.

Events unrelated to the Underlying (e.g. change in law, including tax law, force majeure, number of securities in circulation) may lead to early redemption of the Certificates and thus to total or partial loss of the amount invested.

Events affecting the Underlying(s) or hedging transactions may lead to adjustments, de-indexation, substitution of the Underlying(s), or early redemption of the Certificates and consequently to losses on the amount invested, including in the case of capital protection.

FINAL VERSION APPROVED BY THE ISSUER

If the currency of the investor's main activities is different from that of the product, the investor is exposed to currency risk, especially in the event of exchange controls, which may reduce the amount invested.

Investors are exposed to the risk relating to the operational capacity, expertise and solvency of the ETF management company, fund administrator, sponsor or Calculation Agent.
Since the ETF aims at tracking the performance of its underlying assets, investors are exposed to the performance of such assets.

WHY IS THIS PROSPECTUS BEING PRODUCED ?

This prospectus is drawn up for the purposes of the admission to trading on a regulated market and the public offer of the Certificates.

Reasons for the offer and use of proceeds: The net proceeds from each issue of Certificates will be applied for the general financing purposes of the Société Générale Group, which include making a profit.

Estimated net proceeds: Not Applicable

Underwriting : There is an underwriting agreement on a firm commitment basis with Societe Generale

Interests of the individual and natural persons of the issuance/offer :

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Certificates has an interest material to the offer. The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Certificates and Calculation Agent of the Certificates.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Certificateholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Certificates or possession of non public information in relation with them) and those of the Noteholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Noteholders.

When the management company of the fund used as Underlying is a subsidiary of Société Générale S.A., and also to the extent that Société Générale provides funding to the fund used as Underlying, and can be counterparty of a derivative transaction with the fund used as Underlying, there may be conflicts between the interests of the management company of the Underlying and those of Société Générale in these roles on one hand, and between those of entities of the Société Générale group in their roles and those of the Certificateholders in the other hand.

QUALI SONO I RISCHI CHIAVE SPECIFICI DEI TITOLI?

La vendita dei Certificati prima della prevista data di scadenza determinerà la perdita della protezione totale dell'importo investito.

Benché sia oggetto di impegni di market making, la liquidità del prodotto può essere influenzata dal verificarsi di circostanze eccezionali che potrebbero rendere difficile vendere il prodotto o comunque ad un prezzo che produce la perdita totale o parziale dell'importo investito.

Il valore di mercato dei Certificati dipende dall'evoluzione dei parametri di mercato al momento dell'uscita (livello dei prezzi dei Sottostanti, tassi di interesse, volatilità e credit spreads) e può pertanto comportare un rischio di perdita totale o parziale dell'importo inizialmente investito.

Il verificarsi di eventi non legati al Sottostante (quali la modifica di previsioni di legge, inclusa la normativa fiscale, eventi di forza maggiore) possono determinare il rimborso anticipato dei Certificati e quindi la perdita totale o parziale dell'importo investito.

Il verificarsi di eventi relativi al Sottostante ovvero a operazioni di copertura può determinare la necessità di rettifiche, de-indicizzazioni, sostituzione del Sottostante, e di conseguenza a perdite del capitale investito, anche in caso di prodotti a capitale protetto.

Se la valuta di riferimento delle attività principali dell'investitore è diversa da quella del prodotto, l'investitore è esposto al rischio di cambio, in particolare in caso di controlli sul cambio, che potrebbero ridurre l'importo investito.

Gli investitori sono esposti ai rischi legati alla capacità operativa, alla competenza e alla solvibilità della società di gestione dell'ETF, dell'amministratore del fondo, dello sponsor o dell'Agente di Calcolo. Dal momento che ETF mira a monitorare le prestazioni dei suoi asset sottostanti, gli investitori sono esposti alla performance di detti asset.

Ad eccezione delle eventuali commissioni dovute al Dealer, e per quanto l'Emittente ne sa, nessuna persona coinvolta nell'emissione dei Certificati ha un interesse rilevante nell'Offerta. Il Dealer e le sue affiliate si sono impegnate, e potrebbero in futuro impegnarsi, in operazioni di investment banking e/o commercial banking transactions, e potrebbero nel corso ordinario del business eseguire altri servizi per l'Emittente e le sue affiliate.

Société Générale ricoprirà i ruoli di fornitore di strumenti di copertura a favore dell'Emittente e di Agente di Calcolo dei Certificati.

La possibilità di conflitti di interesse tra i vari ruoli di Société Générale, da un lato, e, d'altro lato, tra quelli di Société Générale nello svolgimento di questi ruoli e quelli dei Portatori dei Certificati, non può escludersi.

Inoltre, considerata l'attività bancaria di Société Générale, potrebbero sorgere conflitti di interesse tra gli interessi di Société Générale nello svolgimento di tali attività (incluse le relazioni di affari con gli emittenti degli strumenti finanziari che sono i sottostanti dei Certificati ovvero la detenzione di informazioni non pubbliche in relazione ad essi) e quelli dei Portatori delle Obbligazioni. Infine, le attività di Société Générale sullo/sugli strumento/i finanziario/i sottostante/i, per conto della proprietà ovvero per conto dei propri clienti, oppure il porre in essere transazioni di copertura, può anche avere un impatto sul prezzo di questi strumenti e sulla loro liquidità, e ciò potrebbe configgere con gli interessi dei Portatori delle Obbligazioni.

Quando la società di gestione del fondo utilizzato come Sottostante è una controllata di Société Générale S.A., anche nella misura in cui Société Générale fornisce finanziamenti al fondo utilizzato come Sottostante, e altresì nel caso in cui possa essere la controparte di un'operazione su derivati con il fondo usato come Sottostante, potrebbero sorgere dei conflitti tra gli interessi della società di gestione del Sottostante e quelli di Société Générale in detti ruoli da un lato, e tra quelle entità del gruppo Société Générale nei loro ruoli e quelli dei Portatori di Certificati da un altro lato.
