Governing law: The Products will be governed by Swiss law and the rights thereunder will be construed accordingly.

Status of the Products: The Products constitute direct, unsecured and unsubordinated general obligations of the Issuer and rank equally among themselves and with all other direct unsecured and unsubordinated general obligations of the Issuer. The Products do not evidence deposits of the Issuer. The Products are not insured or guaranteed by any government or government agency.

Description of restrictions on free transferability of the Securities
The Products are offered and sold outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act and must comply with applicable transfer restrictions with respect to the United States.
No offers, sales, resales or deliveries of the Products may be made in or from any jurisdiction and/or to any individual or

entity except in circumstances which will result in compliance with any applicable laws and regulations and which will not impose any obligation on the Issuer and/or Leonteq Securities AG (the "**Lead Manager**").
Subject to the above, the Products will be freely transferable.

Where will the Securities be traded?

Application is expected to be made by the Issuer (or on its behalf) for the Products to be admitted to trading on the multilateral trading facility EuroTLX (managed by Borsa Italiana S.p.A.) with effect from (on or around) the Issue Date. The Issuer and the Lead Manager do not assume any legal obligation in respect of the realisation of admission to trading as of any particular date or the maintenance of any admission to trading that is realised.

What are the key risks that are specific to the Securities?

The Products are subject to the following key risks:

- ***Investors in the Products may lose up to the entire value of their investment in the Products, depending on the performance of the Underlying(s).***
- ***Risks relating to certain features of the Products*** :
  - Investors will be exposed to the performance of the underlying which has the worst performance, rather than the basket as a whole. This means that, regardless of how the other Underlyings perform, if the worst performing underlying in the basket fails to meet a relevant threshold or barrier for the calculation of any redemption amount, investors might receive no return on their initial investment and they could lose some or all of their investment.
  - The coupon amount will only be paid if the level, price or other applicable value of the Underlying(s) on the relevant valuation date(s) either reaches or crosses one or more specific barrier(s). It is possible that such level, price or other applicable value of the Underlying(s) on the relevant valuation date(s) will not either reach or cross the barrier(s) (as applicable), and therefore, no coupon will be payable on the relevant coupon payment date. This means that the amount of coupon payable to an investor over the term of the Products will vary and may be zero.
  - The payment of coupon amount will be conditional on the value or performance of the Underlying(s). The coupon amount payable will be zero on a coupon payment date if the Underlying(s) do not perform in accordance with the terms of the Products although such payment will be deferred to the next coupon payment date. If the Underlying(s) meet the performance criteria, the coupon payable will be an amount for the current coupon payment date plus any amounts deferred from previous coupon payment dates where coupon was not paid. Investors will not be paid any coupon or other allowance for the deferred payments of coupon and it is possible that the Underlying(s) never meet the performance criteria, meaning that investors will not receive any coupon at all for the lifetime of the Products.
- ***Risks relating to the Underlying(s)*** :
  - Past performance of the Underlying(s) is not indicative of future performance, and performance may be subject to unpredictable change over time;
  - Investors will not have any legal or beneficial rights of ownership in the Underlyings, and no claim against the index sponsor or any other third party in relation to the Underlyings; such parties have no obligation to act in investors' interests.
  - The market value of and the return on the Products depends on the performance of the Underlyings and its components and other macroeconomic factors. The index sponsor (and the Issuer of the Products) may be subject to regulatory changes regarding the publication and use of the Underlying(s) during the life of the Products which may negatively impact the performance of the Underlying(s). The Issuer and/or the Calculation Agent may adjust the terms of the Products in respect of the Underlying(s) referenced in order to comply with statutory requirements and such adjustments may affect the value and of return on the Products and may even result in the early redemption of the Products (the early redemption amount of which may be less than the initial investment amount or zero).
- ***No or limited liquidity:*** The Products may have no liquidity or the market for such Products may be limited and this may adversely impact their value or the ability of the Investor to dispose of them.
- ***Secondary market price:*** The market price of the Products prior to maturity may be significantly lower than their original purchase price. Consequently, if you sell your Products before their scheduled maturity (assuming you are able to), you may lose some of your original investment.
- ***Early redemption:*** The Products may be redeemed prior to their scheduled maturity in certain extraordinary circumstances or if the Issuer exercises its Issuer Call Option (Fixed Term). In such case, investors may only be able to reinvest the proceeds on less favourable market terms compared to when the Products were purchased.

Ciò significa che, indipendentemente dall'andamento degli altri Sottostanti, se il sottostante con la performance peggiore del paniere non raggiunge una soglia o una barriera rilevante per il calcolo dell'eventuale importo di rimborso, gli investitori potrebbero non ricevere un rendimento rispetto al loro investimento iniziale e potrebbero perdere una parte o la totalità del loro investimento.
  - L'importo della cedola sarà pagato solo se il livello, il prezzo o altro valore applicabile del/i Sottostante/i alla data o alle date di valutazione pertinenti raggiunge o supera una o più barriere specifiche. È possibile che tale livello, prezzo o altro valore applicabile del/i Sottostante/i alle rilevanti date di valutazione non raggiunga o superi la barriera (a seconda dei casi) e, pertanto, nessuna cedola sarà pagabile alla data di pagamento della cedola. Ciò significa che l'importo della cedola pagabile ad un investitore nel corso della vita dei Prodotti varierà e potrebbe essere pari a zero.
  - Il pagamento dell'importo della cedola sarà condizionato al valore o all'andamento del/i Sottostante/i. L'importo della cedola pagabile sarà pari a zero ad una data di pagamento della cedola se il/i Sottostante/i non mantengono un andamento conforme alle condizioni dei Prodotti, anche se tale pagamento sarà rinviato alla successiva data di pagamento della cedola. Se il/i Sottostante/i soddisfano i criteri di performance, la cedola pagabile sarà pari ad un importo per l'attuale data di pagamento della cedola più un qualsiasi importo differito dalle precedenti date di pagamento della cedola in cui la cedola non è stata pagata. Gli investitori non riceveranno il pagamento di alcuna cedola o altra indennità per il pagamento differito della cedola ed è possibile che il/i Sottostante/i non soddisfino mai i criteri di performance, il che significa che gli investitori non riceveranno alcuna cedola per tutta la durata della vita dei Prodotti.
- ***Rischi relativi al/i Sottostante/i*** :
  - Le performance passate del/i Sottostante/i non sono indicative delle performance future, e le performance possono essere soggette a cambiamenti imprevedibili nel tempo;
  - Gli investitori non avranno alcun diritto di proprietà legale o beneficiaria sul/i Sottostante/i, e nessun diritto nei confronti dello sponsor dell'indice o di qualsiasi altro soggetto terzo con riferimento al/i Sottostante/i; tali parti non hanno alcun obbligo di agire nell'interesse degli investitori.
  - l valore di mercato e il rendimento dei Prodotti dipende dall'andamento del/i Sottostante/i e delle sue componenti e da altri fattori macroeconomici. Lo sponsor dell'indice (e l'Emittente dei Prodotti) può essere soggetto a modifiche normative riguardanti la pubblicazione e l'utilizzo del/i Sottostante/i durante la vita dei Prodotti che possono avere un impatto negativo sulla performance del/i Sottostante/i. L'Emittente e/o l'Agente di Calcolo possono adeguare i termini dei Prodotti con riferimento al/i Sottostante/i a cui fanno riferimento al fine di rispettare i requisiti di legge e tali adeguamenti possono influire sul valore e sul rendimento dei Prodotti e possono anche comportare il rimborso anticipato dei Prodotti (il quale importo di rimborso anticipato può essere inferiore all'importo dell'investimento iniziale o pari a zero).
- ***Liquidità assente o limitata:*** I Prodotti possono non avere liquidità o il mercato in cui circolano tali Prodotti può essere limitato e ciò può avere un impatto negativo sul loro valore o sulla capacità dell'Investitore di venderli.
- ***Prezzo del mercato secondario:*** Il prezzo di mercato dei Prodotti prima della scadenza può essere significativamente inferiore al loro prezzo di acquisto originale. Di conseguenza, se vendete i vostri Prodotti prima della loro scadenza prevista (supponendo che ciò sia possibile), potreste perdere parte del vostro investimento originale.
- ***Rimborso anticipato:*** I Prodotti possono essere rimborsati prima della loro scadenza prevista in alcune circostanze straordinarie o l'Emittente esercita l'Opzione Call dell'Emittente (a Scadenza Prefissata). In tal caso, gli investitori potranno reinvestire i proventi solo a condizioni di mercato meno favorevoli rispetto a quando i Prodotti sono stati acquistati.

Perché è redatto il presente Prospetto?
Utilizzo e importo stimato netto dei proventi I proventi della vendita dei Prodotti sono utilizzati per la copertura degli obblighi di pagamento derivanti dall'emissione dei Prodotti e ai fini dell'ordinaria attività dell'Emittente. I proventi netti stimati sono pari al 100 per cento dell'Ammontare dell'Emissione.
Accordo di sottoscrizione con assunzione a fermo: L'offerta dei Prodotti non è soggetta ad un accordo di sottoscrizione con assunzione a fermo.
Indicazione dei conflitti d'interesse più significativi che riguardano l'offerta o l'ammissione alla negoziazione L'Emittente e le sue controllate, il Lead Manager e l'Agente di Calcolo negoziano e detengono interessi nel/i Sottostante/i o nei componenti del/i Sottostante/i o in contratti di opzioni o futures relativi al/i Sottostante/i o a componenti dello stesso nel normale svolgimento della loro attività e di volta in volta possono partecipare alle operazioni connesse ai Prodotti per conto proprio o per conto di terzi. Inoltre, l'Emittente e le sue controllate possono esercitare un'altra funzione con riferimento ai Prodotti o al/i Sottostante/i o a componenti dello stesso, quali agente emittente, agente di calcolo, agente di pagamento e/o agente amministrativo. L'Emittente e le sue controllate, il Lead Manager e l'Agente di Calcolo possono anche ricevere informazioni riservate relative al/i Sottostante/i o a componenti del/i Sottostante/i, ma non sono obbligate a trasmettere tali informazioni agli investitori. L'Emittente può coinvolgere partner di cooperazione e consulenti esterni nell'emissione di Prodotti, ad es. nella composizione e rettifica di un paniere o di un indice. È possibile che tali partner di cooperazione e consulenti perseguano i propri interessi nel corso di un'emissione da parte dell'Emittente e quando forniscono la loro consulenza. Il prezzo di vendita dei Prodotti, se del caso in aggiunta a sovrapprezzi di emissione fissi, commissioni di gestione, commissioni di performance o altre commissioni, può contenere sovrapprezzi sul "fair value" matematico iniziale dei Prodotti (il "**margine**"). Tale margine sarà determinato dall'Emittente a sua ragionevole discrezione e potrà differire dai sovrapprezzi che altri emittenti impongono su prodotti comparabili. Questo margine copre, tra le altre cose, i costi per la strutturazione, il market making e la liquidazione dei Prodotti e include inoltre il profitto atteso per l'Emittente.
