

MiFID II product governance / Retail investors, professional investors and eligible counterparties target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities, taking into account the five (5) categories referred to in item 19 of the Guidelines published by the European Securities and Markets Authority (**ESMA**) on 3 August 2023, has led to the conclusion that the target market for the Securities is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, **MiFID II**). Any person subsequently offering, selling or recommending the Securities (a **Distributor**) should take into consideration the manufacturer's target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

10 ADDITIONAL RISK FACTORS

The Aggregate Nominal Amount is expressed to be issued “up to” a maximum amount. The Issuer may from time to time issue up to this maximum amount over time. The initial issuance amount may be less (or even considerably less) than such maximum amount. In certain circumstances such maximum amount may never be issued at all. This could cause such securities to be less liquid than they would otherwise have been had the intended maximum amount been ultimately issued, and this may adversely impact the market value thereof.
