

Final Term Sheet

20 December 2024

This Term Sheet does not constitute a financial promotion within the meaning of section 21 of the Financial Services and Markets Act 2000 and is not intended as an offer or solicitation for the purchase or sale of any financial instrument or intended to provide the basis for any evaluation of the proposed issue of Securities. In particular, information in this document is prepared solely for use between J.P. Morgan and the financial intermediary with respect to a proposed issue of Securities, structured at the request of the financial intermediary. This Term Sheet is not intended for and cannot be relied upon as such by any third party or the end investor and should be regarded as a summary only. An evaluation of any Securities should be made solely on the basis of information contained in the Related Documentation (as defined below). This Term Sheet supersedes any prior version and will be deemed to be superseded by any subsequent versions of the Term Sheet.

The financial intermediary represents and agrees that, despite having agreed the terms with the Dealer with respect to the proposed issue of Securities, it has not made and will not make any offer of such proposed issue of Securities to the public by any means, (including but not limited to the distribution of this Term Sheet) within (i) the European Economic Area, unless a prospectus has been published in accordance with Regulation (EU) 2017/1129 (as amended, the "EU Prospectus Regulation") and it has been authorised by the Issuer to use that prospectus for the purposes of the offer or the offer is made in circumstances in which there is no requirement for the Issuer to publish a prospectus or supplement a prospectus pursuant to the EU Prospectus Regulation or (ii) the United Kingdom, unless a prospectus has been published in accordance with section 85 of the Financial Services and Markets Act 2000 (as amended, the "FSMA") and it has been authorised by the Issuer to use that prospectus for the purposes of the offer or the offer is made in circumstances in which there is no requirement for the Issuer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended).

5-Year Certificates linked to the Credit of Intesa Sanpaolo S.p.A. (Subordinated) (in EUR)

Investment Rationale

The 5-Year EUR-denominated Certificates (the "Securities") offer an investor a payment of interest reflecting the credit risk of the Reference Entity and a redemption of principal either in whole (where no Event Determination Date occurs) or in part (where an Event Determination Date does occur), reflecting the credit risk of the Reference Entity, subject to a minimum of zero.

An investor purchasing the Securities expects that in the period commencing on (and including) the Credit Event Backstop Date in respect of the Reference Entity and ending on (and including) the Extension Date there will be no Credit Event

Risk of Loss

The Securities are not principal protected. Investors may not make any profit and may lose some or all of their investment.

Entitlement of the Securities

Each Security entitles its Holder to receive the relevant Interest Amount on each relevant Interest Payment Date provided that an Event Determination Date has not occurred prior to such Interest Payment Date. Additionally, if an Event Determination Date has not occurred, each Security entitles its Holder to receive a cash payment in the Specified Currency in an amount equal to the Reference Amount.

On any Interest Payment Date other than the Interest Payment Date falling on the Scheduled Redemption Date and Settlement Date, payment of the relevant Interest Amount may be postponed where the Reference Entity may have suffered a Credit Event but no Event Determination Date has occurred (based on whether either the Credit Derivatives Determinations Committee is in the process of determining whether a Credit Event has occurred or, in the opinion of the Calculation Agent, a Credit Event may have occurred or a request to the Credit Derivatives Determinations Committee to make such a determination has been made). If it is subsequently determined that no Credit Event had occurred within the relevant timeframe, the Interest Amount will be subsequently payable to holders or, if it is subsequently determined that a Credit Event had occurred within the relevant timeframe, such Interest Amount will not be payable.

In certain circumstances, as provided in "Postponement of the Redemption Date and Settlement Date" below and the definition of "Redemption Date and Settlement Date", payment of the Final Redemption Amount and the Interest Amount payable on the Scheduled

Redemption Date and Settlement Date may be postponed where (i) the Reference Entity may have suffered a Credit Event but no Event Determination Date has occurred or (ii) in respect of the Final Redemption Amount an Event Determination Date has occurred but no Auction Final Price or Final Price, as applicable, has been determined. In such circumstances, in respect of (i) if it is subsequently determined that no Credit Event had occurred within the relevant timeframe, the Final Redemption Amount and final Interest Amount will be subsequently payable to holders together with additional interest determined by applying an overnight deposit rate (as determined by the Calculation Agent) to the Reference Amount in respect of the period of such deferral, or, in respect of (ii) or if it is subsequently determined that a Credit Event had occurred within the relevant timeframe, the final Interest Amount shall not be payable and the Final Redemption Amount (if any) shall be determined by reference to the Auction Final Price or Final Price, as applicable.

Therefore, the potential return on a Security is limited to the positive difference between (i) the aggregate Interest Amounts plus the Final Redemption Amount, and (ii) the Issue Price (or, if different, the price the relevant investor paid for such Security).

If an Event Determination Date occurs, each Security entitles its Holder to receive a cash payment in the Specified Currency in an amount which may be considerably less than the Reference Amount and such Holder's initial investment in such Securities. In a worst case scenario it may be zero. Therefore, a total or substantial loss of the amount invested in the Securities is possible, although any such loss is limited to the amount invested.

In addition, if an Event Determination Date occurs, interest will stop accruing on the Interest Payment Date immediately preceding the final Event Determination Date and any interest accrued and unpaid as of the date on which such final Event Determination Date has occurred will be cancelled and no further interest will be paid on the Securities. In a worst case scenario, (i) an Event Determination Date occurs on or prior to the first Interest Payment Date, which means that no Interest Amount will be paid, and (ii) the Final Redemption Amount may be equal to zero.

Profit and Loss Prospects

The following seeks to highlight certain key aspects of the profit and loss prospects of the proposed issue of Securities and is qualified in its entirety by, and should be read together with, the entirety of this document, in particular the sections entitled "Entitlements of the Securities" and "Risks Associated with Credit Linked Notes".

Market Expectation

These Securities are a product for investors who expect no Credit Event to occur in respect of the Reference Entity in the period commencing on (and including) the Credit Event Backstop Date and ending on (and including) the Extension Date.

For the avoidance of doubt, this is an expectation which may not come true and investors should note the risks described in the "Risks associated with Credit Linked Notes" section below.

Effect of the performance of the Reference Entity on redemption

- | | |
|---|---|
| - Positive performance | If no Credit Event occurs on or prior to the Extension Date, investors will receive a Final Redemption Amount equal to the Reference Amount. |
| - Sideways to slightly negative performance | If no Event Determination Date occurs on or prior to the Extension Date, investors will receive a Final Redemption Amount equal to the Reference Amount. |
| - Negative performance | If an Event Determination Date occurs, each Security entitles its holder to receive on the Redemption Date and Settlement Date the Final Redemption Amount which shall be calculated by reference to the Auction Final Price (or the Final Price if the Fallback Settlement Method is applicable) which will generally be considerably less than the Reference Amount and such holder's initial investment in such Securities (and may in certain circumstances be zero). In a worst case scenario, an Event Determination Date occurs on or prior to the first Interest Payment Date, which means that no Interest Amount shall be paid and the Final Redemption Amount shall be reduced by reference to the Auction Final Price (or the Final Price if the Fallback Settlement Method is applicable). |

Risk Tolerance

Investors in these Securities should be experienced investors. Moreover, they should be familiar with both, derivative products and the credit market.

Profit Potential

Potential profit is limited in all cases to the aggregate of the Interest Amounts.

Loss Potential

The investors may lose some or all of the investment as they are fully exposed to the performance of the Reference Entity in the event that an Event Determination Date occurs.

Risk Factors

Investing in the proposed issue of Securities involves a number of risks. See the section entitled "**Risk Factors**" in the Offering Circular from pages 36 to 147 and, if applicable, in the Pricing Supplement relating to the specific issue of Securities.

Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended, and the final U.S. Treasury regulations promulgated thereunder ("**Section 871(m)**") generally impose a 30% withholding tax (unless an income tax treaty applies) on dividend equivalent amounts paid or deemed paid to Non-U.S. Holders with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities. Section 871(m) provides certain exceptions to this withholding regime, in particular for instruments linked to certain broad-based indices that meet requirements set forth in the applicable Treasury regulations (such as an index, a "**Qualified Index**"). Additionally, a recent Notice published by the Internal Revenue Service ("**IRS**") excludes from the scope of Section 871(m) instruments issued prior to 2027 that are not "delta-one" instruments with respect to underlying securities that could pay U.S.-source dividends for U.S. federal income tax purposes (each an "**Underlying Security**"). Based on certain determinations made by the Issuer and its affiliates, the Issuer expects that Section 871(m) will not apply to the Securities with regard to Non-U.S. Holders. Such determination is not binding on the IRS and the IRS may disagree with this determination. Section 871(m) is complex and its application may depend on a Holder's particular circumstances, including whether a Holder enters into other transactions with respect to an Underlying Security. Holders should consult with their own tax advisers regarding the potential application of Section 871(m) to the Securities.

Risks Associated with Credit Linked Notes

An investment in Credit Linked Notes entails significant risks in addition to those associated with investments in a conventional debt security, including, but not limited to, those described below. See Risk Factor 6.12 (*Risks related to Credit Linked Notes*) in the Offering Circular from pages 133 to 141 and, if applicable, in the Pricing Supplement relating to the specific issue of Securities. See also Commonly Asked Question 36 (*What are the Credit Linked Provisions?*) in the Offering Circular from pages 194 to 210.

You are assuming the Credit Risk of the Reference Entity

If an Event Determination Date occurs, the Securities will be subject to redemption at a price which may be at a considerable discount to par and could be zero and interest will cease to accrue from (and including) the interest payment date immediately preceding the relevant Event Determination Date (or, if the terms and conditions of the Securities provide for interest accrual up to the Event Determination Date, interest will cease to accrue from (and including) the relevant Event Determination Date). The Securities explicitly bear the credit risk of the Reference Entity and any Successor(s) thereto identified by the Calculation Agent or the Credit Derivatives Determinations Committee, in each case, in accordance with the definition of "Successor" in the Credit Linked Provisions, or, in respect of Credit Linked Notes linked to a Credit Index, as identified by the index sponsor in respect of such Credit Index. Even where a Credit Event has not occurred, the market value of the Securities may be adversely affected when the probability or perceived probability of a Credit Event occurring in relation to the Reference Entity, or Reference Entities, as applicable, increases.

The Securities also bear the credit risk of the Issuer and, if applicable, the relevant Guarantor. The risk of default of the Reference Entity, the Issuer and, if applicable, the relevant Guarantor may be correlated in that adverse economic factors which apply to one may apply to the others, or the default or decline in the creditworthiness of one may itself adversely affect the others. Such risks may be particularly significant where a Reference Entity, the Issuer and, if applicable, the relevant Guarantor are concentrated in a particular industry sector or geographical region.

Redemption of the Securities may be deferred even where no Event Determination Date occurs

In certain circumstances, and as more fully described in the Credit Linked Provisions and/or the relevant Pricing Supplement, the redemption of the Securities may be postponed beyond the Scheduled Redemption Date and Settlement Date even if no Event Determination Date actually occurs. The period of such deferral may be substantial. Even where an Event Determination Date does not occur, interest payable to Holders for the period following the Scheduled Redemption Date and Settlement Date may be substantially lower than any interest rate applicable to the Securities prior to the Scheduled Redemption Date and Settlement Date.

Payment of interest and/or principal may be deferred

In certain circumstances, and as more fully described in the Credit Linked Provisions, payment of interest or principal, or in each case a portion thereof, may be postponed where a Reference Entity may have suffered a Credit Event but

no Event Determination Date has occurred (based on whether either the Credit Derivatives Determinations Committee is in the process of determining whether a Credit Event has occurred or, in the opinion of the Calculation Agent, a Credit Event may have occurred or a request to the Credit Derivatives Determinations Committee to make such a determination has been made). If it is subsequently determined that no Credit Event has occurred within the relevant timeframe, the relevant interest, principal, or, in each case, a portion thereof, will be subsequently payable to Holders or, if it is subsequently determined that a Credit Event had occurred within the relevant timeframe, and subject as provided in the terms and conditions of the Securities, such amounts will not be payable.

Receipt of Commission, Fees or Monetary or Non-monetary Benefits

The financial intermediary represents and warrants that:

- A. any fee or commission (including, if applicable, by way of discount) paid or payable or non-monetary benefit provided or being provided to it by the Dealer complies with all applicable law,
- B. it undertakes to maintain a record as to how such fee, commission or non-monetary benefit complies with all applicable law and make such records available to the Dealer on request;
- C. it undertakes to fully disclose the existence, nature and amount of any fee, commission or non-monetary benefit to its client and it acknowledges that the Dealer will not make any such disclosure;
- D. it has determined that the receipt of any fee, commission or non-monetary benefit does not conflict with its duty to act in the best interests of its client; and
- E. it has determined that the fee, commission or non-monetary benefit is designed to enhance the quality of the service provided by it to its client including that:
 - 1. it is justified by the provision of a higher level service to its client and is proportional to the level of service received;
 - 2. does not directly benefit the financial intermediary, its shareholders or employees without tangible benefit to its client;
 - 3. with respect to any fee, commission or non-monetary benefit payable or being provided on an ongoing basis, is justified by the provision of an ongoing benefit to its client; and
 - 4. the provision of the service to its client is not biased or distorted as a result of the fee, commission or non-monetary benefit.

The financial intermediary acknowledges and agrees that the Dealer will not be required to and does not intend to sell Securities to it at a discount to the issue price or pay any fee or commission where applicable law would prohibit the financial intermediary from receiving such fee or commission or acquiring Securities at a discount to the issue price. If Directive 2014/65/EC of the European Parliament and of the Council of 15 May 2014 on Markets in Financial Instruments (including where applicable as implemented under UK law, such implementing legislation being preserved under UK law by virtue of the European Union (Withdrawal) Act 2018 (as amended) ("MiFID II")) or the UK FCA's Conduct of business sourcebook rules ("COBS Rules") apply to the financial intermediary and it provides portfolio management services or independent investment advice and, where permitted by applicable law, it accepts or retains fees, commissions or any monetary or non-monetary benefits from the Dealer, the financial intermediary acknowledges and agrees that it will transfer and allocate such fees, commissions or any monetary benefits to each client, pursuant to such applicable law, as soon as reasonably possible after receipt in line with MiFID II or the UK FCA's COBS Rules.

The Dealer

In connection with any offer, sale and issue of Securities referred to in this Term Sheet, the Dealer is acting as principal and not as agent of the proposed issuer of such Securities. Any agreement to issue Securities shall be subject to approval by the proposed issuer of the Securities (or such other issuer as may be agreed between J.P. Morgan and the financial intermediary) as set out in the Pricing Supplement relating to such Securities. The Issuer has no obligation to issue the proposed Securities.

Potential Conflicts

J.P. Morgan plays a variety of roles in connection with the proposed issue of Securities, including acting as Calculation Agent and hedging of the Issuer's obligations under the Securities, as well as Issuer, Guarantor (if applicable) and Dealer. In performing these duties, the economic interests of J.P. Morgan are potentially adverse to the interests of holders of such Securities.

Structured Investments Distributor Terms of Business

To the extent that the purchaser purchasing the issued Securities for distribution to third parties or, if applicable, introducing broker of such Securities, has not signed the Structured Products Terms of Business of The Dealer and its affiliates (the "**JPMorgan Group**") ("**Terms of Business**") or a distribution agreement with a member of the JPMorgan Group, by its agreement to purchase and distribute to its clients, or procure the purchase of such Securities, such purchaser or introducing broker is deemed to agree to accept and be bound by the Terms of Business, including but not limited to, its obligations owed to The Dealer and its affiliates and its covenant to indemnify The Dealer and its affiliates for any losses incurred as a result of any failure by it to comply with its obligations, duties and representations thereunder, and that the purchase and distribution of such Securities are subject to the Terms of Business (copies of the Terms of Business may be obtained on request and, in any event, have been sent to such purchaser or introducing broker by registered mail).

Where the financial intermediary has entered into terms of business with The Dealer, the Structured Products Terms of Business, rather than those terms of business, shall govern the financial intermediary's relationship with The Dealer in relation to the distribution of the Securities.

Compliance with Anti-Corruption Laws and Regulations

The financial intermediary represents that it is in compliance with, and will remain in compliance with, all laws, rules, and regulations of any jurisdiction applicable to the parties concerning or related to bribery or corruption (Anti-Corruption Laws and Regulations). No part of the payments received by the financial intermediary, directly or indirectly, from J.P. Morgan, will be used for any purpose that would cause a violation of Anti-Corruption Laws and Regulations. J.P. Morgan may terminate the Terms of Business immediately upon written notice in the event that it concludes, in its sole discretion, that the financial intermediary has breached this or any other representation or warranty related to Anti-Corruption Laws and Regulations, or that a breach is substantially likely to occur unless the Terms of Business is so terminated.

Compliance with the Selling Restrictions

When marketing, promoting or purchasing any issued Securities, the financial intermediary represents and warrants to observe the Selling Restrictions as reflected in the Pricing Supplement prepared for the relevant issue of Securities and the terms contained therein.

Additional Selling Restrictions

PROHIBITION OF SALES TO UK RETAIL INVESTORS

The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "EUWA"); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (as amended, the "UK PRIIPs Regulation") for offering or selling the Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the UK PRIIPs Regulation.

United Kingdom

If the financial intermediary is distributing JPMorgan "retail investment products" (as such term is defined in the handbook of the Financial Conduct Authority) into the United Kingdom and it receives any fee or commission from the Dealer, it represents and warrants that:

- A. the payment will not be used to fund the provision of investment advice to Retail Clients (as such term is defined in the handbook of the Financial Conduct Authority) in the United Kingdom;
- B. the receipt of such commission or fee is in compliance with the Financial Conduct Authority's rules relating to the distribution of retail investment products (the "**RDR Rules**") or that the RDR Rules do not apply to it; and
- C. it will not transfer any part of that commission or fee to any third party who may advise Retail Clients to purchase a JPMorgan retail investment product.

If the financial intermediary is authorised by the Financial Conduct Authority or Prudential Regulation Authority and regulated by the Financial Conduct Authority and/or Prudential Regulation Authority to provide investment advice to Retail Clients and it is providing advice to a Retail Client in the United Kingdom in respect of a JPMorgan retail investment product, it undertakes not to request any commission or fee from the Dealer and to otherwise reject any such payment offered to it. Under no circumstances shall the Dealer facilitate the payment of an adviser charge on behalf of Retail Clients in the United Kingdom.
