PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "**EUWA**") or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the EUWA (as amended, the "**UK Prospectus Regulation**"). Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (as amended, the "**UK PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the UK PRIIPs Regulation.

PROHIBITION OF SALES TO SWISS RETAIL INVESTORS – The Securities are not intended to be offered, sold or otherwise made available to and may not be offered, sold or otherwise made available to any retail investor in Switzerland. For these purposes a "retail investor" means a person who is not a professional or institutional client, as defined in article 4 para. 3, 4 and 5 and article 5 para. 1 and 2 of the Swiss Federal Act on Financial Services of 15 June 2018, as amended ("**FinSA**"). Consequently, no key information document required by FinSA for offering or selling the Securities or otherwise making them available to retail investors in Switzerland has been prepared and therefore, offering or selling the Securities or making them available to retail investors in Switzerland may be unlawful under FinSA.

None of the Securities constitute a participation in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("**CISA**") and are neither subject to the authorisation nor the supervision by the Swiss Financial Market Supervisory Authority FINMA ("**FINMA**") and investors do not benefit from the specific investor protection provided under the CISA.

Neither the Base Prospectus nor these Final Terms or any other offering or marketing material relating to the Securities constitute a prospectus pursuant to the FinSA, and such documents may not be publicly distributed or otherwise made publicly available in Switzerland, unless the requirements of FinSA for such public distribution are complied with.

The Securities documented in these Final Terms are not being offered, sold or advertised, directly or indirectly, in Switzerland to retail clients (Privatkundinnen und -kunden) within the meaning of FinSA ("**Retail Clients**"). Neither these Final Terms nor any offering materials relating to the Securities may be available to Retail Clients in or from Switzerland. The offering of the Securities directly or indirectly, in Switzerland is only made by way of private placement by addressing the Securities (a) solely at investors classified as professional clients (*professionelle Kunden*) or institutional clients (*institutionelle Kunden*) within the meaning of FinSA ("**Professional or Institutional Clients**"), (b) at fewer than 500 Retail Clients, and/or (c) at investors acquiring securities to the value of at least CHF 100,000.

MIFID II product governance / Retail investors, professional investors and ECPs target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Securities has led to the conclusion that: (i) the target market for the Securities is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, "**MiFID II**") (ii) all channels for distribution to eligible counterparties

and professional clients are appropriate; and (iii) the following channels for distribution of the Securities to retail clients are appropriate - investment advice, portfolio management and non-advised sales, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Securities (a "**Distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

The Securities and, as applicable, the Entitlements have not been and will not be, at any time, registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction of the United States. The Securities may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**") ("**U.S. persons**"), except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. The Securities are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S. What are the key risks that are specific to the Issuer?

The Barclays Bank Group has identified a broad range of risks to which its businesses are exposed. Material risks are those to which senior management pay particular attention and which could cause the delivery of the Barclays Bank Group's strategy, results of operations, financial condition and/or prospects to differ materially from expectations. Emerging risks are those which have unknown components, the impact of which could crystallise over a longer time period. In addition, certain other factors beyond the Barclays Bank Group's control, including escalation of global conflicts, acts of terrorism, natural disasters, pandemics and similar events, although not detailed below, could have a similar impact on the Barclays Bank Group.

- **Material existing and emerging risks potentially impacting more than one principal risk:** In addition to material and emerging risks impacting the principal risks set out below, there are also material existing and emerging risks that potentially impact more than one of these principal risks. These risks are: (i) potentially unfavourable global and local economic and market conditions, as well as geopolitical developments; (ii) interest rate changes on the Barclays Bank Group's profitability; (iii) the competitive environments of the banking and financial services industry; (iv) the regulatory change agenda and impact on business model; (v) the impact of benchmark interest rate reforms on the Barclays Bank Group; and (vi) change delivery and execution risks.
- **Climate risk:** Climate risk is the impact on financial (credit, market, treasury and capital) and operational risks arising from climate change through physical risks and risks associated with transitioning to a lower carbon economy.
- **Credit and Market risks:** Credit risk is the risk of loss to the Barclays Bank Group from the failure of clients, customers or counterparties, to fully honour their obligations to members of the Barclays Bank Group. The Barclays Bank Group is subject to risks arising from changes in credit quality and recovery rates for loans and advances due from borrowers and counterparties. Market risk is the risk of loss arising from potential adverse change in the value of the Barclays Bank Group's assets and liabilities from fluctuation in market variables.
- **Treasury and capital risk and the risk that the Issuer and the Barclays Bank Group are subject to substantial resolution powers:** There are three primary types of treasury and capital risk faced by the Barclays Bank Group which are (1) capital risk – the risk that the Barclays Bank Group has an insufficient level or composition of capital to support its normal business activities and to meet its regulatory capital requirements under normal operating environments and stressed conditions; (2) liquidity risk – the risk that the Barclays Bank Group is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount of stable funding and liquidity to support its assets, which may also be impacted by credit rating changes; and (3) interest rate risk in the banking book – the risk that the Barclays Bank Group is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its (non-traded) assets and liabilities. Under the Banking Act 2009, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury), in consultation with the United Kingdom Prudential Regulation Authority, the UK Financial Conduct Authority and HM Treasury, as appropriate as part of a special resolution regime. These powers enable the Bank of England (or any successor or replacement thereto and/or such other authority in the United Kingdom with the ability to exercise the UK Bail-in Power) (the "**Resolution Authority**") to implement various resolution measures and stabilisation options (including, but not limited to, the bail-in tool) with respect to a UK bank or investment firm and certain of its affiliates (as at the date of the Registration Document, including the Issuer) in circumstances in which the Resolution Authority is satisfied that the relevant resolution conditions are met.
- **Operational and model risks:** Operational risk is the risk of loss to the Barclays Bank Group from inadequate or failed processes or systems, human factors or due to external events where the root cause is not due to credit or market risks. Model risk is the potential for adverse consequences from decisions based on incorrect or misused model outputs and reports.
- **Compliance, reputation and legal risks and legal, competition and regulatory matters:** Compliance risk is the risk of poor outcomes for, or harm to customers, clients and markets, arising from the delivery of the Barclays Bank Group's products and services (conduct risk) and the risk to Barclays, its clients, customers or markets from a failure to comply with the laws, rules and regulations ("**LRR Risk**") applicable to the firm. Reputation risk is the risk that an action, transaction, investment, event, decision or business relationship will reduce trust in the Barclays Bank Group's integrity and/or competence. The Barclays Bank Group conducts activities in a highly regulated global market which exposes it and its employees to legal risk arising from (i) the multitude of laws, rules and regulations that apply to the businesses it operates, which are highly dynamic, may vary between jurisdictions and/or conflict, and may be unclear in their application to particular circumstances especially in new and emerging areas; and (ii) the diversified and evolving nature of the Barclays Bank Group's businesses and business practices. In each case, this exposes the Barclays Bank Group and its employees to the risk of loss or the imposition of penalties, damages or fines from the failure of members of the Barclays Bank Group to meet applicable laws, rules, regulations or contractual requirements or to assert or defend their intellectual property rights. Legal risk may arise in relation to any number of the material existing and emerging risks summarised above.

Governing law

The Securities will be governed by English Law and the rights thereunder will be construed accordingly.

Description of the calculation of potential return on the Securities

Underlying Assets: The return on and value of the Securities is dependent on the performance of the following Underlying Asset(s):

Underlying Assets _(Interest) / Underlying Assets _(Autocall Settlement) / Underlying Assets _(Final Settlement)	Type	Initial Price _(Interest) / Initial Price _(Settlement)	Initial Valuation Date
--	------	---	------------------------

ESTX Utilities (EUR) Pr	Index	The closing price of an Underlying Asset on the Initial Valuation Date	24 January 2025
Swiss Market Index (SMI®)	Index	The closing price of an Underlying Asset on the Initial Valuation Date	24 January 2025
EURO STOXX® Banks Index	Index	The closing price of an Underlying Asset on the Initial Valuation Date	24 January 2025
FTSE 100 INDEX	Index	The closing price of an Underlying Asset on the Initial Valuation Date	24 January 2025

For the purposes of determining an Interest Amount, Underlying Assets shall mean the Underlying Assets^(Interest), for the purposes of determining Automatic Settlement (Autocall) Event, Underlying Assets shall mean the Underlying Assets^(Autocall Settlement), for the purposes of determining the Final Cash Settlement Amount, Underlying Assets shall mean the Underlying Assets^(Final Settlement).

Calculation Amount: Calculations in respect of amounts payable under the Securities are made by reference to the "**Calculation Amount**", being EUR 100 per Security.

Indicative Amounts: If the Securities are being offered by way of a Public Offer and any specified product values are not fixed or determined at the commencement of the Public Offer (including any amount, level, percentage, price, rate or other value in relation to the terms of the Securities which has not been fixed or determined by the commencement of the Public Offer), these specified product values will specify an indicative amount, an indicative minimum amount, an indicative maximum amount or any combination thereof. In such case, the relevant specified product value(s) shall be the value determined based on market conditions by the Issuer on or around the end of the Public Offer. Notice of the relevant specified product value will be published prior to the Issue Date.

Determination Agent: Barclays Bank PLC will be appointed to make calculations and determinations with respect to the Securities.

A – Interest

During the term of the Securities, the Securities pay the Interest Type specified in the table below:

Each Security will only pay interest in respect of an Interest Valuation Date if the closing level of every Underlying Asset on such Interest Valuation Date is greater than or equal to its corresponding Interest Barrier. If this occurs, the amount of interest payable with respect to that Interest Valuation Date is calculated by adding the sum of (1) and (2) below:

(1) the Fixed Interest Rate (the percentage specified in the table below) multiplied by EUR 100; and

(2) the number of previous Interest Valuation Dates in respect of which no interest was payable (since the last time interest was payable) multiplied by the Fixed Interest Rate multiplied by EUR 100.

Interest will be payable on the corresponding Interest Payment Date set out in the table below. Each Interest Valuation Date and Interest Barrier(s) is as follows:

C – Final Settlement

If the Securities have not otherwise redeemed, each Security will be redeemed on the Scheduled Settlement Date by payment of the Final Cash Settlement Amount.

The Scheduled Settlement Date may be postponed following the postponement of the Final Valuation Date due to a disruption event.

The Final Cash Settlement Amount is calculated as follows:

- (i) if a Knock-in Trigger Event has not occurred, 100% multiplied by the Calculation Amount;
- (ii) otherwise, an amount calculated by adding together (a) the Final Performance minus the Strike Price Percentage (being 100.00%) plus (b) 100% (such amount subject to minimum of zero) and multiplying the result by the Calculation Amount.

Where:

"**Knock-in Trigger Event**" shall be deemed to have occurred if the closing price or level of any Underlying Asset in respect of the Trigger Event Observation Date (being 24 January 2030) is below the Knock-in Barrier Price (Initial Price_(Settlement) multiplied by the Knock-in Barrier Percentage (being 70.00%)) of such Underlying Asset.

"**Final Performance**" means the Final Valuation Price divided by the Initial Price_(Settlement) each in respect of the Worst Performing Underlying Asset as calculated in respect of the Final Valuation Date.

"**Final Valuation Date**" means 24 January 2030, subject to adjustment.

"**Final Valuation Price**" means, in respect of an Underlying Asset, the closing level in respect of the Underlying Asset on the Final Valuation Date.

"**Worst Performing Underlying Asset**" means, in respect of a scheduled trading day, the Underlying Asset with the lowest Asset Performance on such day.

"**Asset Performance**" means, in respect of an Underlying Asset and any day, the closing level of such Underlying Asset on such day divided by its Initial Price.

Status of the Securities

The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.

Description of restrictions on free transferability of the Securities

The Securities are offered and sold outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act and must comply with transfer restrictions with respect to the United States. Securities held in a clearing system will be transferred in accordance with the rules, procedures and regulations of that clearing system. Subject to the foregoing, the Securities will be freely transferable.

Where will the Securities be traded?

Application is expected to be made by the Issuer (or on its behalf) for the securities to be admitted to trading on the EuroTLX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A. (the "**EuroTLX Market**").

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- **You may lose some or all of your investment in the Securities:** Investors are exposed to the credit risk of Barclays Bank PLC. As the Securities do not constitute a deposit and are not insured or guaranteed by any government or agency or under the UK Government credit guarantee scheme, all payments or deliveries to be made by Barclays Bank PLC as Issuer under the Securities are subject to its financial position and its ability to meet its obligations. The Securities constitute unsubordinated and unsecured obligations of the Issuer and rank *pari passu* with each and all other current and future unsubordinated and unsecured obligations of the Issuer. The terms of the Securities do not provide for a scheduled minimum payment at maturity and as such, depending on the performance of the Underlying Asset(s), you may lose some or all of your investment. Even though your Securities are repayable at par, you may lose up to the entire value of your investment if the Issuer fails or is otherwise unable to meet its payment or delivery obligations. You may also lose some or all of your investment if: (a) you sell your Securities before their scheduled maturity or expiry; (b) your Securities are early redeemed in certain extraordinary circumstances; or (c) the terms and conditions of your Securities are adjusted such that the amount payable or property deliverable to you is less than your initial investment.
- **There are risks associated with the valuation, liquidity and offering of the Securities:** The market value of your Securities may be lower than the issue price since the issue price may take into account the Issuer's and/or distributor's profit margin and costs in addition to the fair market value of the Securities. The market value of your Securities may be affected by the volatility, level, value or price of the Underlying Asset(s) at the relevant time, changes in interest rates, the Issuer's financial condition and credit ratings, the supply of and demand for the Securities, the time remaining until the maturity or expiry of the Securities and other factors. The price, if any, at which you will be able to sell your Securities prior to maturity may be substantially less than the amount you originally invested. Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities prior to redemption. The Issuer may withdraw the public offer at any time. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.
- **You are subject to risks associated with the determination of amount payable under the Securities:**
The Interest Amount is conditional on the performance of Underlying Asset(s) and may be zero where the performance criteria are not met. In such case the Interest Amount may be deferred to the next interest payment that may be made, but it is possible that you will not receive any interest at all over the lifetime of the Securities.
The Securities bear interest at a rate that is contingent upon the performance of the Underlying Asset(s) and may vary from one Interest Payment Date to the next. You may not receive any interest payments if the Underlying Asset(s) do not perform as anticipated.

The Final Cash Settlement Amount is based on the performance of the Underlying Asset(s) as at the Final Valuation Date only (rather than in respect of multiple periods throughout the term of the Securities). This means you may not benefit from any movement in level of the Underlying Asset(s) during the term of the Securities that is not maintained in the final performance as at the Final Valuation Date.

As the Final Cash Settlement Amount is subject to a cap, the value of or return on your Securities may be significantly less than if you had purchased the Underlying Asset(s) directly.

You are exposed to the performance of every Underlying Asset. Irrespective of how the other Underlying Assets perform, if any one or more Underlying Assets fail to meet a relevant threshold or barrier for the payment of interest or the calculation of any redemption amount, you might receive no interest payments and/or could lose some or all of your initial investment.

The calculation of amount payable depends on the level, value or price of the Underlying Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities. This means you may receive less (or, in certain cases, more) if the level, value or price of the Underlying Asset(s) crosses or reaches (as applicable) a barrier, than if it comes close to the barrier but does not reach or cross it (as applicable), and in certain cases you might receive no interest or coupon payments and/or could lose some or all of your investment.

The Securities reference a basket of Underlying Assets, each of which demonstrates unique risk characteristics. If the Underlying Assets are correlated, the performance of the Underlying Asset(s) in the basket can be expected to move in the same direction. If the performance of a basket gives a greater 'weight' to a basket constituent as compared to other basket constituents, the basket performance will be more affected by changes in the value of that particular basket constituent than a basket which apportions an equal weight to each basket constituent. The performance of basket constituents may be moderated or offset by one another. This means that, even in the case of a positive performance of one or more constituents, the performance of the basket as a whole may be negative if the performance of the other constituents is negative to a greater extent.

- **Your Securities are subject to adjustments and early redemption:** Pursuant to the terms and conditions of the Securities, following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, the Determination Agent or the Issuer may take a number of remedial actions, including estimating the level of the Underlying Asset(s), substituting the Underlying Asset(s), and making adjustments to the terms and conditions of the Securities. Any of such remedial action may change the economic characteristics of the Securities and have a material adverse effect on the value of and return on the Securities. If no remedial action can be taken, or it is determined that an unlawfulness or impracticability event has occurred, the Issuer may early redeem the Securities by payment of an Early Cash Settlement Amount. If early redemption occurs, you may lose some or all of your investment because the Early Cash Settlement Amount may be lower than the price at which you purchase the Securities, or may even be zero. You will also lose the opportunity to participate in any subsequent positive performance of the Underlying Asset(s) and be unable to realise any potential gains in the value of the Securities. You may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest or coupon rate for a similar level of risk. Further, the Issuer may early redeem the Securities. This feature may limit the market value of the Securities.
- **Settlement is subject to conditions and may be impossible in certain circumstances:** Payment of the amount payable to you will not take place until all conditions to settlement have been satisfied in full. No additional amounts will be payable to you by the Issuer because of any resulting delay or postponement. Certain settlement disruption events may occur which could restrict the Issuer's ability to make payments, and the date of settlement could be delayed accordingly. Since 'Entitlement Substitution' is applicable, the Issuer may elect to either (i) substitute the affected entitlement components and deliver substitute assets, or (ii) not deliver the affected entitlement components and to pay an amount in lieu thereof to Holders. This may result in you being exposed to the issuer or custodian of the substituted assets, being unable to sell such substituted assets for a specific price and/or being subject to documentary or stamp taxes and/or other charges.
- **Certain specific information in relation to the Securities is not known at the beginning of an offer period:** The terms and conditions of your Securities only provide an indicative amount. The actual amounts will be determined based on market conditions by the Issuer on or around the end of the offer period. There is a risk that the indicative amounts will not be same as the actual amount, in which case, the return on your Securities may be materially different from the expected return based on the indicative amount.
- **Risks relating to Securities linked to the basket of Underlying Asset(s):** The return payable on the Securities is linked to the change in value of the Underlying Asset(s) over the life of the Securities. Any information about the past performance of any Underlying Asset should not be taken as an indication of how prices will change in the future. You will not have any rights of ownership, including, without limitation, any voting rights or rights to receive dividends, in respect of any Underlying Asset.

Risks relating to Underlying Asset(s) that are equity indices: Equity indices are composed of a synthetic portfolio of shares and provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. The Securities are linked to equity indices, and as such may not participate in dividends or any other distributions paid on the shares which make up such indices. Accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares. The index sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. Equity indices may comprise index components of different types of asset classes. Each type of asset class may have a different set of valuation methodology and extraordinary events that differ from the other types of components within the index methodology and, in certain case, the determination agent may require to determine the price, value, level or other relevant measures of such component by adopting a valuation methodology and making reference to a price source it deems appropriate or using the other applicable fallback valuation methodologies. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities.
- The Underlying Asset(s) are 'benchmarks' for the purposes of the EU Benchmarks Regulation (Regulation (EU) 2016/1011, as amended): Pursuant to the EU Benchmarks Regulation, an Underlying Asset may not be used in certain ways by an EU supervised entity after 31 December 2025 if its administrator does not obtain authorisation or registration (or, if a non-EU entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision or is not "endorsed" by an EU supervised entity). If this happens, a disruption event will occur and the Securities may be early redeemed. Further, the methodology or other terms of an Underlying Asset could be changed in order to comply with the requirements of the EU Benchmarks Regulation, and such changes could reduce or increase the level or affect the volatility of the published level of such Underlying Asset, which may in turn lead to adjustments to the terms of the Securities or early redemption.
- **Taxation risks:** The levels and basis of taxation on the Securities and any reliefs for such taxation will depend on your individual circumstances and could change at any time over the life of the Securities. This could have adverse consequences for you and you should therefore consult your own tax advisers as to the tax consequences to you of transactions involving the Securities.

I rischi emergenti sono quelli che hanno componenti sconosciute, il cui impatto potrebbe cristallizzarsi in un più lungo periodo di tempo. In aggiunta, certi altri fattori che sono oltre il controllo del Gruppo Bancario Barclays, ivi incluso un aumento di conflitti globali, atti di terrorismo, disastri naturali, pandemie ed eventi simili, ancorché non elencati di seguito, possano avere un simile impatto sul Gruppo Bancario Barclays. ● Rischi materialmente esistenti ed emergenti che possano potenzialmente impattare più di un rischio principale: In aggiunta ai rischi materiali ed emergenti che possono impattare i principali rischi elencati di seguito, vi sono anche rischi materiali ed emergenti che potrebbero impattare più di uno di tali rischi principali. Tali rischi sono: (i) condizioni potenzialmente sfavorevoli dell’economia globale e locale e condizioni di mercato, così come gli sviluppi geopolitici; (ii) l’impatto dei cambiamenti dei tassi di interesse sui profitti del Gruppo Bancario Barclays; (iii) gli ambienti competitivi dell’industria dei servizi bancari e finanziari; (iv) i programmi di modifica nell’ambito regolamentare e l’impatto sul modello di business; (v) l’impatto delle riforme dei tassi di interesse benchmark sul Gruppo Bancario Barclays; e (vi) rischi di consegna e di esecuzione dei cambiamenti. ● Rischio climatico: Il rischio climatico è l’impatto sui rischi finanziari (di credito, di mercato, di tesoreria e di capitale) e operativi derivanti dal cambiamento climatico attraverso i rischi fisici, i rischi associati alla transizione verso un’economia a basse emissioni di carbonio. ● Rischio di Credito e di Mercato: Il rischio di credito è il rischio di perdita del Gruppo Bancario Barclays derivante dall’incapacità di clienti, consumatori o controparti, di onorare a pieno gli obblighi presi nei confronti di membri del Gruppo Bancario Barclays. Il rischio di mercato consiste nel rischio di perdita derivante dal potenziale cambiamento in negativo del valore delle attività e delle passività del Gruppo Bancario Barclays derivanti da fluttuazioni delle variabili di mercato. ● Rischio di tesoreria e di capitale ed il rischio che l’Emittente ed il Gruppo Bancario Barclays siano soggetti a poteri di risoluzione significativi: Ci sono tre tipi principali di rischi di capitale e tesoreria che deve affrontare il Gruppo Bancario Barclays, che sono (1) il rischio di capitale – il rischio che il Gruppo Bancario Barclays abbia un livello o una composizione di capitale non sufficienti per sostenere le attività commerciali e rispettare i requisiti regolamentari di capitale ad esso applicabili, in condizioni operative normali e in condizioni di stress; (2) il rischio di liquidità – il rischio che il Gruppo Bancario Barclays non sia in grado di rispettare le proprie obbligazioni contrattuali o condizionate o che non disponga di sufficienti importi per una stabile dotazione finanziaria e liquidità tale da supportare le proprie attività, che potrebbe anche essere impattato da modifiche alla valutazione del credito; e (3) il rischio di tasso di interesse nei libri bancari – il rischio che il Gruppo Bancario Barclays sia esposto a volatilità del capitale o dei ricavi a causa di un disallineamento tra le esposizioni dei tassi di interesse delle sue attività (non commercializzate) e passività. Ai sensi del Banking Act 2009, sono concessi poteri sostanziali alla Banca d’Inghilterra (o, in determinate circostanze, <i>al HM Treasury</i>), di concerto con la <i>United Kingdom Prudential Regulation Authority</i>, la <i>UK Financial Conduct Authority</i> e il <i>HM Treasury</i>, ove opportuno, nell’ambito di un regime di risoluzione speciale. Tali poteri rendono possibile alla Banca d’Inghilterra (o qualsiasi successore o sostituto della stessa e/o altra autorità nel Regno Unito avente facoltà di esercitare il Potere di Bail-in) (l’"Autorità di Risoluzione") di porre in essere varie misure di risoluzione e opzioni di stabilizzazione (incluso, ma non solo, lo strumento di bail-in) nei confronti di una banca nel Regno Unito o di una società di investimento e di talune delle sue collegate (alla data del Documento di Registrazione, incluso l’Emittente) nei casi in cui l’Autorità di Risoluzione ritiene che le relative condizioni di risoluzione sono soddisfatte. ● Rischio operativo e rischio di modello: Il rischio operativo consiste nel rischio di perdita per il Gruppo Bancario Barclays, derivante da processi e sistemi inadeguati o difettosi, fattori umani, o dovuti ad eventi esterni la cui causa principale non è riconducibile al rischio di credito o di mercato. Il rischio di modello deriva da potenziali conseguenze negative ad esito di decisioni basate su modelli di rendimento e di relazione sbagliati o usati in modo improprio. ● Rischio di compliance, rischio reputazionale, nonché rischio legale e questioni legali, di concorrenza e regolamentari: Il rischio di compliance è il rischio di risultati scadenti per clienti e mercati, o danni agli stessi, derivanti dalla consegna dei prodotti e servizi del Gruppo Bancario Barclays (rischio di condotta) e il rischio verso Barclays, i suoi clienti, i committenti o i mercati derivante dal mancato rispetto di leggi, norme e regolamenti applicabili all’azienda. Il rischio reputazionale è il rischio che un’azione, una transazione, un investimento, un evento, una decisione o relazione di business riduca la fiducia nella integrità e/o nelle capacità del Gruppo Bancario Barclays. Il Gruppo Bancario Barclays svolge attività in un mercato globale altamente regolamentato e perciò è esposto al rischio legale derivante da (i) una moltitudine di leggi e regolamenti che si applicano alle attività che svolge, che sono molto dinamici, possono variare da giurisdizione a giurisdizione, e/o essere in conflitto, e possono essere poco chiari nella loro applicazione a particolari circostanze specialmente in aree nuove ed emergenti; e (ii) la natura diversificata e mutevole delle attività e prassi di attività del Gruppo Bancario Barclays. In ogni caso, questo espone il Gruppo Bancario Barclays al rischio di perdita o di imposizione di penali, danni o sanzioni derivanti dall’incapacità di membri del Gruppo Bancario Barclays di rispettare le leggi, le norme, i regolamenti o i requisiti contrattuali applicabili o per accertare o difendere i propri diritti in materia di proprietà intellettuale. Il rischio legale può emergere in conseguenza di un numero di fattori di rischio, come sopra riassunti.
INFORMAZIONI PRINCIPALI SUI TITOLI
Quali sono le caratteristiche principali dei Titoli?
Tipologia e categoria dei Titoli offerti e ammessi a negoziazione, inclusi numeri di identificazione dei Titoli I Titoli avranno forma di certificati rimborsabili e saranno identificati in maniera univoca da: Numero di serie: NX00442988; Codice ISIN: XS2935581327; Common Code: 293558132. I Titoli saranno liquidati e regolati tramite Euroclear Bank S.A./N.V. e/o Clearstream Banking <i>société anonyme</i>.
Valuta, numero di titoli in una unità, volume di emissione e termine dei Titoli I Titoli saranno emessi in EUR (la "Valuta di Emissione") e regolati nella stessa valuta (la "Valuta di Regolamento"). I Titoli sono negoziabili in unità e c’è un Titolo in ogni unità. L’emissione ammonta a 30.000 Titoli. Il Prezzo di Emissione è pari a 100 EUR per Titolo. La data di emissione è il 17 gennaio 2025 (la "Data di Emissione"). Salvo che in caso di estinzione anticipata, i Titoli sono programmati per essere rimborsati il 1 febbraio 2030 (la "Data di Regolamento Programmata").
Diritti connessi ai Titoli Rendimento potenziale: I Titoli conferiranno a ciascun investitore il diritto di ottenere un rendimento potenziale sui Titoli, insieme a certi diritti accessori, quali ad esempio il diritto essere informati in merito a determinate decisioni ed eventi e il diritto di votare su alcune modifiche (ma non tutte) al regolamento dei Titoli. Il rendimento potenziale sarà nella forma di (i) uno o più Importi degli Interessi (ii) un Importo di Regolamento in Contanti Autocall e/o (iii) un Importo di Regolamento Finale in Contanti, restando inteso che, in caso di estinzione anticipata dei Titoli, il potenziale rendimento potrà invece essere in forma di un Importo di Regolamento Anticipato in Contanti. Tassazione: Tutti i pagamenti relativi ai Titoli saranno effettuati senza ritenute o detrazioni per o a causa di eventuali imposte del Regno Unito, a meno che tali ritenute o detrazioni non siano richieste dalla legge. Nel caso in cui tale ritenuta o deduzione sia richiesta dalla legge, l’Emittente, salvo limitate circostanze, sarà tenuto a pagare importi aggiuntivi per coprire gli importi così trattenuti o dedotti. Eventi di inadempimento: Se l’Emittente non effettua alcun pagamento dovuto ai sensi dei Titoli o viola qualsiasi altro termine e condizione dei Titoli in modo materialmente pregiudizievole per gli interessi dei portatori (e tale inadempimento non venga sanata entro 30 giorni di calendario, o, nel caso di interessi che non siano stati pagati entro 14 giorni di calendario dalla data prevista), o l’Emittente è soggetto ad una ordinanza di liquidazione, allora (subordinatamente, in caso di interessi, all’impossibilità per l’Emittente di pagare in virtù di una disposizione di legge obbligatoria) i Titoli diventeranno immediatamente esigibili e pagabili, previa comunicazione da parte del portatore. Limitazioni dei diritti Rimborso anticipato in seguito a determinati eventi di turbativa o a causa di illegittimità o impraticabilità: L’Emittente può rimborsare i Titoli prima della loro Data di Regolamento Programmata a seguito del verificarsi di determinati eventi di turbativa o eventi straordinari riguardanti l’Emittente, i suoi accordi di copertura, la(e) Attività Sottostante(i), la tassazione o la relativa valuta dei Titoli, o se determina che si è verificato un evento di illiceità o di impraticabilità. In tal caso, gli investitori riceveranno un "Importo di Regolamento Anticipato in Contanti" pari al valore equo di mercato dei Titoli prima del loro rimborso. Alcune limitazioni ulteriori: ● Nonostante i Titoli siano legati alla performance della(e) Attività Sottostante(i), i portatori non hanno alcun diritto in relazione alla(e) Attività Sottostante(i). ● Il regolamento dei Titoli consente all’Emittente e all’Agente per la Determinazione (a seconda dei casi), al verificarsi di determinati eventi e in determinate circostanze, senza il consenso dei portatori, di apportare modifiche al regolamento dei Titoli, di rimborsare i Titoli prima della scadenza, monetizzare i Titoli, rinviare la valutazione o ottenere alternative valutazioni della(e) Attività Sottostante(i) o di

B – Regolamento Automatico (Autocall)

I Titoli saranno automaticamente rimborsati se ogni livello di chiusura dell’Attività Sottostante diviso per il suo Livello Iniziale è pari o superiore alla corrispondente Percentuale di Barriera Autocall con riferimento a qualsiasi Data di Valutazione Autocall. In tal caso, riceverete un Importo di Regolamento Autocall in Contanti pari all’Importo di Calcolo moltiplicato per il 100% pagabile alla Data di Regolamento Autocall corrispondente a tale Data di Valutazione Autocall. La rilevante Data di Regolamento Autocall potrà essere posticipata in seguito al posticipo di una Data di Valutazione Autocall a causa di un evento di turbativa.

C – Regolamento Finale

Qualora i Titoli non siano stati rimborsati altrimenti, ogni Titolo sarà rimborsato alla Data di Regolamento Programmata mediante pagamento di un Importo di Regolamento Finale in Contanti. La Data di Regolamento Programmata potrà essere posticipata in seguito al posticipo della Data di Valutazione Finale a causa di un evento di turbativa.

L'Importo di Regolamento Finale in Contanti è calcolato nel seguente modo:

(i) se un Evento Trigger Knock-in non si è verificato, il 100% moltiplicato per l'Importo di Calcolo;

(ii) altrimenti, un importo calcolato sommando (a) la Performance Finale meno la Percentuale del Prezzo di Strike (pari a 100,00%) (“PPS”) e (b) il 100% (tale importo soggetto a un minimo di zero) e moltiplicando il risultato per l’Importo di Calcolo.

Dove:

"Evento Trigger Knock-in" si considererà verificato qualora il prezzo o livello di qualsiasi Attività Sottostante con riferimento alla Data di Osservazione dell’Evento Trigger (ovvero 24 gennaio 2030) è inferiore al Prezzo della Barriera Knock-in (Prezzo Iniziale^(Regolamento) moltiplicato per la Percentuale della Barriera Knock-in (pari al(all’) 70,00%)) di tale Attività Sottostante.

"Performance Finale" indica il Prezzo di Valutazione Finale diviso per il Prezzo Iniziale^(Regolamento) ciascuno in relazione all'Attività Sottostante con la Performance Peggiore calcolato in relazione alla Data di Valutazione Finale.

"Data di Valutazione Finale" indica il 24 gennaio 2030, soggetto a rettifica.

"Prezzo di Valutazione Finale" indica, con riferimento ad un’Attività Sottostante, il livello di chiusura relativo all’Attività Sottostante alla Data di Valutazione Finale.

"Attività Sottostante con la Performance Peggiore" indica, in relazione a qualsiasi giorno di negoziazione programmato, l’Attività Sottostante con la Performance dell’Attività più bassa in tale giorno.

"Performance dell’Attività" indica, in relazione ad un’Attività Sottostante e qualsiasi giorno, il livello di chiusura di tale Attività Sottostante in tale giorno diviso per il suo Prezzo Iniziale.

Status dei Titoli I Titoli sono obbligazioni contrattuali dirette, chirografarie e non subordinate dell'Emittente e di pari grado tra loro.
Descrizione di restrizioni alla libera trasferibilità dei Titoli I Titoli sono offerti e venduti al di fuori degli Stati Uniti a <i>non-U.S. persons</i> in ottemperanza al <i>Regulation S</i> ai sensi del <i>Securities Act</i> e devono essere conformi alle limitazioni sul trasferimento con riferimento agli Stati Uniti. I Titoli detenuti in un Sistema di Compensazione saranno trasferiti ai sensi delle regole, procedure e regolamenti di tale Sistema di Compensazione. Fatto salvo quanto precede, i Titoli saranno liberamente trasferibili.
Dove saranno negoziati i Titoli? Si prevede che una domanda di ammissione dei titoli sarà presentata dall'Emittente (o per suo conto) sul Mercato EuroTLX, un sistema multilaterale di negoziazione organizzato e gestito da Borsa Italiana S.p.A.
Quali sono gli specifici rischi chiave dei Titoli? I Titoli sono soggetti ai seguenti rischi chiave: Potete perdere tutto o parte del vostro investimento nei Titoli: Gli investitori sono esposti al rischio di credito di Barclays Bank PLC. Poiché i Titoli non costituiscono un deposito e non sono assicurati o garantiti da alcun governo o agenzia o ai sensi del programma di garanzia del credito del governo britannico, tutti i pagamenti o le consegne che Barclays Bank PLC deve effettuare in qualità di Emittente ai sensi dei Titoli sono soggetti alla sua posizione finanziaria e alla sua capacità di far fronte ai propri obblighi. I Titoli costituiscono obbligazioni non subordinate e non garantite dell’Emittente e hanno pari rango rispetto a tutte le altre obbligazioni non subordinate e non garantite attuali e future dell’Emittente. I termini degli Strumenti Finanziari non prevedono un pagamento minimo programmato a scadenza e pertanto, a seconda dell’andamento della(e) Attività Sottostante(i), potete perdere tutto o parte del vostro investimento. Anche qualora i vostri Titoli siano pagabili alla pari, potreste perdere l’intero valore del vostro investimento se l’Emittente fallisce o non è altrimenti in grado di far fronte ai suoi pagamento o ad adempiere alle sue obbligazioni. Potete anche perdere tutto o parte del vostro investimento se: (a) vendete i vostri Strumenti Finanziari prima della loro data di scadenza o maturazione prevista; (b) i vostri Strumenti Finanziari sono rimborsati anticipatamente in certe circostanze straordinarie; o (c) il regolamento dei vostri Strumenti Finanziari sono modificati in modo che l’importo pagabile o il bene consegnabile a voi siano inferiori rispetto al vostro investimento iniziale. Ci sono rischi connessi alla valutazione, liquidità e offerta dei Titoli: Il valore di mercato dei vostri Titoli potrebbe essere inferiore al prezzo di emissione dal momento che il prezzo di emissione può tenere in conto un margine di profitto dell’Emittente o del distributore o costi aggiuntivi rispetto al valore equo di mercato dei Titoli. Il valore di mercato dei vostri Titoli potrebbe essere influenzato dalla volatilità, dal livello, valore o prezzo delle Attività Sottostante(i) al momento rilevante, cambiamenti nei tassi di interesse, la posizione finanziaria ed il rating creditizio dell’Emittente, l’offerta e la domanda

di Titoli, il tempo residuo sino alla scadenza o termine dei Titoli ed altri fattori. Il prezzo, ove esistente, a cui potrete vendere i vostri Titoli prima della scadenza potrebbe essere sostanzialmente inferiore al valore che avete investito in origine. I vostri Titoli potrebbero non avere un mercato attivo di negoziazione e l'Emittente potrebbe non avere un obbligo di creare un mercato o di riacquistare i Titoli prima del rimborso. L'Emittente potrebbe ritirare l'offerta pubblica in ogni momento. In tal caso, ove abbiate già pagato o consegnato il corrispettivo per la sottoscrizione dei Titoli, avrete diritto al rimborso di tali importi, ma non riceverete alcuna remunerazione eventualmente maturata nel periodo tra il pagamento o la consegna del corrispettivo per la sottoscrizione ed il rimborso dei Titoli. Siete esposti a rischi connessi alla determinazione dell'importo pagabile ai sensi dei Titoli: L'Importo di Interessi è condizionato dall'andamento della(e) Attività Sottostante(i) e potrebbe essere zero ove i criteri relativi all'andamento non fossero soddisfatti. In tal caso l'Importo degli Interessi potrebbe essere posticipato al successivo pagamento degli interessi che potrebbe essere fatto, ma è possibile che non percepiate alcun interesse per tutta la durata dei Titoli. I Titoli maturano interessi che sono condizionati dall'andamento della(e) Attività Sottostante(i) e potrebbero variare da una Data di Pagamento degli Interessi alla successiva. Potreste non ricevere alcun pagamento di interessi se l'andamento della(e) Attività Sottostante(i) è diverso dalle previsioni. L'Importo di Regolamento Finale in Contanti si basa sull'andamento della(e) Attività Sottostante(i) solo alla Data di Valutazione Finale (piuttosto che rispetto a periodi multipli durante la vita dei Titoli). Ciò significa che potreste non beneficiare di movimenti nel livello della(e) Attività Sottostante(i) durante la vita dei Titoli che non sia mantenuto nell'andamento finale alla Data di Valutazione Finale. Siccome l'Importo di Regolamento Finale in Contanti è soggetto ad un cap, il valore o il rendimento dei vostri Titoli potrebbe essere significativamente inferiore al caso in cui aveste acquistato direttamente la(e) Attività Sottostante(i). Siete esposti all'andamento di ogni Attività Sottostante. A prescindere dall'andamento di altre Attività Sottostanti, se una o più delle Attività Sottostanti non raggiunge una soglia o barriera rilevante per il pagamento di un interesse o il calcolo di qualsiasi importo di rimborso, potreste non ricevere alcun pagamento di interesse e/o potreste perdere tutto o parte del vostro investimento iniziale. Il calcolo dell'importo pagabile dipende dal fatto che il livello, valore o livello della(e) Attività Sottostante(i) raggiunga o superi una 'barriera' durante un periodo specificato o in date specificate durante la vita dei Titoli. Ciò significa che potreste ricevere meno (o, in certi casi, di più) se il livello, valore o livello della(e) Attività Sottostante(i) supera o raggiunge (a seconda dei casi) una barriera, rispetto ad una situazione in cui si avvicina alla barriera ma non la raggiunge o supera (a seconda dei casi), e in certi casi potreste non ricevere alcun pagamento di interessi o cedole e/o potreste perdere tutto o parte del vostro investimento. - I titoli fanno riferimento ad un paniere di Attività Sottostanti, ciascuna delle quali dimostra caratteristiche di rischio uniche. Se le Attività Sottostanti sono correlate, ci si aspetta che l'andamento delle Attività Sottostanti nel paniere vada nella medesima direzione. Se la performance di un paniere attribuisce un maggiore "peso" ad un costituente del paniere rispetto ad altri, l'andamento del paniere sarà maggiormente influenzato da variazioni di valore di quel particolare costituente del paniere rispetto ad un paniere che attribuisce eguale peso a ciascun costituente del paniere. L'andamento dei costituenti del paniere può essere moderato o compensato tra di loro. Ciò significa che, anche nel caso di performance positiva di uno o più costituenti il paniere, l'andamento del paniere nel suo complesso potrebbe essere negativo se la performance di altri costituenti è negativa in misura maggiore. I vostri Titoli sono soggetti a rettifiche e al rimborso anticipato: Ai sensi del regolamento dei Titoli, a seguito del verificarsi di determinati eventi di turbativa o eventi straordinari riguardanti l'Emittente, i suoi accordi di copertura, la(e) Attività Sottostante(i), la tassazione o la relativa valuta dei Titoli, l'Agente di Determinazione o l'Emittente possono adottare una serie di azioni correttive, inclusa la stima del livello della(e) Attività Sottostante(i), la sostituzione della(e) Attività Sottostante(i) e l'effettuazione di rettifiche al regolamento dei Titoli. Ognuna di tali azioni correttive può modificare le caratteristiche economiche dei Titoli e avere un effetto negativo rilevante sul valore e sul rendimento dei Titoli. Se non è possibile intraprendere alcuna azione correttiva, o se si determina che si è verificato un evento di illiceità o di impraticabilità l'Emittente può rimborsare anticipatamente i Titoli mediante il pagamento di un Importo di Liquidazione Anticipata in Contanti. Se si verifica un rimborso anticipato, potreste perdere tutto o parte del vostro investimento perché l'Importo di Liquidazione Anticipata in Contanti potrebbe essere inferiore al livello al quale avete acquistato i Titoli, o potrebbe anche essere pari a zero. Perderete anche l'opportunità di partecipare a qualsiasi successiva performance positiva dell'Attività Sottostante e non potrete realizzare alcun potenziale guadagno nel valore dei Titoli. Potreste non essere in grado di reinvestire i proventi di un investimento ad un rendimento comparabile e/o con un tasso di interesse o cedola comparabile per un livello di rischio simile. Inoltre l'Emittente potrebbe riscattare i Titoli anticipatamente. Tale aspetto potrebbe limitare il valore di mercato dei Titoli. Il regolamento è soggetto a condizioni e potrebbe in certe circostanze essere impossibile: il pagamento dell'importo dovuto non avrà luogo fino a quando tutte le condizioni per il regolamento non saranno state soddisfatte per intero. Nessun importo aggiuntivo sarà dovuto dall'Emittente a causa di eventuali ritardi o rinvii. Potrebbero verificarsi alcuni eventi di turbativa del regolamento che potrebbero limitare la capacità dell'Emittente di effettuare pagamenti o, e la data di regolamento potrebbe essere posticipata di conseguenza. Poiché è applicabile la "sostituzione del diritto", l'Emittente può scegliere di (i) sostituire componenti dei diritti interessati e consegnare beni sostitutivi, o (ii) non consegnare i componenti dei diritti interessati e pagare un importo in sostituzione ai Titolari. Ciò potrebbe comportare l'esposizione dell'investitore all'emittente o al custode dei beni sostituiti, l'impossibilità di vendere tali beni sostituiti a un prezzo specifico e/o l'essere soggetti a tasse documentarie o di bollo e/o altri oneri. Certe specifiche informazioni in relazione ai Titoli non sono conosciute all'inizio del periodo d'offerta: I termini e le condizioni dei vostri Titoli forniscono solo un importo indicativo. Gli importi effettivi saranno determinati in base alle condizioni di mercato dall'Emittente al termine o in prossimità della fine del periodo di offerta. Esiste il rischio che gli importi indicativi non corrispondano all'importo effettivo, nel qual caso il rendimento dei Titoli potrebbe essere sostanzialmente diverso dal rendimento atteso in base all'importo indicativo. Rischi relativi a Titoli connessi ad un Paniere di Attività Sottostante(i): Il rendimento pagabile sui Titoli è legato alla variazione di valore delle Attività Sottostanti durante la vita dei Titoli. Qualsiasi informazione sull'andamento passato di qualsiasi Attività Sottostante non deve essere considerata un'indicazione di come i prezzi cambieranno in futuro. Non avrete alcun diritto di proprietà, inclusi, a titolo esemplificativo, eventuali diritti di voto o diritti a ricevere dividendi, in relazione a qualsiasi Attività Sottostante. Rischi relativi ad Attività Sottostante(i) che sono indici azionari: Gli indici azionari sono composti da un portafoglio sintetico di azioni e forniscono opportunità di diversificazione degli investimenti, ma saranno soggetti al rischio di fluttuazioni sia dei prezzi azionari sia del valore e della volatilità del relativo indice azionario. I Titoli sono collegati a indici azionari, e come tali non possono partecipare ai dividendi o a qualsiasi altra distribuzione pagata sulle azioni che compongono tali indici. Di conseguenza, potreste ricevere un rendimento sui Titoli inferiore a quello che avreste ricevuto se aveste investito direttamente in quelle azioni. Lo sponsor dell'indice può aggiungere, cancellare o sostituire le componenti di un indice azionario a sua discrezione, e può anche modificare la metodologia utilizzata per calcolare il livello di tale indice. Gli Indici Azionari possono comprendere componenti dell'indice di diversi tipi di classe di attività. Ogni tipo di classe di attività può avere un diverso insieme di metodologia di valutazione ed eventi straordinari che differiscono dagli altri tipi di componenti all'interno della metodologia dell'indice e, in alcuni casi, l'agente di determinazione può richiedere di determinare il prezzo, il valore, il livello o altri elementi rilevanti misure di tale componente adottando una metodologia di valutazione e facendo riferimento ad una fonte di prezzo ritenuta opportuna o utilizzando le altre metodologie di valutazione di fallback applicabili. Questi eventi possono avere un impatto negativo sul livello di tale indice, che a sua volta potrebbe avere un impatto negativo sul valore e sul rendimento dei Titoli. La/le Attività Sottostante/i sono "indici di riferimento" ai fini del Regolamento UE sugli indici di riferimento ("Regolamento Benchmark") (Regolamento (UE) 2016/1011, come modificato): Ai sensi del Regolamento Benchmark, un'Attività Sottostante non può essere utilizzata in determinati modi da un Soggetto vigilato UE dopo il 31 dicembre 2025 se il suo amministratore non ottiene l'autorizzazione o la registrazione (o, se soggetto extra UE, non soddisfa le condizioni di "equivalenza" e non è "riconosciuto" in attesa di una decisione di equivalenza o non è "approvato" da un soggetto vigilato dell'UE). In tal caso, si verificherà un evento di turbativa e i Titoli potranno essere rimborsati anticipatamente. Inoltre, la metodologia o altri termini di un'Attività Sottostante potrebbero essere modificati al fine di soddisfare i requisiti del Regolamento Benchmark e tali modifiche potrebbero ridurre o aumentare il livello o influenzare la volatilità del livello pubblicato di tale Attività Sottostante, che può a sua volta portare ad adeguamenti dei termini dei Titoli o al rimborso anticipato. Rischi fiscali: I livelli e la base della tassazione sui Titoli e gli eventuali sgravi per tale tassazione dipenderanno dalle circostanze individuali e potrebbero cambiare in qualsiasi momento nel corso della vita dei Titoli. Ciò potrebbe avere conseguenze negative per voi e dovrete quindi consultare i vostri consulenti fiscali per quanto riguarda le conseguenze fiscali per voi delle transazioni che coinvolgono i Titoli.
