What are the key risks that are specific to the Issuer?

Risk exposure to debt securities issued by sovereign States

The market tensions regarding government bonds and their volatility, as well as Italy's rating downgrading or the forecast that such downgrading may occur, might have negative effects on the assets, the economic and/or financial situation, the operational results and the perspectives of the Bank. Intesa Sanpaolo Group results are and will be exposed to sovereign debtors, in particular to Italy and certain major European Countries.

Risks related to legal proceedings

The risk arising from legal proceedings consists of the possibility of the Bank being obliged to pay any sum in case of unfavourable outcome.

Risks related to the economic/financial crisis and the impact of current uncertainties of the macro-economic context

The future development in the macro-economic context may be considered as a risk as it may produce negative effects and trends in the economic and financial situation of the Bank and/or the Group. Any negative variations of the factors that affect the macro-economic framework, in particular during periods of economic-financial crisis, could lead the Bank and/or the Group to suffer losses, increases of financing costs, and reductions of the value of the assets held, with a potential negative impact on the liquidity of the Bank and/or the Group and its financial soundness.

Credit risk

The economic and financial activity and soundness of the Bank depend on its borrower's creditworthiness. The Bank is exposed to the traditional risks related to credit activity. Therefore, the clients' breach of the agreements entered into and of their underlying obligations, or any lack of information or incorrect information provided by them as to their respective financial and credit position, could have negative effects on the economic and/or financial situation of the Bank.

Market risk

The market risk is the risk of losses in the value of financial instruments, including the securities of sovereign States held by the Bank, due to the movements of market variables (by way of example and without limitation, interest rates, prices of securities, exchange rates), which could determine a deterioration of the financial soundness of the Bank and/or the Group. Such deterioration could be produced either by negative effects on the income statement deriving from positions held for trading purposes, or from negative changes in the FVOCI (Fair Value through Other Comprehensive Income) reserve, generated by positions classified as financial activities evaluated at fair value, with an impact on the overall profitability.

Liquidity risk of Intesa Sanpaolo

Although the Bank constantly monitors its own liquidity risk, any negative development of the market situation and the general economic context and/or creditworthiness of the Bank, may have negative effects on the activities and the economic and/or financial situation of the Bank and the Group. In particular, in light of the findings set forth in the EBA third report on LCR and NSFR monitoring⁷, the Issuer remains attentive to the evolution of the funding market to ensure that its ordinary refinancing strategies and normal business are not affected by the cumulative effect of the maturity of all the remaining central bank funding and additional outflows due to the impact of adverse market liquidity scenarios. The liquidity risk is the risk that the Bank is not able to satisfy its payment obligations at maturity, both due to the inability to raise funds on the market (funding liquidity risk) and of the difficulty to disinvest its own assets (market liquidity risk).

Operational risk

The Bank is exposed to several categories of operational risk which are intrinsic to its business, among which those mentioned herein, by way of example and without limitation: frauds by external persons, frauds or losses arising from the unfaithfulness of the employees and/or breach of control procedures, operational errors, defects or malfunctions of computer or telecommunication systems, computer virus attacks, default of suppliers with respect to their contractual obligations, terrorist attacks and natural disasters. The occurrence of one or more of said risks may have significant negative effects on the business, the operational results and the economic and financial situation of the Bank.

Risk related to the development of the banking sector regulation and the changes in the regulation on the solution of banking crises

The Bank is subject to a complex and strict regulation, as well as to the supervisory activity performed by the relevant institutions (in particular, the European Central Bank, the Bank of Italy and CONSOB). Both the aforementioned regulation and supervisory activity are subject, respectively, to continuous updates and practice developments. Furthermore, as a listed Bank, the Bank is required to comply with further provisions issued by CONSOB. The Bank, besides the supranational and national rules and the primary or regulatory rules of the financial and banking sector, is also subject to specific rules on anti-money laundering, usury and consumer protection. Although the Bank undertakes to comply with the set of rules and regulations, any changes of the rules and/or changes of the interpretation and/or implementation of the same by the competent authorities could give rise to new burdens and obligations for the Bank, with possible negative impacts on the operational results and the economic and financial situation of the Bank.

If the Reference Value on the following dates: 16 April 2025 (the "**First Memory Valuation Period**"); 20 May 2025 (the "**Second Memory Valuation Period**"); 18 June 2025 (the "**Third Memory Valuation Period**"); 18 July 2025 (the "**Fourth Memory Valuation Period**"); 19 August 2025 (the "**Fifth Memory Valuation Period**"); 18 September 2025 (the "**Sixth Memory Valuation Period**"); 20 October 2025 (the "**Seventh Memory Valuation Period**"); 18 November 2025 (the "**Eighth Memory Valuation Period**"); 18 December 2025 (the "**Ninth Memory Valuation Period**"); 20 January 2026 (the "**Tenth Memory Valuation Period**"); 18 February 2026 (the "**Eleventh Memory Valuation Period**"); 18 March 2026 (the "**Twelfth Memory Valuation Period**"); 20 April 2026 (the "**Thirteenth Memory Valuation Period**"); 19 May 2026 (the "**Fourteenth Memory Valuation Period**"); 18 June 2026 (the "**Fifteenth Memory Valuation Period**"); 20 July 2026 (the "**Sixteenth Memory Valuation Period**"); 18 August 2026 (the "**Seventeenth Memory Valuation Period**"); 18 September 2026 (the "**Eighteenth Memory Valuation Period**"); 20 October 2026 (the "**Nineteenth Memory Valuation Period**"); 18 November 2026 (the "**Twentieth Memory Valuation Period**"); 18 December 2026 (the "**Twenty-First Memory Valuation Period**"); 19 January 2027 (the "**Twenty-Second Memory Valuation Period**"); 18 February 2027 (the "**Twenty-Third Memory Valuation Period**"); 18 March 2027 (the "**Twenty-Fourth Memory Valuation Period**"); 20 April 2027 (the "**Twenty-Fifth Memory Valuation Period**"); 18 May 2027 (the "**Twenty-Sixth Memory Valuation Period**"); 17 June 2027 (the "**Twenty-Seventh Memory Valuation Period**"); 20 July 2027 (the "**Twenty-Eighth Memory Valuation Period**"); 18 August 2027 (the "**Twenty-Ninth Memory Valuation Period**"); 20 September 2027 (the "**Thirtieth Memory Valuation Period**"); 19 October 2027 (the "**Thirty-First Memory Valuation Period**"); 18 November 2027 (the "**Thirty-Second Memory Valuation Period**"); 20 December 2027 (the "**Thirty-Third Memory Valuation Period**"); 18 January 2028 (the "**Thirty-Fourth Memory Valuation Period**"); 22 February 2028 (the "**Thirty-Fifth Memory Valuation Period**"), is higher than or equal to the Memory Level of the Worst Of Underlying in relation to each Memory Valuation Period, the investor will receive the previously unpaid Digital Amounts (except where such Digital Amounts were already paid due to the occurrence of a Digital Event in a previous Digital Valuation Period). The Memory Level is equal to 55% of the Initial Reference Value of the relevant Underlying (the "**Memory Level**").

EARLY REDEMPTION AMOUNT

The Certificates provide the possibility of an automatic early redemption if an Early Redemption Event has occurred.

In particular, if the Reference Value on the following dates: 18 February 2026 (the "**First Early Redemption Valuation Period**"); 18 March 2026 (the "**Second Early Redemption Valuation Period**"); 20 April 2026 (the "**Third Early Redemption Valuation Period**"); 19 May 2026 (the "**Fourth Early Redemption Valuation Period**"); 18 June 2026 (the "**Fifth Early Redemption Valuation Period**"); 20 July 2026 (the "**Sixth Early Redemption Valuation Period**"); 18 August 2026 (the "**Seventh Early Redemption Valuation Period**"); 18 September 2026 (the "**Eighth Early Redemption Valuation Period**"); 20 October 2026 (the "**Ninth Early Redemption Valuation Period**"); 18 November 2026 (the "**Tenth Early Redemption Valuation Period**"); 18 December 2026 (the "**Eleventh Early Redemption Valuation Period**"); 19 January 2027 (the "**Twelfth Early Redemption Valuation Period**"); 18 February 2027 (the "**Thirteenth Early Redemption Valuation Period**"); 18 March 2027 (the "**Fourteenth Early Redemption Valuation Period**"); 20 April 2027 (the "**Fifteenth Early Redemption Valuation Period**"); 18 May 2027 (the "**Sixteenth Early Redemption Valuation Period**"); 17 June 2027 (the "**Seventeenth Early Redemption Valuation Period**"); 20 July 2027 (the "**Eighteenth Early Redemption Valuation Period**"); 18 August 2027 (the "**Nineteenth Early Redemption Valuation Period**"); 20 September 2027 (the "**Twentieth Early Redemption Valuation Period**"); 19 October 2027 (the "**Twenty-First Early Redemption Valuation Period**"); 18 November 2027 (the "**Twenty-Second Early Redemption Valuation Period**"); 20 December 2027 (the "**Twenty-Third Early Redemption Valuation Period**"); 18 January 2028 (the "**Twenty-Fourth Early Redemption Valuation Period**"), is higher than or equal to the Early Redemption Level of the Worst Of Underlying, the certificate will be automatically redeemed and the Securityholder will receive the payment of the relevant amount, equal to EUR 1,000

in relation to each Early Redemption Valuation Period (the "**Early Redemption Amount**").

The Early Redemption Level is equal to 100% of the Initial Reference Value of the relevant Underlying in relation to each Early Redemption Valuation Period (the "**Early Redemption Level**").

CASH SETTLEMENT AMOUNT

The Securityholder will receive on the Settlement Date, if an Early Redemption Event has not occurred, for each Minimum Exercise Amount, the payment of the Cash Settlement Amount (if positive) determined as follows.

STANDARD LONG CERTIFICATES

CALCULATION METHOD IN THE CASE OF POSITIVE AND NEGATIVE PERFORMANCE OF THE UNDERLYING (BARRIER EVENT NOT OCCURRED)

The investor will receive an amount linked to a percentage of the Initial Reference Value of the Worst Of Underlying, equal to 100% (the "**Initial Percentage**").

CALCULATION METHOD IN THE CASE OF NEGATIVE PERFORMANCE OF THE UNDERLYING – (BARRIER EVENT OCCURRED)

The Barrier Event will occur if on the Valuation Date, the Final Reference Value is lower than the Barrier Level of the Worst Of Underlying. The Barrier Level is equal to 55% of the Initial Reference Value of the relevant Underlying (the "**Barrier Level**").

If a Barrier Event has occurred, the Cash Settlement Amount will be linked to the performance of the Worst Of Underlying (i.e. the investment in the Certificate is a direct investment in the Worst Of Underlying) and, therefore, will be exposed to the partial or total loss of the capital invested.

In relation to the Digital Amounts, the Memory Effect, the Early Redemption Amount and the Cash Settlement Amount, the following option applies:

Worst Of Feature

The Calculation Agent selects the Worst Of Underlying which is the underlying asset with the worst performance.

For the purposes of the above the following applies:

For the purposes of the determination of the Barrier Event the Reference Value will be the Final Reference Value.

For the purposes of the determination of the Digital Event, the Memory Effect and the Early Redemption Event, the Reference Value will be registered, respectively, on the relevant Digital Valuation Period, the relevant Memory Valuation Period and the relevant Early Redemption Valuation Period and is equal to the closing price (in relation to the Infineon Technologies AG and the Amazon.com INC. Shares) or the reference price (in relation to the Stellantis N.V. Share) of the Worst Of Underlying on such dates.

The Initial Reference Value will be registered in relation to each Share on 21 February 2025 (the "**Determination Date**") and is equal to the closing price (in relation to the Infineon Technologies AG and the Amazon.com INC. Shares) and the reference price (in relation to the Stellantis N.V. Share) of the relevant Underlying on such date.

The Final Reference Value will be registered on 22 February 2028 (the "**Valuation Date**") and is equal to the closing price (in relation to the Infineon Technologies AG and the Amazon.com INC. Shares) or the reference price (in relation to the Stellantis N.V. Share) of the Worst Of Underlying on such date.

The Underlyings are the Infineon Technologies AG share (ISIN Code: DE0006231004, Bloomberg Code: IFX GY <Equity>), the Amazon.com INC. share (ISIN Code: US0231351067, Bloomberg Code: AMZN UW <Equity>) and the Stellantis N.V. share (ISIN Code: NL00150001Q9, Bloomberg Code: STLAM IM <Equity>) (the "**Underlyings**", each an "**Underlying**" or the "**Shares**" and each a "**Share**").

In respect of the Underlyings, certain historical information (including past performance thereof) may be found on major information providers, such as Bloomberg and Reuters. Information about the Infineon Technologies AG Share may be found on the website of the relevant issuer www.infineon.com. Information about the Amazon.com INC. Share may be found on the website of the relevant issuer www.ir.aboutamazon.com. Information about the Stellantis N.V. Share may be found on the website of the relevant issuer www.stellantis.com

Seniority of the securities

The Certificates constitute direct, unsubordinated, unconditional and unsecured obligations of the Issuer and, unless provided otherwise by law, rank *pari passu* among themselves and (save for certain obligations required to be preferred by law) rank equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

Restrictions on the free transferability

The Securities will be freely transferable, subject to the offering and selling restrictions in the United States, the European Economic Area under the Prospectus Regulation and the laws of any jurisdiction in which the relevant Securities are offered or sold.

Where will the securities be traded?

Application has been made for the Securities to be admitted to trading on the regulated market of the Luxembourg Stock Exchange with effect from the Issue Date or a date around the Issue Date.

Application has also been made for the Securities to be admitted to trading on the Italian multilateral trading facility SeDeX, organised and managed by Borsa Italiana S.p.A., which is not a regulated market for the purposes of Directive 2014/65/EU as amended, with effect from the Issue Date or a date around the Issue Date.

After the Issue Date, application may be made to list the Securities on other stock exchanges or regulated markets or to admit to trading on other trading venues as the Issuer may decide.

What are the key risks that are specific to the securities?

The Certificates may not be a suitable investment for all investors

Certificates are complex financial instruments. A potential investor should not invest in Certificates which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Certificates will perform under changing conditions, the resulting effects on the value of the Certificates and the impact this investment will have on the potential investor's overall investment portfolio.

General risks and risks relating to the Underlyings

The Securities involve a high degree of risk, which may include, among others, interest rate, foreign exchange, time value and political risks. Purchasers should be prepared to sustain a partial or total loss of the purchase price of their Securities. Fluctuations in the value of the relevant Underlying will affect the value of the Securities. Purchasers of Securities risk losing their entire investment or part of it if the value of the relevant underlying basis of reference does not move in the anticipated direction.

Loss risk in relation to the investment

The investor shall consider that, in relation to its investment, there is a risk of loss of the capital invested depending on the performance of the underlying asset. In particular, in the event a Barrier Event has occurred, a loss will occur in respect of the capital invested. If the Final Reference Value of the underlying asset is equal to zero, the investor will suffer a total loss of the capital. Moreover, if prior to the exercise the investor decides to terminate the investment in the Certificates, the investor might be subject to the loss of the value of the Certificate and, therefore, might be subject to the total or partial loss of the investment.

Risk related to the Barrier Event

If a Barrier Event occurs, the Cash Settlement Amount will be determined in accordance with a calculation method other than the calculation method applicable if the Barrier Event does not occur and such circumstance may have a negative influence on the price. This may entail the risk of partial or total loss of the investment.

Risk related to the Digital Level

In relation to the Certificates, the Issuer has set, at its own discretion, the Digital Level. The higher the Digital Level is set in respect of the Initial Reference Value, the greater the possibility that the Digital Event will not occur and therefore that the relevant Digital Amount will not be paid.

Risk related to the occurrence of an Early Redemption Event

If an Early Redemption Event occurs, the Certificates will be redeemed earlier than the Exercise Date (and therefore terminated). In such case, the Securityholders will receive the Early Redemption Amount on the relevant Early Payment Date and no other amounts will be paid. The Early Redemption Amount is an amount predetermined by the Issuer which will not depend on the value of the relevant underlying asset and, therefore, the potential positive performance of such underlying asset will not be considered. In addition, in the event that the relevant underlying asset is registering a positive performance when an Early Redemption Event occurs, investors should consider that it may not be possible to reinvest in such underlying asset at the same conditions applied to the initial investment made in the Certificates.

Possible illiquidity of the Securities in the secondary market

It is not possible to predict the price at which Securities will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer, or any of its Affiliates may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private treaty. Any Securities so purchased may be held or resold or surrendered for cancellation. The Issuer or any of its Affiliates may, but is not obliged to, be a market-maker for an issue of Securities. Even if the Issuer or such other entity is a market-maker for an issue of Securities, the secondary market for such Securities may be limited. To the extent that an issue of Securities becomes illiquid, an investor may have to wait until the Exercise Date to realise value.

Section 4 – Key information on the offer of securities to the public

Under which conditions and timetable can I invest in this security?

Not applicable - the Securities are not being offered to the public as part of a public offer.

Who is the offeror?

Not applicable - the Securities are not being offered to the public as part of a public offer.

Reasons for the offer and estimated net amount of the proceeds

Not applicable - the Securities are not being offered to the public as part of a public offer.

Indication of whether the offer is subject to an underwriting agreement on a firm commitment basis

Not applicable - the Securities are not being offered to the public as part of a public offer.

Indication of the most material conflicts of interest pertaining to the offer or the admission to trading.

The Issuer may enter into hedging arrangements with market counterparties in connection with the issue of the Securities in order to hedge its exposure. The Issuer will act as Calculation Agent under the Securities. In addition, the Issuer may act as liquidity provider (as defined under the rules of the relevant market, as amended from time to time) in respect of the Securities.

What are the key risks that are specific to the Issuer?

Risk exposure to debt securities issued by sovereign States

The market tensions regarding government bonds and their volatility, as well as Italy's rating downgrading or the forecast that such downgrading may occur, might have negative effects on the assets, the economic and/or financial situation, the operational results and the perspectives of the Bank. Intesa Sanpaolo Group results are and will be exposed to sovereign debtors, in particular to Italy and certain major European Countries.

Risks related to legal proceedings

The risk arising from legal proceedings consists of the possibility of the Bank being obliged to pay any sum in case of unfavourable outcome.

Risks related to the economic/financial crisis and the impact of current uncertainties of the macro-economic context

The future development in the macro-economic context may be considered as a risk as it may produce negative effects and trends in the economic and financial situation of the Bank and/or the Group. Any negative variations of the factors that affect the macro-economic framework, in particular during periods of economic-financial crisis, could lead the Bank and/or the Group to suffer losses, increases of financing costs, and reductions of the value of the assets held, with a potential negative impact on the liquidity of the Bank and/or the Group and its financial soundness.

Credit risk

The economic and financial activity and soundness of the Bank depend on its borrower's creditworthiness. The Bank is exposed to the traditional risks related to credit activity. Therefore, the clients' breach of the agreements entered into and of their underlying obligations, or any lack of information or incorrect information provided by them as to their respective financial and credit position, could have negative effects on the economic and/or financial situation of the Bank.

Market risk

The market risk is the risk of losses in the value of financial instruments, including the securities of sovereign States held by the Bank, due to the movements of market variables (by way of example and without limitation, interest rates, prices of securities, exchange rates), which could determine a deterioration of the financial soundness of the Bank and/or the Group. Such deterioration could be produced either by negative effects on the income statement deriving from positions held for trading purposes, or from negative changes in the FVOCI (Fair Value through Other Comprehensive Income) reserve, generated by positions classified as financial activities evaluated at fair value, with an impact on the overall profitability.

Liquidity risk of Intesa Sanpaolo

Although the Bank constantly monitors its own liquidity risk, any negative development of the market situation and the general economic context and/or creditworthiness of the Bank, may have negative effects on the activities and the economic and/or financial situation of the Bank and the Group. In particular, in light of the findings set forth in the EBA third report on LCR and NSFR monitoring⁷, the Issuer remains attentive to the evolution of the funding market to ensure that its ordinary refinancing strategies and normal business are not affected by the cumulative effect of the maturity of all the remaining central bank funding and additional outflows due to the impact of adverse market liquidity scenarios. The liquidity risk is the risk that the Bank is not able to satisfy its payment obligations at maturity, both due to the inability to raise funds on the market (funding liquidity risk) and of the difficulty to disinvest its own assets (market liquidity risk).

Operational risk

The Bank is exposed to several categories of operational risk which are intrinsic to its business, among which those mentioned herein, by way of example and without limitation: frauds by external persons, frauds or losses arising from the unfaithfulness of the employees and/or breach of control procedures, operational errors, defects or malfunctions of computer or telecommunication systems, computer virus attacks, default of suppliers with respect to their contractual obligations, terrorist attacks and natural disasters. The occurrence of one or more of said risks may have significant negative effects on the business, the operational results and the economic and financial situation of the Bank.

Risk related to the development of the banking sector regulation and the changes in the regulation on the solution of banking crises

The Bank is subject to a complex and strict regulation, as well as to the supervisory activity performed by the relevant institutions (in particular, the European Central Bank, the Bank of Italy and CONSOB). Both the aforementioned regulation and supervisory activity are subject, respectively, to continuous updates and practice developments. Furthermore, as a listed Bank, the Bank is required to comply with further provisions issued by CONSOB. The Bank, besides the supranational and national rules and the primary or regulatory rules of the financial and banking sector, is also subject to specific rules on anti-money laundering, usury and consumer protection. Although the Bank undertakes to comply with the set of rules and regulations, any changes of the rules and/or changes of the interpretation and/or implementation of the same by the competent authorities could give rise to new burdens and obligations for the Bank, with possible negative impacts on the operational results and the economic and financial situation of the Bank.

If the Reference Value on the following dates: 16 April 2025 (the "**First Memory Valuation Period**"); 20 May 2025 (the "**Second Memory Valuation Period**"); 18 June 2025 (the "**Third Memory Valuation Period**"); 18 July 2025 (the "**Fourth Memory Valuation Period**"); 19 August 2025 (the "**Fifth Memory Valuation Period**"); 18 September 2025 (the "**Sixth Memory Valuation Period**"); 20 October 2025 (the "**Seventh Memory Valuation Period**"); 18 November 2025 (the "**Eighth Memory Valuation Period**"); 18 December 2025 (the "**Ninth Memory Valuation Period**"); 20 January 2026 (the "**Tenth Memory Valuation Period**"); 18 February 2026 (the "**Eleventh Memory Valuation Period**"); 18 March 2026 (the "**Twelfth Memory Valuation Period**"); 20 April 2026 (the "**Thirteenth Memory Valuation Period**"); 19 May 2026 (the "**Fourteenth Memory Valuation Period**"); 18 June 2026 (the "**Fifteenth Memory Valuation Period**"); 20 July 2026 (the "**Sixteenth Memory Valuation Period**"); 18 August 2026 (the "**Seventeenth Memory Valuation Period**"); 18 September 2026 (the "**Eighteenth Memory Valuation Period**"); 20 October 2026 (the "**Nineteenth Memory Valuation Period**"); 18 November 2026 (the "**Twentieth Memory Valuation Period**"); 18 December 2026 (the "**Twenty-First Memory Valuation Period**"); 19 January 2027 (the "**Twenty-Second Memory Valuation Period**"); 18 February 2027 (the "**Twenty-Third Memory Valuation Period**"); 18 March 2027 (the "**Twenty-Fourth Memory Valuation Period**"); 20 April 2027 (the "**Twenty-Fifth Memory Valuation Period**"); 18 May 2027 (the "**Twenty-Sixth Memory Valuation Period**"); 17 June 2027 (the "**Twenty-Seventh Memory Valuation Period**"); 20 July 2027 (the "**Twenty-Eighth Memory Valuation Period**"); 18 August 2027 (the "**Twenty-Ninth Memory Valuation Period**"); 20 September 2027 (the "**Thirtieth Memory Valuation Period**"); 19 October 2027 (the "**Thirty-First Memory Valuation Period**"); 18 November 2027 (the "**Thirty-Second Memory Valuation Period**"); 20 December 2027 (the "**Thirty-Third Memory Valuation Period**"); 18 January 2028 (the "**Thirty-Fourth Memory Valuation Period**"); 22 February 2028 (the "**Thirty-Fifth Memory Valuation Period**"), is higher than or equal to the Memory Level of the Worst Of Underlying in relation to each Memory Valuation Period, the investor will receive the previously unpaid Digital Amounts (except where such Digital Amounts were already paid due to the occurrence of a Digital Event in a previous Digital Valuation Period). The Memory Level is equal to 55% of the Initial Reference Value of the relevant Underlying (the "**Memory Level**").

EARLY REDEMPTION AMOUNT

The Certificates provide the possibility of an automatic early redemption if an Early Redemption Event has occurred.

In particular, if the Reference Value on the following dates: 18 February 2026 (the "**First Early Redemption Valuation Period**"); 18 March 2026 (the "**Second Early Redemption Valuation Period**"); 20 April 2026 (the "**Third Early Redemption Valuation Period**"); 19 May 2026 (the "**Fourth Early Redemption Valuation Period**"); 18 June 2026 (the "**Fifth Early Redemption Valuation Period**"); 20 July 2026 (the "**Sixth Early Redemption Valuation Period**"); 18 August 2026 (the "**Seventh Early Redemption Valuation Period**"); 18 September 2026 (the "**Eighth Early Redemption Valuation Period**"); 20 October 2026 (the "**Ninth Early Redemption Valuation Period**"); 18 November 2026 (the "**Tenth Early Redemption Valuation Period**"); 18 December 2026 (the "**Eleventh Early Redemption Valuation Period**"); 19 January 2027 (the "**Twelfth Early Redemption Valuation Period**"); 18 February 2027 (the "**Thirteenth Early Redemption Valuation Period**"); 18 March 2027 (the "**Fourteenth Early Redemption Valuation Period**"); 20 April 2027 (the "**Fifteenth Early Redemption Valuation Period**"); 18 May 2027 (the "**Sixteenth Early Redemption Valuation Period**"); 17 June 2027 (the "**Seventeenth Early Redemption Valuation Period**"); 20 July 2027 (the "**Eighteenth Early Redemption Valuation Period**"); 18 August 2027 (the "**Nineteenth Early Redemption Valuation Period**"); 20 September 2027 (the "**Twentieth Early Redemption Valuation Period**"); 19 October 2027 (the "**Twenty-First Early Redemption Valuation Period**"); 18 November 2027 (the "**Twenty-Second Early Redemption Valuation Period**"); 20 December 2027 (the "**Twenty-Third Early Redemption Valuation Period**"); 18 January 2028 (the "**Twenty-Fourth Early Redemption Valuation Period**"), is higher than or equal to the Early Redemption Level of the Worst Of Underlying, the certificate will be automatically redeemed and the Securityholder will receive the payment of the relevant amount, equal to EUR 1,000

in relation to each Early Redemption Valuation Period (the "**Early Redemption Amount**").

The Early Redemption Level is equal to 100% of the Initial Reference Value of the relevant Underlying in relation to each Early Redemption Valuation Period (the "**Early Redemption Level**").

CASH SETTLEMENT AMOUNT

The Securityholder will receive on the Settlement Date, if an Early Redemption Event has not occurred, for each Minimum Exercise Amount, the payment of the Cash Settlement Amount (if positive) determined as follows.

STANDARD LONG CERTIFICATES

CALCULATION METHOD IN THE CASE OF POSITIVE AND NEGATIVE PERFORMANCE OF THE UNDERLYING (BARRIER EVENT NOT OCCURRED)

The investor will receive an amount linked to a percentage of the Initial Reference Value of the Worst Of Underlying, equal to 100% (the "**Initial Percentage**").

CALCULATION METHOD IN THE CASE OF NEGATIVE PERFORMANCE OF THE UNDERLYING – (BARRIER EVENT OCCURRED)

The Barrier Event will occur if on the Valuation Date, the Final Reference Value is lower than the Barrier Level of the Worst Of Underlying. The Barrier Level is equal to 55% of the Initial Reference Value of the relevant Underlying (the "**Barrier Level**").

If a Barrier Event has occurred, the Cash Settlement Amount will be linked to the performance of the Worst Of Underlying (i.e. the investment in the Certificate is a direct investment in the Worst Of Underlying) and, therefore, will be exposed to the partial or total loss of the capital invested.

In relation to the Digital Amounts, the Memory Effect, the Early Redemption Amount and the Cash Settlement Amount, the following option applies:

Worst Of Feature

The Calculation Agent selects the Worst Of Underlying which is the underlying asset with the worst performance.

For the purposes of the above the following applies:

For the purposes of the determination of the Barrier Event the Reference Value will be the Final Reference Value.

For the purposes of the determination of the Digital Event, the Memory Effect and the Early Redemption Event, the Reference Value will be registered, respectively, on the relevant Digital Valuation Period, the relevant Memory Valuation Period and the relevant Early Redemption Valuation Period and is equal to the closing price of the Worst Of Underlying on such dates.

The Initial Reference Value will be registered in relation to each Share on 21 February 2025 (the "**Determination Date**") and is equal to the closing price of the relevant Underlying on such date.

The Final Reference Value will be registered on 22 February 2028 (the "**Valuation Date**") and is equal to the closing price of the Worst Of Underlying on such date.

The Underlyings are the Volkswagen AG share (ISIN Code: DE0007664039, Bloomberg Code: VOW3 GY <Equity>), the BNP Paribas SA share (ISIN Code: FR0000131104, Bloomberg Code: BNP FP <Equity>) and the Nike INC. share (ISIN Code: US6541061031, Bloomberg Code: NKE UN <Equity>) (the "**Underlyings**", each an "**Underlying**" or the "**Shares**" and each a "**Share**").

In respect of the Underlyings, certain historical information (including past performance thereof) may be found on major information providers, such as Bloomberg and Reuters. Information about the Volkswagen AG Share may be found on the website of the relevant issuer www.volkswagen-group.com. Seniority of the securities

The Certificates constitute direct, unsubordinated, unconditional and unsecured obligations of the Issuer and, unless provided otherwise by law, rank *pari passu* among themselves and (save for certain obligations required to be preferred by law) rank equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

Restrictions on the free transferability

The Securities will be freely transferable, subject to the offering and selling restrictions in the United States, the European Economic Area under the Prospectus Regulation and the laws of any jurisdiction in which the relevant Securities are offered or sold.

Where will the securities be traded?

Application has been made for the Securities to be admitted to trading on the Italian multilateral trading facility SeDeX, organised and managed by Borsa Italiana S.p.A., which is not a regulated market for the purposes of Directive 2014/65/EU as amended, with effect from the Issue Date or a date around the Issue Date.

After the Issue Date, application may be made to list the Securities on other stock exchanges or regulated markets or to admit to trading on other trading venues as the Issuer may decide.

What are the key risks that are specific to the securities?

The Certificates may not be a suitable investment for all investors

Certificates are complex financial instruments. A potential investor should not invest in Certificates which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Certificates will perform under changing conditions, the resulting effects on the value of the Certificates and the impact this investment will have on the potential investor's overall investment portfolio.

General risks and risks relating to the Underlyings

The Securities involve a high degree of risk, which may include, among others, interest rate, foreign exchange, time value and political risks. Purchasers

should be prepared to sustain a partial or total loss of the purchase price of their Securities. Fluctuations in the value of the relevant Underlying will affect the value of the Securities. Purchasers of Securities risk losing their entire investment or part of it if the value of the relevant underlying basis of reference does not move in the anticipated direction.

Loss risk in relation to the investment

The investor shall consider that, in relation to its investment, there is a risk of loss of the capital invested depending on the performance of the underlying asset. In particular, in the event a Barrier Event has occurred, a loss will occur in respect of the capital invested. If the Final Reference Value of the underlying asset is equal to zero, the investor will suffer a total loss of the capital. Moreover, if prior to the exercise the investor decides to terminate the investment in the Certificates, the investor might be subject to the loss of the value of the Certificate and, therefore, might be subject to the total or partial loss of the investment.

Risk related to the Barrier Event

If a Barrier Event occurs, the Cash Settlement Amount will be determined in accordance with a calculation method other than the calculation method applicable if the Barrier Event does not occur and such circumstance may have a negative influence on the price. This may entail the risk of partial or total loss of the investment.

Risk related to the Digital Level

In relation to the Certificates, the Issuer has set, at its own discretion, the Digital Level. The higher the Digital Level is set in respect of the Initial Reference Value, the greater the possibility that the Digital Event will not occur and therefore that the relevant Digital Amount will not be paid.

Risk related to the occurrence of an Early Redemption Event

If an Early Redemption Event occurs, the Certificates will be redeemed earlier than the Exercise Date (and therefore terminated). In such case, the Securityholders will receive the Early Redemption Amount on the relevant Early Payment Date and no other amounts will be paid. The Early Redemption Amount is an amount predetermined by the Issuer which will not depend on the value of the relevant underlying asset and, therefore, the potential positive performance of such underlying asset will not be considered. In addition, in the event that the relevant underlying asset is registering a positive performance when an Early Redemption Event occurs, investors should consider that it may not be possible to reinvest in such underlying asset at the same conditions applied to the initial investment made in the Certificates.

Possible illiquidity of the Securities in the secondary market

It is not possible to predict the price at which Securities will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer, or any of its Affiliates may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private treaty. Any Securities so purchased may be held or resold or surrendered for cancellation. The Issuer or any of its Affiliates may, but is not obliged to, be a market-maker for an issue of Securities. Even if the Issuer or such other entity is a market-maker for an issue of Securities, the secondary market for such Securities may be limited. To the extent that an issue of Securities becomes illiquid, an investor may have to wait until the Exercise Date to realise value.

Section 4 – Key information on the offer of securities to the public

Under which conditions and timetable can I invest in this security?

Not applicable - the Securities are not being offered to the public as part of a public offer.

Who is the offeror?
