

**PROHIBITION OF SALES TO UK RETAIL INVESTORS** – The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“UK”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“EUWA”); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the “FSMA”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the Securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

**MIFID II product governance / Retail investors, professional investors and ECPs target market** – Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Securities has led to the conclusion that: (i) the target market for the Securities is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, “MiFID II”); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate, except for pure execution services for the latter; and (iii) the following channels for distribution of the Securities to retail clients are appropriate - investment advice, and portfolio management on primary and secondary markets and execution with appropriateness on the secondary market (no distribution via execution only), subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Securities (a “distributor”) should take into consideration the manufacturer’s target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels, subject to the distributor’s suitability and appropriateness obligations under MiFID II, as applicable

### What are the key risks that are specific to the Issuer?

The Issuer and Mediobanca Group is subject to the following key risks:

- The operations, earnings capacity and the stability of the sector of both the Issuer and the Mediobanca Group may be influenced by its credit standing, the general economic situation of Italy and the entire Eurozone, trends on financial markets and the economic, social and financial consequences generated by the Russia/Ukraine conflict and the tensions in the Middle East due to the rekindling of the conflict between Israel and Hamas. With reference to financial markets, the solidity, resilience and growth prospects of the economies of the countries in which the Issuer operates in particular will be especially important. The macroeconomic scenario currently reflects significant areas of uncertainty in relation to: (a) the Russian-Ukrainian conflict; (b) the conflict between Israel and Hamas; (c) the structural reforms being undergone by China and (d) the possible joint actions by the main rating agencies. In relation to point (a) above, persistence of uncertainties linked to the Russian-Ukrainian conflict continue to generate strong tensions on the energy and commodities markets. With reference to point (a), because of the persistence of the conflict, the Russian government is adopting countermeasures to the sanctions imposed by the EU which consist of economic and financial measures which in particular allows Russian residents and the entities controlled by them to charge their own income from investments in securities to parties resident in other countries not subject to the same restrictions. The amounts thus charged impact on the earnings of both the Issuers and the Group. With reference to point (b), the tensions generated by the conflict between Israel and Hamas are changing continuously; the worsening of the conflict, and the escalation throughout the entire Middle Eastern region, which could lead to conflict on a wider scale, would have negative consequences for the whole Western market, and therefore also on Mediobanca's earnings situation. With reference to point (c), the geopolitical tensions between the Western bloc of countries and China seem to have stabilized over the second half of the last financial year. However, further structural reforms imposed by the Chinese government could give rise to macroeconomic and market consequences, due to the impact on the trend in the demand for exports, which in turn would affect both inflation and the Issuers' and the Group's own growth prospects. In relation to point (d) above, any joint actions by the main rating agencies which result in an assessment of the creditworthiness of the Republic of Italy below the level of investment grade, may have a negative impact on the income statement, balance sheet and financial position of Mediobanca and/or the Group. Accordingly, as at the date of the first supplement to Base Prospectus (28 November 2024), the deterioration or continuation of the conflict, and the further tensions between the Western world and China, coupled with the possibility of combined actions by the rating agencies, risks creating negative repercussions on the earnings, capital and financial situation of the Issuer and/or of the Group.
- the business activities of both Mediobanca and the Group and their earnings and financial solidity depend also on the credit standing of

their respective clients and counterparties. Mediobanca is exposed to the risks traditionally associated with credit activity. Accordingly, breach by its customers of contracts entered into and their own obligations, or the possible failure to provide information or the provisions of incorrect information by them regarding their respective financial and credit situation, could impact negatively on the earnings, capital and/or financial situation of Mediobanca;

- as at the date of the first supplement to Base Prospectus (28 November 2024), the Issuers' capability to implement the actions and to meet the targets to be reached (the "Plan Objectives") contained in its 2023-26 Strategic Plan depends on a number of circumstances, some of which are beyond the Issuer's control, including, but not limited to, the macroeconomic scenario, which could be compromised by the consequences deriving from the Russia/Ukraine conflict and from tensions in the Middle East, the changes in the regulatory framework, and the effects of specific actions or concerning future events which the Issuers are only partially able to influence. Furthermore, there is no certainty that the actions provided for in the Strategic Plan will result in the benefits expected from implementation of the Plan Objectives; if such benefits fail to materialize, the results expected by the Mediobanca may differ, even materially, from those envisaged in the Strategic Plan;
- the Issuer is subject to market risk, defined as the risk of the loss of value of the financial instruments, including sovereign debt securities, held by the Issuer as a result of movements in market variables (including, but not limited, interest rates, stock market prices and/or exchange rates) or other factors that could trigger a deterioration in the capital solidity of the Issuer and/or the Group. In the past fiscal year, market fluctuations were mainly driven by interest rates and monetary policy expectations. In particular, volatility on the stock markets remained high in the first four months of the financial year: the main stock indexes showed fluctuations in returns ranging between +6% and -6% due to uncertainty of the macroeconomic and geopolitical context, the upside pressures on oil prices, caused by lower supply from producing countries (primarily Saudi Arabia and Russia) and tensions in the Middle East due to the rekindling of the conflict between Israel and Hamas. Since November 2023, there has been a general decline in interest rates and the stock market has followed a general upward trend due to the less aggressive than expected behaviour of monetary policy authorities. Finally, in June 2024 there was a partial recovery of volatility generated by the outcome of the European elections of 8 and 9 June 2024 and the subsequent elections of the French Parliament.
- the Group is exposed to different types of operational risk. The event types most impacted by operational risk are originated by products sold to clients, commercial practices, the execution of operating processes, and frauds committed from outside the Group. Although the Mediobanca Group has adopted a system for recording, assessing and monitoring operational risks with a view to preventing and containing them, it should be noted that unpredictable events or events otherwise beyond the control of the Issuer could occur, which could impact negatively on the Issuer's and the Group's operating results, activities and earnings, capital and/or financial situation, as well as on their reputation.

**Payments in respect of Securities in global form:** All payments in respect of Securities represented by a Global Security will be made against presentation for endorsement and, if no further payment falls to be made in respect of the Securities, surrender of that Global Security to or to the order of the Fiscal Agent or such other Paying Agent as shall have been notified to the Securityholders for such purpose. A record of each payment so made will be endorsed on each Global Security, which endorsement will be prima facie evidence that such payment has been made in respect of the Securities.

**Payments in respect of Securities in definitive form:** All payments in respect of the Securities in definitive form shall be made against presentation and surrender of the relevant Securities at the specified office of any Paying Agent outside the United States by a cheque payable in the currency in which such payment is due drawn on, or, at the option of the holder, by transfer to an account denominated in that currency with a bank in the principal financial centre of that currency; provided that in the case of Euro, the transfer may be to a Euro account.

**Illegality and force majeure:** If the Issuer determines that the performance of its obligations under the Securities or that any arrangements made to hedge the Issuer's obligations under the Securities have become (i) illegal in whole or in part for any reason, or (ii) by reason of a force majeure event (such as an act of God, fire, flood, severe weather conditions, or a labour dispute or shortage) or an act of state, impossible or impracticable the relevant Issuer may settle the Securities by giving notice to Security holders.

**Further issues and consolidation:** The Issuer may from time to time without the consent of the Securityholders create and issue further Securities so as to be consolidated with and form a single series with the outstanding Securities.

**Substitution:** Subject to the fulfilment of certain conditions, Mediobanca may at any time (subject to certain conditions as provided in the Terms and Conditions) without the consent of the Securityholders, substitute Mediobanca International, or any other third party entity as Issuer in place of Mediobanca.

**Seniority of the Securities:** The Securities are issued by the relevant Issuer on an unsubordinated basis. The Securities will constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and will rank pari passu among themselves and (save for certain obligations required to be preferred by law and subject to the application of the bail-in legislation applicable to the Issuer) equally with all other unsecured obligations other than unsubordinated obligations, if any, of the Issuer from time to time outstanding. Each holder of the Securities acknowledges, accepts, consents and agrees, by its acquisition of the Securities, to be bound by the exercise of, any bail-in power by the relevant resolution authority in respect of the Securities. Any exercise of such bail-in power or other action taken by a resolution authority in respect of the Issuer could materially adversely affect the value of and return on the Securities.

**Any restrictions on the free transferability of the Securities:** there are restrictions on sales of the Securities into, amongst other jurisdictions, the United States, the European Economic Area (including Italy), the United Kingdom and Japan.

#### Where will the Securities be traded?

Application has been made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the multilateral trading facility of EuroTLX which is not a regulated market for the purpose of Directive 2014/65/EU with effect from or around the Issue Date.

The Issuer reserves the right to make further applications for the Securities to be admitted to listing and/or trading on additional markets/trading venues.

Mediobanca - Banca di Credito Finanziario S.p.A. will act as Liquidity Provider with reference to the Securities traded on EuroTLX.

#### What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

##### General

- The Securities may not be a suitable investment for all investors. Investors should be aware that they may lose the value of their entire investment or part of it, as the case may be. An investment in the Securities, which are linked to the Underlying References, may entail significant risks not associated with investments in conventional securities such as debt or equity securities. Set out below is a description of the most common risks.

##### Risks related to the structure of a specific issue of Securities

- The Securities involve a high degree of risk, which may include, among others, interest rate, foreign exchange, time value and political risks. Investors should be prepared to sustain a partial or total loss of the subscription or purchase price of the Securities. Certain general risk factors related to the Securities referencing an Underlying Reference, including that the market price of the Securities may be volatile; that investors may receive no remuneration; that investors may lose all or a substantial portion of their principal in case of non-capital guaranteed Securities; that the Underlying References may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other securities or indices; that the timing of changes in an Underlying Reference may affect the actual yield to investors, even if the average level is consistent with their expectations; and Securities are of limited maturity and, unlike direct investments in a share, investors are not able to hold Securities beyond the Settlement Date in the expectation of a recovery in the price of the underlying.
- The Issuer may, but is not obliged to, list or ask for admission to trading of Securities on a stock exchange or a trading venue. If the Securities are listed or admitted to trading on any stock exchange or trading venue, there can be no assurance that at a later date, the Securities will not be delisted or that trading on such stock exchange or trading venue will not be suspended. The Issuer or any of its Affiliates may, but is not obliged to, be a market-maker for an issue of Securities. However, during certain periods, it may be difficult, impractical or impossible for the entity acting as market-maker to quote bid and offer prices. Even if the relevant Issuer or such other entity is a market-maker for an issue of Securities, the secondary market for such Securities may be limited.
- The occurrence of an Administrator/Benchmark Event may lead to early settlement or adjustment of the Securities, which may include selecting one or more successor benchmarks and making related adjustments to the Securities, including, if applicable to reflect

increased costs. An Administrator/Benchmark Event may arise if any of the following circumstances occurs or will occur: (1) a benchmark is materially changed or permanently cancelled, or (2) (i) the relevant authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the benchmark or the administrator or sponsor of the benchmark is not obtained, (ii) an application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is rejected or (iii) any authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or inclusion in any official register is withdrawn.

- The Terms and Conditions of the Securities are based on English law in effect as at the date of the Base Prospectus, except for the status provisions applicable to the Securities and the contractual recognition of bail-in powers provisions, and any non-contractual obligations arising out of or in connection with such provisions, which shall be governed by, and construed in accordance with, Italian law. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of the Base Prospectus.

#### **Considerations Associated with specific types of Securities**

- Risks associated with Multiple Final Payout – 1-Way Cap Securities: Investors may be exposed to a partial loss of their investment. The return on the Securities depends on the performance of the Underlying Reference(s) and the application of participation factor, gearing, cap and floor features.

#### **Risks relating to Underlying Reference Asset(s)**

- In addition, there are specific risks in relation to Securities which are linked to an Underlying Reference (including Hybrid Securities) and an investment in such Securities will entail significant risks not associated with an investment in a conventional debt security. Risk factors in relation to Underlying Reference linked Securities include exposure to one or more shares, similar market risks to a direct equity investment, global depositary receipt ("GDR") or American depositary receipt ("ADR"), potential adjustment events or extraordinary events affecting shares and market disruption or failure to open of an exchange which may have an adverse effect on the value and liquidity of the Securities.
- The occurrence of an additional disruption event or optional additional disruption event may lead to an adjustment to the Securities early settlement or may result in the amount payable on scheduled settlement being different from the amount expected to be paid at scheduled settlement and consequently the occurrence of an additional disruption event and/or optional additional disruption event may have an adverse effect on the value or liquidity of the Securities.

#### **Risks related to the market generally**

- The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities.
- Issue price of the Securities includes placement fees and structuring fees. The placement fees shall be paid by the Issuer to the Distributor. Any such fees may not be taken into account for the purposes of determining the price of such Securities on the secondary market and could result in a difference between the original issue price, the theoretical value of the Securities, and/or the actual bid/offer price quoted by any intermediary in the secondary market.

### **KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET**

**Terms and conditions of the offer:** Not applicable

The Global Securities will be delivered to the relevant clearing system no later than on the Issue Date.

#### **Estimated expenses or taxes charged to investor by issuer**

Not applicable - No expenses will be specifically charged to the investors who purchase Securities by the Issuer.

#### **Who is the offeror and/or the person asking for admission to trading?**

The Issuer is the entity requesting for the admission to trading of the Securities

#### **Why is the Prospectus being produced?**

**Use and estimated net amount of proceeds**

Not applicable

**Underwriting agreement on a firm commitment basis:** Not applicable

#### **Description of the most material conflicts of interest pertaining to the offer or the admission to trading**

The following constitute material interests with respect to the issue of Securities:

Mediobanca is the Issuer of the Securities and acts also as Calculation Agent and liquidity provider for the Securities. In its capacity as Calculation Agent, Mediobanca is responsible, among the others, for determining the Cash Settlement Amount. Mediobanca is required to carry out its duties as Calculation Agent in good faith and using its reasonable judgment.

Save as described above, so far as the Issuer is aware, no other person involved in the issue of the Securities has an interest material to the issue.
