Documentation:	<p>Final Terms to be produced in connection with this Term Sheet should be read together with the Base Prospectus. In the event of inconsistencies between this Term Sheet and the Final Terms, the Final Terms shall prevail. Capitalized terms used in this Term Sheet which are not defined shall have the meanings given to them in the Base Prospectus.</p> <p>The Base Prospectus (including any document incorporated par reference therein) shall be available for viewing on the website of Natixis (https://cib.natixis.com/home/pims/Prospectus#/prospectusPublic). Indicative Valuation:	Under normal market conditions, Natixis may provide a valuation of the Notes every Exchange Business Day until the redemption of the Notes.
Secondary Market:	<p>NATIXIS may provide an indicative price of the Notes to holders who so request. The spread between the purchase price and the sale price will not be greater than 1.00%.</p> <p>Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have an adverse effect on the market value of Notes.</p>
Particular Provisions:	See Condition 3 of the Terms and Conditions of Structured Notes of the Issuer's Base Prospectus.
Additional U.S. federal income tax considerations:	Not Applicable: the Notes are not Specified Notes (as defined in the Base Prospectus) for the purpose of Section 871(m) of the U.S. Internal Revenue Code of 1986.
Suitability Assessment:	<p>Investing in such product or entering into the transaction described here (where applicable) could lead to a significant risk level. This term sheet does not intend to identify all these risks (whether direct or indirect) nor any other factor you may consider relevant which could be associated to the product or transaction.</p> <p>Before investing in such product or entering into any transaction, potential investors or the transaction's counterparty (where such exists) shall make their own review independently and consult (where applicable) their own external financial advisors in order to assess (1) the specific risks associated to the product or transaction; (2) the legal, accounting fiscal and regulatory implications; (3) the suitability and appropriateness of the product or transaction to their investment objectives, financial situation or any other constraint.</p>

The product is incompatible for any client outside the positive target market identified above. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.</p>
