**Responsibility**

The Issuer accepts responsibility for the information contained in these Final Terms. To the best of the knowledge of the Issuer (who has taken all reasonable care to ensure that such is the case), the information contained herein is in accordance with the facts and does not omit anything likely to affect the import of such information.

## PART B – OTHER INFORMATION

### 1. Listing and Admission to trading

Listing and admission to trading: Application will be made for the Securities to be admitted to trading on the Multilateral Trading Facility EuroTLX (managed by Borsa Italiana S.p.A.). The Issuer is not a sponsor of, nor is it responsible for, the admission and trading of the Securities on the EuroTLX and no assurance can be given that any such application will be successful.

### 2. Ratings

Ratings: The Securities have not been rated.

The long-term credit rating of the Issuer is A+ from S&P Global Ratings Europe Limited ("Standard & Poor's").

The long-term credit rating of the Guarantor is A1 from Moody's and A+ from Standard & Poor's.

As defined by Moody's, an "A" rating means that the obligations of the Issuer and the Guarantor under the Programme are judged to be upper-medium grade and are subject to low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aaa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category.

As defined by Standard & Poor's, an obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the relevant Issuer and Guarantor's capacity to meet its financial commitment on the obligation is still strong. The addition of a plus (+) or minus (-) sign shows relative standing within the rating category.

Standard & Poor's is established in the European Union and is registered under Regulation (EC) No. 1060/2009 (as amended) (the "CRA Regulation"). Moody's is not established in the European Union and has not applied for registration under the CRA Regulation. The ratings issued by Moody's have been endorsed by Moody's France SAS in accordance with the CRA Regulation. Moody's France SAS is established in the European Union and registered under the CRA Regulation.

### 3. Interests of Natural and Legal Persons Involved in the Issue

Save as discussed in the "*Potential Conflicts of Interest*" paragraph in the "*Risks*" section in the Base Prospectus, so far as the Issuer is aware, no person involved in the offer of the Securities has an interest material to the offer.

Investors should be informed of the fact that the Distributor will receive from the Issuer placement fees implicit in the Issue Price of the Securities equal to a maximum amount of 2.50% of the Notional Amount per Security. All placement fees will be paid out upfront.

Moreover, investors shall be aware that implicit in the Issue Price of the Certificates are structuring costs equal to an estimated amount of 2.21% of the Notional Amount per Security.

#### **4. Reasons for the Offer, Estimated Net Proceeds and Total Expenses**

(a) Reasons for the offer: See "*Use of Proceeds*" in Base Prospectus

(b) Estimated net proceeds: Up to EUR 50,000,000

A small portion of the net proceeds from the issue of the Securities will be allocated to finance the scientific research of FONDAZIONE TELETHON ETS. The remaining balance of the net proceeds will become part of the general funds of the Issuer and may be used to maintain positions in options or futures contracts or other hedging instruments.

(c) Estimated total expenses: Not applicable

### **What are the key risks that are specific to the securities?**

#### **Most material risk factors specific to the securities**

There are also risks associated with the Securities, including:

**1. Risks related to the structure of the securities:**

The return on the Securities depends on the performance of the Underlying Reference(s).

**2. Risks related to disruption and adjustments:**

Index Securities are linked to the performance of an underlying index (an "Index"), which may reference various asset classes such as, equities, bonds, currency exchange rates or property price data, or could reference a mixture of asset classes. Investors in Index Securities face the risk of a broader set of circumstances that mean that the assets underlying the Index do not perform as expected compared to an investment in conventional debt securities. Accordingly, the return on an investment in Index Securities is more likely to be adversely affected than an investment in conventional debt securities. Exposure to indices, adjustment events and market disruption or failure to open of an exchange may have an adverse effect on the value and liquidity of the Securities.

**3. Risks related to the trading markets of the securities:**

The trading price of the Securities may be affected by a number of factors including, but not limited to, the performance of the Underlying and the time remaining until the scheduled redemption date of the Securities. The possibility that the value and trading price of the Securities will fluctuate (either positively or negatively) depends on a number of factors, which investors should consider carefully before purchasing or selling Securities.

**4. Legal risks:**

The terms of the Securities will contain provisions for calling meetings of holders of such Securities to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

#### Fattori di rischio più significativi relativi del garante

1. Un sostanziale aumento di nuovi accantonamenti o un incremento del livello degli accantonamenti precedentemente previsti esposti al rischio di credito e al rischio di controparte potrebbero influire negativamente sui risultati delle operazioni e delle condizioni finanziarie del Gruppo BNPP.

3. Il Gruppo BNPP potrebbe subire perdite importanti nelle sue attività di negoziazione e investimento a causa di oscillazioni e della volatilità di mercato.
4. La capacità di finanziamento e il costo dello stesso per il Gruppo BNPP potrebbero essere influenzati negativamente da una ripresa della crisi finanziaria, dal peggioramento delle condizioni economiche, dal declassamento del rating, dall'aumento degli spread del credito sovrano o da altri fattori.

<b>Quali sono i principali rischi specifici dei titoli?</b>
<b>Fattori di rischio più significativi specifici dei titoli</b>

Esistono anche rischi relativi ai Titoli, compresi:

**1. Rischio relativo alla struttura dei Titoli:**

Il rendimento dei Titoli dipende dall'andamento del/i Sottostante/i di Riferimento. **2. Rischio relativo al Sottostante e a eventi di turbativa e rettifica:**

I Titoli legati a Indici sono collegati all'andamento di un indice sottostante (di seguito denominato un "Indice"), che può riferirsi a vari mercati di riferimento quali il mercato azionario, obbligazionario, dei tassi di cambio o del prezzo degli immobili, oppure possono riferirsi a una combinazione di mercati di riferimento. Gli investitori in Titoli legati a Indici affrontano il rischio di una serie più ampia di circostanze: le attività sottostanti all'Indice potrebbero quindi presentare un andamento diverso dal previsto rispetto a un investimento in titoli di debito convenzionali. Di conseguenza, è più probabile che il rendimento di un investimento in titoli indicizzati sia influenzato negativamente rispetto a un investimento in titoli di debito convenzionali.

Eventi di rettifica e di turbativa sul mercato o la mancata apertura del mercato di riferimento potrebbero avere un effetto negativo sul prezzo e la liquidità dei Titoli.

**3. Rischi relativi ai mercati di negoziazione dei Titoli:**

Il prezzo di negoziazione dei Titoli può essere influenzato da una serie di fattori tra cui, a titolo esemplificativo ma non esaustivo, il prezzo, il valore o il livello del/i Sottostante/i di Riferimento, il tempo rimanente fino alla data di liquidazione/rimborso dei Titoli, la volatilità implicita o realizzata associata al/i Sottostante/i di Riferimento e al rischio di correlazione del/i Sottostante/i di Riferimento. La possibilità che il prezzo di negoziazione dei Titoli fluttui (positivamente o negativamente) dipende da una serie di fattori che gli investitori dovranno considerare attentamente prima di acquistare o vendere i Titoli.

**4. Rischi legali**

Le condizioni dei Titoli contengono disposizioni per la convocazione di assemblee dei Portatori di tali Titoli per valutare questioni che riguardano i loro interessi. Tali disposizioni consentono a maggioranze predefinite di vincolare tutti i Portatori, inclusi i Portatori che non hanno partecipato o votato all'assemblea in questione e i Portatori che hanno votato in modo contrario rispetto alla maggioranza.
