OTHER INFORMATION

1. **LISTING AND ADMISSION TO TRADING**

In respect of each Series, application has been made by the Issuer (or on its behalf) for the admission to trading of the Certificates of such Series on the SeDeX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A. The admission to trading of the Certificates is expected to be on or around the Issue Date.

No assurances can be given that such application for admission to trading will be granted (or, if granted, will be granted on the Issue Date).

The Issuer has no duty to maintain the listing (if any) of the Certificates on the relevant stock exchange(s) over their entire lifetime. The Certificates of such Series may be suspended from trading and/or de-listed at any time in accordance with applicable rules and regulations of the relevant stock exchange(s).
2. **ESTIMATED TOTAL EXPENSES RELATED TO THE ADMISSION OF TRADING**

Not Applicable.

10. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

Not Applicable.

EXAMPLES

THE EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY.

For the purposes of each Example:

- (i) in respect of each Series, the Issue Price is EUR 100 per Certificate and the Calculation Amount is EUR 100;
- (ii) in respect of each Series and each Underlying Asset for such Series, the Asset Initial Price is its Initial Closing Price;
- (iii) in respect of each Series and each Underlying Asset for such Series, the Autocall Level is 100% of the Asset Initial Price of such Underlying Asset;
- (iv) in respect of each Series and each Underlying Asset for such Series, the Barrier Level is 50% of the Asset Initial Price of such Underlying Asset;
- (v) in respect of each Series, the Autocall Event Amount is EUR 100; and
- (vi) in respect of each Series, the Redemption Percentage is 100%.

For the purposes of these Examples only, the Interest Rate is deemed to be 0.50% and the Fixed Coupon Amount is deemed to be EUR 0.50.

The actual Interest Rate and Fixed Coupon Amount in respect of each Series is specified in the table set out in "Specific Provisions for each Series". Therefore, the actual Interest Rate and Fixed Coupon Amount in respect of each Series may be lower or higher than the deemed value used for the purposes of these Examples, the actual amounts received by investors may be less than the amounts stated in the Examples.

The below examples are presented for illustrative purposes only and are intended to provide information on how the return on your investment will be calculated depending upon the hypothetical performance of the Underlying Assets under a variety of scenarios. Amounts payable under the Securities will be determined in accordance with the terms and conditions of the Securities as set out above in the Contractual Terms section of these Final Terms and in the applicable conditions set forth in the Base Prospectus as supplemented. The below examples are not exhaustive of all possible scenarios.

FIXED COUPON AMOUNT

Unless previously exercised early, or purchased and cancelled, the Fixed Coupon Amount will be payable on each Interest Payment Date, and such Fixed Coupon Amount will be an amount in EUR equal to the product of (i) the Calculation Amount, multiplied by (ii) 0.0050, i.e., EUR 0.50.

AUTOMATIC EARLY EXERCISE

Example 1 – Automatic Early Exercise: The Reference Price of each Underlying Asset for the Valuation Date scheduled to fall on December 11, 2026 is greater than or equal to its respective Autocall Level.

In this Example, the Certificates will be automatically exercised on such Valuation Date, and the Automatic Early Exercise Amount payable per Certificate on the Automatic Early Exercise Date immediately following such Valuation Date will be an amount in the Settlement Currency equal to the Autocall Event Amount, i.e., EUR 100.

Example 2 – no Automatic Early Exercise but Fixed Coupon Amount: The Reference Price of one Underlying Asset for the Valuation Date scheduled to fall on December 11, 2026 is less than its Autocall Level and the Reference Price of each other Underlying Asset for such Valuation Date is greater than or equal to its

Autocall Level.

In this Example, the Certificates will not be automatically exercised on such Valuation Date, and no Automatic Early Exercise Amount will be payable per Certificate on the Automatic Early Exercise Date immediately following such Valuation Date. A Fixed Coupon Amount per Certificate will be payable on the Interest Payment Date scheduled to fall immediately after such Valuation Date, as described above, and such Fixed Coupon Amount will be an amount in the Settlement Currency equal to EUR 0.50.

SETTLEMENT AMOUNT

Example 3 – neutral scenario and Fixed Coupon Amount: *The Certificates have not been exercised on an Applicable Date, and the Final Closing Price of each Underlying Asset is 50.00% or more of its respective Asset Initial Price.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable per Certificate on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Redemption Percentage, i.e., EUR 100. Additionally, a Fixed Coupon Amount per Certificate will be payable on the Interest Payment Date falling on or around the Maturity Date, as described above, and such Fixed Coupon Amount will be an amount in the Settlement Currency equal to EUR 0.50.

Example 4 – negative scenario and Fixed Coupon Amount: *The Certificates have not been automatically exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is 49.00% of its Asset Initial Price and the Final Closing Price of each other Underlying Asset is 50.00% or more of its respective Asset Initial Price.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable per Certificate on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the *quotient* of (a) the Final Closing Price of the Final Worst Performing Asset, *divided* by (b) 50% of the Initial Closing Price of the Final Worst Performing Asset, i.e., EUR 98. Additionally, a Fixed Coupon Amount per Certificate will be payable on the Interest Payment Date falling on or around the Maturity Date, as described above, and such Fixed Coupon Amount will be an amount in the Settlement Currency equal to EUR 0.50. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a partial loss of the amount invested in the Certificates (apart from the Fixed Coupon Amounts received prior to and on the Maturity Date).**

Example 5 – negative scenario and Fixed Coupon Amount: *The Certificates have not been automatically exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is 25.00% of its Asset Initial Price and the Final Closing Price of each other Underlying Asset is 50.00% or more of its respective Asset Initial Price.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable per Certificate on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the *quotient* of (a) the Final Closing Price of the Final Worst Performing Asset, *divided* by (b) 50% of the Initial Closing Price of the Final Worst Performing Asset, i.e., EUR 50. Additionally, a Fixed Coupon Amount per Certificate will be payable on the Interest Payment Date falling on or around the Maturity Date, as described above, and such Fixed Coupon Amount will be an amount in the Settlement Currency equal to EUR 0.50. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a substantial loss of the amount invested in the Certificates (apart from the Fixed Coupon Amounts received prior to and on the Maturity Date).**

Example 6 – negative scenario and Fixed Coupon Amount: *The Certificates have not been automatically exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is 0.00% of its Asset Initial Price and the Final Closing Price of each other Underlying Asset is 50.00% or more of its respective Asset Initial Price.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable per Certificate on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the *quotient* of (a) the Final Closing Price of the Final Worst Performing Asset, *divided* by (b) 50% of the Initial Closing Price of the Final Worst Performing Asset, i.e., zero. A Fixed Coupon Amount per Certificate (of the Calculation Amount) will be payable on the Interest Payment Date falling on or around the Maturity Date, as described above, and such Fixed Coupon Amount will be an amount in the Settlement Currency equal to EUR 0.50. **In this Example, an investor will sustain a total loss of the amount invested in the Certificates (apart from the Fixed Coupon Amounts received prior to and on the Maturity Date).**

ISSUE-SPECIFIC SUMMARY OF THE SECURITIES

INTRODUCTION AND WARNINGS
<p>This summary (the "Summary") should be read as an introduction to the prospectus (the "Prospectus") (comprised of the base prospectus dated December 18, 2025 (the "Base Prospectus") as supplemented by any supplements (if any) up to, and including, the date of these final terms, read together with the final terms). Any decision to invest in the Securities should be based on a consideration of the Prospectus as a whole by the investor. In certain circumstances, the investor could lose all or part of the invested capital. This Summary only provides key information in order for an investor to understand the essential nature and the principal risks of the Issuer and the Securities, and does not describe all the rights attaching to the Securities (and may not set out specific dates of valuation and potential payments or the adjustments to such dates) that are set out in the Prospectus as a whole. Where a claim relating to the information contained in the Prospectus is brought before a court, the plaintiff investor might, under the national law, have to bear the costs of translating the Prospectus before the legal proceedings are initiated. Civil liability attaches only to those persons who have tabled this Summary including any translation thereof, but only where this Summary is misleading, inaccurate or inconsistent, when read together with the other parts of the Prospectus or where it does not provide, when read together with the other parts of the Prospectus, key information in order to aid investors when considering whether to invest in the Securities.</p> <p>You are about to purchase a product that is not simple and may be difficult to understand.</p>

Qualifications in audit report on historical financial information:

Not applicable; there are no qualifications in the audit report of GSI on its historical financial information.

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The payment of any amount due on the Securities is subject to the credit risk of the Issuer. The Securities are the Issuer's unsecured obligations. Investors are dependent on the Issuer's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness. The Securities are not bank deposits, and they are not insured or guaranteed by any compensation or deposit protection scheme. The value of and return on the Securities will be subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness.
- GSG and its consolidated subsidiaries ("**Goldman Sachs**") is a leading global investment banking, securities and investment management group and faces a variety of significant risks which may affect the Issuer's ability to fulfil its obligations under the Securities, including market risks, liquidity risks, credit risks, operational risks, legal and regulatory risks, competition risks and market developments and general business environment risks.
- GSI is a wholly-owned subsidiary of the Goldman Sachs group and a key banking subsidiary of the Goldman Sachs group. As a result, it is subject to a variety of risks that are substantial and inherent in its businesses including risks relating to economic and market conditions, regulation, market volatility, liquidity, credit markets, concentration

¹ "Fees and commissions" are included within "non-interest income" and therefore are not included as a single line item.

² "Subordinated loans" are included within "total unsecured borrowings" and therefore are not included as a single line item.

of risk, credit quality, composition of client base, derivative transactions, operational infrastructure, cyber security, risk management, business initiatives, operating in multiple jurisdictions, conflicts of interest, competition, changes in underliers, personnel, negative publicity, legal liability, catastrophic events and climate change.

- GSI is subject to the Bank Recovery and Resolution Directive, which is intended to enable a range of actions to be taken by a resolution authority in relation to credit institutions and investment firms considered by the resolution authority to be at risk of failing and where such action is necessary in the public interest. The resolution powers available to the resolution authority include powers to (i) write down the amount owing, including to zero, or convert the Securities into other securities, including ordinary shares of the relevant institution (or a subsidiary) – the so-called "bail-in" tool; (ii) transfer all or part of the business of the relevant institution to a "bridge bank"; (iii) transfer impaired or problem assets to an asset management vehicle; and (iv) sell the relevant institution to a commercial purchaser. In addition, the resolution authority is empowered to modify contractual arrangements, suspend enforcement or termination rights that might otherwise be triggered. The resolution regime is designed to be triggered prior to insolvency, and holders of Securities may not be able to anticipate the exercise of any resolution power by the resolution authority. Further, holders of Securities would have very limited rights to challenge the exercise of powers by the resolution authority, even where such powers have resulted in the write down of the Securities or conversion of the Securities to equity.

KEY INFORMATION ON THE SECURITIES

What are the main features of the Securities?

Type and class of Securities being offered and security identification number(s):

The Securities are cash settled securities which are share-linked securities in the form of certificates.

The Securities will be cleared through Euroclear Bank SA/NV / Clearstream Banking S.A., and cleared indirectly through Monte Titoli S.p.A.

The issue date of the Securities is February 19, 2026 (the "**Issue Date**"). The issue price of the Securities is EUR 100 per Security (the "**Issue Price**").

In respect of each Series, the ISIN, Common Code and Valoren are each as specified in the table set out at the end of this Summary.

Currency, denomination, amount of Securities issued and term of the Securities: The currency of the Securities will be Euro ("**EUR**"). The calculation amount is EUR 100 (the "**Calculation Amount**"). In respect of each Series, the aggregate number of Certificates is 100,000.

Maturity Date: February 19, 2029. This is the date on which the Securities are scheduled to be redeemed, subject to adjustment in accordance with the terms and conditions and subject to an early redemption of the Securities.

Rights attached to the Securities:

The Securities will give each investor the right to receive a return, together with certain ancillary rights such as the right to receive notice of certain determinations and events. The return on the Securities will comprise (i) the potential payment of the Autocall Event Amount or the Settlement Amount, and which amount is paid and the quantum thereof will depend on the performance of the relevant Underlying Assets (being, in respect of each Series, such underlying asset specified in the column "Name of Underlying Asset(s) or Share(s)" in the row corresponding to such Series in the table set out at the end of this Summary) and (ii) the payment of the Fixed Coupon Amount(s).

Adjustments to Valuation and Payment Dates: Dates on which the Underlying Assets are scheduled to be valued or on which payments are scheduled to be made may be subject to adjustment for non-underlying trading days, disruptions, non-business days or for other reasons in accordance with the conditions of the Securities.

Fixed Coupon Amount: unless previously exercised early, or purchased and cancelled, a Fixed Coupon Amount in respect of each Security will be payable on each Interest Payment Date, calculated in accordance with the following formula:

Autocall Event Amount: on an Autocall Observation Date, if the Reference Price of each Underlying Asset is greater than or equal to its respective Autocall Level in respect of such Autocall Observation Date, then the Securities will be automatically exercised early on such Autocall Observation Date, and the Autocall Event Amount shall be payable in respect of each Security on the Autocall Payment Date immediately following such Autocall Observation Date.

Settlement Amount: unless previously exercised early, or purchased and cancelled, the Settlement Amount in EUR payable in respect of each Security on the Maturity Date will be:

- if the Final Closing Price of each Underlying Asset is greater than or equal to its respective Barrier Level, an amount calculated in accordance with the formula below:

$$CA \times \text{Redemption Percentage}; \text{ or}$$

- if the Final Closing Price of any Underlying Asset is less than its Barrier Level, an amount calculated in accordance with the formula below:

$$CA \times \frac{\text{Final Reference Value}}{\text{Initial Reference Value}}$$

Non-scheduled Early Repayment Amount: The Securities may be redeemed prior to the scheduled maturity: (i) at the Issuer's option (a) if the Issuer determines a change in applicable law has the effect that performance by the Issuer or its affiliates under the Securities or hedging transactions relating to the Securities has become (or there is a substantial likelihood in the immediate future that it will become) unlawful or impracticable (in whole or in part), or (b) where applicable, if the calculation agent determines that certain additional disruption events or adjustment events as provided in the terms and conditions of the Securities have occurred; or (ii) upon notice by a holder of the Securities declaring such Securities to be immediately repayable due to the occurrence of an event of default which is continuing.

The Non-scheduled Early Repayment Amount payable on such unscheduled early redemption shall be, for each Security, an amount representing the fair market value of the Security taking into account all relevant factors less all costs incurred by the Issuer or any of its affiliates in connection with such early redemption, including those related to unwinding of any underlying and/or related hedging arrangement. **The Non-scheduled Early Repayment Amount may be less than your initial investment and therefore you may lose some or all of your investment on an unscheduled early redemption.**

Governing law: The Securities are governed by English law.

Status of the Securities:

The Securities are unsubordinated and unsecured obligations of the Issuer and will rank equally among themselves and with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

The taking of any action by a resolution authority under the Bank Recovery and Resolution Directive, in relation to the Issuer could materially affect the value of, or any repayments linked to, the Securities, and/or risk a conversion into equity of the Securities.

Description of restrictions on free transferability of the Securities: The Securities have not been and will not be

registered under the U.S. Securities Act of 1933 (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances that will result in compliance with any applicable laws and regulations. Subject to the above, the Securities will be freely transferable.

Where will the Securities be traded?

The Securities will not be admitted to trading on any regulated market. Application has been made to admit the Securities to trading on the SeDeX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A.

What are the key risks that are specific to the Securities?

Risk factors associated with the Securities: The Securities are subject to the following key risks:

- The value and quoted price of your Securities (if any) at any time will reflect many factors and cannot be predicted. Depending on the performance of the Underlying Asset(s), you may lose some or all of your investment.
- The market price of your Securities prior to maturity may be significantly lower than the purchase price you pay for them. Consequently, if you sell your Securities before the stated scheduled redemption date, you may receive far less than your original invested amount.
- Your Securities may be redeemed in certain extraordinary circumstances set out in the conditions of the Securities prior to scheduled maturity and, in such case, the early redemption amount paid to you may be less than the amount you paid for the Securities and might be zero.

Risks relating to certain features of the Securities:

- The terms and conditions of your Securities provide that the Securities are subject to a cap, so your ability to participate in any change in the value of the Underlying Asset(s) over the term of the Securities will be limited, no matter how much the price of the Underlying Asset(s) may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Asset(s) directly.
- The terms and conditions of your Securities provide that the return on the Securities depends on the 'worst-of' performance of the basket of Underlying Assets, you will be exposed to the performance of each Underlying Asset and, in particular, to the Underlying Asset which has the worst performance. This means that, irrespective of how the other Underlying Assets perform, if any one or more Underlying Assets fails to meet a relevant threshold or barrier for the payment of interest or the calculation of any redemption amount, you may receive no interest payments and/or could lose some or all of your initial investment.

Risks relating to the Underlying Assets:

- *The value of and return on your Securities depends on the performance of the Underlying Asset(s).* The return on your Securities may depend on the performance of one or more Underlying Asset(s). The price of the Underlying Asset(s) may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the price of an Underlying Asset, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.
- *Past performance of an Underlying Asset is not indicative of future performance.* You should not regard any information about the past performance of the Underlying Asset(s) as indicative of the range of, or trends in, fluctuations in the Underlying Asset(s) that may occur in the future. The Underlying Asset(s) may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.
- The performance of Shares is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as business risks faced by the issuers thereof. Any one or a combination of such factors could adversely affect the performance of the Underlying Asset(s) which, in turn, would have a negative effect on the value of and return on your Securities.

KEY INFORMATION ON THE OFFER OF THE SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this Security?

Terms and conditions of the offer:

An offer of the Securities may be made by the Authorised Offeror other than pursuant to Article 1(4) of the EU Prospectus Regulation in the Republic of Italy (the "**Public Offer Jurisdiction**") during the period commencing on (and including) the first day on which the Securities are traded on SeDeX and ending on (and including) the date on which the Authorised Offeror ceases to carry on active marketing activities in respect of the Securities in the Public Offer Jurisdiction, which

date is expected to fall on or around August 19, 2026. The Issuer will pay third parties to carry out advertising activities. The Securities will be offered at the market price which will be determined by the Authorised Offeror on a continuous basis in accordance with the market conditions then prevailing.

Securities may be purchased from any market intermediary approved and admitted to trading on the SeDeX by Borsa Italiana S.p.A., and purchase and settlement of the Certificates shall be in accordance with the usual rules of the SeDeX.

Estimated expenses charged to the investor by the Issuer/offeror: Not applicable. There are no estimated expenses charged to the investor by the Issuer.

Who is the offeror and/or the person asking for admission to trading?

See the item "Authorised Offeror(s)" above. The Issuer is the entity that requested for the admission to trading of the Securities on the SeDeX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A.

Why is the Prospectus being produced?

Reasons for the offer or for the admission to trading on a regulated market, estimated net amount of proceeds and use of proceeds: The net amount of proceeds of the offer will be used by the Issuer to provide additional funds for its operations and for other general corporate purposes (i.e., for making profit and/or hedging certain risks).

Underwriting agreement on a firm commitment basis: The offer of the Securities is not subject to an underwriting agreement on a firm commitment basis.

Material conflicts pertaining to the issue/offer: The Issuer is subject to a number of conflicts of interest between its own interests and those of holders of Securities, including: (a) in making certain calculations and determinations, there may be a difference of interest between the investors and the Issuer, (b) in the ordinary course of its business the Issuer (or an affiliate) may effect transactions for its own account, may act as a member of a market determination committee and may enter into hedging transactions with respect to the Securities or the related derivatives, which may affect the market price, liquidity or value of the Securities, and (c) the Issuer (or an affiliate) may have confidential information in relation to the Underlying Asset(s) or any derivative instruments referencing them, but which the Issuer is under no obligation (and may be subject to legal prohibition) to disclose.
